DOCTOR PIERCE'S

ALT. EXT. OR

Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD

In the wonderful medicine to which the afflicted are above invited for relief, the discoverer believes he has combined *in harmony* more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact, unfoundin the great variety of most obstinate diseases which it has been found to conquer, in the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Swelling, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel languid, weary, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver, or "Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving your the liver strengthened and healthy.

SOLD BY DRUGGISTS AT $1 PER BOTTLE.

Detectives of Europe and America,

BEING

A SELECTION OF CELEBRATED CASES

IN GREAT BRITAIN, FRANCE, GERMANY, ITALY, SPAIN, RUSSIA, POLAND, EGYPT AND AMERICA.

Illustrated with 40 Full Page Engravings.

850 PAGES OCTAVO.

It is a Revelation of Struggles and Triumphs of the most renowned Detectives on the Globe for the past Twenty-five years. It traces out the most noted Bank Robbers, Sceptic Thieves, Lottery Men, Counterfeit Money Dealers, Pick-pockets, Sharks, and Sewers of Adulteration upon the public. In this book are disclosed some of the most marked instances of diabolical vengeance, and deeplaid plans of villainy and intrigue ever recorded by pen or pencil, together with *the modes by which they were traced out,* and the rebounding actors duly punished. This is a capital opportunity for smart and energetic men and women. The book is meeting with astonishing success. Agents are averaging from 40 to 60 orders per week. To those who apply early, for a short time, extraordinary terms will be given and exclusive territory guaranteed. For terms address

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of these diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while summoning its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and efficacious remedy for the class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommended it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions, but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in thus risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from menstrual causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription works cures—**the marvel of the world.** This medicine I do not exhibit as a cure-all, but it admirably fulfills a **singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 500 pages, sent, postpaid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff Joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 23d, 1876."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We sell several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment. White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Foll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may have rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gars nor gripes, and is superior to any remedy in existence.

Dr. E. Dimoch, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. B. ROSE & Co., successors to Samuel Pitcher, M. D. (nov1

The 'Centaur Liniments'

have created a revolution in remedies for Rheumatism, Pains, Swellings, Pains, Burns, Scalds, Stings, &c. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, digests the food, regulates the bowels, gives mild quiet, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Opium, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria.) (nov1

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules, THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of clasp, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable root and herbs, and concentrate them into a minute granule, **scarcely larger than a mustard seed,** and be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in other quarters. From their comparatively trifling size, in comparison to their size, people who have not tried them are apt to suppose that they are as much or greater in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough, yet gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In expiation of the remedial powers of my Purgative Pellets ever so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Are does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

DR. QUAIN'S

MAGIC

CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

Is the ultima thule of Medical Discovery.

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are in every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 2½ years with Dyspepsia, and for the past three yes: Constipation and Inflammation of the Bowels have suffered all the pain I could endure and live. have been confined to my room for two years, and could not sleep nights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I have had. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.25.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875.

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 9th, and wrote you February 22d of their wonderful effect. I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I have little fear but I shall regain my flesh this summer, by the use of the Pills. I shal continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which I attribute to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking DR. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 10, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and the good they have done me, I feel bound to say giving them publicity, so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be brought of, but to no good. At times it would be so bad that he could not lift his hand to his head or do any work at all, especially in cold weather. A short time ago I advised him to get some of these Pills. He believed nothing but that time, as I gave him the last package I had of you, as I did not need them, and he has not been an free from the Rheumatic Complaint for years. No Rheumatism, no pain. Whatever he says of DR. QUAIN'S CONDITION PILLS, the best medicine in the world. There is nothing like them. I *know it,* for I have tried them, and they are all, yes, more than they are recommended to be. Give them a fair trial and you will say so. I write this because I know the goodness of them and wish others to know the same. Some may think I am telling a big story. I am. But remember I am not giving them half the praise they ought to have.

Yours with respect ED. F. PEVARE.

Wonderful Effect of Four Doses of Dr. Quain's Condition Pills upon Neuralgia of Twelve Years' Duration—Testimony of Rev. J. S. Patton.

DAINGERFIELD, MORRIS CO., TEXAS, NOV. 15, '75.

MR. THOMAS W. LANE—*Dear Sir:*—I have been afflicted for near twelve years with Neuralgia in the face and head. I tried I do not know how many physicians, and could only get partly relieved. I also tried many patent medicines with the same result. I have been confined to my room most all the time for eight or ten winters, and have been traveling and visiting medical springs, and I still suffered most intensely. The physicians pronounced my case the worst and most stubborn that they had had anything to do with. One told me I could never get well; they all advised me to go South and spend the winter, and thought that was the only chance for me, and I was trying to get ready to go to Florida, when through the kindness of Rev. H. M. Mathis, my attention was called to the advertisement of the Quain's Magic Condition Pills. I immediately sent to you for a package. I have taken four doses and I am almost free from pain. I believe the best seems to be that if your pills will cure me, they will cure anybody. I have five applications to send for the pills. Enclosed please find three dollars; send five packages to me and one to Mrs. Laura Sherrel, Sulphur Springs, Hunston county, Texas.

Yours truly, J. S. PATTON.

Liver Complaint, Nervousness, Dropsy and Headache.

LACONIA, N. H., Jan. 29, 1875.

THOS. W. LANE—*Sir:*—I have been troubled with Bad Blood, Liver Complaint, Nervousness, Dropsy and Headache. I have taken one package of DR. QUAIN'S CONDITION PILLS. They have done me more good than all the medicine I ever took; I have taken considerable medicine within the last five years. For the nerves I think there is nothing so good as those pills. I can recommend them to all who are similarly afflicted, they have done me so much good. I think they will recommend themselves wherever they go. I shall recommend those Pills to all who need them. Please send me two packages more, one for myself and one for a lady friend of mine. Many thanks to the inventor, agent and advertiser of those Pills.

MRS. P. L. ELLIOTT.

DR. QUAIN'S MAGIC CONDITION PILLS are put up only by the AMERICAN MEDICINE CO.' Manchester, N. H., THOMAS W. LANE, Agent.

PULMOCINE.

BUCHMAN'S PULMOCINE CORDIAL

CLEAR YOUR THROAT!

Relieve Your Lungs.

For the terrible diseases engendered by the luxurious climate of New England;

PULMOCINE CORDIAL

Is a speedy and reliable Preventive and Remedy. Every Family should have a bottle at hand to check the sudden growth of all Pulmonary Diseases. For the Asthma, Coughs, Croups, Laryngitis, or Inflammation of the larynx, Diphtheria, and all kindred *Throat Diseases* at all times prevalent, it is the ounce of *Prevention.* Children attacked with Whooping Cough or Croup should be immediately cared for. These painful attacks come with scarcely a moment's warning, when a physician may be out of immediate each. A dose of PULMOCINE CORDIAL gives speedy relief, and the little ones are spared hours of pain and agony. As "a stitch in time saves nine," so does the possession of this *Family Medicine* prevent the spread of disease. Parents seeing their children gasping with pain, friends and relatives beholding each other in peril from suffocation by the choking pain in the throat, paralyzed with fear and nothknowing the best course to pursue, are liable to apply the wrong remedial agents. There is no safety in delay, no time to waste in such cases. CONSUMPTION, that fearful scourge of the human race, lies at the door of all thus afflicted. BUCHMAN'S PULMOCINE CORDIAL arrests it (unless in its advanced stage at which time there is no local cure) relieves the pressing, suffocating feeling at the lungs, and the patient's danger is past.

For Coughs,

Croup,

Diphtheria,

Asthma, etc.,

USE

Buchman's Pulmocine Cordial.

AND

The Pulmocine Cordial is not a quack medicine, is not an experiment, is not composed of any ingredients "discovered" by "walking in pastures" in South America or anywhere else, nor by one who discovered a weed and thereby cured himself. Most of the ingredients are such as our best educated physicians daily use for the complaints specified in some form or other. The recipe is that perfected by one of New England's most learned and famous physicians, who used it entirely in his daily practice until his death. Its offered to the profession and to the public, absolutely pure and unadulterated.

Secures Patents in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded at Washington. *No agency in the United States possesses superior or facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successfu* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you.

Yours truly, GEORGE DRAPER.

AMERICAN & FOREIGN PATENTS

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN HOWES & CO., Solicitors. Patents procured in all countries. NO FEES IN ADVANCE. No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a rehearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. SEND STAMP TO GILMORE & CO. FOR PAMPHLET OF SIXTY PAGES.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,500,000 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for these, and will purchase if better. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

OFFICERS, SOLDIERS and SAILORS of the late war or their heirs, are in many cases entitled to money from the government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All OFFICERS, SOLDIERS and SAILORS wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & CO.

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties as formerly, and prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. ADDRESS

PORTSMOUTH.

CITY HEALTH REGULATIONS.

THE BOARD OF HEALTH OF THE CITY OF PORTSMOUTH call the attention of the public to the following sections of Chapter 10, of the Revised Ordinances, and invite all interested in the preservation o health in our city to aid them in the execution of their duty:

SEC. 3. All waste water of houses, yards, cellars, sinks, pumps, etc., shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners and occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 6. No vender of meat at the stalls shall be permitted to leave any state meat, heads, feet or offal of any kind about their stalls or stores over night, or suffer them to be thrown into any street, lane or alley of the city. Nor shall any sellers of fish be permitted to throw any offal of fish into any street, lane or alley of the city, or upon any wharf, but shall either bury them or throw them into the river beyond low water mark.

SEC. 7. If any dead animal or decaying vegetable substance, or any other nuisance, shall be found in any part of the city, the owners or occupiers of the premises where such nuisance shall be found, shall cause the same to be removed within twenty four hours after being notified so to do by one or more of the health officers.

SEC. 12. When any householder shall know that any person within his family is taken sick of the small pox, or any other disease dangerous to the public health, he shall immediately give notice thereof to the Health Officers.

SEC. 13. When any physician shall know that any person whom he is called to visit is infected with the small pox, or any other disease dangerous to the public health, such physician shall immediately give notice thereof to the Health Officers.

SEC. 14. If any such householder or physician shall refuse or neglect to give the notice required in the preceding sections, he shall for each refusal or neglect, forfeit the sum of twenty dollars, to be recovered by either of the Health Officers in the name of the city.

SEC. 16. The Health Officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said Health Officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel or enclosure, and cause said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 21. No person shall erect, keep or continue, or permit to be erected, kept or continued, upon any land occupied by him, any pen for the keeping of swine, or privy, over either of the mill ponds in this city, or so placed that offensive substances therefrom shall be discharged or drained into either of said ponds or into any creek, or cove, or drain leading thereto. And no person shall construct, keep or continue any drain leading from any pen for the keeping of any swine, slaughter-house, privy vault, or other unwholesome or offensive place, into either of said ponds, or to any flat or marsh adjoining the same. And no person shall throw or suffer to be thrown from his land into either of said ponds, or upon any of said flats or marshes, any dead, decaying, unwholesome or offensive animal or vegetable substances.

IF YOU WANT A NICE

SILVER-MOUNTED HARNESS

made in the best manner, call on

Tilton, No. 18 Congress St. Portsmouth.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff, and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

R. P. HALL & CO., Nashua, N. H.

Sold by all Druggists and Dealers in Medicine. No. 5.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once, ctjy2878

H. HALLETT & CO., Portland, Maine.

Daily Chronicle.

The Water We Drink.

There is very little pure water used. That which comes from the clouds has the best claim to be so regarded, but that is contaminated by impurities in the air as it descends. Clear water is not necessarily pure water. All water from springs and wells contains minerals in solution; the latter having but a meager supply and outgo is usually more strongly impregnated than natural fountains with flowing inlets and outlets. The purest water is found where solid rock, as of granite, forms the bed over which it runs. But waters of springs and transparent rivers, even when filtered, are never pure. Waters of average purity employed for domestic purposes, are said on authority of Johnson, to hold in solution from twenty to thirty grains of solid matter. The water of the river Jordan contains seventy-three grains, and that supplied by the various companies of the city of London have from nineteen and one-half to forty grains. The impurities that make water injurious to health are organic matters, such as are abundantly supplied by barnyards, drains and cemeteries, where the decay of animal and vegetable substances are going on. Some families who live on farms, and who fancy they are drinking the best of water, are, in fact, constantly imbibing poison that will appear perhaps in the dreaded form of diphtheria or typhoid fever. The character of the impurities is important. It is claimed that a certain degree of hardness, from the presence of lime, improves the water for all domestic uses except washing, and water from the chalk districts in Europe is preferred to softer water. It is also stated that conscripts for the French armies who were reared in hard water districts were taller and stronger in bone than those who were reared in places where there was no lime in the water.—*Scientific American.*

A New Shooting-Iron.

We find the following description of a new rival of the Gatling gun: "The new Gardner gun is a weapon in size of an ordinary musket, to be carried on a man's shoulder; yet as destructive as a Gatling, more so than a mitrailleuse, and equal to three field cannon firing grape and canister. It has but one barrel, but three times the ordinary strength. At the end is a little brass box of thirteen inches by five inches, with a thickness of two and a half inches, having a crank at the side for power and a hopper on the top for cartridges. Two men can maintain a continuous fire of 200 shots a minute, without anything obstructing the weapon, such as heat or fouling, to check the fusilade. The cartridges can be supplied by a man faster than they can be fired. It weighs but forty pounds, and has fewer pieces than a Remington rifle, and, "being only the size of an ordinary musket, its performances strike the observer with amazement, and justify one in the belief that it will work a revolution in modern warfare."

—A sharp Yankee skipper, whose ship was infested with rats, once hit on a cute dodge of getting rid of them. He hauled his craft alongside a British vessel loaded with cheese, and caused the plank connecting the two to be well smeared with red herrings; the consequence was that the rats migrated in a body, attracted by the herrings and the cheese.

—The hull of the wrecked steamer Massachusetts will be saved. As goes hull so goes Massachusetts.—*Boston Post.*

SATURDAY, OCTOBER 20, 1877.

Joseph B. Buzzell's Case.

In the Supreme Court at Ossipee, on Wednesday afternoon, Attorney-General Tappan announced to the Court that the Grand Jury had found a bill indicting Joseph Buzzell as accessory to the murder of Susan Hanson. Buzzell was brought into Court for arraignment. Judge Clark, who was the prosecuting officer at Buzzell's former trial, left the bench, and Chief Justice Doe took charge during the proceedings. Mr. Copeland, counsel for Buzzell, objected to the reading of the indictment, questioning the right to try him as an accessory. Judge Doe suggested whether it would be a justifiable proceeding to put the county to the expense of $3000, the amount of cost to the county for the former trial, to try the case with so much uncertainty about the matter. An agreement between the Attorney General and counsel for the defence, submitting all legal questions involved in this case and taking the opinion of the full bench was entered upon. To do this the case was continued, and Buzzell was remanded to jail. It will be remembered that Buzzell was arrested for the murder of Miss Hanson in Brookfield on the night of Nov. 2, 1875, and was committed to jail, where he remained from November until the April term of the Court, when he was tried for murder and acquitted. The cause of his arrest for being accessory to the crime was the confession of one Charles Cook, who was arrested for setting fire to several buildings in Brookfield. Soon after his arrest he confessed to the shooting of Miss Hanson and to setting the fires, implicating Buzzell, saying that Buzzell hired him to commit the crimes and was present at the killing of Miss Hanson.

The Female Stranger's Grave.

Our Washington correspondent, in an account of an Indian Summer trip from the capital to Alexandria, says: A visit to the old cemetery and to the "female stranger's grave" seemed to those disembarking at Alexandria a natural sequence; and while copying the following inscription from the stone that marks her last resting place, it occurred to those present that it was the 60th anniversary day of her death. The inscription reads:

"To the memory of a female stranger, whose mortal sufferings terminated on the 14th of October 1816, aged 23 years and 8 months. This stone is placed here by her disconsolate husband in whose arms she sighed out her latest breath, and who, under God, did his utmost, even to soothe the cold dead ear of death.

How lov'd, how valu'd once avails thee not,
To whom related or by whom begot.
A heap of dust alone remains of thee,
'Tis all thou art, and all the proud shall be.

To him gave all the *prophets* witness that through his name, whosoever believeth in Him, shall receive the remission of sins."

Two generations have come and gone since she was laid at rest, and thousands have visited the grave in the time. The soldiers camped in and about the town during the war spared the grave by tacit agreement, apparently hardly anything else, however sacred, having wholly escaped the vandal touch of the iconoclasts among them. A very touching romance, founded largely on tradition, probably, has been woven around the couple who appeared at the hotel in Alexandria, took rooms and led a very secluded life for the few months they were there preceding the lady's death. It is related of her that she never appeared in public unless closely veiled. The servant who came with them was the only one ever admitted to their rooms until her last illness, and then only the physicism who, either of his own accord, or because sworn to silence, so the story goes, always remained reticent as to what he learned of their mysterious history, while attending in his professional capacity. He mixed with the townspeople only to the extent necessary to provide for their wants, and never invited familiarity by his very reserved manners. He disappeared immediately after her death and was seen once, some years subsequently, in town, but never again. It was the theory that they were English and that he, though wealthy, had persuaded a titled daughter of aristocracy into a mesalliance and had fled from the wrath of her family. Though his devotion to her is apparent, many claim to be able to detect a tone of reproach in the verse cut in the marble; and the subject has been a never failing source of speculation to those sentimentally inclined, for more than half a century.

News and Notes.

William C. Gilman, the forger, who was sent to Sing Sing the other day, has been made assistant to the book-keeper in the prison shoe department. The term of the present book-keeper expires next June, and it is expected that Gilman will be assigned to his place when he is released.

Portland, Maine, harbor was filled with small fish, a day or two ago, evidently herring, which were pursued by a large number of whales, measuring thirty or forty feet in length. At one time three whales were seen blowing at once.

It is reported from Washington that Senator Edmunds proposes to stop the sharp practice in the sale of postage stamps by enacting that any postmaster or deputy who sells postage stamps for less than par value shall be deemed guilty of embezzlement and punished accordingly, and by making postmasters and deputies swear quarterly they have not been making illegal sales. An easier way would be to make each postmaster pay the full value of all postage stamps furnished him, and then let him sell them at whatever rate he pleased—he wouldn't sell them at a discount, to any great extent. Congress offered a heavy premium on "sharp practice" when it passed the law as it now stands, and had better use a little common sense in making sensible laws than to waste much virtuous indignation because silly laws are taken advantage of in a perfectly legal manner.

The steamer Relief started for New York on Thursday afternoon at two o'clock, having in tow the wrecked steamer Massachusetts, which was floated off the rocks at Rocky Point, L. I., on the previous evening.

Joseph A. Lamb and his wife, of Lewiston, Me., have been arrested for causing the death of Lizzie M. Holmes by an illegal operation, and John M. Foss is charged with being accessory before the fact.

It is reported that certain Boston capitalists, in conjunction with owners of Union Pacific Railway stock, are about to begin the construction of an opposition telegraph line. There is said to be an abundance of money contributed, and advantage is to be taken of all the latest improvements in the telegraph. Certain large railroadists are said to be involved in this new enterprise.

British steamer Knapton Hall has been sunk at sea by collision with an unknown vessel, and twelve lives lost.

Rev. W. H. H. Murray, of Boston, lectured at Manchester on Wednesday evening. In the report of the lecture, he appears to have said: "I have a favorite mare in my stables on my farm—a dark chestnut, with a coat like satin and an eye of fire. Why, I should as soon think of going home and not kiss my wife as to visit the old place and not have a frolic with her." Mr. Murray leaves it a doubt, after all, whether it was with the mare or the wife, (the last used noun) the frolic came off, though he probably intended the former.

The British steamer J. B. Walker, with nearly $2,000,000 worth of ammunition and arms for the Turks, left New Haven, Wednesday, for Constantinople.

The report of the Treasurer of the Boston, Revere Beach and Lynn Railroad (narrow gauge) shows a net profit for the past year of nearly $27,000.

The New York papers are having their fun over the House unanimously tendering the compliment to Hon. S. S. Cox of a choice of a seat without his having to draw for it in the usual lottery way. The Congressional brainpan of wit bowed his acknowledgment when the fact was announced to him, and shaking his fist good-naturedly at Randall said, (pointing to the Chair,) "That's the seat I ought to have."

Political.

Col. John G. Thompson, Sergeant-at-Arms of the House, will be the next chairman of the Democratic National Committee, if the Cincinnati *Enquirer* knows anything about it.

For the comfort of our democratic friends, we venture the prediction that the ultimate result of the democratic triumph in Ohio will be the election of General Grant to the Presidency in 1880.—*Denver Tribune.*

The election assessments upon the 10,000 office-holders in New York city reach $100,000, and with that sum Boss Kelly thinks the usual overwhelming vote for the democratic ticket can be secured. Even the street laborers have to come down two per cent. on their wages or take a ticket of leave.

New Hampshire Items.

Nine years ago but one man used coal in Milford, and that came from Nashua in barrels. Now there are used in town from three to five hundred tons yearly, and yet wood is as high as it was nine years ago.

The Sandwich gold mine is still the theme of interest. The stones taken from a stone wall in places seventy-five rods apart showed on analysis $49 and some cents to the ton. Eleven specimens of the ledge itself averaged $243 to the ton.

James L. House, for many years past a successful stone contractor of Manchester, died suddenly of heart disease, last week. He was a native of Leeds, Me., and went to Manchester in 1851. He left a widow and four children.

At a town meeting in Bartlett, Saturday, 6th inst., it was voted to raise $2000 at once to build a covered bridge across Ellis river at Centre Bartlett.

The mills at Suncook are running on full time, and report business ahead to be good. The recent rains have quieted all apprehensions of failure of water on the Merrimack.

Gardner D. Durgin, a prominent citizen of Epping, died on the 15th, aged sixty-seven years.

Concord has recently been visited by a gang of burglars. The thieves have broken open several shops and stores, and made several ineffectual attemps to take away teams.

The Moody and Sankey campaign in New Hampshire will begin Sunday, Nov. 4th. Messrs Moody and Sankey will be assisted in the work by Major Whittle, Mr. McGranahan, Mr. Needham, Mr. Cato and Mr. Morehouse. They will occupy four of the prominent points in the State, while ministers and others are working outside. The month of October is being spent in Vermont. Mr. Moody and Mr. Sankey are laboring in Burlington, Major Whittle and Mr. McGranahan in Rutland, Mr. Needham and Mr. Cato in Bennington, and Mr. Morehouse in St. Johnsbury. Mr. Sankey will be with Mr. Morehouse a portion of the time. The work has opened very successfully.

—A mischievous lady filled the shower-bath to be used by one of her admirers, a journalist, with ink, and for once the gentleman was wholly in his element.

—In St. Joseph, La., there is a barroom where "none but gentlemen are allowed to enter," and where "parties desiring to while away an hour or two in billiards will hear or see nothing that the most fastidious could object to."

—Some months ago Dr. Upham, of Salem, Mass., in order to explain to his audience the variations of the pulse in certain diseases, caused the lecture room to be placed in telegraphic communication with the city hospital of Boston, distant fifteen miles, and by means of special apparatus the various pulse beats were exhibited by a vibrating ray of magnesium light upon the wall. These experiments have lately been repeated at Paris with success.

—Before she could utter the "Where have you been till this hour of the morning, anyhow?" which was trembling on her lips, he said: "Bin t'ther mind-readin'; bet yer seven dollars I can read yer mind this very minnit." "Well, you old fool, what am I thinking of now?" she said in a tone of sadness. "Thinking of? Why, I can read yer mind like the open pages of 'er book; yer thinkin' I'm drunker'n a biled owl, but yer never was worse fooled in yer life." She only said that there must be something in mind reading after all, for he had hit the nail right square on the head.

One Live Tooth

Is worth a dozen dead ones, and to secure the teeth from decay, it is only accessary to use the Fragrant Sozodont. The odor of this pure preparation is so delightful, that it is a luxury to apply it, and its beneficial effect upon the teeth is marvellous.

Unite your shattered China with Spalding's Glue.

The success which attends fair dealing is illustrated by the Louisiana State Lottery Company. This corporation, organized in 1868 for charitable and educational purposes, with a cash capital of $1,000,000 and an accumulated reserve of over $350,000, never scales or postpones its drawings. For information or tickets address M. A. Dauphin, President, P. O. Box 692, New Orleans, La.

LAME AND SICK HORSES, pronounced incurable, cured, free of cost. Giles' Liniment Iodide Ammonia.

Spavins, Splints, Ringbones, Bunches, Thoroughpins, Spring Knees cured without blemish.

Strains, Shoulder Lameness, Navicular Disease, Shoe Boils, cure guaranteed. Send for pamphlet containing full information to

Dr. WM. M. GILES, 451 6th Avenue, New York.

Use only for HORSES, the liniment in YELLOW wrappers. JOHN H. SLATER, Agent.

E. G. PIERCE, JR., P. M.

SUPREME COURT.

Friday, Oct. 19th, before *Stanley, J.*

The petition of the Portsmouth Trust and Guarantee Company against the City of Portsmouth, relative to the abatement of a tax assessed in 1876, was, on motion of Mr. Hatch, representing the City, brought forward, and the Court directed the order of Judge Doe, made at the October term, 1876, to be vacated and an order of notice to the City to appear and show cause why the prayer of the petition should not be granted, to be returnable on Monday next, the motion to determine the petition for want of previous order of notice having been denied. W. H. Y. Hackett appeared for the Trust Co.; A. R. Hatch for the City.

R. T. L. Gunnison, of this city, came into Court with Solicitor Small, who read to the Judge certain questions which Gunnison declined to answer, relative to his being clerk, servant or employee of M. Gatrity, or whether Garrity sells liquor, whether he keeps liquor for sale, etc. The matter was discussed, Mr. Hatch appearing to object, but Judge Stanley indicated that these questions were proper to be answered, like those which were ordered to be answerd in other cases. The parties representing the witnesses asked that the questions of law arising in these cases might be reserved. It is understood that the witnesses act under legal advice in declining thus to answer, while the State officials contend that the clause of the statute regulating the sale of spirituous liquors which provides that "No clerk, servant, or agent of any person accused of a violation of this chapter shall be excused from testifying against his principal for the reason that he may thereby criminate himself; but no testimony so given by him shall in any prosecution be used as evidence, either directly or indirectly, against him, nor shall he be thereafter prosecuted for any offence so disclosed by him," is sufficient protection to the witnesses. The Court said witness must answer if he is the "agent, servant or clerk," or "a partner." The witness having returned to the Grand Jury room, answered these two questions, but refused to answer others as to sale of liquor, etc., and was held to answer at the April term. The counsel for the parties against whom indictments are sought to be obtained, will ask to have the question as to the constitutionality of the section of the statute above recited transferred for decision to the Law Court.

Herbert W. Nowell, clerk at the Commercial House, a witness, was bound over to the April term. R. Taylor L. Gunnison and Dennis Carroll, also witnesses, were also bound over to the same term.

The Grand Jury came in in the afternoon, and returned a large number of indictments.

No indictments, we understand, were returned against Portsmouth parties for liquor selling.

Andrew J. Roberts, of Raymond, stealing a horse of Joseph Richardson. Plea, not guilty; trial assigned for Monday. To a second indictment against Roberts for stealing a wagon and harness of Joseph Richardson, he pleaded not guilty.

James Lynch, transient person, breaking and entering Boston & Maine Railroad station in Plaistow, in the night. Plea, guilty; sentenced to four years in State Prison.

Eldad L. Hankins, of Cedarville, N. J., assault on Wm. Daily and giving him a mortal wound on the 8th day of July, 1877, of which he died. Plea, not guilty. Trial assigned for Wednesday, 24th. Harriman for prisoner.

Charles E. Morse, of Chester, adultery. Plea, not guilty. Trial assigned for Monday, 22d.

Frank Wells, stealing, at Boar's Head Hotel, gold watch, broach, etc., property of Mrs. E. J. Titcomb, in August last. Plea, guilty. Batchelder for respondent.

Manning C. Rand, of Portsmouth, stealing money of Sally Leavitt. Plea, guilty. Sentenced to six months in State Prison.

Michael Cunningham and John Ledden, breaking and entering with intent to steal from a railroad freight car.

Michael Cunningham, breaking and entering a railroad freight car and stealing therefrom butter and crackers; two indictments. Plea, not guilty. He subsequently retracted his plea, and pleaded guilty; and with Michael Ledden was sentenced to two years and six months in State Prison. W. H. Hackett for respondents.

Thomas F. Hoyt and Charles Hammond, wilfully and maliciously destroying window glass of Thomas Wardwell, in Portsmouth. Plea of both, guilty. Sentenced to confinement in jail for six months, and to pay costs of prosecution.

Barney McKean, of Portsmouth, assault on Martha Brooks, etc. Plea, not guilty.

Henry Adams, cruelly over driving horse of Oliver B. Philbrick from Rye to Portsmouth. Plea, not guilty. Harriman for defendant.

George O. Goodwin, of Salem, setting fire to barn of Wm. H. Bryant, Jr., on the 1st of June last, whereby the dwelling house and shoe shop of Bryant was burned. Plea not guilty. The respondent said he did not light the match, but furnished the materials. Bartlett for the prisoner.

Judge Batchelder offered some suggestions in behalf of Frank Wells, explaining his conduct and the motives which induced him to commit the robbery for which he was indicted. Wells was sentenced to three years in State Prison.

Afterwards Goodwin attempted to explain to the Court the circumstances of the incendiary fire. He was then sentenced to confinement in the State Prison for the term of twenty years.

The Court adjourned to half-past ten o'clock on Monday morning.

GLORIOUS VICTORY.

The captain of the "Orphans" base ball club, having succeeded in winning a glorious victory for his "nine," has withdrawn them from the diamond field for this season. Under date of Friday evening he writes us as follows:

Mr. Editor: The invincible Granite States have lost one game to the "Off 'Uns," as they failed to appear at the Plains this afternoon to "knock the stuffin' out'n" us as it was announced in Friday morning's CHRONICLE they would do; we had one man out there to represent us, but the Granites had nobody,—hence the score of nine to nothing in favor of our club. The Granite States may say that the rain had something to do with their absence, but that doesn't alter our score, and we have no desire to play them any more, as it is not likely we could improve the above score much.

THE CAPTAIN.

SUNDAY SERVICES.

At St. Mary's (Catholic) church, Children's Mass at 8:30, Solemn Mass at 10:30 A. M.; Sunday School at three o'clock, P. M.

At St. John's (Episcopal) church services at 10:30 A. M. and 7:30 P. M. every Sunday,—except the first Sunday in each month, when the Children's Choral Service and public cathechising, commencing at four o'clock, is substituted for the usual one at 7:30; seats free at this service.

At the Middle street (Baptist) church, services at 10:30 A. M., 7:30 P. M. Preaching to-morrow by the pastor, Rev. Dr. W. H. Alden.

At the Advent church, services at 10:15 A. M., 2:45 and 7:30 P. M. Elder George W. Brown of Eliot will preach to-morrow.

At the Methodist church, preaching at 10:15 A. M. and 2:45 P. M., by the pastor, Rev. J. Noyes. Subject, forenoon, "All things working for the good of Christians;" afternoon, "God against strong drink."

At the Unitarian church, preaching at 10:30 A. M.; vesper service at 7:30. Preaching to-morrow by the pastor, Rev. James DeNormandie. Subject of evening discourse: "What is practical Education?"

At the Congregational church, service at 10:30 A. M. and 3 P. M.; prayer meeting at 7:30 P. M. Preaching to-morrow by Rev. James W. Hubbell.

At the Universalist church, preaching at 10:30 A. M., by Rev. E. M. Grant.

At the Court street church (Christian) services at 10:30 A. M. and 2:45 P. M.; Sunday school directly after morning service; prayer meeting at 7:30 P. M. Preaching by Rev. J. H. Rowell, of Kittery, if pleasant weather.

At the Pearl street (Freewill Baptist) church there will be services at 2:30 P. M., when Mr. James Rosedale will speak upon the "Travels of St. Paul."

Service of Praise at Bow Mission at 4:15 P. M. New pieces are expected. All are invited—seats free.

Reform Club meeting in Mechanics' Hall at 7:30 P. M. Speaking by members.

THE CITY.

Mr. Rosedale, with his son and daughter, will give another of his unique and highly interesting entertainments illustrative of the manners and customs of the inhabitants of the Holy Land, in the Pearl street church this (Saturday) evening, commencing at 7:45. Admission 20 cts.; children under twelve, half-price.

Washington Wilson, of Kittery Point, aged twenty-three years, has been missing from his home since Monday, the 15th, and his parents are in great distress. He stopped in this city that night and when last seen was on Lafayette road, going towards Hampton. At one time he was confined in the insane asylum at Augusta, Me. [Since the foregoing was in type we learn that Wilson was found at Seabrook, Friday afternoon, and was lodged in the station house in this city in the evening.]

Rev. Mr. Wolfe, editor of the famous Newburyport "Word of Truth," will probably speak on temperance in Franklin Hall on Sunday evening, Oct. 28th. If he does there will be a big crowd to hear him.

At the fifteenth annual meeting of the New Hampshire Unitarian Society, which adjourned at Laconia on Thursday, William H. Hackett, Esq., of this city, was chosen one of the two Vice Presidents for the ensuing year.

Cook, the confessed murderer of Miss Susan Hanson at Brookfield two years ago, and who has been confined in the jail in this city since his confession last autumn, was taken to Ossipee on Wednesday to testify in the trial of Joseph Buzzell, who hired the murder done, but was returned to Sheriff Kent's charge on the continuance of Buzzell's case on a question of law.

On Thursday Mr. John Nutter brought in a basket of Duchess and Sheldon pears for our inspection, and showed how just a conception he has of the eternal fitness of things by not carrying them out again. He put them down on the proof press, from which the compositors kindly assisted to remove them, and the unanimous verdict was that if they were not the biggest ones yet shown they tasted better than any of the previous samples looked.

Frank Jones and sixty-one other petitioners for a new highway leading from North street to Jackson Hill street, have appealed to the Supreme Court to lay out the street which failed to be laid out by the Mayor and Aldermen. The appeal was entered at the term of the Court now in session in this city.

The Washington *Republican* has the following concerning a former resident of this city,—the popular proprietor of the Sagamore House at Frost's Point until it was burned; and later, landlord of the Rockingham House: "It is stated that Col. James S. Peirce, proprietor of the Imperial Hotel, contemplates disposing of his interest in that establishment, in order to accept an offer to take charge of a hotel in Montreal. Mr. Peirce has made many friends here, who, while glad to know that he betters himself, will regret his departure from the city."

At the store of John Stckell & Co. is a mammoth squash, raised in Rye; it is large enough for seven men to stand around it without being crowded.

DOCTOR PIERCE'S ALT. EXT. OR

Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in harmony more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, eyes yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness,"** in many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

SOLD BY DRUGGISTS AT $1 PER BOTTLE.

Prepared by **R. V. PIERCE, M. D.,** Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y.

It is a Revelation of Struggles and Triumphs of the most renowned Detectives on the Globe for the past Twenty-five years. It traces out the most noted Bank Robbers, Scientific Thieves, Lottery Men, Counterfeit Money Dealers, Pick-pockets, Sharks and Swindlers at all kinds upon the public. In this book are disclosed some of the most marked instances of villainy, deceit, and cunningly devised plans of mischief and outrage ever recorded by pen or pencil, and the offending actors duly punished. This is a capital opportunity for smart and energetic men and women. The book is meeting with astonishing success. Agents are averaging from 40 to 60 orders per week. To those who apply early for Agencies, extraordinary terms will be given and exclusive territory guaranteed. For terms address

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of women, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it, for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it; for, of any of these conditions, but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhea, Excessive Flowing, Painful Monthly Periods, Suppressions, when from unnatural causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription has **wrought cures—the marvel of the world.** This medicine I do not cast as a nostrum, but it admirably fulfils **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of women. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

Centaur Liniments.

One thing is now thoroughly established. Never since man suffered and human agencies alleviated pain has there been any thing which went so far as a pain annihilator and curative agent as the Centaur Liniments. These Liniments have within the past year cured more cases of Rheumatism, Neuralgia, Stiff Joints, Caked Breasts, Swellings, Poisonous Bites, Burns, Lame Animals, etc., etc., than all other remedies combined. As the name of Centaur implies half horse and half man, the Centaur Liniments are for man and beast. But not the same Liniment. The White Liniment is for man and the Yellow for horses and animals. Herein this Liniment differs from all other remedies, although some of the ingredients are alike in each. They contain the well-known Witch Hazel, Arnica, Carbolic, Rock Oil, Mentha and other powerful ingredients.

Wm. H. Hickcox, Rector of St. John's E. Church, Wakefield, Clay Co., Kansas, writes: "Many years I have been suffering from a Weak Back, caused from a sprain more than 40 years ago. I have not found any thing to relieve me until I commenced the use of Centaur Liniment. I feel it my Christian duty to inform you that by its wonderful effects I am entirely relieved of pain. January 2d, 1874."

Messrs. J. McClure & Co., Druggists, Cincinnati, Ohio, say:

"Teamsters pronounce the Yellow Centaur Liniment superior to any thing they have ever used. We well several dozen bottles per month, and the sale is steadily increasing."

These are only samples of thousands upon thousands of similar testimonials reaching us every month. All the Extracts, Embrocations, Salves and Ointments in existence are not doing one-tenth the good which is done by these admirable Centaur Liniments. For Frost-bites, Stings, Cuts, Itch, Salt Rheum, etc., there is nothing like the Centaur Liniment. White Wrapper. For Spavin, Ring-bone, Sweeney, Wind-Galls, Poll-evil, Scratches, etc., on horses, the Yellow Centaur Liniment is equally as good. They are certain in their effects; they are pleasant to use, they are handy and they are cheap. No family should be without Centaur Liniments. They are worth one hundred times their cost.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Castoria.

Mothers may rest and their babies may have health, if they will use **Dr. Pitcher's Castoria** for Wind Colic, Worms, Feverishness, Sour Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, neither gags nor gripes, and is superior to any remedy in existence.

Dr. E. Dimoch, of Dupont, Ohio, says:

"I am using CASTORIA in my practice with the most signal benefits and happy results, and find it a perfect substitute for Castor Oil."

This is what every one says. Many nurses in New York use the CASTORIA. It is prepared by Messrs. J. R. ROSE & Co., successors to Samuel Pitcher, M. D. nov1

The Centaur Liniments have created a revolution in remedies for Rheumatism, Bruises, Swellings, Pains, Burns, Scalds, Stings, etc. The White Liniment is for the human family, and the Yellow Liniment is for horses. They are certain, handy and cheap.

Castoria is certain to operate. It does not nauseate or gripe like Castor Oil, but is pleasant to take, gives the food, regulates the bowels, cures wind colic, expels worms, and causes natural sleep. It is equally adapted to adults and infants. It contains neither Mineral, Morphine nor Alcohol. Children teething may have health, and mothers find rest, if they use Castoria.) nov1

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of clamp, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the energies and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is combined in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough,** yet **gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial powers of our Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, thereby keeping thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

R. V. PIERCE, M. D., Prop'r,
BUFFALO, N. Y.

DR. QUAIN'S
MAGIC
CONDITION PILLS!

The Wonderful Remedy for Liver Complaint, Biliousness Dyspepsia, Constipation, Neuralgia, Rheumatism, Headache, Kidney Complaint, Nervousness, Scrofula, Piles, and all diseases arising from a bad state of the Blood!

No medicine ever offered to the public has given such universal satisfaction as Dr. Quain's Magic Condition Pills. Their praises are on every tongue where their merits are known. They strike at once at the seat of disease and show their healing power almost immediately. Thousands of voluntary testimonials of their merits have been received by the agent, from those who have been cured by them, of which the following are samples:

Dyspepsia Four Years, Constipation and Inflammation of the Bowels Three Years, Confined to my Room Two Years, Pain so I Could Not Sleep Without Morphine. One Package of Dr. Quain's Condition Pills Made Me Eat Well, Sleep Well and Free from Pain, after being given up by Physicians.

WEST LEBANON, ME., Feb. 22, 1

MR. THOMAS W. LANE:—I have been sick for 3 years with Dyspepsia, and for the past three years Constipation and Inflammation of the Bowels. I have suffered the pain I endured and live, have been confined to my room for two years, and could not sleep rights without the use of morphine. I have been given up by physicians as past cure. I have taken one package of DR. QUAIN'S CONDITION PILLS, and they have done me more good than all the doctors I paid for. I sleep well, I eat well and have no pain. They are all they are recommended to be. Please send me three packages, as two of my neighbors wish to try them. I enclose $1.50.

Your truly, JOHN W. LORD.

Another Letter from May. John W. Lord, one month later Wonderful Cures by Dr. Quain's Pills Effected on Him in Thirteen Days. First time Free from Pain for Three Years.

WEST LEBANON, ME., March 22, 1875.

MR. THOMAS W. LANE:—I commenced taking DR. QUAIN'S CONDITION PILLS February 9th, and wrote you February 16th of their wonderful effect, I have continued to improve ever since. My appetite is good, and I sleep as well as I ever did in my life. I am free from pain for the first time in three years. When I was taken sick four years ago, I weighed one hundred and eighty-six pounds; I now weigh one hundred and thirty, but, as I am gaining in strength, I have faith I shall regain my flesh this summer, by the use of the Pills. I shall continue taking them for some time to come.

Yours truly, JOHN W. LORD.

Dr. Quain's Pills the Remedy for Soldiers' Aches and Pains.

WEST LEBANON, ME., June 1, 1875.

MR. THOMAS W. LANE—*Dear Sir:*—I am now able to walk out every day, and am gaining in strength very fast, all of which is due to you as agent for the best Pills in the world. I have taken no other medicine, and my improvement has been steady since first taking Dr. QUAIN'S CONDITION PILLS. They have done everything for me, and I will say to you, advertise them direct to the soldiers, for they will certainly cure them of aches and pains caused from exposure and hardship on the field. Please send me by return mail another package.

JOHN W. LORD.

Rheumatism for Twenty Years Cured by One Package of Dr. Quain's Condition Pills—"The Best Medicine in the World."

EAST ANDOVER, N. H., Dec. 10, 1875.

MR. LANE—*Dear Sir:*—As I know the value of DR. QUAIN'S CONDITION PILLS and that they have done me, I take pleasure in giving them praise; so I send you another testimonial. My father has been troubled with Rheumatism for twenty years or more, and has tried everything that could be thought of, but to no good. Another of my family

A Premium Annual to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy, one year, $2.50; Four copies $10, *and an additional copy for the year free to the sender of the Club;* Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs*, to each subscriber—a book of 144 pages and about 140 engravings—a gift by the Publishers, in honor of the completion, in its present weekly form of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman possesses an unequaled Corps of Correspondents, being made up from among the *Best Farmers* of All Parts of the Country, and constantly reflects the practical condition and progress of the husbandry of every section of the United States and civilized world.

The Country Gentleman gives in its *Horticultural Department* a continuous variety of information and discussion, equal to a Monthly Book of every kind through the country; and commands to a greater degree than any contemporary, the confidence and support of breeders and purchasers.

The Country Gentleman contains unusually full and trustworthy *Market Reports*, and devotes special attention to them and to the prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and so on, and weekly presents a column or two for the Housewife and an interesting variety of Fireside Reading. It contains a well-edited review of current events, and its advertising pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address,

Daily Chronicle.

Hygiene of the Eyes.

The following hygienic rules are compiled and condensed from eminent French and English authorities. For the worker the light should come as much as possible from the left side—that is to say, from the side toward which one turns in working. Daylight is the best; but direct sunlight and that reflected from mirrors, should be avoided. The aspect should be northern, and the light should come a little from above. White walls should be avoided; and, in workshops, shining articles, like silk, should be protected from the sun's rays. Artificial light is always bad on account of the heat and the exhalation of carbonic acid. The best is that of lamps fed with vegetable oil (much used in France but seldom in this country,) and furnished with a glass shade. Gas is bad, because of its heat, brilliancy and mobility; the light of mineral oils is too hot, that of candles insufficient and flickering.

The eye of the workman should avoid the light coming to him directly or diffused through the room. Working immediately after meals is objectionable, also uninterrupted use of the eyes for long periods of time. One should write on an inclined plane, and not keep the head bent down more than is absolutely necessary. Reading in bed is bad every way.

Some good authorities commend washing the eyes in cold water, but the majority of the best opthalmologists advise use of hot water for the less serious affections of the eye. For tired eyes, we believe, from our own experience, that water, hot as can be borne, is refreshing and beneficial. If the eyes are fatigued by bad artificial illumination, blue or slightly smoked glasses will be useful, and in order to avoid the lateral rays they should be large and round. If the irritation of the eyes persists, all work must be abandoned, and an examination made to see if there be any disturbance of refraction, or power of accommodation of the mobility of the eyes.

Presbyopia, or so-called "far-sightedness," supervenes earlier with those who are constantly at work than with other individuals, and as soon as it does convex glasses should be at once resorted to, without which the muscle of accommodation would be fatigued to no purpose. At first they should be used for working in the evening after the fatigue of the day; but a long-sighted person should only use spectacles for looking at near objects, not at far ones.

Work requiring close application favors the development of myopia, or "near-sightedness," precisely in proportion as the conditions of illuminations are bad. If the action of those causes continues, the myopia will increase until vision is lost. A slight degree of myopia may be favorable to close work, but, as a general rule, work requiring close application, by the derangement of circulation that it inevitably induces in the eye, is much more injurious to the myopia, and is the great cause of the development of myopia and its complications. Young people should be examined, and if they are myopic, hindered from undertaking tedious studies, and excluded from all professions demanding close application of the eye. —*Journal of Chemistry.*

A Story of Flip-Days.

The old Abercrombie house at Pelham, Hampshire county, is said to have been the scene of a practical joke by Rev. Mr. Abercrombie, the original occupant of the house and minister of the town. In his days, of course, flip was the common beverage of clergymen and the laity, and no objection was ever made, unless people became notoriously over-indulgent. The charge was finally brought at a church meeting that the minister was drinking too freely, and a committee was appointed to tell him of his fault and warn him of the danger of continuing in it. Warned of their coming, the erring pastor told his wife to prepare the first round of flip, which even this committee would expect, with equal parts of rum and water, the next with more rum, and the next mostly rum. The committee, soon after their arrival, partook of the flip which their pastor ordered, after which they made known the nature of their errand. The pastor admitted that there might be need of the reproof, and that he would be governed by it. Then came the second round of flip, and, as the business had been despatched, the committee were disposed to be talkative and social with the pastor who had so humbly admitted his sin at their rebuke. The flip came round the third time, and it is said near sunrise the next morning two of the committee managed to reach their homes, but the third lay prone on the floor, unable to stir from the effects of the flip, until broad daylight. At the adjourned church meeting, when this committee made their report, it is said they made a very concise report of their visit to the pastor, and the kindly way in which he received the reproof, by reporting: "We have called on our pastor, as directed, and he gave us Christian satisfaction."—*Springfield Republican.*

A Night Under Water.

A new ocean life preserver has just been invented by Mr. Traugott Beck, of Newark, N. Y. It consists of a rubber suit somewhat resembling that worn by Paul Boynton. A combination of boots and trousers reaches up to the waist. At that point the rubber cloth is expanded by a series of steel hoops. From the waist up to the middle of the head the suit has the appearance of a barrel. The bow of the apparatus is shaped as nearly as possible after the bow of a boat. From the sides hang long rubber sleeves ending with gloves, so that the hands can be used freely. There is a port-hole closed with strong glass on either side of the bow, through which the wearer can look out for squalls. Another similar port-hole is placed over the breast. Directly over the spot where the head will be when the man is on his back, is a rubber pipe eight inches in diameter and a foot high, by which air is supplied. In front of this is a flagstaff some ten feet in height, from which proudly floats an American flag. This staff is in four sections, and can be taken apart and stored away inside. It is hollow, so that when the weather is too stormy to allow the pipe to remain open, the man can breathe through this. The man gets into the suit by throwing back the top. Mr. Beck thinks that this apparatus is strong enough to carry a man through any storm. It is buoyant enough to carry 150 pounds besides an ordinary man, and in it a man can keep comfortably warm, besides having room enough to change his position slightly. In order to test his invention, Mr. George Krumsieh left the Battery at New York intending to stay in the bay over night without communicating with land. He wore three pairs of socks, two pairs of trousers, and under his coat, a cardigan jacket. He also carried some bread and water, and a lantern to hang out at night. In the water he lay on his back, rising about a foot above the surface. A pair of paddles enabled him to move in any direction at about three miles an hour. A reporter visited him at anchor in the evening, and found that he had gone down below, several feet, to be warm, while men in a row boat kept watch on the surface. The wind was so high that he had few callers. —*N. Y. paper.*

After Wild Honey.

The senses of the bees are very acute. By the aid of smell they find the sweetest flowers, and thus the delicate cleanliness of the hive is preserved. While certain odors are very attractive to them, others are excessively repugnant. This fondness for certain perfumes is used by bee-hunters in discovering the nests of wild bees. When wild bees are seen loitering around, an upright stake to the upper end of which is attached a small horizontal platform, is planted somewhere near; on this platform is placed a bit of full comb, and in front of it is suspended an open phial of annis, an odor they particularly love. To expedite matters, one of the strange bees is frequently captured by inverting over the flower from which it is sucking a small cylinder with glass over the end. The bee flies up to the lighted end, the lower part is covered with the hand, and the cylinder placed over the honey-comb on the platform. As soon as the cylinder is darkened, by putting something over the top, the bee goes down to the honey and fills its honey-sac. When fully gorged, it is released; a bee, with its honey-sac filled, always makes a "bee-line" for the hive. When the load of stolen sweets is deposited, the little pilferer comes back,—usually with a companion,—guided by the scent of annis; both alight on the platform, and are held in mild captivity till they are filled. One is then released, the direction it takes is noted; the stake is then carried to some distance to the right or the left of its former position, and the second bee released. The point at which the two "bee-lines" cut each other is the position of the nest.—*Scribner for Nov.*

Secretary Thompson's Forthcoming Report.

The Secretary of the Navy has commenced the preparation of the annual report of the operations of the navy during the past year. After showing the available resources of the Government in ships, material and men he will urge upon Congress the necessity of such legislation as will establish a general policy in the building of new ships, so that from year to year the navy may not only be maintained, but its strength gradually advanced. He will urge a liberal appropriation for the further prosecution of ex-

periments with torpedoes, the experience of the pending war in the East demonstrating the utility of this modern appliance in naval warfare. He will also urge liberal appropriations for the benefit of navy yards, so that their capacity for the construction of ships may be increased to meet the exigencies of a first-class navy. He will also recommend that the moneys which accrued from the sale of the old navy yard at Philadelphia, and which the law authorizing the sale directed should be expended upon the League Island navy yard in the construction of piers, docks and other necessary works, shall be made good by Congress. The Secretary favors making this yard the principal station for iron-clads, the facilities there being superior to any presented by any other yard. The aggregate amount asked by the Secretary for the navy for the next fiscal year will be somewhat larger than last year.

Daily Chronicle.

MONDAY, OCTOBER 22, 1877.

A Gigantic Swindle.

J. R. Ham, Edward L. Stevens and George W. Miller have been arrested at Kansas City, Mo., on a requisition from Gov. Hubbard of Texas, for wholesale swindling in land titles, and forgery. Over sixty persons were arrested the same day in different parts of the country for complicity in the frauds, which involves the titles to immense tracts of land in Texas and other places. No less than thirteen court houses are said to have been burned by the gang within a year, to destroy evidence that could be brought to prove their crimes. The Kansas City *Times* says: "One of the largest banking houses in Austin, Texas, two Chicago bankers, two real estate dealers and two attorneys in St. Louis, a banker and two real estate dealers in Indianapolis, and others in Cincinnati, Cleveland and Pittsburg, are to be or have been arrested for being connected with the well-organized system for forgery in full practice in this Western country for the past eight or nine years. The same organization which is now forcing the Texas scrip on the market has been perpetrating some of the most terrible forgeries ever detected."

The Steamer Massachusetts.

The wrecked steamer Massachusetts arrived in New York on Friday, and was at once taken up on a sectional dry dock. The damage to the vessel is on the bottom toward the stern, and there are numerous holes also. About forty feet of the keel are missing. To prevent the vessel from leaking two hundred yards of canvass is nailed on the bottom, and the holes were stopped up as well as possible. The engines are in no way damaged, and they were used to take the vessel down. The New York papers give the following account of her condition when she arrived at that port: "In the saloons a very sorry appearance is presented. The dining room is filled with old kettles, tin pans and workmen's tools, and piled here and there are dining tables and chairs. The main gangway has an engine at each side, and the smoke from the boiler has blackened the interior of the vessel very much. In the bow of the vessel wood and coal are piled promiscuously, and in the main saloon the handsome furniture is piled on every side, and bedding, chairs, tables, looking-glasses and even handsome chandeliers can be seen on the floor in every direction. The carpet is all wet, rain having penetrated through the roof, and in the state rooms everything is in a chaotic state. The woodwork of the vessel is blackened and smeared, and the Massachusetts shows hard usage. What the loss is it will be impossible to ascertain until a thorough examination, but it is believed to be about $150,000, and the insurance is said to amount to $100,000."

News and Notes.

The dead body of a beautiful and richly dressed woman who found in a lake in Central Park, New York, on Friday, having evidently been in the water for several days. At first it was suspected she had been murdered, but it turns out that she committed suicide. She was the wife of Thomas Otis LeRoy, once a very wealthy merchant, but now in comparatively reduced circumstances; her father, with whom she and her children were living, is reported to possess $2,000,000 or more. Insanity induced by sickness and morbid religious fancies was the cause of the act.

It is thought the bankrupt law will be repealed at the present session of Congress. It ought to be.

Since the recent earthquake on the Pacific coast of South America the province of Catamarca, in the western part of the Argentine Republic, has become gradually submerged, and a large lake formed there is continually enlarging.

The British steamer J. B. Walker, with arms and ammunition for the Turkish government, is still lying in New Haven lower harbor. On her last trip she was chased for two days by a Russian steamer, and it is belived she is waiting for a dark night to put to sea, expecting to be chased again. She is very fast, and once outside the Sound will stand a good chance to get away.

Portland, N. B., opposite St. John, had a great fire on Saturday, 3000 people being rendered homeless by it. The fire was still spreading when the last telegram came through on Saturday.

The British authorities have decided to hold no inquest on the body of the sailor killed by the mate of the American ship New World, as the ship was outside the jurisdiction of England at the time of the homicide. The British marines who took the vessel into the Nore have been withdrawn.

A possible war between China and Siam, is talked of. For twenty years past Siam has refused to send messengers to China with the tribute and acknowledgment of submission to the latter power. China now demands a settlement of the arrears of tribute, but Siam points to her independent treaties with foreign governments.

James Craig, the tramp who shot Constable Wyant of Washington, Conn., perhaps fatally, some days ago, is found to be the twenty-one years old son of a Westford (Mass.) Baptist minister, who had not heard of him for six years.

The Cincinnati *Times* says Kentucky may be able to furnish a first-class Supreme Judge, but she seems unable to construct her own courts well enough to put a check upon the wholesale murdering over there. The news columns of the press are burdened with Kentucky shootings, but not with their punishment.

The American House, of Boston, is one of the favorite houses of that city. It has a large patronage of the best class of guests, is excellently well furnished throughout, and from kitchen to garret is kept as clean and bright as a new pin. Visitors to the city stopping at this famous House, will find a hotel under the most perfect management.

Three sisters in Gloversville, N. Y., named Lydia, Caroline and Lina Fonda, having been arrested on a charge of stealing articles from a tenant who occupied a part of their house, gave bail to appear for trial, went home, and took poison to avoid the disgrace of a trial. One of them has died, and the other two probably will.

New Hampshire Items.

A prisoner who has been in the jail at Lancaster for a year has, since his incarceration, taught several Frenchmen to speak English, some Irishmen to read, and all nationalities to play cribbage and euchre.

The Grand Division of the Sons of Temperance of New Hampshire holds its annual session at Fisherville on Wednesday, Oct. 24.

James H. Blake was recently coming down the White Mountain railroad on foot, when he heard a loaded car which had broken loose from a wood train, coming down with terrific speed behind him. He jumped from the elevated roadbed, and although he sprained his ankle, he saved his life.

The monster chimney at the new mill, that has been in process of construction at Dover for the past few weeks, is completed. It is 125 feet high, eight feet in diameter inside at the top, and upwards of 125,000 bricks were used in its construction.

The New York *Tribune* says: "Governor Prescott, aroused by the statement that New Hampshire had no boulder as large as those of Vermont and Massachusetts, has been hunting them through his State, and has found one in Nottingham 62 feet long, 40 feet wide and 50 feet high. It is said to weigh 6,000 tons and is surrounded by others almost as large. The Governor is supposed to be exceedingly happy and triumphant."

Mr. L. S. Gordon, of East Rumney, has during the last year sold over $50 worth of garnets found within a short distance of his house. That section of the town abounds in garnets, crystallized quartz and many other specimens dear to a geologist's heart.

It is said that a Mr. Dame, one of the inmates of Strafford county almshouse, was one of the Mormons who was engaged in the Mountain Meadow massacre. Soon after, he was taken insane, and the Mormon physicians pronounced him incurable if he remained in that country, when he was sent to his native State.

A child of Eben Faxon of Dover was run over by an ox cart, on the 12th inst., and severely injured. Three ribs were started from their spinal connection.

On the night of the 15th inst., as Thomas King was passing over a culvert on the railroad at Wilton, he heard a groan beneath it, and reaching down he found a woman in a half insensible condition, who in the darkness had fallen through and was stunned. He lifted her out, and after a brief time she was able to proceed to her house.

Converse Spooner's soap factory at Newport was burned one night recently, with its contents, including wagon, sled, and utensils for manufacturing soap. The fire was undoubtedly the work of an incendiary. Some malicious person has for a long time committed acts to the injury of Mr. Spooner. On two previous occasions his buildings have been fired, and at different times his utensils have been tampered with. He will rebuild, however, and defy the malice of his persecutor.

Political.

The President has appointed Col. O. P. Fitzsimmons, of Augusta, Ga., United States Marshal for Georgia, in place of Major Smyth. Smyth was an excellent officer, it is said, and the only reason given for the change of officials is that Fitzsimmons, who is a democrat, wanted the place, and Ben. Hill and A. H. Stevens advocated his claims.

Wayne MacVeagh is to be Minister to England, according to the latest reports.

The Senatorial squabble in Ohio has opened early and opened hot. The two leading candidates, Pendleton and Ewing, are both so strong that the election of either is, to say the least, doubtful. Unless one of them gives way to the other, which is not reckoned upon by anybody, the odds are largely in favor of a compromise candidate. A wild rumor has been started that Mr. Thurman will resign, thus allowing both Pendleton and Ewing to be elected, the recompense being that they will support Mr. Thurman for the Presidency. The trouble with that rumor is that Mr. Thurman is not the sort of a man to give up a sure thing for a most uncertain one. There is also some talk about Mr. Albert Gaither as a compromise candidate, whom the democrats voted for when Stanley Matthews was elected.

A year ago the New York democrats resolved that they were true reformers, and in proof of it pointed to the fact that they had disowned Tammany and prosecuted Jarvis Lord, chief of the canal thieves. This year Jarvis Lord and Tammany took possession of the State convention and kicked the men who had disowned and prosecuted them down the back stairs; but their platform is a reiteration of that of last year, and just as loud on the subject of reform.

It sounds strangely to hear the supporters of Mr. Tilden called a faction of the Tammany democracy. It was not so a year or two ago. But it is a world of change. A year or two ago Mr. Tweed had not, or was supposed not to have, any influence in making and unmaking democratic politicians. Now he goes from the prisoner's dock to the witness stand, and by discreet State's evidence unmakes the men who were promoted over his downfall. His counsel goes to the State Convention and assists in turning his prosecutors out of office. So the whirligig of time brings in his revenges. —*Tribune.*

—A London journal cautions its lady readers against sitting down in cane-bottomed chairs when they are dressed in velvet. This is a plagiarism from a remark of Mrs. Fanny Kemble, who, when she found such a chair provided for her at one of her readings in the West, turned upon the leading committeeman a basilisk glance, and exclaimed, "Man—do you wish me to give my best velvet gown the small-pox?"

—From Havre come the tidings that there need be no more sea-sickness. A number of persons, it is said, have repeatedly been taken on board a steam tug and have put out to sea just where they were most likely to meet with severe tests, and it has been found that those who were provided with a certain electro-magnetic girdle were entirely exempted from sea-sickness, while those who became sea-sick without this appliance were almost instantaneously cured by its application. The girdle, it is claimed, tends to check the derangement of the diaphragm.

—Elizabeth Bray of Leominster, England, asked Mr. Watts to have her, but he declined the offer of her hand and heart. She thereupon made three desperate attempts to drown herself. As they fished her out for the third time, happened along the practical Mr. Wall, who, upon being made acquainted with the facts, said: "If you want to drown yourself, miss, come this way and I'll see you does it." Seizing her, he took her to another part of the stream and dipped her overhead two or three times until she was nearly exhausted. Crying hard for mercy she promised not to repeat her foolish conduct, and was then brought out of the river thoroughly drenched and thoroughly repentant.

—A clergyman of South Norwalk, Conn., who had been annoyed by the noise made by the late-comers to his church, announced a fortnight ago that at precisely 10:30 A. M., every Sunday, the church doors would be locked and no person would be admitted after that time to the morning service. One Sunday he was detained at home by something till near the moment for the beginning of the service. He discovered his dangerous position, however, and ran with all his speed toward the church, which he succeeded in entering just before the doors were closed. His wife, one of the church deacons, and many of the congregation were, however, locked out.

—And now we hear a still small voice saying: "The nasty moths have just ruined my furs." Any sensible man will know what is expected of him.

—The five years' lease of the Tip-Top House, on Mount Washington—at $10,000 a year—expires this fall, when Messrs. Coe & Pingree, the proprietors at the top of the mountain, by the conditions of the lease of the land to Messrs. Aiken & Lyon, the owners of the building, can, if they choose, take the house at the original cost.

Wood per cord, Hard, $7 @ $8; Pine $4.

PROPOSALS FOR WOOD.

SEALED PROPOSALS will be received by the Overseers of the poor of the City of Portsmouth, until Tuesday, October 30, 1877, at 7 o'clock P. M., for the delivery at the City Farm of Quality HARD WOOD, to be delivered at either of the railroad stations in this city, or at the Court House yard. The right to reject any bid is reserved.

M. BUFFORD, Secretary.

October 17, 1877.

MUSICAL INSTRUCTION!

THE SUBSCRIBER, proposing to devote his entire time and undivided attention to the work, offers his services as

Teacher of Music

In the various branches.—PIANO, ORGAN, VOCALIZATION, HARMONY, etc.,—to the citizens of Portsmouth and vicinity. All orders received will be promptly attended to. MUSIC ROOM AT

Mercantile and Grange Hall, 5 Congress St.

☞ OFFICE HOURS from 10 o'clock A. M. to 12 M.; pupils instructed at their homes in the afternoon. The hundreds of residents in this city who have been his pupils in the past are sufficiently aware of his qualifications as a teacher; as a guaranty to others of his ability he would point to the many superior performers in the city who received their instruction mainly or wholly from him.

A. PEARSON.

Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1877. Stawtjan1 78

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma and Consumption.

The few compositions, which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as

Ayer's Cherry Pectoral.

It has been known to the public about forty years by a long continued series of marvellous cures that have won for it a confidence in its virtues, never equaled by any other medicine. It still makes the most effectual cures of *Coughs, Colds, Consumption*, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors, to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its timely use in sudden attacks.

E. G. PIERCE, JR., P. M.

THE CITY.

Parties fishing in the vicinity of the Shoals report getting better fares this fall than for the past ten years.

On Saturday the fishing schooner Mary E. Smith arrived at Tredick's wharf with 14,000 lbs. of hake and cod, and the Grace Choate with 10,000 lbs. of hake, cod and haddock.

The wife of Rev. H. L. Kelsey, formerly pastor of the Methodist church in this city, died suddenly at her home in Hollis on Friday morning. She was about forty years of age, and leaves several small children.

The Fair in aid of St. Mary's church opens in Franklin Hall at 7 o'clock this evening, and will be open each evening through the week, and Wednesday and Saturday afternoons at 2 o'clock. All of the usual attractions will be offered. Admission 25 cents.

Another unsuccessful attempt was made on Sunday to tow the brig Clara J. Adams off the beacon ledge, the tug Clara Batemen parting several stout hawsers without starting the wreck. The brig was lifted well off the rocks forward, but she was still heavily grounded on the ledge aft, where it is not easy to get a lift on her owing to the shoalness of the water.

The Manchester *Mirror* perpetrates the following diabolical slander on the Concord & Portsmouth Railroad: "An estimable lady came down from Bow to the depot recently, and when the horse-car came along stepped in and took a seat, which she kept until it turned at the north end, when the driver asked where she wanted to go. She said she was going to Portsmouth to see her daughter. The driver informed her of her mistake, when she said: 'La me, I can't see very well and I thought I was on the Portsmouth train, but it seemed as if we was going amazing fast for that road."

COMMISSIONER'S COURT.

On Saturday, Henry J. Davis, a seaman, was brought before United States Commissioner Hackett, charged with stealing from the Portsmouth post-office a letter belonging to A. H. Palmer, one of the crew of scheoner Active. District Attorney Hall, for the United States, desired a postponement until Monday, which was granted. Messrs. Page and Harriman appeared for the defendant.

Davis, who was arrested Friday evening, came here on the schooner J. B. Vandusen; he was drunk when arrested, and had in his possession at the time five letters addressed to members of the Active's crew, three of the letters having been opened. On being arrested he said that he belonged to the Active; that while in Georgetown she went off and left him; he therefore took passage in the Vandusen for this port, and reaching here before the Active, called at the post-office for the letters, intending to hand them over to their rightful owners on their arrival. He denied any evil intent, and said the letters must have got opened while he was drunk.

The case will be heard this forenoon.

INSPECTION OF PETROLEUM.

Mr. Robert E. Rich, the city Inspector of Petroleum and its Products, has asked the city government to define his duties and his powers,—a very reasonable request, for he has a right to know just how far he will be supported by the city government in his endeavors to enforce the law which prohibits the sale of kerosene which "flashes" at a lower temperature than 100 degrees Farenheit and "flames" at less than 110 degrees. He evidently proposes to do his duty; and it is also evident that he does not wish to become involved in a law suit—or suits—through doing his duty, and then be left in the lurch by those to whom he has a right to look for support. If the Inspector of Petroleum has not power to prevent the sale of oils which the statutes prohibit the sale of, the office should be abolished, and free trade in such oils allowed; if he has such power, would-be dealers in such oils should be given to understand that he will be supported by the city in exercising it.

We recently gave an account of a test of oil which had been condemned by Mr. Rich, made by an inspector sent to this city by the manufacturers of the rejected oil, in which the out-of-town inspector managed to make the oil just come up to the State standard, though he said he *could* make it appear even better. Mr. Rich has since that time tested other samples of the same oil, one of which flashed at 86 degrees and flamed at 93, another sample flaming at 98 degrees. To burn such oil as this is about as safe as it would be to burn good quality gunpowder; and it is not enough that the Inspector has authority to prohibit its sale; he should have ample power to enforce his prohibition, and if the ordinances do not provide for this the ordinances should be blacksmithed. One of our leading grocers, who sells only the best oils, informed us a few days ago that his empty kerosene barrels, marked by the Inepestor as containing a high grade of oil, are bought right along by the dealers in inferior oils, who no doubt fill them with the dangerous rubbish and then sell it out as being first-class, on the strength of the Inspector's marking. How this dodge can be defeated is not our business to decide; but the city government should find out some way to do it, and invest the Inspector with abundant power to carry out whatever plan they may devise.

AN ECCENTRIC DOG.

On Saturday afternoon a dog belonging to Mrs. Joseph C. Langley, of Deer street, created quite an excitement, which finally culminated in serious misfortune to the dog. His first performance was to rush out of the house, and bite a hen. He then took a circuit about town, biting Mr. Sise Frost and Mr. Joseph Akerman on the way, though not severely enough to draw blood in either case; he also bit four (and possibly more) dogs, and tried to bite another man, but failed in the latter enterprise owing to the vigor with which the assailed individual whacked the assailant with an umbrella. After biting Mr. Akerman and being repulsed by the umbrella man, the dog ran up Market street, pursued by a crowd of men and boys armed with clubs and brick-bats; and after turning up Deer street, possibly to run home, a heavy cart-stake was laid over his head by Mr. Garrett Cunningham, teamster for the Portsmouth Brewing Company, in such manner as to preclude any further display of canine eccentricity on his part. The dog is supposed to have been afflicted with rabies, and it is fortunate he was killed before he managed to bite any one severely enough to occasion apprehension as to the result.

OBITUARY.

The Winona (Minnesota) *Republican*, in an obituary notice of the late S. Newhall Knight, says:

"For some fifteen years he had been in the employ of the American Express Company, spending a portion of the time at Saint Paul, then at Read's Landing, and latterly, for some ten years he represented the Company as agent in Winona. For sterling honesty and fidelity in the discharge of his duties he was noted not only among his associates but also with the business public. He was a hard worker, took little rest, and was always at his post. For several years he was a zealous and efficient officer in the work at the West End Mission of this city. His age was forty-one. He leaves a wife and two children. A man of kind heart, he was held in high esteem by his associates and by all who knew him. The family in their bereavement will receive the sympathy of a large circle of friends."

Mr. Knight furnishes another illustration of the energy and ability with which Portsmouth boys make their way in the world away from home, and the honorable positions they generally hold in society. Mr. Knight was a native of this city, a brother of Mr. Oliver M. Knight, and left here to make himself a home in the great West some twenty-five years ago.

WHERE TO BUY.

As the talk about cheap and dangerous kerosene may make people who value their lives timid about using any kind of kerosene oil for illuminating purposes, it may not be amiss to assure them that any oil which stands a test of 110 degrees or more before flaming is perfectly safe; and we have taken the trouble to ask Lieut. Rich what kind of kerosene is sold by the prominent grocers who keep their advertisements in the columns of the CHRONICLE. He informs us that Butler & Laighton sell two qualities—their *cheap* oil, which is warranted to stand a test of 130 degrees and always goes above it, and another grade that never flames below 140 degrees; Henry F. Gerrish never has oil that goes below 120 at the test, and his best goes up to 150; and Charles E. Laighton & Son sell only that which is warranted by the manufacturers to stand a test of 140 degrees, and always comes up to that standard by the Inspector's test. Not only are the oils sold by the grocers named, perfectly safe to burn, but a dollar's worth of any of the brands will last longer and give a better and purer light, and with less smoke, than a dollar's worth of any of the inferior oils,—in fact, the high grades of oil are really cheaper in the end than the so-called cheap stuff. It is with kerosene as with anything else, a good article is cheaper than a poor one; and it may be taken as a rule—and it will rarely be found to fail—that the dealers who advertise their wares are the best ones to trade with.

THE VICINITY.

Abbott Norris' store, in North Hampton, was entered through the cellar, Wednesday night, 10th inst., and a considerable quantity of groceries and other articles were stolen. The money drawer was taken from its place and conveyed to the Eastern depot, near by, and robbed of about $40. Attempts to break into other stores were also made.

The grocery store of Chesley Brothers, in Rye, was broken into and robbed early on the morning of Sunday, the 14th inst. The burglars effected an entrance by removing a pane of glass and unlocking the door. The loss is estimated at $600, the stolen goods consisting of boots, shoes, cloth, cutlery, etc. More than a hundred burned matches were found scattered upon the floor in different directions, showing that the thieves had no dark lanterns or other appliances of professional burglars, and it is more than probable that they are the same fellows who robbed Leavitt's store in Hampton on the night of the 14th. The robbery of Chesley Brothers' store was kept very quiet, seemingly, as the Boston *Herald* of Saturday morning was the first paper we saw it in.

NAVAL MATTERS.

The repairs to the U. S. S. Enterprise having been completed, she has been taken out of the dry dock at Norfolk and is being coaled and provisioned for service.

Assistant Naval Constructor John F. Hanscom is detached from the Boston navy yard and ordered to the navy yard at League Island.

A dispatch from Capt. Jonathan Young, commanding U. S. S. Tennessee, the flagship of the Asiatic squadron, reports that vessel at Yokohama, Japan, Sept. 18th.

Lieutenant-Commander Charles S. Cotton is nominated to be a Commander in the Navy from April 26th, 1877.

First Lieutenant Charles L. Sherman, U. S. M. C., resigned his position on Sept. 8th.

DEATHS.

Portsmouth Chronicle

Books, Magazines, Etc.

The New York *Tribune*, which was the first to issue the cheap novels of which so many imitators have appeared, has lately added to its list a new story of which it publishes the only edition, by an American author. "Drifted by the Sea, or, the Child Crusoe," by Mr. Henry W. Cleveland, is a modern and modified version of the original "Robinson Crusoe." "Swiss Family Robinson" and other standard and popular juveniles rolled in one, and is meeting a large and rapidly increasing sale. All the boys and girls who get it read it through, and the older members of the family frequently finish it first. The *Tribune* novels have this advantage and merit over all other cheap literature of the day—that they are standard, high-class fiction, the works of only the best writers, and thoroughly substantial and meritorious. Among the authors represented are Thomas Hardy, R. D. Blackmore, Mrs. Oliphant, Mr. Francillon and other prominent and popular novelists. Send ten cents to the *Tribune* Office, for Novel No. 13, "Drifted by the Sea," and you will receive the value of the money, and at the end of the story will find a complete list of the other *Tribune* novels, just the reading for the long evenings, which are coming.

D. Lothrop & Co. bring out shortly a new and fine edition of that always popular book, Thomas Starr King's "White Hills of New Hampshire." The same publishers will issue, in time for the holiday trade, "In Company with Children," a new volume of poems by Mrs. S. M. B. Piatt. It will be fully illustrated by Miss Humphrey, Jessie Curtis, and Robert Lewis.

—The paper shirt has had its day. It was good enough to go to a picnic in, but wouldn't stand a ward caucus worth a cent.

—The Canadian minister of the interior, Mr. David Mills, is an excellent official, but a dreadfully dry speaker. When in Manitoba recently he met with the Crees in council to explain to them the Indian lands policy of the government, and made a speech an hour long. The chief, Joseph Prince, listened in patience, rose, and replied in an oration lasting from one to 6:45 P. M., to the infinite delight of the Indians.

"Combines more attractions than any other."—*Beaver (Pa.) Times.*

☞ *CHEAPEST AND BEST!* ☜

Peterson's Magazine !

FULL-SIZE PAPER PATTERNS!

☞ A SUPPLEMENT *will be given in every number for 1876, containing a full-size paper pattern for a lady's or child's dress. The value of patterns we will receive, during the year, twelve of these patterns, so that these alone will be worth more than the subscription price.* ☜

"PETERSON'S MAGAZINE" contains every year, 1000 pages, 14 steel plates, 15 colored Berlin patterns, 12 mammoth colored fashion plates, 24 pages of music, and 900 wood cuts. Its immense circulation enables its proprietor to spend more money on embellishments, stories, &c., &c., than any other. *It gives more for the money than any in the world.* Its

Thrilling Tales and Novelettes

Are the best published anywhere. *All the most popular writers are employed to write originally for "Peterson."* In 1876, in addition to the usual quantity of short stories, five original copyright Novelettes will will be given, by Mrs. Ann S. Stephens, Frank Lee Benedict, Mrs. F. H. Burnett, and others.

Mammoth Colored Fashion Plates

Ahead of all others. These plates are engraved *on steel, twice the usual size,* and are unequaled for beauty. They will be superbly colored. Also, Household and other receipts, in short, everything interesting to ladies.

N. B.—At the publisher now prepays the postage to all mail subscribers. "Peterson" is cheaper than ever; in fact is the cheapest in the world.

TERMS, Always in Advance, $2 A YEAR !

2 copies for $3.50; 3 copies for $4.50; with a copy of the premium picture (24x28) "*The Angels of Christmas*," a five dollar engraving, to the person getting up the Club.

4 copies for $6.50; 5 copies for $8; with an extra copy of the Magazine for 1876, as a premium to the person getting up the club.

6 copies for $9.00; 8 copies for $12; 11 copies for $16; with both an extra copy of the Magazine for 1876, and the premium picture, *a fine dollar engraving*, to the person getting up the club.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them (unless it is shed prematurely. AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the fading of the hair immediately; then renews the growth; and always surely restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brash, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with livelier expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

DOCTOR PIERCE'S

ALT. EXT. OR

Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD

In the wonderful medicine to which the afflicted are above invited for relief, the discoverer believes he has combined in *harmony* more of Nature's sovereign curative properties, which God has intuited into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent unpleasable or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite and bowels loosed, you are suffering from **Torpid Liver,** or "**Biliousness.**" In many cases of "**Liver Complaint**" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

R. P. HALL & CO., Nashua, N. H.

37 SOMETHING NEW. Have you seen that nice CHOUAGUEN? At 37 Market Street.

Centaur

Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The **White Centaur Liniment** is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have per ormed more wonderful cures of a chronic character than any other remedies ever offered to the public. They have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinarians. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been specially restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment,** been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Grapes and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to taste as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & Co., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,
NORMAN P. LITTLE.

The Centaur Liniments are the greatest discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

This Cut Illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high* and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting a cure is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of "**Cold in the Head**" by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche,** and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 50 cents, **by all Druggists.**

Trains from Boston arrive at Portsmouth at 10:34, A. M.; 2:24, 5:38, 6:58, 9:18 P. M.

Trains from Portsmouth arrive at Boston at *7, 9:30, 10:45 A. M.; 1:30, 6, P. M.

*Except on Mondays.

Oct. 7, 1877. A. P. ROCKWELL, Pres't.

Concord & Portsmouth Railroad.

PASSENGER TRAINS leave Concord Railroad Station, foot of Bridge Street:

For Newmarket Junction, Manchester, Concord and Upper Railroads, at 7:55 A. M., and 6:15 P. M.

Arrive at Manchester at 9:46 A. M., 7:10 P. M.

Arrive at Concord at 10:35 A. M., and 8:15 P. M.

Leave Concord at 7:30 A. M., and 3:40 P. M.

Leave Manchester at 8:15 A. M., and 4:25 P. M.

Arrive at Portsmouth at 10:10 A. M., and 6:15 P. M.

☞ All trains connect at Newmarket Junction, with trains of the Boston & Maine Railroad for Exeter, Haverhill, Lawrence and Boston; and for Dover, Great Falls and Portland; at Concord with trains to and from all the Upper Railroads.

H. E. CHAMBERLAIN, Supt.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,267,5 0 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to bounty from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

☞ *All New Subscribers for 1878 paying in advance after November 1, 1877, will receive the paper Weekly, from receipt of remittance to January 1st, 1878, without charge.*

COMBINED PAPERS—FORTY-EIGHTH YEAR.

THE COUNTRY GENTLEMAN.

A Premium Annual to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy, one year, $2.00; Four copies $10, *and an additional copy for the year free to the sender of the Club*; Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs*, to each subscriber—a book of 144 pages and about 140 engravings—a gift by the Publishers, in honor of the completion, in its present weekly form of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman possesses an unequaled Corps of Correspondents, regular and occasional, among the *Best Farmers* of All Parts of the Country, and constantly contains the practical condition and progress of the husbandry of every section of the United States and civilized world.

The Country Gentleman gives in its *Horticultural Department* a continuous variety of information and suggestions, in the aggregate to what is obtained in the monthly numbers of most magazines devoted to Horticulture.

The Country Gentleman has probably done as much as all other Journals combined, to introduce and disseminate *Improved Stock* of every kind through the country; and commands, to a greater degree than any contemporary, the confidence and support of Breeders and Dealers.

The Country Gentleman contains unusually full and trustworthy *Market Reports*, and devotes special attention to them and to the prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and so on, and weekly presents a column or two for the Housewife and an interesting variety of Fireside Reading. It contains a well-edited review of current events, and its advertising pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address

CATARRH

Catarrh of the Nasal Cavities, Acute, Chronic, and Ulcerative, Hay Fever, or Rose Catarrh, Catarrh of the Eye and Ear and Catarrh of the Throat,

SUCCESSFULLY TREATED WITH

SANFORD'S RADICAL CURE.

CATARRH is a disease of the mucous membrane. Temperaments and constitutions vary, its severity in individual cases. Catarrh may arise from a cold or a succession of colds, from sudden change of atmosphere, wearing wet clothing, or exposure to inclement weather, and becoming in roughly clothed when the digestive organs are in a morbid or inactive condition, and the strength and vital forces exhausted. The disease may arise from a scrofulous condition of the blood, from Scarlet Fever, Measles and Diphtheria, in which cases the eye and ear are generally involved and discharge quantities of matter. The discharges from the nasal passages are in all catarrhal cases from whatever cause they arise, may be thin and watery, and acrid as to cause redness and excoriation of the skin with which they come in contact, or thick and yellowish, emitting a foul odor, or clear and white like the white of an egg. There may be an entire lack of secretion, the surface being dry and feverish, the inner, front and upper part of the head feeling uncomfortable, and as if it was encircled by a tight, unyielding band. This latter phase is called Dry Catarrh. The free mucous discharges cause the passages to swell and become sickened, rendering breathing through the nose difficult or impossible, and the sufferer finds it necessary to breathe through the mouth, thereby permitting cold air to pass directly to the bronchial tubes and lungs. The matter passing down the throat creates a constant desire to hawk and expectorate to throw it off; but when the membrane is dry and feverish, instead of passing freely down from the nose and throat, the mucus becomes hard and forms into scales, incrustations, and hard lumps, which adhere so firmly to the nasal passages and throat as to require very persistent efforts to dislodge them. The eye is sympathy becomes inflamed, red, weak, and watery, or in the morning the lids may be found glued together, and matter is secreted in more or less quantity. The ear also becomes seriously affected, discharging quantities of matter, besides being visited by the most violent neuralgic pains, causing frequently inflammation, ulceration, and finally deafness. The throat, bronchial tubes, and lungs are in many cases affected by catarrh, and when prostration of the nervous system is superadded, such affections become alarming.

A brief survey of this most serious disease warns all who are afflicted with it to make speedy preparation for its treatment before it becomes chronic. The advantages offered by SANFORD'S RADICAL CURE we confidently believe are to be found in no other remedy. Every step in its preparation, every line in the directions, marks it as a scientific remedy, calculated to meet every phase of the disease. The numerous testimonials from the best people in the United States attest the extent to which it is used, and those who have been freed from the most destructive and dangerous disease with which mankind is to-day afflicted.

JUST PUBLISHED.

A carefully revised Treatise on Catarrh, with an accurate description of its symptoms and sympathetic diseases, together with minute directions for effecting with SANFORD'S RADICAL CURE a speedy and permanent cure. Also observations on diet and the general health, of vast importance to all afflicted with catarrh. It is wrapped about each bottle of the RADICAL CURE, or will be mailed free on receipt of stamp.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. *Price $1.* Sold by all wholesale and retail druggists throughout the United States and Canada.

Daily Chronicle.

Business Still Progressive.

The extent to which business has revived had not been anticipated by the railroad companies. They have permitted themselves accordingly to be caught napping as it were. Not one of the roads leading into Chicago has enough of cars to receive the freight which offers, and even the roads leading to the East are found deficient in carrying facilities. This is certainly an encouraging sign. More cars must be built to accommodate the freight, and this implies activity in machine and other shops, and the employment of additional brakemen to a large extent. If now the railroads are short of thousands of cars daily, strenuous efforts must be made to supply the deficiency before the close of navigation, when the traffic on the roads will be enormously increased. All this points to a return of better days for mechanics and artisans, and an improvement in their circumstances must give stimulus to the retail trade generally.

Within the last four months there has been indicated a rise in the market value of railroad and other stock, amounting to about $280,000,000. That is, there has been that much addition to the apparent value of the securities dealt in on the Exchange between June and October. This means better circumstances to tens of thousands of families. But it has a significance of another kind. Merchants have been complaining that their sales, though large, have been mostly of the coarser kinds of goods, and that their fine stocks remain on their hands. Frugality is still the order of the day, and in households where money has not been scarce articles of necessity and not of luxury are sought after.

But this increase in the value of corporate securities shows that the over-timidity and caution which prevailed have disappeared. There is less of a nervous dread for the future. People will soon buy more than is absolutely necessary for the maintenance of life. They will purchase what contributes to the graces and higher comforts of modern tastes and habits.

Thus an active and effective home demand for manufactured products must come—not all at once, but steadily. The artisans, mechanics and laborers will at least soon have steady employment and perhaps more pay, and will be able to buy what they want for themselves and their families. The richer classes will become more liberal in their purchases as the signs of industrial depression depart. Real estate which has fallen so low, must soon rise again. Other property will also increase in market value. Capital once freed from the feeling of dread inspired by the panic will be invested in manufactures and in mining, and impart the necessary life to house and ship construction and to many of the industries, once so great, which are now nearly dormant. There has as yet been no check to the return of prosperity.

—*New York Graphic.*

The Cosmograph.

M. Riviere, of Marseilles, France, is to be credited with a capital idea for popularizing astronomical knowledge through the medium of a simple monument which may be set up in public squares, private grounds, or any other convenient locality. Several have already been erected in French cities. The cosmograph, as the invention is called, shows, first, by a vertical circle, the plane of the meridian. A rod, directed toward the polar star, passes diametrically through the circle and shows the position of the earth's axis. A circle placed at right angles to the first indicates the plane of the equator. Of course the inclination of the axial rod varies according to the latitude of the locality. A small rod, placed vertically above the meridian circle, shows the zenith. Four other arms, fixed 28 degrees above and below the equator, mark the tropics, and four more, placed at the same distance from the points of intersection of the axis, mark the polar circles. The graduation comprised between the tropics allows of the sun's movement in declination being followed, the solstices and equinoxes being observed, and the succession of seasons noted. The equator, divided into degrees and receiving the shadow of the axis, becomes a sun dial, an arc of 15 degrees counting one hour. After a little practice it is easy to refer the curves of the cosmograph to the heavens, when the principal constellations may readily be found, especially those of the zodiac, through which passes the plane of the ecliptic, the annual apparent path of the sun. Inscriptions in relief show the names of the various portions of the instrument, and several useful astronomical facts and data are engraved on the pedestal.

—*Scientific American.*

Daily Chronicle.

TUESDAY, OCTOBER 23, 1877.

Washington Correspondence.

WASHINGTON, D. C., Oct. 19.

The participation in the Republican caucus of several Senators from the South, who have heretofore acted with the republicans but who have been reported as about to make the best terms possible with the democrats, out of revenge, seemed to definitely settle their status as having decided to "stick to the wreck," and their vote on the question of sending the credentials of Spofford to Committee is regarded as proof positive they can be relied on to act with their party in emergencies. The vote in question was productive of some comment about town and at the hotels last night. Every development thus far, leads to the conclusion that the impetuous republican members who came here primed for an early tilt with the President, have been induced by the cooler heads to lay aside their weapons of warfare against him for a time, and to unite against the common enemy. If the vote means that Spofford's admission will be contested as a party measure, it would seem to indicate that the opponents of the "Southern policy" have been accepted as leaders, and that the President's action in recognizing the Nichols and Hampton governments, with the logical effect it carried with it to invalidate elections under preceding regimes, are to be ignored so far as possible in the treatment of the claims of contestants to seats in the Senate. But it may turn out that those voting for the reference did it with a view to an impartial investigation, and that it furnished no indication of their vote on the final question for admission.

There was no session of the House yesterday. The impression seems to strengthen that we are in for a protracted extra session. After all the matters proposed for legislation in the message have been disposed of, there are enough others being urged to carry the session right through to the day of convening the regular session in December. The constituuencies behind some members, have seemingly gone daft over the matter of resumption, and they with many others are so thoroughly in earnest to bring about remonetization, that representatives will hardly dare disregard the standing command that the fight against the one and in favor of the other be inaugurated at the earliest practicable moment.

It is said that Libby, deputy 6th Auditor, who was sent West to force restitution in the cases of double payments to contractors through the connivance of O'Brien, sends word that he has succeeded in every case and that the government will lose nothing.

The Russian victory reported from Asia Minor was received with unmistakable signs of gratification by a large majority of Washingtonians, residents and visitors, upon the theory, probably, of choosing the least of two evils.

Quite as large a proportion was made glad by the substantial victory achieved over the jesuitical intriguers in France the other day. Considering all the bulldozing McMahon was able to inflict through possession of the Government machinery, the result is accepted as showing that France is irrevocably committed to the republican form of Government, and that if the republican leaders can succeed in the next election for Senators as well, even the gates of Rome cannot prevail against her. KNOX.

WASHINGTON, D. C., Oct. 20.

The beneficent effect of a little cool reflection upon the absurdity of a family quarrel among republican members of Congress, was apparent yesterday when the case of Spofford, the rival of Mr. Kellogg, came up in the Senate. The democrats have evidently counted on a division among their opponents on this matter, insuring their reinforcement by the admission of Spofford and Hamburg Butler. Very few, even among concentrated Bourbons, have the effrontery to deny the legality of Kellogg's election; and there was a marked disinclination of their lawyers, for instance Thurman and Bayard, to discuss the law or equities involved; but they contented themselves with the general statement that by the recognition of Nichols, Kellogg lost all rights he had previously acquired, leaving Spofford as the only one that could consistently claim the seat. But the republicans were unanimously of the opinion that such a method of getting rid of an opponent was wholly inconsistent with our theory of majority rule, and too sweeping to make it a safe precedent; and by a strict party vote Mr. Spofford's credentials went to the committee where Kellogg's were voted at the last session. This vote puts an effectual quietus upon the statements of numerous newspaper-writers to the effect that several southern republican Senators, soured by the "Southern policy," had determined to cast in their lot with democracy and would vote accordingly on all party questions. It also makes us hopeful that the claims of Messrs. Kellogg and Corbin will be decided upon their merits, without much reference to what any one else has done or failed to do; and if the Ohio disaster is shown by subsequent proceedings to have once more consolidated the republican vote in Congress, its sting will prove comparatively innoxious.

Even before the election of a Speaker, the indignation of republicans over the usurpations of Clerk Adams, found voice in the case of Mr. Belford; and the cup of fuming, effervescing little Mr. Cox's humiliation was made to run over when Mills and enough more of his party voted with the republicans to admit Rainey and Cain.

The weight of opinion appears decidedly favorable to a protracted extra session, though the President carefully avoided giving any pretext for its continuance longer than two weeks, at farthest.

As the alleged cause for the refusal of the House majority last winter to provide for the army no longer exists, a lengthy debate over the amount asked for that purpose, and factious opposition to its appropriation, would be so generally condemned that it cannot reasonably be anticipated; and the injustice to the officers and men of the navy, and the detriment to th epublic service that has followed the failure to provide for them, and for the necessary expenses of United States Courts, are so well understood, and the motives that prompted the opposition are so thoroughly appreciated, that the respective amounts stated as necessary to bring us out square at the end of the year, will, it is believed, be voted without much haggling.

It is felt on all sides that since the surrender of the Nez Perces and the quiet submission of the tribes recently represented here by the Sioux delegation, to the removal to the Missouri, our prospects for a lasting adjustment of our Indian relations on a peace basis are brighter than for many years, There is nothing specially important from Sitting Bull; but should he reject Gen. Terry's terms and attempt to recross the line on a hostile mission, the force now in his vicinity is sufficient to successfully cope with him. KNOX.

The Eastern War.

Reports from Constantinople announce something very like a panic there on account of the defeat of "Conqueror" Mukhtar Pasha in Asia Minor. The Russians are correspondingly elated. Mukhtar notifies his government that he holds a position to cover the retreat from Kars, should the Turks be driven out.

On Saturday the Roumanians captured the second Grivitza redoubt after three assaults, but during the night the Turks, after a sanguinary fight, retook the position.

A Russian ukase has been promulgated, ordering the foot and horse artillery of reserve to be placed on a war footing.

News and Notes.

The wife of Gilman, the New York insurance scrip forger, has become a raving maniac.

Three hundred and twenty houses were burned in the Portland suburb of St. John, N. B., on Saturday, and over 2000 persons were rendered homeless. One man was burned to death, three boys were killed by a falling wall, and several persons are missing.

On Saturday an explosion took place at the China Silver Company's mine at Newburyport. Some loaded cartridges to be used in blasting, were laid on the blacksmith's forge to dry, and exploded, blowing the roof off the building and breaking some glass. Nobody was hurt.

Ned Gaulsby, colored, having been arrested for burglary at Atlanta, Ga., on looking up his record it was found that he owed the State some service—159 years of it, in fact, having four times escaped from jail—namely, when sentenced to a ninety-nine years term for murder and three terms of twenty years each for a homicide and two burglaries.

A very light adulteration of kerosene oil with naphtha or benzine makes a very dangerous compound. A report to the New Orleans Board of Health gives the following tests:—When kerosene that would not flash below 113 deg. Fah. had one per cent. of benzine added to it, it flashed at 103 deg.; with two per cent., at 92 deg.; with five per cent., at 83 deg.: with ten per cent., at 59 deg. This means that a comparatively slight adulteration will produce an oil that gives an inflammable vapor in the ordinary heat of apartments—an oil that is more dangerous to the consumer than a keg of gunpowder.

By a fire in the dwelling of a Dr. Demees, at Myerstown, Penn., Saturday night, Mrs. Demees and her mother were suffocated, and the doctor very nearly so.

A son of M. Belknap of Holland, Vt., was instantly killed Saturday afternoon. Belknap and another young man had loaded their guns, preparatory to attending a shooting match. The other boy, having set his gun in a sap-holder, stepped some eight feet back. When Belknap placed his in the holder he hit the lock of the other gun, discharging it, the charge striking him in the chin and blowing the top of his head entirely off.

Miss Alice Blaine, eldest daughter of Senator Blaine, aged about eighteen years, was seriously injured on Saturday evening at her home in Augusta, Me., by the premature discharge of a toy pistol belonging to a younger brother, with which she was playing. The ball entered her forehead, inflicting an ugly wound, though the physicians say if inflammation does not set in her recovery will be speedy.

It will be difficult to find a spot where municipal reform needs more attention than in Montreal The majority of the City Council is composed of French Canadians, and that body has refused to pay the volunteers who were ordered out by the authorities to prevent trouble at the funeral of Hackett, the murdered Orangeman. The grand jury, by a sectarian vote, has refused to indict men for participation in the riots of the 12th and 16th of July, though there was sufficient evidence to warrant sending the prisoners up for trial. Thirteen of these grand jurors made their marks to their receipts for pay, as they were unable to write their names.

Martin E. Michael, a South Adams (Mass) butcher, was shot Friday through the heart in the presence of his wife and child, a revolver in his coat pocket being accidentally discharged.

Clintonville, New York, has been devastated by small-pox. Twenty persons have died within a few days. Travelers are prohibited from entering the place, all the highways being blockaded.

Burglars entered the jewelry store of J. H. Otis of North Berwick on Saturday night, and carried off watches, jewelry, revolvers, etc., to the amount of several hundred dollars.

Birmingham advices, September 29th, of the London *Times*, contain this notable statement: "From the colonial markets, and especially Australia and New Zealand, the indents are of fair extent; but the lengthening list of American made goods, which are superseding English hardware, in these markets, is a source of considerable anxiety to merchants and manufacturers."

Mr. Walker, the statistician of the New York Produce Exchange, estimates the wheat yield of the present year, as 325,000,000 bushels, and the corn yield as 1,280,000,000. So large a yield of wheat has never before been experienced in the United States. The nearest approach to it was in 1874, when the total was 302,102,700 bushels. Last year it was 286,000,000 bushels. Twice the estimated corn yield of this year has been surpassed—last year, when it was 1,300,000,000, and in 1875, when it was 1,320,000,000 bushels.

New Hampshire Items.

In the Supreme Court at Dover on Saturday the Clerk declared the following county officers elected: Register of Deeds, Ezra H. Twombly; County Treasurer, Henry H. Hough; County Commissioner, John Bartlett.

P. T. Taleor, aged 70 years, was found drowned in the flume under his shop at Woodsville Saturday afternoon. It is supposed that he fell through a scuttle hole.

The Grand Jury, after a four days' session at Ossipee, found the following indictments: One against Joseph B. Buzzell, for aiding, hiring and conspiring with Charles W. Cook to commit murder, and one for aiding, hiring and conspiring with Cook to commit arson; one against Cook for murder. Other indictments were as follows: One for arson, one for burglary, three for sheep stealing, and 23 for selling liquor.

Political.

Well informed correspondents say there is already a project on foot in Washington to put Grant again in nomination in 1880, and we have no doubt that such is the case. In fact, there was an under-current working in favor of a third term, last year, but it never came to the surface for obvious reasons.—*Worcester Gazette.*

The Iowa republicans are a good deal elated over the figures of their triumph, and are not a bit backward in calling attention to their treatment of the question of indorsing the President as the true one. Their candidate for Governor has a plurality 18,000 larger than their candidate in the last off-year, and about 8,000 larger than their candidate in 1875. The majority in the Legislature is larger than it has been for many years.

The Concord (N. H.) *Patriot*, speaking of our election, says "There is a God in Israel." The assurance is comforting—but we trust next time to have him in Ohio.—*Cincinnati Times.*

Bob Toombs has gone back on the Solid South and joined the New England outcry against the Texas Pacific. Probably he is trying to coax the Yankees to let him call the roll of his slaves at the foot of Bunker Hill. He vowed he would do it, and where there is a will there is a way, even if it is a back way.—*New Orleans Times.*

The Washington correspondent of the Chicago *Inter-Ocean* says Senator Beck, of Kentucky, summarizes the situation by saying that the republicans stole the Presidency from the democrats, and now the democrats have stolen the President from the republicans. He adds that no power on earth, except the power of the democratic party to make mistakes, can prevent the democrats from electing all the Presidents of the country for the next twenty-five years. But, in order to do this, the democrats, he says, must come out for free trade, the silver dollar, and paper money for Custom duties. He wants all this done before the adjournment of the present session.

Crushed Belles.

The other night a groceryman at Vallejo gave a large party, at which the daughter of the carriage painter who lived next door created a decided sensation. It was not that she was more handsomely attired than the other ladies present, but that when she gyrated in the "dance of death" she was observed to display the only pair of pink silk stockings in the room. She left the house for a few moments at the expiration of the dance, and in the next waltz exhibited in light blue dittoes. An hour later her crushed and exasperated female friends beheld these supplemented by further hose of a delicate chocolate shade. And so it went on until her miserable rivals determined to follow her the next time she appeared. They traced her to her father's paint shop in the back yard, where she was discovered, brush in hand, and about ornamenting her nether extremities with a final artistic coat of light salmon. The exulting spies rushed back with the damaging news, but it was too late. The men were all too tight to understand, the music had gone home and the lights were being put out. Thus it is that fraud and duplicity triumph, while honest simplicity walks around with a darn on its calf and a hole in its heel.—*San Francisco Post.*

—An old-fashioned fire escape—A chimney flue.

—Autumn leaves—just before the first of December.

—A North Carolina man has been five times married, and has just obtained his fourth divorce. One wife considerately died.

—An Oregon paper has this decidedly personal item:—"A great lot of young ladies welcomed General Sherman at Albany. The old warrior went right in and kissed the whole of them, while his son, a young fellow who had never been through the wars, stood back and looked on."

—The *Scientific American* and one or two professors, are greatly exercised over the matter of curve pitching. They declare it an utter impossibility, and mathematical calculations are brought to their support. And still the pitcher takes his stand, twists the ball in some unknown manner and the batsman pounds away at—nothing.

—One of the new propositions for Government enterprise in fields where individuals can do better, is that the Post-office Department be transferred into a grand savings bank. This is to be done through the issue of Government bonds at a low rate of interest, redeemable on demand, and the postmasters are to be the medium through which such investments are to be made. The total amount of deposits in this country is estimated as high as $1,500,000,000. About $800,000,000 is in 7 per cent. securities, which it is proposed to replace by bonds at 4 per cent. It looks well on the surface; but heretofore all attempts on the part of the Government to go into private business have been failures.

—Father Doane of Newark, N. J., has prohibited the Catholic Dramatic Association of that city from playing the "Two Orphans." He thinks it difficult to choose a play that will prove perfectly acceptable, believing that the taste of the present generation has become vitiated, and that dramas adopted from the French are likely to be tinged with immorality. His chief objection to the "Two Orphans" was that the story turned upon the abduction of a young girl evidently with an improper motive, and also that in the prison scene of La Salpetriere the falsehood the Lady Superior is induced to tell by the doctor to hasten the release of the sister of the blind girl Louise is contrary to the teaching of the Church. Father Doane is held responsible for the character of the entertainments given by this dramatic association.

—Billy is dead. He was a venerable Newfoundland dog. In 1862 a man in delirium tremens jumped overboard from the schooner Hero, on a voyage to Labrador. The dog bounded over the taffrail, and for half an hour held to the man with his teeth fastened in the collar of his woollen shirt. The delay was occasioned by the capsizing of the first boat that was lowered. In 1864 the dog saved a baby that had fallen through a sewer hole in the wharf at Catalina, N. F. He jumped through the hole and was too large to swim between the posts of the wharf, but he held the baby's head out of the water and swam briskly in every direction in search of an opening. In 1869 he saved the life of a Swedish sailor, who, while drunk, walked into the landwash at Bonavista, N. F. Between 1870 and 1873 Billy saved three children and one grown boy. Then his strength failed, his teeth fell out one by one, until last winter he had not one left, and he finally died of the infirmities of age.

—The fire losses of the United States exceed the total gold and silver coinage by twenty millions of dollars per annum. We burn up $100,000,000 each year. This is a dead loss to the country at large and necessarily to each citizen, and increases *pro tanto* the taxation of what remains. Laws should be secured for the establishment of fire inquests, by means of which every fire should be made the subject of official investigation; laws for the regulation of buildings in the villages as well as the cities, and other statutory regulations for the prevention of fires.

—Daniel Webster's whist-playing friend, Mr. Henry Fox, formerly British Minister at Washington, had a habit of shutting himself up and refusing to see people. An Englishman who had business at the legation, complained bitterly of this to the secretary, who promised to speak to his chief and set things right. Shortly afterward, meeting the gentleman accidentally, the secretary asked him innocently if he had heard from the minister. "Heard from him?" wrathfully replied the other; "I should think I had! He has sent me the plate of his card, with permission to strike off as many as I like in return for those I have left on him!"

—In the little republic of Switzerland the telegraph lines are a part of the postal system, and the use of the former is as common as that of the mails. The rates are very low, only ten cents for a message to any part of the state, which is less than those of any other country. There is not a village, however small, or wherever situated, even in the highest regions of the Alps, that has not a government telegraph working night and day. The double postal card is also another great advantage. This enables you to send a business order, etc., on one part, and on the other your own address, so insuring an immediate answer without expense or trouble to the receiver.

E. G. PIERCE, JR., P. M.

THE CITY.

The wild geese have commenced to fly southward. Several large flocks passed over this city on Sunday.

Senator Blaine's daughter Alice, who accidentally shot herself on Saturday, as reported in another column, was a pupil at Miss Morgan's seminary in this city last summer.

Entries of fruit, etc., are invited from *any person* interested, for the Hall Show under direction of Portsmouth Grange, on Wednesday and Thursday of this week. See advertisement.

The schooner Lizzie K. Waters cleared at the Boston custom house on Saturday, for St. John, N. B., by way of Dover neck; at the last named place she will take in a load of brick.

"Notice to Mariners" is given by the Lighthouse Board that a Daboll's trumpet fog signal has been established at Whale's-back light station, entrance to Portsmouth harbor, and will be sounded during thick and foggy weather, giving blasts of eight seconds' duration, at intervals of twenty-two seconds.

The storm sent a lot of vessels into the lower harbor for shelter on Saturday and Sunday. Among the arrivals on Saturday were the brig Benjamin Carver, Shute, from New York for Portland; schooners Morelight, Webster, New York for Calais; Maria Foss, Tapley, for Bangor; James S. Pike, Robinson, Provincetown for Round Pond; Ocean Eagle, Maxwell, New York for Boston; Avail, Chateau, Boston for Brookline; Mariel, Bryant, Boston for Bristol; Agricola, Whitmore, Boston for Portland; Union, Brown, Boston for Machias; Royal Oak, Rich, Boston for Calais; Albert Bowden, Boston for Sullivan; Harriet, Weymouth, Lynn for Bangor; Advance, Pickett, Boston for Millbridge; William, Danforth, Port Johnson for Tenant's Harbor; Ida May, for Thorn's Cove, N. S.; Joseph William Fish, Watts, Philadelphia for Portland; Gertie E. Merrow, Dunning, Perth Amboy for Portland; Washington Freeman, Gilchrist, Perth Amboy for Thomaston.

SUPREME COURT--SECOND WEEK.

Monday, Oct. 22d, before *Stanley, J.*

The following jurors were returned to serve for the second and third weeks:

Chas. Osgood, John C. Dearborn, Caudia; Joseph W. Sanborn, Benj. J. Sanborn, Deerfield; Alden B. Smith, Wm. H. Crowell, Derry; E. Newton Chase, James R. Thing, Exeter; Wm. B. Lowd, Saml. Gilcreast, Londonderry; Benj. E. Chase, Prescott B. Emerson, Salem; Geo. A. Weare, Charles S. Dow, Seabrook; Matthew T. Betton, Chas. W. Kimball, Ward Two, Portsmouth; (Henry H. Ladd, Titus S. Tredick, Portsmouth, excused;) Augustus Walden, Zebulon Holmes, Ward Four, Portsmouth; Willard P. Meloon, Newcastle; James Winkley Hoyt, Newington; Geo. W. Marston, Newton; Daniel G. Moulton, North Hampton; William B. Sherburne, Northwood; John H. Chelsey, Jr. Nottingham. William H. Haddock and Adolph Nelson, of this city, to report Tuesday morning.

Trials began with State vs. Barney McKone; assault and attempt to commit rape. Verdict, not guilty. Small for State; Page for deft.

State vs. Chas. E. Morse; adultery at Chester. Verdict, guilty; sentenced to eighteen months in State prison. Small for State.

State vs. Sweetser; assault and attempt to maim William Kennedy. Given to the jury in the evening, at the adjournment; verdict to be announced this morning. Small for State; Hatch and Page for defendant.

Wm. H. Briant, Jr., of Salem, was arraigned upon ten indictments charging him with selling and keeping for sale liquors, contrary to law. Plea, *nolo contendere* in each; fined fifty dollars on one, and costs upon all the indictments. Hatch for respondent.

COMMISSIONER'S COURT.

Henry J. Davis, charged with stealing from the Portsmouth post-office a letter belonging to A. H. Palmer, was brought before United States Commissioner Hackett, (case continued from Saturday,) on Monday afternoon at half-past two o'clock, but owing to the unavoidable absence of two needed witnesses (seamen on a schooner in the lower harbor, and who could not get to the city on account of the storm,) the case was continued to Thursday.

AFLOAT AT LAST.

On Thursday of last week the navy yard riggers' gang, under the direction of their foreman, Mr. William Pinkham, commenced operations on the brig Clara J. Adams, the former contractors having given up after the failure of an attempt to float her off the north side of the beacon ledge, where she grounded after coming off her original berth on the ledge and cruising all over the harbor for an hour or so on Sunday night, October 8th. Mr. Pinkham, with the aid of a diver, placed additional chains under the wreck's bottom, and after one or two preliminary trials to tow her off, which resulted only in broken hawsers, on Sunday evening had got things fixed to suit him; and instead of waiting for daylight, (as was done by the former contractors, with the result already reported,) he had the tug Clara Batemen on hand, and during the night the brig was towed off the ledge and grounded in shallow water near Three Tree island. On Monday at low water the slack of the chains was taken in, and when the tide rose the wreck was towed to a berth off the head of Russell & Odion's wharf, where the remainder of her cargo of coal will be discharged.

NAVAL MATTERS.

Lieut. Commander Samuel H. Baker is ordered as Executive of the Enterprise at Norfolk.

The Bureau of Navigation will soon put in use on board the naval vessels the night signal invented by Lieutenant Very of the navy. This plan is based on the Roman candle system, and the colored stars are projected from a pistol from two hundred to three hundred feet into the air, by means of which the commander-in-chief of a fleet can readily communicate with any or all vessels in any crowded harbor, notwithstanding intervening vessels, which is of itself a very valuable improvement. By firing single red or green stars, or a combination of them, the numbers from one to ten can be made and all the sentences in the Navy Signal Code be readily communicated. The stars projected from the pistol are brilliantly red and green and can be seen at a distance of from ten to twelve miles, as has been ascertained by practical tests. This invention of new a means of nocturnal communication will, it is believed in high naval circles, be of incalculable service to the navy.

One Live Tooth

Is worth a dozen dead ones, and to secure the teeth from decay, it is only necessary to use the Fragrant Sozodont. The odor of this pure preparation is so delightful, that it is a luxury to apply it, and its beneficial effect upon the teeth is marvellous.

Unite your shattered China with Spalding's Glue.

The success which attends fair dealing is illustrated by the Louisiana State Lottery Company. This corporation, organized in 1868 for charitable and educational purposes, with a cash capital of $1,000,000 and an accumulated reserve of over $350,000, never scales or postpones its drawings. For information or tickets address M. A. Dauphin, President, P. O. Box 692, New Orleans, La.

LAME AND SICK HORSES, pronounced incurable, cured, free of cost. Giles' Liniment Iodide Ammonia.

Spavins, Splints, Ringbones, Bunches, Thoroughpins. Spring Knees cured without blemish.

MUSICAL INSTRUCTION!

THE SUBSCRIBER, proposing to devote his entire time and undivided attention to the work, offers his services as

Teacher of Music

In the various branches,—PIANO, ORGAN, VOCALIZATION, HARMONY, etc.,—to the citizens of Portsmouth and vicinity. All orders received will be promptly attended to. MUSIC ROOM AT

Mercantile and Grange Hall, 5 Congress St.

☞ OFFICE HOURS from 10 o'clock A. M. to 12 M.; pupils instructed at their homes in the afternoon. The hundreds of residents in this city who have been his pupils in the past are sufficiently aware of his qualifications as a teacher; as a guaranty to others of his ability he would point to the many superior performers in the city who received their instruction mainly or wholly from him.

A. PEARSON.

FRANCIS BROWN, Treasurer, Salem, Mass. w&sutu6d78

Portsmouth Chronicle

Farragut at Ten Years of Age.

Admiral Farragut and his family were spending the summer at the Branch, and while sitting on the portico of the hotel he said: "Would you like to know how I was enabled to serve my country? It was all owing to a resolution I had formed when I was ten years of age. My father was sent to New Orleans with a little fleet we then had, to look after the treason of Burr. I accompanied him as cabin boy. I had some qualities that I thought made a man of me. I could swear like an old salt. I could drink a stiff glass of grog as if I had doubled Cape Horn, and could smoke like a locomotive. I was great at cards, and was fond of gambling in every shape. At the close of dinner one day my father turned everybody out of the cabin, locked the door and said to me. 'David, what do you mean to be?' 'I mean to follow the sea.' 'Follow the sea! Yes, be a poor, miserable, drunken sailor before the mast, kicked and cuffed about the world, and die in some fever hospital in a foreign clime.' 'No,' I said, 'I'll tread the quarter deck and command, as you do.' 'No, David; nobody ever trod the quarter deck with such principles as you have, and such habits as you exhibit. You'll have to change your whole course of life if you ever become a man.' My father left me and went on deck. I was stunned by the rebuke and overwhelmed with mortification. 'A poor, miserable, drunken sailor before the mast, kicked and cuffed about the world and to die in some fever hospital! That's my fate, is it? I'll change my life and change it at once. I will never utter another oath, never drink another drop of intoxicating liquors, never gamble.' And as God is my witness I have kept those three vows to this hour. Shortly after I became a Christian That act settled my temporal as it settled my moral destiny."—*Scholar's Companion.*

—One of the points in which the Lowell ball nine excel is in their ability and skill in making what are known as "sacrifice hits;" i. e., when a man is on first base and but one out, to so strike as to send the ball into right field, thus enabling the man at first to advance a base even though the bats-man get out. The Lowells have four or five players who are up in this kind of batting.

"Combines more attractions than any other."—*Beaver (Pa.) Times.*

☞ *CHEAPEST AND BEST!* ☜

Peterson's Magazine !

FULL-SIZE PAPER PATTERNS!

☞ A SUPPLEMENT *will be given in every number for 1876, containing a full-size paper pattern for a lady's or child's dress. Every subscriber will receive, during the year, twelve of these patterns, so that these alone will be worth more than the subscription price.* ☜

"PETERSON'S MAGAZINE" contains every year, 1000 pages, 14 steel plates, 12 colored Berlin patterns, 12 mammoth colored fashion plates, 24 pages of music, and 900 wood cuts. Its immense circulation enables its proprietor to spend more money on embellishments, stories, &c., &c., than any other. *It gives more for the money than any in the world.* Its

Thrilling Tales and Novelettes

Are the best published anywhere. *All the most popular writers are employed to write originally for "Peterson."* In 1876, in addition to the usual quantity of short stories, five original copyright Novelettes will be given, by Mrs. Ann S. Stephens, Frank Lee Benedict, Mrs. F. H. Burnett, and others.

Mammoth Colored Fashion Plates

Ahead of all others. These plates are engraved on steel, *twice the usual size*, and are unequaled for beauty. They will be superbly colored. Also, Household and other receipts; in short, everything interesting to ladies.

N. B.—As the publisher now prepays the postage to all mail subscribers, "Peterson" is cheaper than ever; in fact is the cheapest in the world.

TERMS, Always in Advance, $2 A YEAR!

2 copies for $3.50; 3 copies for $4.50; with a copy of the premium picture (Size 24x30) "*The Angels of Christmas*," a five dollar engraving, to the person getting up the Club.

4 copies for $6.50; 5 copies for $8; with an extra copy of the Magazine for 1876, as a premium to the person getting up the club.

6 copies for $9.00; 8 copies for $12; 11 copies for $15; with both an extra copy of the Magazine for 1876, and the premium picture, *a fine dollar engraving*, to the person getting up the club.

Address, post-paid,

CHARLES J. PETERSON.

306 Chestnut Street, Philadelphia, Pa.

☞ Specimens sent gratis, if written for.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely. AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth; and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brashy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

DOCTOR PIERCE'S

ALT. ET. OR

Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD

In the wonderful medicine to which the afflicted are alone directed for relief, the discoverer believes he has combined *in harmony* more of Nature's sovereign curative properties, which God has placed into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most continued diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty. And eminent physicians prognose it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or "**Biliousness.**" In many cases of "**Liver Complaint**" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

HALL'S

VEGETABLE SICILIAN

HAIR

RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

R. P. HALL & CO., Nashua, N. H.

37 SOMETHING NEW. Have you seen that nice CHOUAGUEN? At 37 Market Street.

Centaur

Liniments.

They relieve pain;

They subdue swellings;

They cure burns without a scar.

The **White Centaur Liniment** is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate, long-hidden origins, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been specifily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment,** been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Grubs and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,

NORMAN P. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

This Cut Illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of

"Cold in the Head" by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick, mucous, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche,** and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 60 cents, **by all Druggists.**

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,397,840 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & Co., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

☞ *All New Subscribers for 1878 paying in advance after November 1, 1877, will receive the paper Weekly, from receipt of remittance to January 1st, 1878, without charge.*

COMBINED PAPERS—FORTY-EIGHTH YEAR.

THE COUNTRY GENTLEMAN.

A Premium Annual to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy, one year, $2.50; Four copies $10, *and one additional copy for the year free to the sender of the Club;* Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs*, to each subscriber—a book of 144 pages and about 140 engravings—a gift by the Publishers, in honor of the completion, in its present weekly form of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman possesses an unequaled Corps of Correspondents, regular and occasional, among the *Best Farmers* of All Parts of the Country, and communicates the practical results and progress of the husbandry of every section of the United States and civilized world.

The Country Gentleman gives in its *Horticultural Department* a continuous variety of information and suggestions, equal or superior in the aggregate to what is contained in the monthly numbers of most magazines devoted to Horticulture.

The Country Gentleman has probably done as much as all other Journals combined, to introduce and disseminate *Improved Stock* of every kind through the country; and commands, to a greater degree than any contemporary, the confidence and support of breeders and purchasers.

The Country Gentleman contains unusually full and trustworthy *Market Reports*, and devotes special attention to them and to the prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and so on, and weekly presents a column or two for the Housewife and an interesting variety of Fireside Reading. It contains a well-edited review of current events, and its advertising pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address

LUTHER TUCKER & SON, PUBLISHERS,

CATARRH

Catarrh of the Nasal Cavities, Acute, Chronic, and Ulcerative, Hay Fever, or Rose Catarrh, Catarrh of the Eye and Ear and Catarrh of the Throat,

SUCCESSFULLY TREATED WITH

SANFORD'S RADICAL CURE.

CATARRH is a disease of the mucous membrane. Temperaments and constitutions vary its severity in individual cases. Catarrh may arise from a cold or a succession of colds, from the change of atmosphere, wearing wet clothing, or exposure to inclement weather, and becoming thoroughly established when the digestive organs are in a morbid or inactive condition, and the strength and vital forces exhausted. The disease may arise from a scrofulous condition of the blood, from Scarlet Fever, Measles, and Diphtheria, in which cases the eye and ear are generally involved and discharge quantities of matter. The discharge from the nose, the distinctive feature in all catarrhal cases from whatever cause they arise, may be thin and watery, and so acid as to cause redness and excoriation of the skin with which they come in contact, or thick and yellowish, emitting a foul odor, or hard and white like the white of an egg. There may be an entire lack of secretion, the surface being dry and feverish, the face, front and upper part of the head feeling uncomfortable, and as if it was encircled by a tight, unyielding band. This latter phase is called Dry Catarrh. The free matter discharges down the passages to swell and become thickened, rendering breathing through the nose difficult or impossible, and the sufferer finds it necessary to breathe through the mouth, thereby permitting cold air to pass directly to the bronchial tubes and lungs. The matter passing down the throat creates a constant desire to hawk and expectorate to throw it off; but when the membrane is dry and feverish, instead of passing freely down from the nose and throat, the mucus becomes hard and forms into scales, incrustations, and hard lumps, which adhere so firmly to the nasal passages and throat as to require very persistent efforts to dislodge them. The eye in sympathy becomes inflamed, red, weak, and watery, or in the morning the lids may be found glued together, and matter is secreted in more or less quantity. The ear also becomes seriously affected, discharging quantities of matter, besides being visited by the most violent neuralgic pains, extending frequently in inflammation, ulceration, and finally deafness. The throat, bronchial tubes, and lungs are in many cases affected by catarrh, and where prostration of the nervous system is superadded, such affections become alarming.

A brief survey of this most serious disease warns all who are afflicted with it to make speedy preparation for its treatment before it becomes chronic. The advantages offered by SANFORD'S RADICAL CURE we confidently believe are to be found in no other remedy. Every step in its preparation, every line in the directions, mark it as a scientific remedy, calculated to meet every phase of the disease. The numerous testimonials from the best people in the United States attest the success in which it has held by those who have been freed from the most destructive and dangerous disease with which mankind is to-day afflicted.

JUST PUBLISHED.

A carefully revised Treatise on Catarrh, with an accurate description of every stage and symptomatic diseases, together with minute directions for effecting with SANFORD'S RADICAL CURE a speedy and permanent cure. Also observations on diet and the general health, of vast importance to all afflicted with catarrh. It is wrapped about each bottle of the RADICAL CURE, or will be mailed free on receipt of stamp.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price $1. Sold by all wholesale and retail druggists throughout the United States and Canada.

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 15, 1877.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1866, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DEAFER.

BOSTON, January 1, 1877. 3tawtjan18

Daily Chronicle.

Base Ball.

The New York *World* says: Now that the professional season is at an end it is proper to take a glance at the record and see what club comes out of the season's play as the champion team, not of this or that association, but of the whole country. In reckoning up the account which is to decide this question it is entirely unnecessary to include all the clubs which entered the arena, it being quite sufficient to limit the list to the leading professional nines of the country; and the past season's record shows these to be the ten most prominent clubs which belonged to the League, International and League Alliance associations, viz.: The clubs of Boston, Louisville, Hartford, St. Louis, Chicago and Cincinnati, the Stars of Syracuse, and the clubs of Indianapolis, Allegheny and Lowell, all champions of their special sections or States, the Lowell especially standing high on the record as the champions of the New England States. In this regular United States championship arena the Bostons take a leading position by so large a majority of victories as to leave them in undisputed possession of the field. A record of sixty-one victories out of ninety games—more than two-thirds—and against such strong teams as they had opposed to them, is something a club has a right to be proud of, especially in view of the fact that the fight has been won in a manly and honorable manner in every respect. Louisville comes next with a record of 43 victories out of 79 games, and Chicago stands third on the list, with 41 victories out of 84 games, Hartford being fourth, with 37 out of 67, and St. Louis fifth, with 35 out of 78. The Stars, of Syracuse, lead the clubs outside of the five League clubs, they being ahead of Indianapolis and Cincinnati, with 30 victories out of 54 games. Last on the list in won games comes the Lowell nine, they having won eleven games out of 18, or nearly as good an average as the Bostons. They defeated every League club in one or more games except the weakest—the Cincinnatis—the Lowells standing even with the Bostons in won games—4 to 4.

—A great amount of nonsense about ministers' wives was summarily disposed of by the late Dr. Bethune, who, when the qualifications of his own wife for official duty were inquired into, asked the brethren "whether they intended to pay her a salary."

Ayer's Cathartic Pills

For all the Purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach and Breath, Headache, Erysipelas, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they eliminate the sluggish or disordered organs into action; and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most skilful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed, and of great benefits derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

WEDNESDAY, OCTOBER 24, 1877.

Congress.

In the Senate, Monday, Beck of Kentucky introduced a bill to repeal section three of the resumption act of February, 1875; and Hereford introduced one to repeal the entire act. Jones of Nevada introduced a bill remonetizing the old silver dollar.

In the committee on privileges and elections, Kellogg and Spofford, the contestants for admission as Senators from Louisiana, were present by invitation. Mr. Kellogg said his case, with documentary evidence, was before the committee. Mr. Spofford stated that he rested his case upon the facts which were known to the world of what had occurred in Louisiana There was but one Government there now, and he represented that Government. At the date of Mr. Kellogg's credentials there were two Governments, they struggling which should be the Government. Mr. Mitchell, the Chairman, asked Spofford if he correctly understood him to rest his title on the events that occurred since the meeting of the Legislature. Judge Spofford replied in the affirmative.

In the House, nearly the whole session was taken up with a discussion regarding the seating of Mr. Belford, elected from Colorado. Mr. Cox of New York offered a resolution directing the Secretary of the Navy to inform the House whether the eight-hour law had been complied with at the Navy Yards of the United States; adopted. The House then adjourned to Wednesday.

The Eastern War.

The Russian commander in Asia Minor reports Kars completely invested, and summoned to surrender. The London *News'* correspondent says the Turks lost 18,000 men captured, and forty cannon, at Mukhtar Pasha's defeat. The Turkish reports that their troops still held fortified positions at Aladjah Dagh are disproved.

Sulleman Pasha's retreat from the river Lom, in Bulgaria, was owing to the fact that 170,000 Russians with 400 cannon were opposed to him.

Terrible Accident.

By an explosion in the Blantyre coal mine, near Glasgow, Scotland, 233 men were buried, only three of whom escaped alive. Forty bodies were found at the foot of the first shaft. Some of the buried miners were alive for hours after the accident, as they could be heard knocking by the relief parties.

"Curved Ball" Pitching.

There has been quite a conflict going on all summer, between base ball and science, base ball insisting that a skillful pitcher can throw a ball so as to make it describe a horizontal curve in the air, and science insisting that it is a scientific impossibility, never to be accomplished until some means is devised whereby a man can take hold of his own pantaloons and coat collar and lift himself over a high fence. Science has repeatedly demonstrated the impossibility of pitching a "curved ball;" but the pitchers and catchers and batters, and base ballists generally, have all kept on sticking to the story that it *is* done, impossible though it may be. On Saturday, the 21st inst., the Boston and Cincinnati clubs played a game at Cincinnati, and the occasion was improved to conclusively demonstrate, by an experiment of extraordinary interest, the possibility of a base ball pitcher performing the impossible—Bond, of the Bostons, and Mitchell, of the Cincinnatis, being two of the most famous of "curved pitchers." A line running parallel with the line from the home plate to the first base bag was taken as a straight line for trial on the Cincinnati grounds. It runs north and south, with the pitcher at the south end of it, opposite the home plate. Midway between the home plate and first base was placed a section of a paling fence, one end resting on the line, the other pointing toward the infield at right angles. This, of course, formed a barrier to the ball started on the west side of the line unless it should cross over to the east side. Another section of fence was placed at right angles to the line, opposite the first base, but being on the east side of the line. Then at the south end a board was placed on the end of the line. Bond, the pitcher of the Bostons, was placed on the west side of the board and a little behind it, so that he was obliged to deliver the ball from the west side of the line. It was for him to demonstrate that the ball could be made to leave his hand on the west side of the line, cross over to the east side, so as to avoid the fence paling on the west side, and recross to the west side and avoid the other fence paling. Bond at first sent the ball against the edge of the board, but after several trials he was able to clear it, and sending the ball fairly round the middle barrier, landed it on the same side it started from, at the other end of the line. The curve was not only visible to the eye, but was shown beyond the possibility of dispute. The demonstration was greeted with shouts of applause. Mitchell of the Cincinnatis, who is left-handed, was next called out. The barriers were reversed to suit his position, and he too succeeded in sending a curver that swung around the middle barrier and was caught fully a foot to the east of the final barrier. The experiment proves that pitchers can pitch curved balls, science to the contrary notwithstanding. There is a chance for the Keeley motor yet.

South Carolina "Conciliation."

The Washington correspondent of the Chicago *Inter-Ocean* writes:

Southern Representatives in Congress tell strange stories of the fruits of the policy in the South. While Wade Hampton was being introduced to the public in Kentucky by the President as "a patriot and an honest man," his advisers in South Carolina were reviving the whipping-post for negroes. Hampton's organ, in an editorial, said: "The only way to reach the inner consciousness of a nigger is through his hide." When this editorial was published, Hampton himself was making speeches about the freedom and equality of all races from the same platform with President Hayes. The democrats have failed to provide for public schools, in South Carolina, and the negro will, henceforth, go untaught. Instead of a school appropriation, the Legislature will establish a system of serfdom, which has all the horrors of slavery without its ameliorations. Labor is to be performed under yearly contract. There is no provision for the punishment of the employer, because that would be impugning the honor of the Southern gentleman, but if the employe violates his contract in any way, he is guilty of a misdemeanor; he is a criminal, and is punished by whipping and the forfeiture of his wages. The evidence of one witness (the planter, of course) is sufficient to prove a violation. At the end of a season a planter can go into court, swear that half or all his negro laborers failed to comply with the provisions of their contracts. That is enough. The negroes are whipped, and the planter does not have to pay them their wages. Unemployed negroes are pronounced vagrants, are sent to jail, and the State hires their labor to planters. There is a "Labor Reform League" in South Carolina, of which Hamburg-Massacre Butler, who will be admitted to a seat in the Senate, is one of the leaders. Members of this league, and those who do not join it are ostracised, are prohibited from selling or renting land to negroes. The league has power to regulate wages in the State; and all planters are prohibited from employing negroes who do not carry a "working card" from their last employer. This is the sunshine which was to follow democratic supremacy in the South. This is the advancement of the colored element which Hampton talks about in his speeches.

New Hampshire Items.

Rev. B. F. McDaniel of Exeter declines a call to the Unitarian Society of Concord.

City Marshal Kensington of Manchester returned from Providence Saturday, bringing Thomas Britton, aged thirty-five years, who committed a murderous assault in Manchester, at midnight, September 14th, on his brother-in-law, Patrick Mulligan. Britton broke into the house, seized Mulligan by the hair, dragged him from his bed, and inflicted four painful stabs in the neck with a jack-knife. His sister, who interfered to protect her husband, also received a serious cut, which came near being fatal. Britton escaped, and his whereabouts was ascertained by following a trunk sent to Britton from Manchester by express. The prisoner says that he was drunk at the time, and took this way of revenging himself for being turned out of Mulligan's house.

A man representing himself to be John Brown of Concord, was arrested Sunday night while attempting to break into the store of Nelson Tuttle, of Nashua. He was brought before the Police Court next morning, and bound over in the sum of $500 to appear at the Superior Court in January.

Last spring Noah P. Young, of Stratham, planted two bushels of Late Rose potatoes, from which he has this fall harvested ninety-seven bushels. Of this number eighty-five bushels were suitable for the market. He also planted one bushel of Early Rose, from which he realized thirty-eight bushels. The tubers were grown on new ground, backed up with plenty of good barn yard manure.

There are said to be two black walnut trees growing in the neighborhood of Stratham, as large round as a man's body. Black walnut boards sell for some $70 per thousand feet, while the branches for veneering are worth twice that amount. As these trees will grow to maturity in New England, are healthy and profitable, excellent for shade, and the nuts spicy and good, it would seem well to go into their cultivation.

News and Notes.

In Woonsocket, R. I., Sunday night, two burglars thrust the wife of J. W. Smith into a closet, where she became insensible. When her husband found her, some hours later, the thieves had escaped with $1000.

The steamer Massachusetts is found to be badly injured about the stern and to have lost one hundred feet of her keel, besides having many timbers broken. It will cost $100,000 to put her in complete order.

In the case of Scott and Dunlap, the Northampton, Mass., bank robbers, the exceptions on the charge of robbing a bank were overruled, but those on the charge of entering the house of the cashier, Whittlesey, were sustained. The twenty-ninth exception taken by the defense is as follows: "On closing their argument counsel for the commonwealth argued that neither of the defendants testified for themselves because their counsel believed them guilty." The Supreme Court sustains this and grants a new trial.

The foundation of the Washington monument is at last declared to be safe, and it is said that the great work will now go on to completion.

The ship New World, on board which a man was killed during a mutiny off the Nore, England, last week, started on Sunday from Gravesend for New York, but put back next day, the captain being unable to manage his still mutinous crew.

It is announced that sixty different kinds of animal life are to be found in the water which the Bostonians are compelled to drink, if they drink any, and yet we hear it advocated even in Boston, that water is a healthful beverage.

It is rumored that the Philadelphia and Reading Railroad company intends stopping work in all its shops at Reading, Pa., for a year. More than 3,000 workmen are employed in these shops, with a pay roll of over $75,000 per month.

Hon. Richard C. McCormick was confirmed as Assistant Secretary of the Treasury by the Senate on Tuesday.

Gen. LeDuc, the commissioner of agriculture, estimates that this country could save $60,000,000 a year by producing all the sugar it consumes, and thinks there is no good reason why this may not be brought about.

Political.

Bishop, the democratic candidate for Governor of Ohio, had 21,886 plurality over West, the republican candidate. Bishop's minority on the total vote was 12,429. "Go to thunder with your old ark; it's only a shower, anyhow."

Mr. Cox, with perhaps pardonable petulance, is speaking of Mr. Hayes as "Governor" Hayes. This is certainly not very witty; it is certainly not likely to be very effective; and if it were, Mr. Hayes might plead as an offset the fact that when, on the 14th of last March, Mr. Cox wrote him to ask the appointment of Mr. Geoege H. Butler as Post Office Agent to the Black Hills, Mr. Cox addressed Mr. Hayes as "Mr. President," and directed his letter "To the Hon. R. B. Hayes, President United States."—*N. Y. World.*

The Council Bluffs (Iowa) *Nonpareil* asks: "Wouldn't it have been better if the democratic House of Congress had appointed one of its officers from the republican party, just to show that the North had been forgiven for the part it took in the late unpleasantness?"

President Hayes, it is reported from Washington, has decided to appoint as United States Marshal for Georgia a Mr. Fitzsimmons, who is a nephew of Wade Hampton. And yet we are told that political influence is of no account with this reform administration.

The Boston papers are on the track of what seems to be a bit of Tweedism in the Boston city government, in the shape of the "raising" of bills against the city. If this should turn out to be so it would be awful, as Boston's city government is of the genuine democratic reform brand.

—The Vienna newspapers are very enterprising. During the present war the Neue Tagblatt has recorded nineteen battles which have never been fought. Extra blatt seventeen, the Forstadt Zeitung nine; five in the Morgen Post, three in the Neue Presse, and so on. In the latter paper the Russians have been made to lose 396,000 men, and the Shipka Pass has been evacuated seven times. The other journals are not far behind in the matter of slaughter, and altogether the war correspondents of the Austrian press are not wanting in energy, if their accuracy is not all that might be desired.

—A young man named Frank Frey, who had been "taking a drop too much," entered the laundry of the National hotel at York, Pa., Saturday night, and shot a young girl employed there, named Graybill, in the breast; then shot a woman named Reilly in the breast also; then leaving that place he fired at a man named Nelly, but the ball struck a buckle on his suspender and glanced off. Meeting Thomas Craig (colored,) Frey shot him in the breast, and, running across the street, he fired at Joseph Erney, the ball merely grazing his body. Entering a cigar store he fired one shot, but without injury to any one, when he was seized by a man named Sponsler, and in the struggle which ensued was himself shot in the hand. None of the victims are dangerously hurt.

—Within a few miles of the fortunate town of Evansville, Ind., are a three-legged dog, a pet hog with no eyes, a man who is about to marry his daughter-in-law's sister, two other men who have wedded each other's daughters, a young man who has espoused the mother of his deceased wife, and several variations of the Enoch Arden type.

The above Knees to be Square and Inasquare; no Outsquare Knees will be received.

Bids will be referred to the Bureau of Construction and Repair before any award is made, and the right is reserved to reject any or all bids.

EDWIN PUTNAM,
o24-27 n6-3 Paymaster U. S. Navy.

Foreclosure of Mortgage.

BE it known that on the fifth day of October, 1877, I peaceably entered upon and took possession of a tract land with the buildings thereon situated in Derry, in the County of Rockingham, State of New Hampshire, containing about 70 acres, as follows: North by Chester town line, east by the highway leading from Derry to Chester, south by land of Edmund Adams, west by the Cogley farm. Conveyed to me in mortgage by Harrison G. O. Hawkes, to Pearley C. Ingalls, and assigned to me by said Pearley C. Ingalls, recorded in Rockingham County register, December 23, 1857, Lib. 375, Fol. 27. Assignment recorded Jan. 5, 1858, Lib. 379, Fol. 36, for conditions broken and for the purpose of foreclosing the right in equity of said grantor to redeem the same and at the declared time publicly declare the purpose and object of said entry and possession.

EDMUND ADAMS.
Derry, October 15, 1877. 6nov12

MUSICAL INSTRUCTION!

THE SUBSCRIBER, proposing to devote his entire time and undivided attention to the work, offers his services as

Teacher of Music

In the various branches,—PIANO, ORGAN, VOCALIZATION, HARMONY, etc.,—to the citizens of Portsmouth and vicinity. All others received will be promptly attended to. MUSIC ROOM AT

Mercantile and Grange Hall, 5 Congress St.

☞ OFFICE HOURS from 10 o'clock A. M. to 12 M.; pupils instructed at their homes in the afternoon. The hundreds of residents in this city who have been his pupils in the past are sufficiently aware of his qualifications as a teacher; as a guaranty to others of his ability he would point to the many superior performers in the city who received their instruction mainly or wholly from him.

E. G. PIERCE, JR., P. M.

THE CITY.

Mr. John Dixon has resigned the position of treasurer of the Portsmouth Brewing Company, on account of ill health; and the vacancy has been filled by Mr. Patrick McGlinchy, of Portland, Me.

On Monday night the fishing schooner Lone Star, lying at Tredick's wharf filled with water and sank. She was run into by the steamer Mystic on Monday morning, and her sinking is supposed to have been caused by injuries received at that time.

The Portsmouth Grange Hall Show of fruits, grains, vegetables, flowers, fancy work, household manufactures, etc., opens this afternoon at Grange Hall and continues through to-morrow. Articles for exhibition will be sent in this forenoon, and *all persons* are invited to contribute. Admission fifteen cents. See advertisement.

The juvenile temperance workers of the Band of Hope will give an entertainment this (Wednesday) evening in Mechanics' Hall, an interesting programme having been arranged for the occasion. All friends of the cause are urged to help it along by patronizing this entertainment. Tickets for sale at the door; doors open at 7:15; performance to commence at 7:45.

The rigger's gang under Mr. Wm. Pinkham were at work all Tuesday night on the brig Clara J. Adams. Operations will be continued until the vessel is so nearly tight that the steam pumps can keep her free of water, when her coal will be discharged. We are informed, we know not how correctly, that the marine railway at Kittery is having its capacity increased so as to take the brig out of water.

Rev. J. E. Wolfe, of Newburyport, editor of that famous "temperance firebrand," the "Word of Truth," will lecture on Temperance in the Methodist church on Sunday evening next at 7:30 o'clock, under the auspices of the Portsmouth Reform Club. The Club at first proposed to secure Franklin Hall for Mr. Wolfe's lecture, but the friends of St. Mary's church had already engaged it for a grand concert of sacred music on Sunday evening.

A lad named William Falvey was run away with down Congress street, Tuesday forenoon, by Mr. Alfred Larkins horse, but stuck to the saddle until the horse tried to jump over S. S. Frye & Son's store wagon, at the corner of Congress and Fleet streets, an attempt which resulted in horse and boy rolling in the gutter together, the latter striking the curbstone hard enough to split the end of his nose and blacken one of his eyes. The horse was unhurt.

On Thursday evening, 25th inst., M. W. John J. Bell, Grand Master of the Grand Lodge of New Hampshire, F. & A. M., will institute Winnicut Lodge of Greenland, and there will be a public installation of officers at the Methodist church, as follows: Herbert C. Taft, W. M.; Edgar Taft, S. W.; William O. Junkins, J. W. After the public installation the brethren will adjourn to the lodge, where a collation will be provided. A special train for the accommodation of the Masonic brethren (and any others who may desire to attend) of this city will leave the Concord Railroad station at ten minutes before seven o'clock in the evening.

The workmen who for years had eight hours counted to them as a day's work on the navy yard under an act of Congress, but for some months past have had to work ten hours a day, under an order of Secretary Thompson, will not be displeased to learn that Sunset Cox, of New York, has introduced in the National House of Representatives a resolution directing the Secretary of the Navy to "inform the House whether the eight-hour law has been complied with at the navy yards of the United States." Mr. Cox is doing a proper thing in bringing this question before Congress; if the eight-hour law is an improper or foolish one, the proper agency to remedy the evil is Congress; and the Secretary of the Navy, in arrogating to himself, a mere executive officer, a power superior to that of the National Legislature, assumes more than Congress or the people are willing to grant.

SUPREME COURT--SECOND WEEK.

Tuesday, Oct. 23d.

The jury in case of State vs. Sweetser, returned a verdict of guilty of a simple assault. Sentence, fine of $10, and to pay cost of prosecution.

A hearing was had in the forenoon in case of the Portsmouth Trust & Guarantee Company vs. the City of Portsmouth, for abatement of tax upon capital stock alleged to have been illegally assessed, on the ground that the tax should have been assessed to the stockholders and not to the corporation, and also that the company paid tax on their real estate to nearly the amount of their capital stock. W. H. Y. Hackett for the Trust Co.; A. R. Hatch for the City.

State vs. Henry Adams; indicted for cruelty to a horse owned by Oliver B. Philbrick, of Rye. Benj. J. Sanborn was appointed foreman of the jury. The offence charged was overdriving the horse from Mr. Philbrick's house to Portsmouth, and also beating and otherwise ill-using the animal. The case, after being heard at some length, was taken from the jury and *nolle prosequi* entered. Small for State; Harriman for defendant.

Andrew J. Roberts was next tried. Respondent was charged with stealing a horse from Mr. Joseph Richardson of Raymond. He hired the horse to go to South Deerfield, but instead of going there, went to Haverhill, Mass., where he sold the animal. Verdict, guilty; sentenced to four years in the State prison. As to the indictment for stealing the wagon and harness, Roberts retracted his plea of not guilty and entered a plea of *nolo contendere*, and the case was marked not to be brought forward. Small for State; Hatch for Roberts.

Chas. R. Skillings was sentenced to confinement in the State prison for fourteen months, having been convicted of adultery at Kingston.

The case of Trust Co. vs. City of Portsmouth was argued by Mr. Hatch for the City and W. H. Y. Hackett for the Company.

Absalom Haselton, of Windham, indicted for obstructing a highway, moved to have his case continued, and presented an affadavit by his counsel showing that he had not had time to prepare for trial since his knowledge of the indictment. The case was ordered to be continued; defendant ordered to recognize in $200. Hatch for respondent.

The Court in the afternoon at four o'clock adjourned, and comes in this morning at half-past ten, when the trial of Hankins will begin—a trial for manslaughter.

OVERSEERS' MEETING.

At the regular meeting, Tuesday evening, no business of importance was done, the legal gentlemen to whom was referred the question in dispute between the Mayor and the rest of the Board not being ready to report.

The report of Mr. Shannon, keeper of the Almshouse, for the week ending Oct. 23d, was submitted, as follows: paupers twenty, convict two, boarders eight, male help two, female help two, Superintendent's family three; total, thirty-seven.

[Communicated.]

THE POOR OVERSEERS.

Mr. Editor: As there has been some controversy through your columns in regard to the Board of Overseers and their mode of doing business, I deem it my duty as a member of the Board to give the tax-payers, who are the parties interested, still further light on the subject. At the regular meeting of the Board on the 18th of September, the Mayor presented to the Board a communication, the substance of which was that all provisions and supplies to be used for the benefit of the poor of the city should hereafter be purchased by some *one*, carried to the Almshouse, and be distributed to the poor through the Keeper of the Almshouse. The Board of Overseers asked for a week to consider the proposition. At the next meeting of the Board, the matter being again presented, a motion was made to further postpone the subject in order to give the Board time to obtain legal advice as to the laws by which the Board should be governed, which motion the Chairman ex-officio did not see fit to put to the Board, but presented instead a written opinion from City Solicitor William H. Hackett, sustaining him in his views as to the mode of furnishing provisions and supplies, and also his individual right to purchase such provisions and supplies. He also hastened to notify the Board that after a specified time he should not approve any of their bills, etc. The Board demurred against any such assumption on the part of their chairman, and obtained legal advice from as good authority as they could find, fully sustaining them in their views as to the proper and lawful course to be pursued, all of which has been submitted to the public through your columns. Now, as to the way in which the poor receive assistance through the Board of Overseers: There is an appropriation made every year—which on an average does not exceed seven thousand dollars—for the benefit of the poor of the city. This includes wood, coal, provisions and supplies for the Almshouse and its inmates, and for the poor of the city in general outside of the Almshouse, of which there is a large majority. Now this enormous sum of money is disbursed indirectly by the Board of Overseers; all applications for help come before the Board at their regular meetings, and are acted upon individually. If any doubts arise as to the need of assistance, the matter is referred to a committee or to the overseer in whose ward the applicant resides, with power to grant the request if found to be a worthy subject. If the Board votes one dollar's worth of supplies per week to Mr. or Mrs. A—, then the overseer in whose ward such person resides furnishes the supplies; it is not material to the tax-payer whether that overseer is a provision dealer, a grocery dealer or a lumber dealer, as long as prices and quality of goods sold are at market quotations. Under the present system the poor (whom we always have among us and whose appeals for charity should be heard and acted upon in a manner consistent with an intelligent community,) make their wants known to the city through the respective overseers of the different wards; it is for the voters of the different wards to say whether they shall have grocery dealers, provision dealers or any other dealers to be elected to the office. When elected to the office myself I was (as now) in the retail grocery business, and presume every voter who cast a ballot for me was aware of that fact; and I did not deem it my duty to relinquish my business for the small sum of fifty dollars per year, which is an overseer's salary, although the *honor* of holding office with a small salary is probably in most cases the reason why they are so much sought after. I am, "one of them," C. H. J.

Obituary.

David H. Rand, Esq., whose death at Oakland, California, is recorded in the usual place, was formerly a resident of this city, having learned the carpenter's trade here with Mr. Abraham Staples. Mr. Rand was one of the Californian pioneers, having left New Hampshire in company with a younger brother for the then almost unknown Eldorado in January, 1849, where he has remained for the past twenty-eight years. The Oakland *Tribune* of Oct. 12th has an extended notice of his death, from which we take the following:

"David Harriman Rand, Chief of the Oakland Police Force, died this afternoon at one o'clock from congestion of the liver, from which he has been suffering for only about one week. Chief Rand was born in New Hampshire, and had he lived until the 20th day of this month would have been fifty-seven years of age. He came to California in the year 1849, reaching San Francisco on the first day of August. He lived in San Francisco until eight years ago, when he removed to Oakland, and has filled a prominent position on the police force in this city since that time. He served sixteen years in the San Francisco Police Department, part of the time as an officer, part as a detective, and afterwards as a captain. He was appointed Chief of Police in this city three years ago, and creditably filled that position up to the hour of his death. He leaves a wife and five children. His eldest child is a girl thirteen years of age; the youngest is a boy of eleven months. A brother of deceased is also a resident of this city, and a member of the police force. Chief Rand was a Mason, being a member of Oakland Lodge, No. 188, F. and A. M. Captain Rand was a man of quiet speech, and his subordinates grew to love and honor his gentle ways and obliging, courteous manner."

—This tremendous piece of information comes from the New York *Home Journal*: There may be circumstances when a gentleman may lift his hat to a passing lady, even though he cannot bow to her. She may be offended with him, and yet he may respect and feel kindly to her. He may deserve her disregard, and it is permitted him to express his continued reverence by uncovering his head in her presence; but he has no right to look at her as she passes him. He must drop his eyes."

DEATHS.

ROGERS. In this city, Oct. 21st, Mr. Thomas Charles Rogers, aged 43 years, son of the late Capt. Shubell G. Rogers of Eliot, Me.

RAND. In Oakland, California, Oct. 12th, David H. Rand, Esq., aged 56 years, a native of Epsom, N. H., and brother of Mr. Alexander L. Rand of this city.

Portsmouth Chronicle

—Cloiborne F. Jackson, once Governor of Missouri, married in succession five daughters of one of the most wealthy families of the State. As soon as one wife would die he would go and marry her sister in reasonable time. Of course, some of them were widows when he married them. In connection with the marriages there was a standing joke told at the expense of the Governor, which was that, when he went to ask the old gentleman's consent to marry the last one, the venerable father is reported to have said: "Yes, Claib, you can have her. You have got them all. For goodness sake, don't ask me for the old woman."

For the Nerves.—Soothing, tranquilizing, invigorating and imparting vigor.

A Boon to delicate females in a thousand ways not necessary to speak of.

A Perfect Cure for Sick Headache, Liver Complaints, Costiveness, Dyspepsia, and all similar diseases. Use the Plantation Bitters temperately, systematically, and expect a certain cure.

Sold everywhere.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them feeline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive trial, has proven that it stops the falling of the hair immediately; often renews the growth; and always restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brachy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair restored, with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft — under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

DOCTOR PIERCE'S ALTERATIVE OR

Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined *in harmony* more of nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer, in the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poison and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

HALL'S VEGETABLE SICILIAN *HAIR* RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff, and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "*I consider it the best preparation for its intended purpose.*"

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

37 SOMETHING NEW. Have you seen that nice CHOUAGUEN? At 37 Market Street.

Centaur Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The White Centaur Liniment is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have per ormed more wonderful cures of obstinate bed-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment,** been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Grubs and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,

NORMAN P. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Burns, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

This Cut Illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of **"Cold in the Head"** by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche,** and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 50 cents, **by all Druggists.**

☞ *All New Subscribers for 1878 paying in advance after November 1, 1877, will receive the paper Weekly, from receipt of remittance to January 1st, 1878, without charge.*

COMBINED PAPERS—FORTY-EIGHTH YEAR.

THE COUNTRY GENTLEMAN.

A Premium Annual to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy, one year, $2.50; Four copies $10, *and an additional copy for the year free to the sender of the Club;* Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs,* to each subscriber—a book of 144 pages and about 140 engravings—a gift by the Publishers, in honor of the completion, in its present weekly form of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman possesses an unequaled Corps of Correspondents, regular and occasional, among the *Best Farmers* of All Parts of the Country, and constantly reflects the practical condition and progress of the husbandry of every section of the United States and civilized world.

The Country Gentleman gives in its *Horticultural Department* a monthly amount of information and suggestions, equal or superior in the aggregate to what is obtained in the monthly numbers of most magazines devoted to Horticulture.

The Country Gentleman has probably done as much as all other journals combined, to introduce and disseminate *Improved Stock* of every kind through the country; and commands, to a greater degree than any contemporary, the confidence and support of breeders and purchasers.

The Country Gentleman contains unusually full and trustworthy *Market Reports,* and devotes special attention to them and to the prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and so on, and weekly presents a column or two for the Housewife and an interesting variety of Fireside Reading. It contains a well-edited review of current events, and its advertising pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address

LUTHER TUCKER & SON, PUBLISHERS,

You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once, 6tyr878

H. HALLETT & Co., Portland, Maine.

CATARRH

Catarrh of the Nasal Cavities, Acute, Chronic, and Ulcerative, Hay Fever, or Rose Catarrh, Catarrh of the Eye and Ear and Catarrh of the Throat,

SUCCESSFULLY TREATED WITH

SANFORD'S RADICAL CURE.

CATARRH is a disease of the mucous membrane. Temperaments and constitutions vary in severity in individual cases. Catarrh may arise from a cold or a sudden change of climate, a sudden change of atmosphere, wearing wet clothing, or exposure to inclement weather, and becoming thoroughly chilled when the digestive organs are in a morbid or inactive condition, and the strength and vital forces exhausted. The disease may arise from a scrofulous condition of the blood, from Scarlet Fever, Measles, and Diphtheria, in which cases the eyes and ear are generally involved and discharge quantities of matter. The discharges from the nose, the distinctive feature in all catarrhal cases from whatever cause they arise, may be thin and watery, and so acid as to cause redness and excoriation of the skin with which they come in contact, or thick and yellow-ish, emitting a foul odor, or clear and white like the white of an egg. There may be an entire lack of secretion, the surface being dry and feverish, the face, front and upper part of the head feeling uncomfortable, and as if it was encircled by a tight, unyielding band. This latter phase is called Dry Catarrh. The free matery discharges cause the passages to swell and here me to thickened, rendering breathing through the nose difficult or impossible, and the sufferer finds it necessary to breathe through the mouth, thereby permitting cold air to pass directly to the bronchial tubes and lungs. The matter passing down the throat creates a constant desire to hawk and expectorate so throw it off; but when the membrane is dry and feverish, instead of passing freely down from the nose and throat, the mucus becomes hard and forms into scabs, incrustations, and hard lumps, which adhere so firmly to the nasal passages and larynx as to require very persistent efforts to dislodge them. The eye in sympathy becomes inflamed, red, weak, and watery, or in the morning the lids may be found glued together, and matter is secreted in more or less quantity. The ear also becomes seriously affected, discharging quantities of matter, besides being visited by the most violent neuralgic pains, ending frequently in inflammation, ulceration, and finally deafness. The throat, bronchial tubes, and lungs are in many cases affected by catarrh, and when prostration of the nervous system is superadded, such affections become alarming.

A brief survey of this most serious disease warns all who are afflicted with it to make speedy preparation for its treatment before it becomes chronic. The advantages offered by SANFORD'S RADICAL CURE we confidently believe are to be found in no other remedy. Every step in its preparation, every line in the directions, mark it as a scientific remedy, calculated to meet every phase of the disease. The numerous testimonials from the best people in the United States attest the esteem in which it is held by those who have been freed from the most destructive and dangerous disease with which mankind is to-day afflicted.

JUST PUBLISHED.

A carefully revised Treatise on Catarrh, with an accurate description of symptoms and sympathetic diseases, together with minute directions for effecting with SANFORD'S RADICAL CURE a speedy and permanent cure. Also observations on diet and the general health, of vast importance to all afflicted with catarrh. It is wrapped about each bottle of the RADICAL CURE, or will be mailed free on receipt of stamp.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price $1. Sold by all wholesale and retail druggists throughout the United States and Canada.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1860, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1877. 3tawtjan1 78

Daily Chronicle.

THE RACE OF FASHION.

Few scenes there are in every day life more strangely absurd than the not uncommon one of two families, whose means are far from limitless, striving to out-do each other in the race of fashion. No better parallel can be imagined than that of rival steamers, each in turn getting a little ahead of the other, and both all the while in danger of explosion.

In one of the uptown streets of New York, not many years since, upon the door-plate of a brown stone mansion, could be seen the name, in graceful script letters, of "J. Alliston." The occupant had left his native village, at the age of sixteen, to seek employment as a clerk in the city, and meeting with success from his intelligent replies when questioned, and simple honesty of manner, so well fulfilled his duties, his employer, besides liberally advancing his salary from year to year, on his reaching the age of two-and-twenty, admitted him to an interest in his business as a partner with no other capital than what he had laid by from his salary as a clerk. Everybody said that James Allston was exceedingly fortunate in finding himself at so early an age, and with no outside aid from friends in a pecuniary way, in a position others might not have won from a faithful service of a score of years. After two years of prosperity, such as the house had rarely known, the new partner felt himself in a position to take as a wife one with whom he had been long acquainted, and who with him, had been content to wait for a propitious season ere joining their fortunes for good or ill. The first year of their wedded life was spent at a popular boarding-house, of the higher class, whose inmates, like themselves, were mainly young married people, and then, after the birth of a daughter, they entered upon housekeeping in a modest way, and in a portion of the city, that, though far down town, was then regarded as one of the most desirable of neighborhoods. Those were to them very happy days, especially when little Imogen had reached an age to lisp forth her first words and make music upon the floor with her tiny feet. One of the best of housekeepers was Eleanor, receiving from her mother as she had done an early training in domestic duties after the strictest manner of the New England school; nor was she afraid, while directing all, to perform, with her own fair hands, no small share of the lighter labor of her household. Very proud was the husband of his beautiful wife, for such she was both in form and feature, and never was such a feeling more awakened than when he saw how fair she was above most others amid the social gatherings they attended, or when they returned such courtesies beneath their own roof. With the best of health, and many blessings not less to be valued from the hand of an ever kind Providence, time flew almost unheeded by until Imogen had reached her twelfth summer, and a fairer flower than herself, inheriting as she did the good looks of both her parents, was not often seen.

When James Allston had been a dozen years a merchant, the senior partner, content with the fortune he had accumulated, retired from the firm, leaving to him its long established and prosperous business. About the same period, uptown emigration had got well under way, and with their increased means the desire was felt by both husband and wife to follow many of their friends who had preceded them to the new and more fashionable section of the fast-growing city; nor was it long before they did so, leaving their old home, where they had known so many happy days, in the hands of a tenant whose business was in the neighborhood. For a very few years their new location, with pleasant neighbors around them, was all that could be desired, and then, from the rapid building up of that section of the city, its quietness gone, it became a common thoroughfare for the conveyance of the materials used for the purpose, as well as the carting away of the earth in excavating the cellars. The plain but comfortable brick residences, that at first satisfied up-town emigrants, had been followed farther onward by those having ornamental brown stone fronts, and then, as others were doing, the Allstons took up their line of march for the new quarter, where a class of mansions were making their appearance, such as had never before been seen on the island of Manhattan; each added block having something of elegance beyond its predecessors. The higher class of dwellings, as a matter of course, required corresponding furnishing and adornment to a degree that made the Allstons aware, when all was completed, that the fitting up of the parlors alone involved an outlay beyond that of the entire furnishing of either of their former homes. All, however, was so elegant and tasteful around them, and as they could well afford it, the conclusion was reached that the money had been well expended. They scarcely knew the names even of any of their neighbors, but when the new year's festival came, two months after entering their new home, the gentlemen called, and leaving their cards, requested a return of the courtesy on the part of the head of the household, which was complied with, and during the week Eleanor received a call from the ladies in response to an invitation from her husband to do so. This opened an acquaintance between them, and very soon they were asked to the social gatherings, and giving others in return, that attend winter life in all great cities. Then followed in company with their newly acquired friends, frequent visits to the opera, the theatre, and such like resorts, until they found themselves in a whirl of what they would once have regarded as nothing short of dissipation; for it chanced that they had fallen into a circle of the votaries of fashion that in their devotion to the fickle goddess might not have been surpassed in all the city.

Amid such scenes of excitement the winter passed away, followed by the bright days of springs, and then came the season for summer travel. The Allstons had been wont to enjoy at such a time a brief season of recreation at some out-of-town retreat, but now, to do as did their associates, it became necessary for them to make a lengthened sojourn at one or more of the midsummer resorts of the gaiety and fashion of the cities, and consequently rooms were engaged for them at Saratoga and Newport, where the weeks flew by amid the ever varying life of those world-famed gathering places of summer pleasure-seekers.

Four years of existence as artificial as it would once have been distasteful when compared with their former quiet life, passed on to James and Eleanor Allston; Imogene in the meantime having changed from a child to a beautiful girl on the eve of womanhood; and it may be added, gentle and good as she was fair and intelligent. It was what they had not sought, nor would have chosen, yet it had fascinations they could not wholly resist after being drawn inadvertently within its giddy vortex. There was something very attractive, they could not but feel, in the crowded assemblages of the young and gay, the brilliant and the beautiful, in which they mingled. The dance, the music, the varied enjoyments of the passing hour, trifles though they often were, the richness and taste of attire and ornament, the flash of diamonds beneath the glare of gaslight; scenes of dazzling splendor reflected in mirrors whichever way the eye might turn; the perfumed atmosphere, the gorgeous adornment, the rich furnishing and silken drapery of the homes, including their own, surpassed by none, in which these scenes were enacted,—all had their power to charm that few could have failed to appreciate or have turned from with indifference.

On a bright day in the spring-time, a relative of her mother came from his place of residence in the country to pass a week with Eleanor—one of those good men who "regulate their lives here by their hopes in the life hereafter"—and when he had looked upon the elegance of all around him, and with no unappreciative eye scanned the gems of art that adorned the walls, he said "You have a beautiful home, Eleanor, and very much to enjoy, but you must not forget there is 'a house not made with hands,' whose splendor far surpasses this. A reverse of fortune may take from you the one, but the other can never pass away, eternal as it is, like Him who has such a gift to bestow upon all his children."

It is but justice to say that both Eleanor and her husband had long been aware how little of true enjoyment and less of permanent good, had come to them from the life they had been living since entering their home in the fashionable quarter. While none could be more popular than they with the gay throng who had been their associates, they might truly be said to have "sounded to the last echo the hollowness of the fashionable world," and longed for the quiet and repose of their earlier married years, and the society once more of such another little circle of friends as those they remembered so well from the happy intercourse that had passed between them. To one of the twain, another theme for reflection came; as he thought of the amount expended on so costly a style of living, when a friend told him one day of the sum he had been able to invest, within the same period, from the profits of his business, in a way that was sure to bring liberal and prompt returns.

The winter that had just passed away at the period when such thoughts came to

the Allstons, had been a season in the business world of great depression; and from their being of the class who always live quite up to, if not beyond their annual income, in no slight degree did it affect some of their neighbors, who were the most devoted of fashion's votaries; but so far as making any effort to live in accordance with their depreciated means, they seemed endeavoring to make it appear that their resources were quite inexhaustible. A rivalry between two households, that had been visible from the time of their first appearing in the neighborhood, was more than ever apparent in efforts to outdo each other in the race of folly, and could not but be a source of amusement to others wiser in the use of the financial incomings that remained to them. If a new dress of the latest variety of material and style of construction was seen to issue from the door of one of the rivals, another, in some point surpassing it, was sure to make its appearance immediately thereafter from that of the other; if an entertainment was given by one, another that involved a greater expenditure inevitably succeeded it. A day of reckoning came at length to both, and an auctioneer's flag at their several doors, accompanied by a sheriff's advertisment announcing a sale of the goods and chattels contained within, told a tale as direful as that of the Kilkenny cats, of whom, as everybody known, nothing was found after their contest for mastery but the tips of their tails.

Fully satisfied with what they had seen and shared in of an existence that had in its elements very much more of want of heart than sincerity, and very little for pleasant retrospect in after years, the Alistons exchanged their brown stone mansion for a semi-rural retreat, but a few miles from the city, that overlooked the Hudson, and very thankful were they, when settled in their new home, that they had not been wrecked, like others, on the rocks of fashion, and landed on the barren shore of bankruptcy.

JOHN H. BOWLES.

Daily Chronicle.

THURSDAY, OCTOBER 25, 1877.

News and Notes.

Billy Pastor, the well known minstrel, and brother of Tony Pastor, died on Tuesday night in New York.

Sitting Bull has been interviewed by Generals Terry and Lawrence, the U. S. Commissioners, and announces his intention to stay in the British dominions. Let him stay.

Butterworth, the North Andover, Mass., wife murderer, has been convicted of manslaughter.

A Connecticut paper says the Supreme Court has decided in a case where a woman burned her house to get the insurance that nobody can be convicted of arson in burning his own property, nor can a woman who burns her house, arson being described as "malicious and voluntary burning of the house of another by night or by day."

The large boa-constrictor in the New York aquarium gave birth to fifty small boas on Saturday night—an occurrence without precedence in this country. The family is kept in a large glass box. The mother is thirteen feet and her young about two feet in length.

Fredericton, N. B., had a great fire Tuesday night, caused by an incendiary.

Havana advices say a Spanish column, near Holguin, captured the President of the Cuban Republic, Thomas Estrada, and the Secretary of the Cuban Chambers. The *Official Gazette* of Havana prints a decree that rebels submitting to the authorities within four months will have their confiscated property returned to them.

On Tuesday morning, the 24th, George W. Sherwood, alias Hiram Sherwood, was released from the East Cambridge, Mass., House of Correction, where he has been serving out a seven months' sentence for theft. He was immediately re-arrested for highway robbery with violence, he and Albert F. Joy, the Rockport murderer, having on the 3d of February last knocked down Mr. Frank Vickery, a Lowell music teacher, while on his way home late at night, and robbed him of his overcoat, which was afterward found in possession of one Butterworth.

Mary E. Bottomly, twelve years old, a step-daughter of Mr. Joseph Crowfoot of Worcester, Mass., ran away from home on Monday in a suit of boy's clothes, which she bought last week for $10, taking with her a considerable sum of money belonging to Mr. Crowfoot. The cause of her flight is said to be a dislike to attending school, from which she had been absent for a year.

Miss Jane Schofield, daughter of Mr. James Schofield of Woodstock, Ontario, jumped into the Niagara river recently and was carried over the falls. She was in ill health.

The town of Monson, Mass., is considerably stirred up by the indignity inflicted upon Moses Smith, a peaceable, inoffensive citizen living in the west part of the town, a few nights ago, when six men took him from his bed, entirely naked but for a shirt, and gave him a coating of lampblack and grease. The perpetrators are known.

John W. Warren, a wealthy young man of Newton Highlands, Mass., is charged with setting fire to his house Sunday morning, with the intention of killing his sick wife. He poured kerosene over the floor and set fire to it, but became frightened and put it out when his wife screamed, and probably his purpose was only to frighten her into obeying him.

After 300 years of absence, shoals of herring appeared this year on the coast of Denmark. The fish was for many centuries the chief source of revenue of the country, and the Danes naturally hope that it may not soon again disappear, as it did suddenly one autumn over 300 years ago.

New Hampshire Items.

The Dover *Democrat* gives the following account of an odd accident in that city: "A couple of ladies from Rollinsford were driving along with horse and buggy belonging to Hon. E. H. Rollins, when they encountered a team loaded with wood. They were driving very slow and the wood team was going slower still. But they collided and the buggy took out the rear wheels and axle of the wood-wagon in a twinkling, upset the load and carried the driver down under it. The Rollins horse became frightened and started off upon the run and again collided with a lamp-post, where he left the carriage in a broken condition and went off for home at the top of his speed. The buggy was not upset and the ladies remained uninjured. The man under the load of wood was bruised a little but not much hurt."

William Sullivan of Deerfield broke his arm Oct. 14th while wrestling.

A Lynn firm is to start a shoe factory in Northwood, to employ from 150 to 200 hands.

The Selectmen of Londonderry refuse to allow their Town Hall to be used for a dancing school.

The freight trains through Concord are the heaviest known for years, and are considered a sure indication of reviving business.

E. A. Gleason, merchant at Cornish Flat, has failed. His liabilities are reported to be $10,000, and assets $1000. It is reported that the town will lose several hundred dollars through him as Town Treasurer.

Mr. John Emery of New Hampton has lettuce, pepergrass and dandelions growing in his garden as fresh as in their season, which the family use every day. He has also raised fifty-six pounds of potatoes from only two single tubers planted.

The woman who promises to build a handsome Episcopal Church at Nashua when the Society shall have secured the land, is a Mrs. Rand of Middletown, instead of the widow of Senator Atherton. The Society have bought a $6000 lot, and have thus far raised $4000.

The case of the town of Franklin vs. the Lowell Lumber Company, for damage done a covered bridge by a jam of logs in 1872, recently considered at the United States Court at Manchester, has been referred for settlement. The action was carried into the Court late in the year 1872, after several attempts at adjustment.

On Monday, Oct. 15th, a son of Davis Percival, about ten years old, while left for a few minutes in charge of his father's grist mill at Campton, with another boy about his age, had his coat sleeve caught by an upright shaft so that his arm was drawn tightly around the shaft, and was broken between the wrist and elbow. He at once called to the other boy to knock out the prop and shut down the gate, which was done, when the little fellow readily released himself and started for home with his arm dangling.

On the night of Oct. 17th a large wild-cat entered the house of Mr. Henry A. Drew, of Strafford, and attacked Mr. Drew, who was in bed at the time. Escaping from the room Mr. Drew procured a light and a stick of wood, went back and attacked the cat, and after smashing the stick to pieces used up a chair, finally—with the help of his dog, which took an active part in the fray all through—killing the wild-cat, which was a very large one. The cat entered through a hole where a side-light had been broken out at the front door. Mr. Drew had the light reset next day.

Edward Rogers, an employe in Strong & Burt's shoe factory at Dover, was badly and it is feared fatally injured on the 23d inst. by having his head jammed between the elevator and a floor of the factory.

Political.

On Tuesday, Oct. 23d, Congress adjourned to Thursday, so that the grave and reverend legislators could attend the Baltimore horse races. Then the Baltimorians adjourned the races; mighty mean.

The Democratic County Convention of Kings county, New York, adopted resolutions advocating "the impeachment and removal of Rutherford B. Hayes should he continue to prohibit officeholders from the exercise of their rights of citizenship."

A genuine Chinaman, giving the name of Emanuel Thompson, was naturalized in the Court of Common Pleas in New York on Tuesday. He emphatically renounced allegiance to any foreign prince or potentate, and especially to the ruler of the Celestial Empire.

Fifteen States have yet to hold elections this fall: Louisiana, Massachusetts, Minnesota, Mississippi, Nebraska, Nevada, New Jersey, New York, Pennsylvania, South Carolina, Tennessee, Texas, Virginia and Wisconsin vote on the 6th of November, and Georgia on the 5th of December. In addition, Illinois elects county officers on Nov. 6th.

A New Street Light.

A new light that promises, in a large measure, to supersede gas in the street, has of late been successfully applied in several places in Germany and France. Sticks of charcoal, surmounted by an insulating matter which slowly melts away, are consumed by electricity. With two of these electric candles it is claimed that a light equal to that of one hundred gas jets may be thrown on a street. The cost is about half that of gas, and the light is of the best quality. It has also the recommendation that there is no danger whatever of fire from the electric candles. The new light has been introduced in forty large establishments in France, and is destined, many believe, to be soon the only light that will be used in large rooms, public places and manufactories. Outdoor work can be carried on by night as well as by day by means of the new light, since it has almost a sun-like clearness and intensity. A German paper speaking of the invention, says: "We are evidently on the eve of as great a revolution in lightning as when gas superseded oil-lamps and tallow candles."

—The Leipsic police are making war on ladies' trains in the street. Notice has been given through the newspapers that any person whose dress is found trailing on the sidewalk will be fined.

—An Aleppo girl, who has more than one lover, subjects her suitors to a trying ordeal for her hand. Taking three bits of live coal from the fire, she lays one in each of her lover's hands. The one who holds out the longest wins the girl for his bride.

Foreclosure of Mortgage.

BE it known that on the fifth day of October, 1877, I peaceably entered upon and took possession of a tract of land with the buildings thereon situated in Derry, in the County of Rockingham, State of New Hampshire, containing about 70 acres, as follows: North by Chester town line, east by the highway leading from Derry to Chester, south by land of Edmund Adams, west by the Colby farm. Conveyed to me in mortgage by Harrison G. O. Hawkes, to Pearley C. Ingalls, and assigned to me by said Pearley C. Ingalls, recorded in Rockingham County register, December 23, 1857, Lib. 379, Fol. 27. Assignment recorded Jan. 5, 1858, Lib. 379, Fol. 36, for conditions broken and for the purpose of foreclosing the right in equity of said grantor to redeem the same and at the same time publicly declared the purpose and object of said entry and possion.

EDMUND ADAMS.

E. G. PIERCE, JR., P. M.

THE CITY.

U. S. S. Speedwell arrived in this harbor Wednesday evening from the British Provinces, where she has been during the summer in the service of the Fish Commission.

The old schooner Ceres, sunk at Portsmouth Bridge a year ago, and afterward purchased, raised and taken to Boston by the Boston Wrecking Company, has been repaired as much as she is worth, and will be used as a wrecking schooner—about all she is fit for.

The directors of the Mercantile Library Association have voted a liberal sum for the purchase of new books. They are also making arrangements for a series of free public debates during the coming winter months at their hall on Congress street. A meeting of the Association is to be held on Monday evening next, to complete the details for a series of interesting meetings.

The Portsmouth Grange Hall Show opened Wednesday afternoon with an excellent exhibition of fruits, grains, vegetables, flowers, fancy work, household manufactures, etc. The hall will be opened to-day and this evening. Admission fifteen cents. The show of plants is far ahead of what was at the State Fair, and the whole exhibition is a most gratifying and unlooked-for success.

We supposed the strawberry season to be about over, but in the window of Mr. H. C. Locke, on Market street, may be seen a cluster of fine ripe strawberries grown out-of-doors in the garden of Mr. George A. Jackson, No. 1 Dearborn street, on Christian Shore. There are others in the same bed in process of ripening, and yet the fruit is of the delicate kind that naturally matures in July. It is evidently a freak of Nature.

A Washington correspondent, writing of the opening of Congress, says: "In the drawing of seats, about the first act of the session, New Hampshire drew a low number, which means in this instance to score high. Hon. Frank Jones drew No. 12, the seat occupied last year, according to Major Poore's directory, by Hon. S. B. Chittenden. This gives Mr. Jones a front seat in the synogogue, which is good, seeing that he is one of the active men of the house, of commanding presence, and burdened with the responsibility of representing the entire democracy of New Hampshire in the national council."

The contract for getting the brig Clara J. Adams off the beacon ledge was taken by Mr. McFadden of Portland and Mr. Nathan Whalley of this city, on the same terms as the previous contract. On Wednesday, the vessel having been well raised aft, Mr. Whalley went down in the submarine armor to examine her bottom—his first essay as a diver. He remained under water about half an hour, and experienced no particular inconvenience, coming up perfectly fresh and without showing any signs of exhaustion. He found the brig's keel split for about forty feet, aft, one piece hanging at right angles to the keel; in consequence of this the proposed plan of putting canvas under the brig to tighten her has been abandoned, and she will be lifted by other vessels into as shoal water as possible for the discharge of her remaining cargo.

SUPREME COURT--SECOND WEEK.

Wednesday, Oct. 24th.

Court came in at ten o'clock, and case State vs. Eldad L. Hankins, of Cedarville, N. J., for manslaughter in causing the death of William Daley, was called. Harriman and Gilman Marston for the defence.

The jury as drawn were William B. Sherburne, James R. Thing, James Winkley Hoyt, William B. Lowd, Benjamin J. Sanborn, Matthew T. Betton, Zebulon Holmes, John C. Dearborn, William H. Crowell, George A. Weare, Charles W. Kimball and Daniel G. Moulton. Charles W. Kimball was excused because he had formed an opinion, and John H. Chesley, Jr., was drawn in his place. Mr. Betton was objected to and excused, and Charles S. Dow was drawn. Mr. Moulton was objected to and excused, and Charles Osgood was drawn. John C. Dearborn was appointed foreman of the jury:

Almost the entire day was accupied in examining witnesses for the State, counsel for defence opening at a late hour. The case will probably be concluded to-dry.

POLICE COURT.

Wednesday, Oct. 24th.

Gideon Carter, drunk, $9.90 fine and costs; Brentwood.

George Smith, brawl and tumult, fine $3, costs $8.04; Brentwood.

FOOLS AND THEIR MONEY.

On Wednesday an excellent illustration of the old and true adage, "A fool and his money are soon parted," was given on Market square. A crowd of countrymen and other persons, collected around an open carriage in which stood a young fellow with face and lungs of brass and tongue of silver, listened attentively to the harangues with which he endeavored to induce them to purchase brass "jewelry," while two or three "cappers" mingling in the crowd, assisted to get up an excitement. First a lot of silver quarters were sold at fifteen cents, dimes at five cents each, dollar bills at eighty cents, and a number of five-dollar bills at four and a half dollars each, the "cappers," one of whom was dressed as a countryman and the others as rather flash "gentlemen of leisure," purchasing; then came the jewelry. A number of cheap rings were soon disposed of, and then the fellow in the carriage handed back to the purchasers their money. Brass watch-chains at a dollar apiece came next, and as fast as two or three would be taken the purchase money would be returned—the boss swindler keeping his fluent gab going all the time, impressing upon the feeble minded hearers that this was "the way our firm—one of the wealthiest in the United States—is taking to introduce its goods; walk up gentlemen, and buy; you see you can't lose anything when you not only get the goods but get your money back!" "How does he make this pay!" was the query in the crowd, to which the "cappers" answered that *they* knew the man, and he was only an agent of a great company abundantly able to spend a few thousand dollars in advertising their wares. Then came two-dollar chains; the first purchasers of these received their money back, as before, and the rush for them was becoming livelier than ever when City Marshal Entwistle came on the scene; observing the officer's uniform the boss swindler put on his coat, announced to the silly dupes who had paid two dollars each for chains and had *not* yet received back their money, that he was going to dinner and should be back in a short time, and then drove off, taking his brother swindlers with him. Had the Marshal not driven the scoundrels off $10 watches would next have been produced; and instead of getting away with about thirty dollars, as they did, the swindlers would have bagged a hundred or two. That so transparent a swindle should deceive anybody is almost incredible, particularly as this same gang and their method of operations have been repeatedly exposed in the papers. These fellows some weeks ago managed to rake in over $175 in Dover; the Dover *Democrat* gave them the benefit of a full *expose*, the principal portion of which was copied in the CHRONICLE, and we think in the *Times*,—so it is pretty certain that the men who were duped by them on Wednesday are men who "don't take the papers." Since they were in Dover the gang have been operating down in Maine. The rings, chains, watches, etc., sold by them are made of a fine quality of brass, worth perhaps thirty-five cents a pound to melt down and make engine fittings of, so the money paid them by their dupes is not a total loss. Whether or no the law of New Hampshire takes cognizance of such swindling as these brass merchants have for months been successfully carrying on, we cannot say; but if it does not it should, for if the State cannot furnish common sense to people devoid of it, it should at least protect them as far as possible from being plundered by every set of worthless scoundrels that comes along.

THE VICINITY.

Mr. George E. Kelley, of Stratham, otherwise known as "Shadow," who tips the scale at 435 pounds, has a last spring's pig, now five months old, that will dress 475 lbs.

Mr. James Brackett, of Stratham, last year raised 130 barrels of apples; this year, from the same tree, he has *one* barrel. His apple crop this year looks terribly lonesome in his cellar.

Mr. Simeon Brackett, of Greenland Bay-side, son of John Langdon Brackett, and his bride, formerly Miss Abbie S. Barrell, of York, Me.,—both members of old and honored families,—were called upon at their home on Thursday evening by a large party of friends, the visitors announcing their presence by a genuine serenade—none of your tin-pan affairs. The visitors were most hospitably entertained, and departed at a late hour, entirely satisfied with the hearty generosity of their reception.

A surprise party, numbering about seventy persons from Kittery, Portsmouth and Greenland, called upon Mr. and Mrs. C. B. Edmonds at their residence at Greenland Depot, on Tuesday evening. The visitors took with them all that was necessary in the way of good cheer, and Mr. Joseph S. Turner was on hand with his violin; and the party enjoyed themselves so well in feasting, games and dancing that the gathering did not break up until three o'clock Wednesday morning.

FIRE.

The alarm of fire Thursday morning at about half-past twelve o'clock was occasioned by the partial burning of the old "Hart house," corner of Daniel and Penhallow streets. Officers Pray and Bessellievre gave the alarm, having followed the smoke, which was very dense in the streets, for some distance before becoming sure that there was a fire. On arriving at the house the officers burst in the doors and roused Mr. Levi Clark, (who was asleep in the upper story, and anxiously enquired where the fire was,) and then got out the furniture from the lower story. The bells were promptly rung, and the Fire Department promptly responded; and the fire was soon put out, but not until the roof and upper story of the building were ruined and the rest of it badly damaged by water. The lower story was occupied by Mr. Albert L. Badger, tin and sheet-iron shop, and Edwin Russell, saloon; Levi Clark, dwelling and barber shop, in the upper story. Mr. Badger's stock was removed, but everything on the upper floor was burned. The fire is supposed to have caught in Mr. Russell's part of the building, but was showing through the roof when the officers arrived. The building is owned by Robert F. Gerrish, Esq., of Kittery.

We are informed by Mr. Wm. Kennedy, who was in Gt. Falls Wednesday evening at a lodge meeting, that when he left there at eleven o'clock a building was on fire.

AT THE NACKER'S,

NO. 18 CONGRESS STREET, PORTSMOUTH.

STATE OF NEW HAMPSHIRE.

ROCKINGHAM, SS.

By the Judge of Probate for said County.

TO the heirs at law and creditors to the estate of MARY D. HUTCHINGS, late of Portsmouth in said County, deceased, intestate, and all persons interested in said estate, greeting.

You are hereby notified that JOSIAH S. HALEY, Executor of the will of said deceased, will present his account of administering said estate at a Court of Probate to be holden at Portsmouth, in and for said County, on the second Tuesday of November next, at 10 o'clock A. M. for examination and allowance.

You are therefore hereby cited to appear at said Court to be heard thereon, and to make such objections as you may then have. And notice is hereby required to be given by causing this citation to be published three weeks successively in the Daily Morning Chronicle, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least one week prior to said Court. By order of the Judge.

WOODBURY S. DURGIN,

Portsmouth Chronicle

The steamship Lake Megantic, from Liverpool for Quebec, which brought out cattle in violation of the Dominion act regarding the importation of cattle and was obliged to leave them below atq uarantine, will have to take them back to Europe on her return trip.

—A Kentucky paper essays to explain the cause of our "Indian Summer," and this is the result: "If this sort of frosty weather were to last six weeks without rain there would be no Indian Summer. After the early frost the leaves fall, and it requires a shower of rain to cause the fallen leaves to ferment, which continues for a time and warms up the atmosphere. During this period of fermentation the season called Indian Summer comes in."

—Lee Zellers, an eight year old boy living with his mother in Washington County, Maryland, is credited with having recently walked twenty-eight miles in nine hours. His mother had gone upon a train to attend a funeral some distance from home and the little fellow determined to follow her. He was gone for some time before those who were at home missed him, and a search being organized it was ascertained that he had chosen the railroad track for his path. When overtaken twenty-eight miles from home he had stepped into a way station for a drink of water and was just about to travel on, full of pluck.

"Combines more attractions than any other."—*Beaver (Pa.) Times.*

☞ *CHEAPEST AND BEST!* ☜

Peterson's Magazine !

FULL-SIZE PAPER PATTERNS!

☞ A SUPPLEMENT *will be given in every number for 1878, containing a full-size paper pattern for a lady's or child's dress. Every subscriber will receive, during the year, twelve of these patterns, so that these alone will be worth more than the subscription price.* ☜

"PETERSON'S MAGAZINE" contains every year, 1000 pages, 14 steel plates, 12 colored Berlin patterns, 12 mammoth colored fashion plates, 24 pages of music, and 900 wood cuts. Its immense circulation enables its proprietor to spend more money on embellishments, stories, &c., than any other. *It gives more for the money than any in the world.* Its

Thrilling Tales and Novelettes

Are the best published anywhere. *All the most popular writers are employed to write originally for "Peterson."* In 1878, in addition to the usual quantity of short stories, five original copyright Novelettes will will be given, by Mrs. Ann S. Stephens, Frank Lee Benedict, Mrs. F. H. Burnett, and others.

Mammoth Colored Fashion Plates

Ahead of all others. These plates are engraved on steel, *twice the usual size*, and are unequaled for beauty. They will be superbly colored. Also, Household and other receipts; in short, everything interesting to ladies.

N. B.—As the publisher now prepays the postage to all mail subscribers, "Peterson" is cheaper than ever; in fact is the cheapest in the world.

TERMS, Always in Advance, $2 A YEAR!

2 copies for $3.00; 3 copies *for* $4.50; with a copy of the premium picture (31x26) *"The Angels of Christmas,"* a five-dollar engraving, to the person getting up the Club.

4 copies for $6.50; 5 copies for $8; with an extra copy of the Magazine for 1878, as a premium to the person getting up the club.

6 copies for $9.00; 8 copies for $12; 11 copies for $16; with both an extra copy of the Magazine for 1878, and the premium picture, *a five dollar engraving*, to the person getting up the club.

S.T-1860-X. PLANTATION BITTERS

THE WONDERFUL OLD HOME TONIC AND HEALTH RENEWER.

For the Stomach.—Ensuring hearty appetite, good digestion and vigorous health in every fibre of the body.

For the Liver.—Regulating, cleansing, curing material taint, and making pure, rich, life-giving blood.

For the Bowels.—Regulating the action.

For the Nerves.—Soothing, tranquilizing, bracing, and imparting vigor.

A **Boon** to delicate females in a thousand ways not necessary to speak of.

A Perfect Cure for Sick Headache, Liver Complaints, Costiveness, Dyspepsia, and all similar diseases. Use the Plantation Bitters temperately, medicinally, and expect a certain cure.

Sold everywhere.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them indispose it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proved that it stops the falling of the hair immediately; often renews the growth; and always restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus healthy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft — under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

DOCTOR PIERCE'S ALT. EXT. OR. Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in *harmony* more of Nature's sovereign curative properties, which God has implanted into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or "**Biliousness,**" in many cases of "**Liver Complaint**" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

HALL'S VEGETABLE SICILIAN *HAIR* RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color, it removes all scattering, healing and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing it nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "*I consider it the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

R. P. HALL & CO., Nashua, N. H.

37 SOMETHING NEW. Have you seen that nice CHOUAGUEN? At 37 Market Street.

Centaur Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The **White Centaur Liniment** is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate bed-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been specially restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment,** been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Gripes and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castorin** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,
NORMAN P. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

This Cut Illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high* up nasal passages, and into chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to those cavities and chambers by any of the ordinary methods. This obstacle is the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of **"Cold in the Head"** by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche,** and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 75 cents, **by all Druggists.**

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,207,540 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. may cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & CO. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

☞ *All New Subscribers for 1878 paying in advance after November 1, 1877, will receive the paper Weekly, from receipt of remittance to January 1st, 1878, without charge.*

COMBINED PAPERS—FORTY-EIGHTH YEAR.

THE COUNTRY GENTLEMAN.

A Premium Annual to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy, one year, $2.50; Four copies $10, *and an additional copy for the year free to the sender of the Club.* Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs*, to each subscriber—a book of 144 pages and about 140 engravings—a gift by the Publishers, in honor of the completion, in its present work, of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman possesses an unequaled Corps of Correspondents, regular and occasional, and is the *Best Farmer's Paper*. The Corps of Contributors, and constantly reflects the practical condition and progress of the husbandry of every section of the United States and civilized World.

The Country Gentleman gives in its *Horticultural Department* a continuous variety of information and suggestions, equal or superior in the aggregate to what is obtained in the monthly numbers of most magazines devoted to Horticulture.

The Country Gentleman has probably done as much as all other channels combined, to introduce and disseminate *Improved Stock* of every kind through the country, and commands, to a greater degree than any contemporary, the confidence and support of breeders and purchasers.

The Country Gentleman contains unusually full and trustworthy *Market Reports*, and devotes special attention to them and to the prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and so on, and weekly presents a column or two for the Housewife and an interesting variety of Fireside Reading. It contains a well-edited review of current events, and is adverting pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address

ALBANY, N. Y.

CATARRH

Catarrh of the Nasal Cavities, Acute, Chronic, and Ulcerative, Hay Fever, or Rose Catarrh, Catarrh of the Eye and Ear and Catarrh of the Throat,

SUCCESSFULLY TREATED WITH

SANFORD'S RADICAL CURE.

CATARRH is a disease of the mucous membrane. Temperament and constitutions vary so widely in individual cases. Catarrh may arise from a cold or a succession of colds, from sudden change of atmosphere, wearing wet clothing, or exposure to inclement weather, and being thoroughly established when the digestive organs are in a morbid or inactive condition, and the general and vital forces exhausted. In these cases any arise from a scrofulous condition of the blood, from Scarlet Fever, Measles, and Diphtheria, which in cases the eye and ear are generally involved and discharge quantities of matter. The discharges from the nose, the distinctive feature in all catarrhal cases from whatever cause they arise, may be thin and watery, and so acid as to cause redness and excoriation of the skin with which they come in contact, or thick and yellowish, emitting a foul odor, or clear and white like the white of an egg. There may be an entire lack of secretion, the surface being dry and feverish, the face, front and upper part of the head feeling uncomfortable, and as if it was encircled by a tight, unyielding band. This latter phase is called Dry Catarrh. The free mattery discharges cause the passages to swell and become thickened, rendering breathing through the nose difficult or impossible, and the sufferer finds it necessary to breathe through the mouth, thereby permitting cold air to pass directly to the bronchial tubes and lungs. The matter passing down the throat creates a constant desire to hawk and expectorate to throw it off; but when the membrane is dry and feverish, instead of passing freely down from the nose and throat, the mucus becomes hard and forms into scabs, incrustations, and hard lumps, which adhere so firmly to the nasal passages and throat as to require very persistent efforts to dislodge them. The eye in sympathy becomes inflamed, red, weak, and watery, or in the morning the lids may be found glued together, and matter is secreted in more or less quantity. The ear also becomes seriously affected, discharging quantities of matter, besides being visited by the most violent neuralgic pains, ending frequently in inflammation, ulceration, and finally deafness. The throat, bronchial tubes, and lungs are in many cases affected by catarrh, and when prostration of the nervous system is superadded, such affections become alarming.

A brief survey of this most serious disease warns all who are afflicted with it to make speedy preparation for its treatment before it becomes chronic. The advantages offered by SANFORD'S RADICAL CURE we confidently believe are to be found in no other remedy. Every step in its preparation, every line in the directions, mark it as a scientific remedy, calculated to meet every phase of the disease. The numerous testimonials from the best people in the United States attest the esteem in which it is held by those who have been freed from that most destructive and dangerous disease with which mankind is to-day afflicted.

JUST PUBLISHED.

A carefully revised Treatise on Catarrh, with an accurate description of symptoms and sympathetic ailments, together with minute directions for effecting with SANFORD'S RADICAL CURE a speedy and permanent cure. Also observations on diet and the general health, of vast importance to all afflicted with catarrh. It is wrapped about each bottle of the RADICAL CURE, or will be mailed free on receipt of stamp.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price $1. Sold by all wholesale and retail druggists throughout the United States and Canada.

Daily Chronicle.

An Upright Life Appreciated.

An incident creditable to all parties concerned recently occurred in connection with the failure of a firm in Boston. It was an old-fashioned failure; the balance sheet of the concern was one which would bear close inspection; and everything was given up to satisfy the demands of the creditors. The head of the firm, an old gentleman in his eighty-sixth year, was left penniless, and without the means of support. In this juncture a military association with which he had been connected from his younger days met to devise means for his relief, and an arrangement was effected by which he is secured an income of $1200 per year for the rest of his days. It is a pleasant incident in these days of dishonest bankruptcies and mammon worship.

American Trade with Toronto.

The United States Consul at Toronto says that as far as trade and commerce are concerned Ontario is the same as one of the States of the Union. He reports a large and continually increasing trade in American manufactures, their superiority in style and finish having completely obliterated old prejudices against them. At present the feelings of the people, politically and commercially, are throughly American. The Consul thinks that for the future Ontario will rely upon the United States for all her manufactures, as it would now be impossible to start any manufactories there which could hope to compete with those of the United States, and no foreign manufactures can. The imports into Ontario during the year of 1875 (the last official reports published) amounted to over $42,-000,000. Of this amount over $26,000,-000 were from the United States, against $15,000,000 from Great Britain. The exports during the same year from the forty-six ports of the province amounted to a little over $18,000,000, more than $8,000,000 less than the imports from the United States alone. The failures in all Canada during the last two years are represented as amounting to more than $50,000,000, but, on account of the American system of cash sales, it is thought that $60,000 of this total will cover American losses. A perseverance in this cash system, having all goods equal to representation, together with caution not to overstock the markets with pushing sales, and the future trade of the United States with Ontario will be both large and profitable.

—A Naugatuck (Conn.) man who vowed he would never pay for a newfangled spring bed which his wife bought in his absence for eight dollars, has finally succumbed after legal proceedings which cost him $700.

—It snows every other day in Russia during the winter, and thousands of young men join the Czar's army to fight the Turks for no other purpose than to get rid of shovelling three or four feet of snow off the front pavement three or four times a week.

FRIDAY, OCTOBER 26, 1877.

"Independent" Political Management.

It is to be hoped that the republicans of this State are not going to let the election go by default. Little more than two weeks of the canvass remain, and there are scarcely any signs of activity. The old managers are keeping aloof and the Custom House is attending to its own business. There was an opportunity to show that the services of the professional managers were not needed, but nobody seems to come forward to take their place. The State Committee is doing little or nothing, and the voters are left pretty much to themselves. They should not fail to do their duty as citizens, even though there are no brass bands, or torchlight, or ratification meetings to rouse their enthusiasm.

The above paragraph we clip from the Boston *Globe* of a recent date, and its tendency is to shake our confidence in the "independent" press and politicians as leaders of political campaigns. Unless our memory is very much at fault, the *Globe* is one of the papers that have most persistently relegated the "machine politician" into outer darkness, and insisted that "the people" would manage political things much better without the interference of the long-time political managers. But it appears from the *Globe's* statement that "nobody seems to come forward to take the place" of the machine workers, and the anti-machine papers fear the Massachusetts election may "go by default," as the Ohio election did. We do not anticipate so great a disaster as this, for we think the republican majority of Massachusetts is too large for even the wretched, blundering management of the independent hobby-riders to destroy; but we do expect to see so great a reduction in the republican majority that the party papers will not be able to indulge in extensive crowing. And even should the democrats carry the State, could it be greatly wondered at? We think not; it would not greatly arouse our wonder, anyway,—for no political party ever received from any National Administration more help toward carrying elections than the democratic party has received from the present republican administration. And this assertion we think susceptible of easy proof.

Every man who has ever taken an active part as manager in a political campaign knows that there is an immense amount of hard, exhausting work to be done to get out a full vote of any party, but more particularly of the republican party. It may be said that this is wrong; that all voters should go to the polls without urging, and that a full vote should be cast without any urging of voters or organization of "the machine." Possibly; but a large percentage of voters *do* not come out without urging, and *will* not either—duty or no duty. Now from the day of To-the-victors-belong-the-spoils Jackson down to the advent of the present administration, the active and efficient "workers for the party" have received the offices in the gift of the administrations elected by the party—whichever party has happened to be in power; whether this is right or wrong need not be considered in this connection—such is the unquestioned fact. The republican party having been in power in the nation for many years, a very large number of the most efficient republican workers are in office. These men were accustomed to "work for the party" before they became office-holders, and have always done so since up to the present time; but they are now prohibited from doing so any longer. We are aware that the famous order to office-holders is now interpreted to mean that said office-holders can "work for the party" *after* nominations are made; but this we regard as a contemptible quibble, utterly unworthy a reformer to make. To tell men who have all their lives worked hard in politics, "You shall not take any part in nominating candidates or building platforms, but after the nominations are made you may work as hard as you please to secure the election of candidates you may not like, nominated by men you may be opposed to on platforms you may not approve," is but adding insult to previous injury; and it is no wonder that under such circumstances "the old managers are keeping aloof," as the *Globe* says they are doing in Massachusetts. On the other hand, the democratic "old managers" are all at work; they are not in office, so the President's order does not fetter them; but they want to be in office, and they know that if their party wins they will get into office; and the sending of all the old republican leaders to the rear encourages the democratic workers to redoubled efforts, as they see now opposed to them but a disorganized, dispirited mob, with no better leaders than the impractical "independents," who have not the will—and if they had ever so much will have not the ability—to organize and carry to a successful ending a political campaign.

A New Financial Wrinkle.

A bill to provide a lawful note and coin currency for the United States, presented by Mr. Wallace of Pennsylvania, provides for the coinage of $400,000,000 in value of the coin metal patented by W. H. Hubbell of Pennsylvania called "goloid," consisting of gold, silver and copper in the proportions of one pound, twenty-four pounds and three-fourths of a pound respectively, to be paid for by issues of four per cent. bonds, redeemable in ten and payable after ten years, and to be paid out in exchange of bonds bearing a higher rate of interest, as the latter are retired, the goloid coins to be interchangeable with United States notes. The bill also requires the Secretary of the Treasury to cause to be issued $400,000,000 in legal tender notes in exchange for those now outstanding, and to keep at least $350,000,000 of the new issue out of the treasury in circulation.

News and Notes.

Charlie Ross has been discovered some more—this time as the adopted son of a Mr. Moffatt, one of the wealthiest citizens of Richmond, Ind.

Mr. Steers, the builder of the steamer Massachusetts, says $2000 will suffice to cover the expense of repairs upon the bottom of that boat, and that for $50,000 she can be put in as good shape as she was when first put on the line.

Colonel Charles G. Greene, founder and for many years editor of the Boston *Post*, and his wife, celebrated their golden wedding at the Commonwealth Hotel, Boston, Wednesday evening. Noteworthy among the many costly and tasteful gifts was a heliotyped fac simile in miniature of the first issue of the *Morning Post*, framed in gold and bearing the inscription: "To the founder of the *Post*, from those who have succeeded to his labors."

There was a slight fire in Newton, Mass., Wednesday morning, in the house of Jacob Dolet, and a son of Mr. Dolet's, aged seven years, was suffocated. The pecuniary damage amounted to but a few cents.

The first of the riot cases at Pittsburg, Penn., was tried Wednesday, and a sixteen-years-old boy was convicted of stealing property and having firearms and ammunition in his possession, and was sentenced to the penitentiary for three years.

The suit brought by Hallet Kilbourn of Washington against Speaker Randall, Sergeant-at-Arms Thompson and democratic members of the so called "real estate pool" investigating committee of the last House, claiming $150,000 damages for false imprisonment, having been appealed to the United States Supreme Court, the defendants have retained Frank H. Hurd to take charge of their case, and he will enter a motion to have the case advanced upon the docket for a hearing at an early day, in view of its involving questions of so much importance as to the powers and privileges of Congress and the rights of a citizen.

A number of tramps were ordered out of a chestnut tree by Louis Schalerg a farmer of Saulsbury, Pa., a few days ago. They drove him to his house with pistols, shouting "You've got to die," and began firing. Schaler fired out of a window and killed the ringleader of the gang. They picked up their fallen comrade and retreated to the woods, and nothing has been seen or heard of them since.

A man and wife at New Britain, Conn., made an agreement, some time ago, by which he was to stay at home and care for the children while she went away to work at a mill. Things worked satisfactorily for some time, the man getting goods on credit for the family use and his wife settling the bills monthly. Recently, however, the monthly payment failed. The man was sued by the storekeeper, and Judge Beach has just decided that he is not liable for the debt.

Alexander Reed, postmaster of Toledo, Ohio, and manager of the Toledo *Blade* and *Commercial* newspapers, has failed.

Major Minott A. Osborn, senior editor of the New Haven *Register*, died on Wednesday.

The New York police have arrested George C. Briggs, aged twenty, a stereotyper; Langdon W. Moore, alias Charley Adams, aged forty, a carriage-maker; Elizabeth Hill, aged twenty-one; and Rebecca Moore, aged twenty, on information which pointed to them as the persons who in September last robbed the Cambridgeport, Mass., bank of money and securities amounting to $60,000, for the recovery of which a reward of $4500 is offered.

George L. Fox, the celebrated pantomimist, died in Cambridge, Mass., on Wednesday, at the age of fifty-two.

Recorder Hackett has given Jane Loughlin, of New York, en years in the penitentiary for abducting Annie Costello, six years old.

New Hampshire Items.

Mrs. Susan Hanson of Weare celebrated her ninety-sixth birthday recently by going as a delegate to the Friends' quarterly meeting.

A man in the employ of A. K. Moore of the Franklin House, at Franklin, recently decamped with one of the best teams and a silver watch.

Some person or persons have been committing depredations at the cemetery in Chester. A handsome marble monument belonging to Nathan B. Goldsmith was considerably damaged one night last week. The name of Goldsmith, which was elaborately engraved on the monument in large letters, was entirely hammered off by means of a stone, and a monument belonging to Hon. John W. Noyes has also been injured.

The wife of Hugh McQuestion of Mount Vernon, 70 years of age, was found dead in bed on the 19th inst. She was apparently well on retiring the night previous.

Eagle Encampment, Independent Order of Odd Fellows, of Haverhill, Mass., accompanied by the Haverhill Cornet Band, visited their brethren in Dover, Tuesday.

Mr. George H. Hatch, the city clerk of Nashua, having tendered his resignation for the purpose of accepting a position as clerk at the office of Eaton & Ayers' Bobbin Works, Mr. E. N. Bowman, a member of the common council, has been elected.

The eighth annual course of discussions of the New Hampshire State Board of Agriculture opened Tuesday in Hanover. The introductory address was made by Hon. George W. Nesmith, of Franklin, President of the Agricultural College, on "Irrigation." Remarks were also made by Governor Prescott, President Bartlett, and others.

In the case of C. B. Mahan, agent of the Agricultural Works of Lebanon, in this State, recently on trial, at Belfast, Me., for cheating by false pretences in the sale of mowing machines, the jury rendered a verdict of not guilty. This was one of the notorious cases in which farmers in Maine and New Hampshire were last year swindled by being induced to give notes for mowing machines and other agricultural implements, which implements were never delivered though payment was enforced on the notes. If Mahan is not a swindler, then the company must be; at least there was a grand swindle adrift somewhere.

The oldest member of the present Congress is Hon. G. W. Patterson, of the 33d New York District. He is a native of Londonderry and was born Nov. 11th, 1799. He removed from his native town in 1818.

Political.

President Hayes, anxious to nominate for Minister to England some man not obnoxious to the Pennsylvania delegation in Congress, told them he would send to the Senate the name of the candidate they might agree on. The Pennsylvania delegation unanimously presented the name of Simon Cameron!

Senator Ingalls of Kansas has introduced a bill to enable Indians to become citizens.

Senators Hoar and Dawes, General Garfield and Colonel Ingersoll will take the stump soon in Massachusetts.

It is asserted by prominent democratic members of the House of Representatives that they will positively refuse to appropriate the sum asked for by the Secretary of the Navy, amounting to over $2,000,000, being an alleged deficiency in the pay account for the navy, until an adequate explanation of this deficiency is furnished by the department.

There is a row about the postmastership of Wakefield, R. I., between Elisha W. Cross, claiming the place under an appointment by Postmaster General Key, and Jesse V. B. Watson, appointed by Assistant Tyner, Watson having possession of the office. Cross is an "independent" republican,—which means, as usual, that he calls himself a republican and votes the democratic ticket. Watson is not only postmaster *de facto* but chairman of the Republican Town Committee. Both claimants have regular appointments, and heavy backing by prominent citizens of Rhode Island.

During the war Robert Smalls was a pilot on a Confederate gunboat, and when the captain was on shore he ran the steamer into the Union fleet which was blockading Charleston harbor, and surrendered the craft. Thereafter he served as pilot in the Union service. The democratic newspapers of South Carolina are recalling this fact now. Smalls is under indictment, and a Charleston paper says: "He is the rascal who stole one of our gunboats during the war, and ought to have been rotting in the Penitentiary, long ago."

MARRIAGES.

Sch Ida E Latham, Potter, for this port, old from Philadelphia Oct 23.

Joseph English was tried before Judge Benedict in the United States Court at New York and convicted of attempting to pass an altered United States 5-20 bond for $1,000. The bond was one of Lydia M. Kimball's of Nashua, and stolen from her several years ago. Her name was erased by the thieves and that of George Higgs of Boston substituted. English attempted to dispose of the bond to Benjamin Van Buskirk. He was remanded for sentence.

Foreclosure of Mortgage.

BE it known that on the fifth day of October, 1877, I peaceably entered upon and took possession of a tract of land with the buildings thereon situated in Derry, in the County of Rockingham, State of New Hampshire, containing about 70 acres, as follows: North by Chester town line, east by the highway leading from Derry to Chester, south by land of Edmund Adams, west by the Colby farm. Conveyed to me in mortgage by Harrison G. O. Hawkes, to Pearley C. Ingalls, and assigned to me by said Pearley C. Ingalls, recorded in Rockingham County register, December 23, 1857, Lib. 578, Fol. 57. Assignment recorded Jan. 5, 1858, Lib. 579, Fol. 36, for conditions broken and for the purpose of foreclosing the right in equity of said grantor to redeem the same and at the same time publicly declared the purpose and object of said entry and possession.

EDMUND ADAMS.

Derry, October 15, 1877. 6tnov12

THE CITY.

Ship Granite State, Capt. Ross, cleared from Boston for Rio Janeiro on Wednesday, with 2400 barrels of apples and 1600 tons of ice.

We are indebted to Senator Wadleigh for a copy of the report of the Monetary Commission of the United States Senate, submitted by Senator Jones of Nevada.

Mr. George A. Murray had his leg broken on Tuesday, the 22d, by the overturning of a load of corn-stalks upon which he was riding at Gravelly Ridge.

George Baxter, employed in the department of yards and docks at the navy yard, had his left foot severely injured a few days ago by a large cake of ice falling on it.

Capt. Charles E. Ricker of this city is now in command of the fine iron merchant ship Kate Kellogg, of 1800 tons, of Liverpool, and sailed thence for San Francisco Aug. 28th.

The grand jury of Essex county, Mass., very sensibly refused to indict Mr. J. E. Wolfe of the Newburyport *Word of Truth* for telling the truth (and what the subject thought was too much of it) about one Celia Sliney of Salisbury, who formerly with her husband kept a rum den in Kittery.

As cold weather is approaching the advertisement of Mr. J. L. O. Coleman, in another column, announcing a large lot of stoves of various kinds, cheap, is worth the reading of any in want of one of such articles. Mr. Coleman also advertises many other things besides stoves for sale. Read the advertisement.

The Fruit Show at Portsmouth Grange Hall will continue open through Friday and Friday evening and Saturday morning. The universal decision is that it is the finest display of the kind ever made in the city, and that neither the State nor N. E. Fairs excelled it this year in the same line. All should visit it.

We are sorry to hear that our friend Edw. D. Coffin, Esq., is suffering acutely from a severe sprain of the right leg just below the knee. Ald. Coffin appeared in the Board on Thursday evening ornamented with a very graceful pair of crutches. Ed. is too good a fellow to go breaking himself that way.

It is announced that the Secretary of the Navy has reduced the number of hours of labor at the New York navy yard to eight. We were under the impression that the National Government reduced the number of working hours to eight in *all* the navy yards, some years ago, and that the law making such reduction had never been repealed or modified.

The Aldermanic committee on gas lights, in their report on the questions submitted to the Board by the Inspector of Petroleum, suggested a plan that will prove more effective in checking the offering for sale of dangerous oils than all the prohibitive statutes that could be invented. When a dealer knows that if he buys oil that is below the State standard the public will be officially informed of the fact, he will be as shy about buying it as the most timid oil user could desire.

SUPREME COURT--SECOND WEEK.

Thursday, Oct. 25th.

Case State *vs.* Eldad L. Hankins, continued. The forenoon was occupied by the examination of witnesses for the defence. No new evidence of any importance beyond that produced at the coroner's inquest, already published, was brought forward on either side. The circumstances of the case are as follows: Three of the crew of the schooner "Sallie Mair," viz.: Eldad L. Hankins, Thos. Sullivan and William Daley, received some money on Saturday evening, July 7th, and each having permission to go on shore, came down in town at about six o'clock to make purchases and have a good time. On Sunday morning at about half-past one, they returned to the vessel, and shortly afterward the captain was awakened by a sound of scuffling on deck, accompanied by the sound of Hankins' voice, crying: 'For God's sake, turn out, or they will kill me!" The captain speedily dressed himself, ordered Hankins below and proceeded on deck, where a horrible scene presented itself. Across the entrance of the forecastle lay Daley, in a large pool of blood, which was trickling from a fatal stab he had received near the heart, while Sullivan was rushing "crazy-like" about the deck. Hankins and Sullivan were arrested by officers Johnston and Webster, and conveyed to the jail, where the former confessed to the deed, but said it was done in self-defense. According to the autopsy held by Drs. Whittier, Folsom and Parsons, the knife entered the chest between the fifth and sixth ribs, penetrated the right ventricle of the heart, and took an upward turn into the front wall of the organ, making a wound into it about two inches deep. The examination also showed that there was a very slight ossification of one of the semi-luna valves. Daley was an Englishman, hailing from London, and about thirty-six years of age; Hankins is an Englishman, about forty-nine years old.

The Court came in at two o'clock in the afternoon, when the case was argued by Gen. Marston for the prisoner, and Solicitor Small for the State. Judge Stanley's charge to the jury was regarded by those who heard it as being favorable to the prisoner. The case was given to the jury at about 5:45 o'clock, and a verdict of "not guilty" was returned at an early hour in the evening.

Adolph Nelson, a juror from this city, has been excused.

This morning case *State* vs. William Ward will be tried. The respondent is indicted for causing a nuisance by means of the chimney of his distillery, situate on Dennett street at Christian Shore, which it is stated, sends out dust, smoke, soot, etc., to the great injury of persons in the neighborhood. There will probably be a view of the premises by the jury. Hatch for the defendant.

COMMISSIONER'S COURT.

Henry J. Davis, the seaman who was charged with stealing from the post-office a letter belonging to A. H. Palmer, one of the crew of schooner Active, of this port, (case continued from Monday,) was brought before United States Commissioner Hackett, Thursday forenoon, and discharged. He had been in custody nerrly a week, and will probably be careful in the future how he fools around other people's letters when he is drunk. Rum came very near getting him in a bad scrape.

POLICE COURT.

Thursday, October 25th.

Robert Foster, Patrick Sheehan and John Ryan, all "simple drunks," all adjudged guilty, and all sent to Brentwood on account of a deficiency in the treasury department which precluded their handing over $9.90 each, fine and costs.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, the hearing on the petition of E. A. Clough came up in order. Harriman appeared for the petitioner, and Hatch for Eastern Railroad; Harriman requested a postponement, and the hearing was continued to next Thursday evening at 8 o'clock.

Communication from A. J. Penhallow on subject of sewerage was accepted.

Frank Jones was granted leave to open Fleet street to repair drain.

Applications of James Raitt for relay of sidewalk on Deer street, of proprietors of Opera House for same on Chestnut street, and of H. M. Clark for same on Islington street, were referred to committee on streets with power.

J. H. Grant asked to have the grade of sewer on Brewster street altered or new sewer built. Referred to committee on drains, to report.

Petition of Mr. Wiggin for culvert at Great Swamp was laid on the table.

Communication from Surgeon of the navy yard in relation to use of pest house in case small pox should break out at the yard, was referred to committee on burying grounds, to report.

Committee on streets were requested to estimate cost of repairing the sidewalks in front of Henry H. Ladd's on Middle street, of Mr. Durgin's on Islington street, and in front of H. M. Clark's and S. S. Frye's on Congress street, and report to the Board.

Elm street was ordered repaired from engine house to North Millbridge.

Sam'l S. Spinney asked permission to alter line between his premises and the city's. Referred to committee on city lands and buildings, to report.

Committee on police, to whom was referred City Marshal's report on fines and costs, reported in favor of accepting Marshal's report, which was done.

Ordered that claim of Atwood J. Adams, ($6 for sheep killed by dogs,) be paid.

At a previous meeting the Inspector of Petroleum and its Products, Mr. Robert E. Rich, sent in the following communication:

To His Honor the Mayor and Board of Aldermen:

Having been duly sworn to perform the duties of an Inspector of Petroleum and its Products, and finding that some aggrieved parties take umbrage at my method of applying the fire test, I would respectfully state that I have looked into the matter carefully, and as far as it is regulated by statute, and by custom in the Massachusetts refineries, find that I am using the apparatus designated by law. A number of traders whose oil I found not up to the lawful standard have returned the condemned goods to the dealers, and purchased better and safer brands instead. But some continue to sell the rejected article, and I request that your honorable body define my duties in the premises. It seems to me that exposing the sale of oil not up to the standard should be the extent of my duty.

Very respectfully,
Your servant,
ROBERT E. RICH.

This communication was referred to the committee on gas lights, (Ald. Norton, of Ward Two, and Ald. Payne,) to report,—and the committee's report was as follows:

The Committee on Gas Lights, to whom was referred the communication of Robert E. Rich, Inspector of Petroleum, beg leave to report as follows:

The law demands that all illuminating oils or compounds manufactured from coal or petroleum shall be inspected, and if they do not come up to a certain standard, they shall be condemned, and the persons exposing such condemned oils for sale shall be fined or imprisoned. It also provides a penalty in case of fraud, deceit or culpable negligence on the part of the Inspector. As this law was passed for the purpose of insuring a greater degree of safety to the public, it seems to your committee that any oil which can be *brought below the standard by any test*, no matter how severe (provided the instrument prescribed by law is used in testing) should be judged unsafe and branded as such, and the dealer in whose possession it is found should be prohibited from selling it. There can be no injustice in this, from the fact that plenty of oils in the market will bear the severest tests and still be far above the standard, and those that fall below can be returned to the manufacturer to be exchanged for better qualities. We cannot find any clause in the Statutes making it the duty of the Inspector to prosecute any person violating any provisions of the same. His duty is to inspect and brand the oils, and to forbid the sale of all that do not meet the requirements of the law. Any one can enter a complaint, but the law does not specify a particular person. As the Inspector is appointed by the Mayor and Board of Aldermen, it seems as if it is their duty to sustain him in the performance of his duty, by instructing the City Marshal to see that the law is enforced. We would recommend that the Inspector be required to present to the Board a weekly report of all oils he may find that do not come up to the required standard, giving the names of the parties offering the same for sale.

P. D. NORTON, } Committee on
A. L. PAYNE, } Gas Lights.

The report was accepted, and its recommendations unanimously adopted.

The following petition, signed by James DeNormandie, Jos. Hiller Foster, Annie B. Wilson and Mary A. Foster, was presented by Ald. Norton of Ward Two:

To the Mayor and Board of Aldermen of Portsmouth:

We, the undersigned, citizens of Portsmouth, respectfully request you to grant us the use of the Ward Room on State street, for two evenings each week, for the purpose of holding a free evening school for adults. We also request the use of the necessary gas and fuel during those two evenings.

The prayer of the petitioners was referred to committee on school houses, with power.

Committee on gas lights were instructed to have lamps lighted on dark and stormy nights.

Need of repairs on several school houses was reported. Referred to committee on school houses, with power.

The railroad-crossing question again come up. Ald. Yeaton asked if any answer had been received from the Eastern Railroad to the communication sent by City Clerk, to which the Clerk said no. It was voted that the Mayor be requested to convene the Common Council for next Thursday evening; also, that the Mayor communicate with the railroad authorities, inform them that the notice was sent by authority of the Board of Aldermen, and request an early answer, so that the Councils can act in the matter at next meeting. Ald. Hadley read the statutes bearing upon the case, and stated that the cars crossed the head of Vaughan street twenty-four times in thirty-five minutes, on Thursday.

Adjourned for one week.

Portsmouth Chronicle

Who Shall Buy School Books ?

We are glad to see that the Auburn city council has passed an order instructing the school committee to purchase text books and other supplies needful for the public schools. Such a system has been in successful operation in Lewiston, Bath, and other cities for several years. In Lewiston it is agreed the system has proved a most economical one. The first year the expense is somewhat in excess of what it is in the succeeding years, on account of purchasing all the text books. The books last several years, and it is estimated that the cost in this city is about ninety cents per scholar, or about three times less than the cost to parents when the books are purchased under the old system. Lewiston buys school books at forty per cents. discount from the publishers' prices. The books last longer than under the old regime, as the teachers are made responsible for their care. Lewiston pays about $2200 a year for school-books, pencils, slates, paper and school supplies. The system is also of great advantage in other respects, as there is no delay in providing books, parents are not annoyed by having to buy a book, a pencil, a writing book, or what not every week, and the burdens are removed from parents who find it difficult to buy books.—*Lewiston Journal.*

"Combines more attractions than any other."—*Beaver (Pa.) Times.*

☞ *CHEAPEST AND BEST!* ☜

Peterson's Magazine !

FULL-SIZE PAPER PATTERNS!

☞ A SUPPLEMENT *will be given in every number for 1876, containing a full-size paper pattern for a lady's or child's dress. Every subscriber will receive, during the year, twelve of these patterns, that these alone will be worth more than the subscription price.* ☜

"PETERSON'S MAGAZINE" contains every year, 1000 pages, 14 steel plates, 12 colored Berlin patterns, 12 mammoth colored fashion plates, 24 pages of music, and 900 wood cuts. Its immense circulation enables its proprietor to spend more money on embellishments, stories, &c., &c., than any other. *It gives more for the money than any in the world.* Its

Thrilling Tales and Novelettes

Are the best published anywhere. *All the most popular writers are employed to write originally for "Peterson."* In 1876, in addition to the usual quantity of short stories, five original copyright Novelettes will will be given, by Mrs. Ann S. Stephens, Frank Lee Benedict, Mrs. F. H. Burnett, and others.

Mammoth Colored Fashion Plates

Ahead of all others. These plates are engraved on steel, twice the usual size, and are unrivaled for beauty. They will be superbly colored. Also, Household and other receipts; in short, everything interesting to ladies.

N. B.—As the publisher now prepays the postage to all mail subscribers, "Peterson" is cheaper than ever; in fact is the cheapest in the world.

S.T-1860-X. PLANTATION BITTERS

THE WONDERFUL OLD HOME TONIC AND HEALTH RENEWER.

For the Stomach.—Ensuring hearty appetite, good digestion and vigorous health in every fibre of the body.

For the Liver.—Regulating, cleansing, curing sluggish taint, and making pure, rich, life-giving blood.

For the Bowels.—Regulating the action.

For the Nerves.—Soothing, tranquilizing bracing, and imparting vigor.

A Boon to delicate females in a thousand ways not necessary to speak of.

A Perfect Cure for Sick Headache, Liver Complaints, Costiveness, Dyspepsia, and all similar diseases. Use the Plantation Bitters temperately, medicinally, and expect a certain cure.

Sold everywhere.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and thinner of them incline it to shed prematurely. AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately, then restores the growth; and always surely restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus lonely, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

DOCTOR PIERCE'S

ALT. EXT. OR

Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in harmony more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and blood diseases, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-Rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver, or "Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are expressed. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being one *preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

37 SOMETHING NEW. Have you seen the Nice CHOUAGUEN ? At 37 Market Street.

Centaur Liniments.

They relieve pain;

They subdue swellings;

They cure burns without a scar.

The **White Centaur Liniment** is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate bed-ridden cripples, and have relieved more pain in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment,** been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Gripes and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and young children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,

NORMAN P. LITTLE.

The Centaur Liniments are the greatest discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. Where the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

This Cut illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly opposite* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This difficulty in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of **"Cold in the Head"** by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, obtuseness to smell, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche,** and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome and painful disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 60 cents, by **all Druggists.**

Portsmouth, N. H.

☞ *All New Subscribers for 1878 paying in advance after November 1, 1877, will receive the paper Weekly, from receipt of remittance to January 1st, 1878, without charge.*

COMBINED PAPERS—FORTY-EIGHTH YEAR.

THE COUNTRY GENTLEMAN.

A Premium Annual to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy, one year, $2.50; Four copies $10, *and an additional copy for the year free to the sender of the Club;* Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs*, to each subscriber—a book of 144 pages and about 140 engravings—a gift by the Publishers, in honor of the completion, in its present weekly form of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman-possesses an unequaled Corps of Correspondents, regular and occasional, among the *Best Farmers* of All Parts of the Country, and constantly reflects the practical condition and progress of the husbandry of every section of the United States and civilized world.

The Country Gentleman gives in its *Horticultural Department* a continuous variety of information and suggestions, equal or superior in the aggregate to that obtained in the monthly numbers of most magazines devoted to Horticulture.

The Country Gentleman has probably done as much as all other Journals combined, to introduce and disseminate *Improved Stock* of every kind through the country; and commands, to a greater degree than any contemporary, the confidence and support of breeders and purchasers.

The Country Gentleman contains unusually full and trustworthy *Market Reports*, and devotes special attention to them and to the prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and so on, and weekly presents a column or two for the Housewife and an interesting variety of Fireside Reading. It contains a well-edited review of current events, and its advertising pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address

LUTHER TUCKER & SON, PUBLISHERS,
ALBANY, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once,

H. HALLETT & CO., Portland, Maine. G11y2878

CATARRH

Catarrh of the Nasal Cavities, Acute, Chronic, and Ulcerative, Hay Fever, or Rose Catarrh, Catarrh of the Eye and Ear and Catarrh of the Throat,

SUCCESSFULLY TREATED WITH

SANFORD'S RADICAL CURE.

CATARRH is a disease of the mucous membrane. Temperaments and constitutions vary its severity in individual cases. Catarrh may arise from a cold or a succession of colds, from sudden change of atmosphere, wearing wet clothing, or thick or ill-ventilated weather, and becoming thoroughly chilled when the digestive organs are in a morbid condition, poisoned, and the strength and vital forces exhausted. The disease may arise from a scrofulous condition of the blood, from Scarlet Fever, Measles, and Diphtheria, in which cases the eye and ear are generally involved and discharge quantities of matter. The discharge from the nose, the distinctive feature in all catarrhal cases from whatever causes it may arise, may be slight and watery and so acid as to cause redness and excoriation of the skin with which they come in contact, or thick and viscid, emitting a foul odor, or clear and white like the white of an egg. There may be an entire absence of secretion, the surfaces being dry and feverish, the face, front and upper part of the head feeling uncomfortable, and as if it was encircled by a light, unyielding band. This latter phase is called Dry Catarrh. The free mattery discharge causes the passages to swell and become thickened, rendering breathing through the nose difficult or impossible, and the sufferer finds it necessary to breathe through the mouth, thereby permitting cold air to pass directly to the bronchial tubes and lungs. The matter passing down the throat creates a constant desire to hawk and expectorate, in order to free it off; but when the membrane is dry and feverish, instead of passing down from the nose and throat, the mucus becomes hard and forms into scabs, incrustations, and hard lumps, which adhere so firmly to the nasal passages and throat as to produce very persistent efforts to dislodge them. The eye in sympathy becomes inflamed, red, weak, and watery, or in the morning the lids may be found glued together, and matter is secreted in more or less quantity. The catarrh becomes seriously affected, discharging quantities of matter, besides being visited by the most vicious neuralgic pains, ending frequently in inflammation, ulceration, and totally destroy the throat, bronchial tubes, and lungs are in many cases affected by catarrh, and when predisposed to a fatal consumption, if the Catarrh system is superadded, such affections become alarming.

A brief survey of this most serious disease warns all who are afflicted with its noisome agency to seek for its treatment before it becomes chronic. The advantages offered by SANFORD'S RADICAL CURE we confidently believe are to be found in no other remedy. Every step in its preparation, every line in the directions, mark it as a scientific remedy, calculated to meet every phase of the disease. The numerous testimonials from the best people in the United States attest the extent in which it is held by those who have been freed from the most destructive and dangerous disease with which mankind is to-day afflicted.

JUST PUBLISHED.

A carefully revised Treatise on Catarrh, with an accurate description of symptoms and sympathetic diseases, together with minute directions for affecting with SANFORD'S RADICAL CURE a speedy and permanent cure. Also observations on diet and the general treatment of vast importance to all afflicted with catarrh. It is wrapped about each bottle of the RADICAL CURE, or will be mailed free on receipt of stamp.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, with full directions for its use. Price, $1.00. Sold by all wholesale and retail druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse.

CHARLES MASON,
Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1877. 3dw4jan78

37 A SPLENDID LINE of **WINDOW CURTAINS, Cheap,** At 37 Market Street.

Daily Chronicle.

—There are fourteen ex-Governors in the Senate and eight in the House, besides several ex-Governors of Territories.

—All efforts to secure funds to provide a suitable pedestal for the magnificent statue of "Liberty enlightning the world," which a number of generous Frenchmen proposed to present to New York city for erection at the entrance to the harbor, ceased long ago. One of the French societies of New York appropriated several thousand dollars, which it had on hand, toward the proposed fund, but not a dollar has been raised in any other way, and the probabilities are that the project will die of neglect. It is a great pity to lose so fine a monument and it is surprising that the nabobs of the metropolis do not move in the matter.

Daily Chronicle.

SATURDAY, OCTOBER 27, 1877.

The Eastern War.

A Russian official despatch says General Gourko on Thursday, after a severe battle which lasted ten hours, carried an outpost on the Sofia road and captured 4000 prisoners and a number of guns.

Suleiman Pasha, on the other hand, reports to his government that the Russian attack was repulsed. Also that the Turks have made a sortie from Rustchuk and beaten the Russians, killing 400; and that a Russian attack on the Turkish line of the Lom was repulsed and 800 Russians killed.

News and Notes.

Almost every city has its popular and standard "favorite" hotel. Boston has its "American," one of the largest, best, and most comfortable of hotels. The American is the great resort for business men and travellers. Its location is most convenient, and its accommodations are unsurpassed.—*Boston Home Journal.*

The Northampton *Gazette* reports that negotiations have been pending for several weeks between the bank officers and the burglars for the surrender of the stolen bonds. It hopes that the prisoners will be punished to the full extent of the law, as nothing else will satisfy the public demand.

The American Anti-Slavery Society held a mass meeting in Cooper Institute, New York, Wednesday evening, to adopt measures looking to the freedom of slaves in Cuba.

A German, with over 625 good diamonds, has been arrested by the New York police. It is believed that he has escaped the scrutiny of the Special Treasury Agents.

The Oregon Supreme Court has decided that a candidate for county judge, who promised to throw off $200 each year from his salary, if elected, was guilty of bribery.

Zack Chandler says that if he had a boy to-day he would rather have him go to work upon an eighty acre farm than into the best political office that could be found.

Samuel J. Tilden arrived in New York from Europe, Wednesday night, accompanied by John Bigelow, Secretary of State of New York.

Andrew Vanston, a shoemaker in South Coveland, Mass., by the death of an uncle in Europe becomes heir to property amounting to $2,500,000. Mr. Vanston has two brothers living in this country, who will each have the same amount.

It is reported that the receiver of the Erie Railroad has nearly completed negotiations to secure a terminus at Boston with the New York Central. The plan is to lay a third rail from the West to the Susquehanna depot at Binghamton; the Albany & Susquehanna Railroad is to be tapped; from the Hudson river a new line twenty miles long is to be built, to connect with the Troy & Greenfield Railroad, passing through the Hoosac Tunnel. The remainder of the distance is to be over the Fitchburg road. It is also stated that the Erie contemplates a new connection to Philadelphia by way of the Susquehanna depot, which explains the laying of the third rail to that place.

The legal clemency that Iowa has been experimenting with for some years does not satisfy the people of the State, and every year there is a movement to re-enact the death penalty for murder. There is probably more capital punishment going on in the State than there was before hanging was theoretically "played out," but it is done in spite of the law instead of in due form, and sometimes the wrong man gets hanged in consequence. Theoretically it is a fine thing to have no death penalty in a State, but practically it will not work well as long as men continue to murder and the popular ideas of justice remain what they are now.

New Hampshire Items.

There is a report that the town of Salisbury is considerably exercised at the disappearance of a boy who worked for a man named Fred Shaw. On a recent night the boy, whose name cannot be learned, but who was about ten years old, got into a quarrel with one of Shaw's boys about bringing in some wood. Late at night he disappeared and has not since been seen. It is said that Shaw beat the boy severely, and the story of the disappearance is told by Shaw.

Alfred Eastman of North Conway has contracted to cut and draw one million feet of spruce lumber for the Bartlett Land and Lumber Company, the coming winter. This company propose to draw seven million feet of lumber to their mills in Bartlett the coming winter.

Professor J. J. Holbrook and Ira J. Prouty, assistant, have just completed a series of levellings, over seven miles in extent, for the accurate determination of the altitude of Monadnock Mountain in Cheshire County, and for the purpose of testing the accuracy of the work done by the Coast Survey some years ago. The series, ending at the summit, begins at Troy on the line of the Cheshire Railroad, the surveys for which give the altitude of the track at the station as 1002 feet. The survey just completed makes the altitude of the mountain 3169.3 feet. By triangulation the Coast Survey made the altitude, according to the geology of New Hampshire, 3186 feet.

One day last week a Mr. Perry of Pepperill, while driving a vicious cow from Nashua to his home, was thrown down with sufficient violence to break his collar bone and dislocate two or three ribs. The cow escaped from him and the next day a party of Hollis men undertook to drive the vicious beast to Mr. Perry's house, when she bounded over the fence and gave battle to Mr. Samuel Worcester. Mr. Worcester defended himself with a pitchfork and yet he was thrown down and had both bones of his leg badly fractured. Mr. Worcester rolled into a ditch and but that the attention of the cow was attracted by a dog, must have been still more seriously injured. The cow was finally shot.

A "Rule or Ruin" Faction.

The Nashua *Telegraph* commences an editorial on "A pretty condition of things," as follows:

A correspondent states that if George William Curtis should be invited to take the stump in Massachusetts, and should accept and make a few speeches there, then the State would certainly go democratic. In other words this correspondent would have it understood that there is a faction of republicans in Massachusetts, as there was in Ohio, which is determined to ruin if it cannot rule the party.

If the correspondent meant that, the correspondent is just right. There has been for many years a "rule or ruin" faction within the republican party of Massachusetts—a faction that has always (until now) prated loudly of the "divine right of bolting" any nomination that might not just square with their ideas—a faction that elected five democrats (and Professor Seelye) to the 44th Congress—a faction that has always insisted that it was the duty of every honest voter to cast his ballot against his party whenever that party disregarded his pet theories, even though by so voting he might give the political control to a worse party—a faction that has assumed to possess a monopoly of political virtue—a faction that to-day is represented by Prof. Seelye, James Freeman Clarke and other "divine bolters." True, this faction does not now spout so loudly as formerly of the "divine right of bolting;" but that is because the party platform of to-day is just to their liking, and they recognize the vast difference there is between another man's bolting their ticket and their bolting his, —he of course being wrong, and they right. There *is* a rule or ruin faction in the republican party of Massachusetts, and a strong one; and it is not at all impossible that it may turn out to be a "rule *and* ruin" faction. We hope not, but our faith is not as a grain of mustard seed.

—Judge Morgen of New York has held a young man for trial for pointing a loaded pistol at another, "just for fun."

—The oldest ex-member of Congress now living is the Hon. Artemus Hale, of Bridgewater, Mass. He is ninety-five.

—A nephew of Vicomte Cooke, of St. Paul's Churchyard, says *Truth*, was once playing at whist with the late Mr. Peabody at a Brighton club. The latter was somewhat slow in arranging his cards. "Come, make haste, old fellow," said the nephew. "Do not be angry with me," replied Peabody; "when your father and I were apprentices in London he never spoke rudely to me when I was slow in taking down the shutters." The nephew of the vicomte, himself a fashionable young officer, was not pleased with the kindly-meant observation of Mr. Peabody.

Vacant Places

In the dental ranks will never occur if you place your trust in Sozodont. From youth to age it will keep the enamel of the teeth spotless and unimpaired. It has the same effect upon them that kyanization has upon wood; rendering them impervious to decay.

All fractures, except of the bones, cured by Spalding's Glue.

To those who are so unfortunate as to become prematurely gray, or whose hair exhibits a tendency to fall off, we recommend a trial of Hall's Hair Renewer. We do so with the utmost confidence because it is everywhere received with marked favor, and has built upon its own merits such a sure foundation that it is known and used in all civilized countries.—*Addison (N. Y.) Advertiser.*

THAT Major Generals P. T. Beauregard of La. and Jubal A. Early of Va. should manage the distribution of prizes of the Louisiana State Lottery at its grand semi-annual drawing on December 11th, is a fair guarantee to the people of the United States that the transaction will be a high-toned honorable lottery. Capital $1,500,000, with accumulated surplus of over $350,000. Address M. A. Dauphin, President, P. O. Box 692, New Orleans, La., for information or tickets.

LAME AND SICK HORSES, pronounced incurable, cured, free of cost. Giles' Liniment Iodide Ammonia.

Spavins, Splints, Ringbones, Bunches, Thoroughpins. Spring Knees cured without blemish.

Strains, Shoulder Lameness, Navicular Disease, Shoe Boils, cure guaranteed. Send for pamphlet containing full information to

Dr. WM. M. GILES, 451 6th Avenue, New York.

Use only for HORSES, the liniment in YELLOW wrappers. JOHN H. SLATER, Agent.

eod&tocelll 7?

—A singular circumstance happened at Bridgeport on Monday, when a young lady residing in one-half of a house died at the very moment during which the remains of a young lady, who had died in the other half, were being removed for burial, and the piece of crape on one door was removed and placed on the other.

—The monster 100 ton cannon have been recently so improved that the Italian Government intends to try some new ones, which it has ordered from the English manufacturers, with a charge of 470 pounds of powder and a projectile weighing 2,280 pounds, or a little more than a ton. The metallurgists are busy making a composite plate, in which steel and iron are combined, for the purpose of resisting, when used as targets, the projectiles from these cannon.

E. G. PIERCE, JR., P. M.

THE CITY.

Mercer Goodrich has for sale at his book store on Market square the pamphlet edition of the laws he helped enact at the last session of the Legislature.

The city lodged quite an army of tramps on Thursday evening; they divided into parties, Friday morning, and foraged for breakfasts at the West End.

We have received the Old Farmer's Almanac for 1878 from Mercer Goodrich, who has this standard work for sale at his bookstore in the City Building on Market square.

On Thursday, in the House, Representative Morse of Massachusetts introduced a petition of the widow of the late Pay Director A. Eugene Watson, U. S. N., formerly of this city, for pension.

Mr. Ralph K. Nichols, formerly of this city, has been appointed Secretary of the Water Company of Lower Lake, California,—the position made vacant by the death of his brother, Leslie P. Nichols.

Joseph H. Gardiner, Esq., on Wednesday evening last resigned the position of Secretary of New Hampshire Lodge, I. O. O. F., which he has held for fifteen years, the resignation to take effect on the following Wednesday. Mr. Gardiner is proposing to remove to Elmira, N. Y., soon, and go into the fire insurance business.

At noon to-day will be sold at auction, a thirty-second part of the ship "Paul Jones." The ship is ready for sea, and is to leave for New York on Monday. The sale will allow some one to invest in a good piece of property, which, if the prospects of the moving crops are to be relied upon, will repay the owners a handsome dividend on the first voyage.

Daniel W. Voorhees, who lectures in this State week after next, comes to Dover on Wednesday evening, Nov. 7th, and will give his celebrated lecture on Thomas Jefferson, in the City Hall. As the lecture begins at eight o'clock, residents of this city desirous of hearing the great Indiana orator can leave here by the seven o'clock train, and reach Dover in abundant season for the lecture.

MASONIC.

On Thursday evening the Consecration, Dedication, and Installation of Officers of Winnicut Lodge, No. 92, of Greenland, took place, the services being in public, in the Methodist church, and the Grand Lodge constituted as follows:

John J. Bell, Exeter,	M. W. G. M.
John Christie, Portsmouth, as	R. W. D. G. M.
John R. Holbrook, Portsmouth, as	R. W. S. G. M.
Charles A. Tufts, Dover, as	R. W. J. G. M.
David T. Parker, Farmington, as	R. W. G. T.
Daniel W. Edgerly, Farmington, as	R. W. G. S.
Joseph Kidder, Manchester,	R. W. G. C.
Horace A. Brown, Concord, as	W. S. G. D.
Charles G. Conner, Exeter, as	W. J. G. D.
Samuel E. Woodman, Kingston, as	W. G. S.
Benj. F. Webster, Portsmouth, as	W. G. S.
William P. Walker, Portsmouth, as	W. G. S.
George C. Gordon, Salem, as	W. G. S.
George F. Cleaves, Concord,	W. G. M.
T. E. O. Marvin, Portsmouth, as	W. G. S. B.
Samuel W. Emerson, Concord,	G. T.

After the ceremonies a collation was served in the store under the Lodge room. There were present about one hundred and twenty-five visiting brethren, a large number going up from this city in a special train; others from Manchester, Exeter, Hampton, Rye and other places being in attendance.

REVIVAL MEETINGS.

Arrangements have been perfected for a series of Evangelistic meetings to be conducted by Messrs. Whittle and McGranahan, in this city.

Major D. W. Whittle, of Chicago, was for years a prominent business man in that city, but at the earnest solicitation of Mr. Moody he gave up his business and the income derived from it, and has during the past four years been doing the work of an Evangelist; for three years the lamented singer, P. P. Bliss, was his colaborer in Chicago, Detroit and other western cities, where [as a result of their efforts many thousands were added to the churches. As a Gospel preacher he is second to none. In Chicago he filled the great Tabernacle for weeks, and held the audience as nothing but the Gospel earnestly preached could do. On the death of Mr. Bliss, Mr. James McGranahan of Chicago took his place, and since then Messrs. Whittle and McGranahan have labored very successfully together.

Mr. McGranahan has for years been well known in musical circles in Chicago and the West. He has written some of the sweetest and most popular songs, that are now being sung all over the world. He has a tenor voice of unusual sweetness; as a solo singer he has few equals, and his sacred songs attract many to the meetings, and the Gospel as sung by him has been the means of many conversions.

Messrs. Whittle and McGranahan are now holding meetings in Rutland, Vt.; they will arrive in Portsmouth next week, and the opening meetings of the series will be held in the North church on Sunday, Nov. 4th.

SUPREME COURT--SECOND WEEK.

On Friday the case State vs. William Ward was tried. The respondent was indicted for causing a nuisance by means of the chimney of his distillery, situate on Dennett street at Christian Shore, which it is stated, sends out dust, smoke, soot, etc., to the great injury of persons in the neighborhood. The trial occupied the entire day. A large number of witnesses were called by both sides. Witnesses for the prosecution were of opinion that the chimney caused an annoyance. Several witnesses were called by the respondent, whose testimony went to show that the annoyance was hardly appreciable. The neighbors evidently had different views of the matter. Given to the jury at the close of the arguments. Small for State; Hatch for Ward.

The Court at six o'clock adjourned to half-past eight o'clock this morning.

The new docket will be called on Monday afternoon at half-past two o'clock.

SUNDAY SERVICES.

At St. Mary's (Catholic) church, Children's Mass at 8:30, Solemn Mass at 10:30 A. M.; Sunday School at three o'clock, P. M.

At St. John's (Episcopal) church services at 10:30 A. M. and 7:30 P. M. every Sunday,—except the first Sunday in each month, when the Children's Choral Service and public cathechising, commencing at four o'clock, is substituted for the usual one at 7:30; seats free at this service.

At the Middle street (Baptist) church, services at 10:30 A. M., 7:30 P. M. Preaching to-morrow by the pastor, Rev. Dr. W. H. Alden.

At the Advent church, services at 10:15 A. M., 2:45 and 7:30 P. M. Elder D. M. Leavitt of Loudonridge will preach.

At the Methodist church, preaching at 10:15 A. M. and 2:45 P. M., by the pastor, Rev. J. Noyes. Subject, forenoon, "All things ready for the supper;" afternoon, "The sinner not ready."

At the Unitarian church, preaching at 10:30 A. M.; vesper service at 7:30. Preaching to-morrow by Rev. A. D. Mayo, of Springfield, Mass.

At the Congregational church, service at 10:30 A. M. and 3 P. M.; prayer meeting at 7:30 P. M. Preaching to-morrow by Rev. James W. Hubbell.

At the Universalist church, preaching at 10:30 A. M., by Rev. E. M. Grant.

At the Court street church (Christian) services at 10:30 A. M. and 2:45 P. M.; Sunday school directly after morning service; prayer meeting at 7:30 P. M.

At the Pearl street (Freewill Baptist) church there will be services at 2:30 P. M.; Elder E. Owen will preach.

At Bow Mission, the service of praise that was postponed last Sunday, will be held, commencing at 4:15 P. M. The chorus will rehearse for the revival meetings which are to commence Nov. 4th.

The Reform Club meeting will take place at the usual hour, in the Methodist church, where Rev. J. E. Wolfe, the fearless temperance advocate of Newburyport, will address the audience. An admission fee of ten cents will be asked, to defray expenses.

THE VICINITY.

Mr. Albert Dow, of Rye, has this year harvested 145 barrels of apples,—more than any other person in the town has raised.

The statement that has been going the rounds of the State papers, that the house at North Hampton, in which Gen. Henry Dearborn of revolutionary fame was born, has been pulled down, is incorrect. The ancient structure still stands in good repair, and is occupied by Mr. Samuel S. Warner.

It is said that the Manchester & Lawrence Railroad economically makes use of an upright post as a "station" at Policy Pond. That is better than the Portsmouth & Dover Railroad Station at Newington, which is represented in rainy weather by an umbrella,—the only covering to be had against the inclemency of the weath, and always furnished by the passenger.

Farmers living in the vicinity of Spruce Creek, Kittery, have met with severe losses recently in having sheep killed by dogs. On Wednesday night twelve were killed. Among the losers are Admiral Welch, John and William Adams, and Mrs. Johnson. The first raid was made a week previously, on sheep belonging to Dennis Shapleigh. There will be no show for dogs around Spruce Creek after this.

On the evening of Thursday, Oct. 18th, George H. R. Marden, of Kittery Point, fired a pistol at Moses P. Randall, a son of Mr. Reuben Randall of Kittery, sending the bullet whizzing uncomfortably close to his head. On Wednesday, Oct. 24th, Marden was taken before Trial Justice Dennett, of Kittery, on a charge of committing an aggravated assault; he was also charged with carrying concealed weapons, contrary to law. The justice adjudged him guilty, and ordered him to furnish sureties in $200 that he would keep the peace for six months, and in default to be committed to Alfred jail.

NAVAL MATTERS.

Pay Inspector Edward May is ordered to duty as inspector of provisions and clothing at this navy yard.

Pay Inspector C. J. Emery is ordered to duty as purchasing paymaster at the Boston yard.

Pay Inspector G. E. Thornton is detached from duty as purchasing paymaster at Boston, and ordered to settle accounts.

Paymaster Charles T. Gulld is detached from duty at this naval station and ordered to settle accounts.

Boatswain Andrew Milne is ordered to the Omaha, on the South Pacific station, and to leave New York per steamer on the 31st of October to join her.

The Boston *Post's* Washington correspondent says that the United States vessels Enterprise, built by contract at this navy yard, and the Huron and Ranger, both built on the Delaware, are in so bad a condition that Secretary Thompson will call the attention of Congress to the matter. The Alert, an iron vessel, is said to be as bad as the others, and the correspondent intimates that none of them are seaworthy.

A Washington despatch of Oct. 25th says: "The Secretary of the Navy to-day finally decided the question with regard to the hours of labor in the various navy yards throughout the United States. The schedule provided by the Department directs that from March 21st to Sept. 21st labor shall begin at seven o'clock A. M., and continue until six o'clock P. M.; from Sept. 22d to March 20th labor begins at 7:40 o'clock, and continues until 4:30 o'clock in the afternoon, with an interruption of one hour for dinner. These regulations are in no respect designed to carry with them any present reduction of pay." It is quite possible that the question is not yet "finally decided," notwithstanding the Secretary's dictum; Congress may yet ask him by what authority he assumes to overthrow a law passed by the Congress and approved by the President of the United States, and he may find that his final decision has not finally decided anything.

PORTSMOUTH GRANGE HALL SHOW.

The Hall Show of Portsmouth Grange, though gotten up on short notice, was a great success, the entries being numerous and the articles entered superior; another year a much larger hall will be needed to hold the exhibits. We give the list of entries as fully as it could be procured, the awards of committees, etc.:

ENTRIES.

FRUIT.

1. Chas. H. Pickering, Newington, 2 plates pears.

Peterson's Magazine!

FULL-SIZE PAPER PATTERNS!

☞ A SUPPLEMENT *will be given in every number for 1876, embracing a full-size pattern for a lady's or child's dress. Every subscriber will receive, during the year, twelve of these patterns, so that there alone will be worth more than the subscription price.* ☜

"PETERSON'S MAGAZINE" contains every year, 1000 pages, 14 steel plates, 12 colored Berlin patterns, 12 mammoth colored fashion plates, 24 pages of music, and 900 wood cuts. Its immense circulation enables its proprietor to spend more money on embellishments, stories, &c., &c., than any other. *It gives more for the money than any in the world.* ita

Thrilling Tales and Novelettes

Are the best published anywhere. *All the most popular writers are employed, write originally for "Peterson."* In 1876, in addition to the usual quantity of short stories, five original copyright Novelettes will will be given, by Mrs. Ann S. Stephens, Frank Lee Benedict, Mrs. F. H. Burnett, and others.

Mammoth Colored Fashion Plates

Ahead of all others. These plates are engraved on steel, *twice the usual size*, and are unequaled for beauty. They will be superbly colored. Also, Household and other receipts; in short, everything interesting to ladies.

N. B.—As the publisher now prepays the postage to all mail subscribers, "Peterson" is cheaper than ever; in fact is the cheapest in the world.

TERMS, Always in Advance, $2 A YEAR!

S.T-1860-X. PLANTATION BITTERS

THE WONDERFUL OLD HOME TONIC AND HEALTH RENEWER.

For the Stomach.—Ensuring hearty appetite, good digestion and vigorous health in every fibre of the body.

For the Liver.—Regulating, cleansing, curing malarial taint, and making pure, rich, life-giving blood.

For the Bowels.—Regulating the action.

For the Nerves.—Soothing, tranquilizing, bracing, and imparting vigor.

A Boon to delicate females in a thousand ways not necessary to speak of.

A Perfect Cure for Sick Headache, Liver Complaints, Costiveness, Dyspepsia, and all similar diseases. Use the Plantation Bitters temperately, medicinally, and expect a certain cure.

Sold everywhere.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth; and always surely restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brashy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, disease of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

DOCTOR PIERCE'S ALTERATIVE OR

Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined *in harmony* some of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by foul blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, foul taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or "**Biliousness.**" In many cases of "**Liver Complaint**" only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

Vice Pres.—FREDERIC W. LINCOLN, THOS. TALBOT, SAMUEL C. COBB.

HALL'S VEGETABLE SICILIAN *HAIR* RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

R. P. HALL & CO., Nashua, N. H.

Sold by all Druggists and Dealers in Medicine. No. 5.

Centaur Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The White Centaur Liniment is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate bed-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling on crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment,** been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Gripes and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,
NORMAN F. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. Wear the White Liniment does for the human family, the Yellow Liniment does for horses and animals. These Liniments are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

This Cut Illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

Centaur Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The White Centaur Liniment is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate bed-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling on crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment,** been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Gripes and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,
NORMAN F. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. Wear the White Liniment does for the human family, the Yellow Liniment does for horses and animals. These Liniments are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., successors to CHIPMAN, HOSMER & CO., Solicitors, Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,0 0 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

☞ *All New Subscribers for 1878 paying in advance after November 1, 1877, will receive the paper Weekly, from receipt of remittance to January 1st, 1878, without charge.*

COMBINED PAPERS—FORTY-EIGHTH YEAR.

THE COUNTRY GENTLEMAN.

A Premium Annual to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy, one year, $1.50; Four copies $10, *and an additional copy for the year free to the sender of the Club;* Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs*, to each subscriber—a book of 144 pages and about 150 engravings—a gift by the Publishers, in honor of the completion, in its present weekly form of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman possesses an unequaled Corps of Correspondents, regular and occasional, among the *Best Farmers* of All Parts of the Country, and constantly reflects the practical condition and progress of the husbandry of every section of the United States and civilized world.

The Country Gentleman gives in its *Horticultural Department* a continuous variety of information and suggestions, equal or superior in the aggregate to what is obtained in the monthly numbers of most magazines devoted to Horticulture.

The Country Gentleman has probably done as much as all other Journals combined, to introduce and disseminate *Improved Stock* of every kind through the country; and commands, to a greater degree than any contemporary, the confidence and support of breeders and purchasers.

The Country Gentleman contains unusually full and trustworthy *Market Reports*, and devotes special attention to them and to the prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and so on, and weekly presents a column or two for the Housewife and an interesting variety of Fireside Reading. It contains a well-edited review of current events, and its advertising pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address

Address at once. Oly278

H. HALLETT & Co., Portland, Maine.

CATARRH

Catarrh of the Nasal Cavities, Acute, Chronic, and Ulcerative, Hay Fever, or Rose Catarrh, Catarrh of the Eye and Ear and Catarrh of the Throat,

SUCCESSFULLY TREATED WITH

SANFORD'S RADICAL CURE.

CATARRH is a disease of the mucous membrane. Temperaments and constitutions vary its severity in individual cases. Catarrh may arise from a cold or a succession of colds, from sudden change of atmosphere, wearing wet clothing, or exposure to inclement weather, and becoming thoroughly chilled when the digestive organs are in a morbid or inactive condition, and the strength and vital force exhausted. The disease may arise from a scrofulous condition of the blood, from Scarlet Fever, Measles, and Diphtheria, in which cases the eye and ear are generally involved and discharge quantities of matter. The discharges from the nose, the distinctive feature in all catarrhal cases from a cold or coryza, may be thin and watery, and so acid as to cause redness and excoriation of the skin with which they come in contact, or thick and of a yellow, emitting a foul odor, or clear and white like the white of an egg. There may be an irritation of secretion, the surface being dry and feverish, the face, front and upper part of the head feeling uncomfortable, and as if it was scorched by a light, throbbing heat. This latter phase is called Dry Catarrh. The free nasal discharges cause the passages to swell and become thickened, rendering breathing through the nose difficult or impossible, and the sufferer finds it necessary to breathe through the mouth, thereby permitting cold air to pass directly to the bronchial tubes and lungs. The matter passing down the throat creates a constant desire to hawk and expectorate to throw it off; but when the membranes is dry and feverish, instead of passing freely down from the nose and throat, the mucus becomes hard and forms into scabs, incrustations, and hard lumps, which adhere so firmly to the nasal passages and throats as to require very persistent efforts to dislodge them. The eye in sympathy becomes inflamed, red, weak, and watery, or in the morning the lids may be found glued together, and matter is secreted in more or less quantity. The ear also becomes seriously affected, discharging quantities of matter, besides being visited by the most vicious neuralgic pains, ending frequently in inflammation, ulceration, and finally deafness. The throat, bronchial tubes, and lungs are in many cases affected by catarrh, and the general tenor of the nervous system is superadded, such as to become alarming.

A brief survey of this most serious disease warns all who are afflicted with it to make speedy preparation for and treatment before it becomes chronic. The advantages offered by SANFORD'S RADICAL CURE we confidently believe are to be found in no other remedy. Every step in its preparation, every line in the directions, mark it as a scientific remedy, calculated to meet every phase of the disease. The numerous testimonials from the best people in the United States attest the potency in which it is held by those who have been freed from the most destructive and dangerous disease with which mankind is to-day afflicted.

JUST PUBLISHED.

A carefully revised Treatise on Catarrh, with an accurate description of symptoms and sympathetic diseases, together with minute directions for effecting with SANFORD'S RADICAL CURE a speedy and permanent cure. Also observations on diet and the general treatment of consumption as allied with catarrh. It is wrapped about each bottle of the RADICAL CURE, or will be mailed free on receipt of stamp.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1. Sold by all wholesale and retail druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

William P. Walker's,

by3 No. 3 Market Square.

P-A-T-E-N-T-S!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston.

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 15, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1877. 3tawJan18

Daily Chronicle.

MONDAY, OCTOBER 29, 1877.

A Needed Investigation.

The London *Daily News* calls upon the British Admiralty to institute a searching inquiry into the allegations of the survivors of the Eten, wrecked on the coast of Chili, that they were neglected by H. M. S. Amethyst, the inference being that it was because of the Hussar-Shah trouble. The *News* says: A few of the passengers and crew succeeded in reaching the shore, but the great majority of those who escaped immediate death by drowning, to the number of fifty or sixty, gained the summit of a rocky islet, at a distance of not more than five or six hundred yards from the land. Here they remained from Sunday, July 15th, till the following Tuesday without water or food, their numbers being gradually reduced by their falling into the sea or by the unsuccessful efforts of some of the party to reach the shore. On the Tuesday it is said that her Majesty's steam corvette Amethyst hove in sight, and according to the statements of the survivors who found their way last month to Callao, signals were hoisted both on the rock and on the land in order to induce that vessel to come to the rescue. She was within a distance of not more than two or three miles, and although the sea seems to have been rough at the time, yet there was appa rently no sufficient reason why her lifeboat should not have put off to the scene of the wreck. It is the boast of British sailors that they are strangers to fear, and willing to incur not only ordinary but extraordinary risks to save human life. Did the Amethyst observe the flags of distress which were raised as soon as she came in sight? Did she see the poor creatures who were huddled together on the rock, and who, we may add, all perished soon after she passed on her way? These questions are now being put at every South American port, and it is the duty of the Admiralty to see that they are satisfactorily answered.

The Astonished Politician.

General George A. Sheridan, of Louisiana, related his experience with this remarkable administration to the people of Ohio, during the recent canvass in that State. He said he had offered to take the New Orleans collectorship, but to his surprise, the President commissioned another man. He says.—

Do you blame me for thinking the administration a failure? The solid earth seemed to slip from under me. I felt that the republic was gone. In the distress of my soul I cried out: "Is this what I made 127 republican speeches for in the last campaign? or, to state it more correctly, the same speech 127 times. Can this government go on if I am left out? Alas! poor country, who will care for you now that I am banished by the edict of a tyrant, and can have no chance to sustain you, to say nothing of sustaining myself. I stated something of this kind to Mr. Hayes; my words moved him, moved him to console me, moved him to advise me. He advised me either to "pull down my vest" or to "go west;" which, owing to the excitement I was laboring under at the time of the interview, I cannot certainly remember; but it is one or the other, and (as he is known to be a liberal man) perhaps it was both. My first impluse, after listening to the consoling words of the President, was to go and take—a stroll. I did; I took three or four. They braced me up; I felt better. Notwithstanding I am not collector of customs in New Orleans, the government still runs on, the revenues are collected, and the republican party lives. I have reluctantly come to the conclusion that I am not absolutely essential to the maintenance of a republican form of government upon this continent; that there are men as well qualified to administer an office as I am; that the President, being responsible to the nation for the acts of his appointees, should be allowed the largest latitude in their selection, and that true sense and true patriotism should convince me that in declining to give me the position I asked, the President acted for what he felt and believed to be for the best interests of his country. My fellow-citizens, those of you who, like myself, have been disappointed in your aspirations and ambitions, will, I think, upon calm reflection, reach in your cases the same conclusion I have reached in mine.

News and Notes.

Captain Bogardus exhibited at Richmond, Ind., on Friday, and did some wonderful shooting, breaking 300 glass balls in twenty-five minutes and seventeen seconds.

A fire occurred in the City Hall building, New York, on Friday night. The engines were promptly on hand, and in a few minutes the flames were extinguished, not, however, before considerable damage had been done by water.

Three highwaymen and four officers had a hand-to-hand fight in Deadwood. The room was lighted at the outset, but the lamp was overturned, and they were left in perfect darkness. Six of them were coupled in the struggle, and had there not been a seventh no misunderstanding would have ensued; but this seventh man, by engaging in the scrimmage, confused the combatants. Soon nobody knew whom he was fighting, and the result was that friend grappled with friend. Revolvers and knives were used, and one death and many wounds resulted.

Turkish officers have placed fezzes and Turkish cloaks on Russian wounded lying on the field to prevent their irregulars from murdering them during the night. This speaks volumes for the humanity of the officers, but illustrates most forcibly the want of control over their men.

A private letter from Augusta, Me., gives the particulars of the sad accident to Senator Blaine's daughter Alice. She is sixteen years of age, very pretty, full of talent, charming and popular. Talking with a gentleman on Saturday evening in the parlor of her father's house, she toyed and played with a tiny pistol that belonged to her brother. The visitor begged her to put it away, although it was unloaded, and spoke gravely of using even empty pistols as playthings. When he arose to go away, she laughingly ran up stairs to her brother's room, got a cartridge and put it in the cylinder, and came bounding down, calling to her friend, who was passing out of the front yard, to see her shoot. But before she had levelled the weapon, in her gleeful hurry she pressed the trigger, and the ball struck between her eyes, passing upward. Miss Blaine clasped her head with her hands, and crying "Oh, I am shot!" fell to the floor.—*N. Y. Sun.*

Secretary Sherman has decided that suits of the United States against illicit liquor operators are of the gravest character, and steps should be taken at once to prosecute them either to final judgment or to the determination that the government has no case. This decision was given in a liquor case involving $700,000 and criminal charges. The suit has been pending three years, and the defendants wished to compromise by paying $10,000, but were peremptorily refused.

The Secretary of War will complete his annual report in the course of ten days or two weeks. It will contain some very important recommendations in relation to the army. The Secretary has invited and received the opinions of several distinguished officers on this subject, the points of which he will incorporate in his report. He does not recommend an increase of the army to 50,000 men. His recommendations on this points are based upon the actual needs of the service and it is believed that they will meet with favor in both houses of Congress.

Buffalo Bill will not travel as a star after this season.

Japan has a National Exhibition at Tokio.

It is stated in Washington dispatches that Kentucky Congressmen lost $50,000 at the races, Wednesday. They complain that the race was not honest, and that Ten Broeck, their favorite, was intentionally held in check on the last quarter.

Over twenty million dollars of gold yearly passes over the gold balance scales in the United States mint. A new balance has just been made, having a capacity of ten thousand troy ounces (about six hundred pounds) in each pan. The beam measures five feet six inches in length, is mounted on agate bearings and is sensible to one grain when loaded.

The "Law and Order League" have collected some interesting figures to show what tippling-houses cost New York City. They charge four-fifths of the expense for police, charities for criminals, paupers, or $4,000,000, to them; to this must be added $1,000,000 for salaries to extra employes in judicial and other departments, and $300,000 in donations to charitable institutions, or a total of $5,300,000. To off-set this there are $300,000 collected from license fees.

John Lowery, keeper of the insane asylum at Ward's Island, New York, has been convicted of cruelty in beating a patient and was sent to the penitentiary for a year.

Judge Hilton is the patron of some Italian opera soon to open at Niblo's. What troubles him, however, is the fact, that the best singers are Jews.

The Philadelphia Grand Jury found a true bill against John S. Morton, Samuel P. Huhn, B. F. Stokes, John R. Nagle and George N. Vickers, charging them with fraudulently making a written instrument and uttering and publishing the same, and with conspiracy to defraud the Market Street Railway Company out of $200,000. Another true bill was found against Morton, Stokes and Huhn, charging them with embezzling $200,000, the property of said company, and against Nagle and Vickers, charging them with receiving the money, knowing it to have been come by dishonestly. John S. Morton was arrested and held to bail in $15,000 under new indictments.

The run on the Union Dime Savings Bank of New York city has ended, and the depositors are returning their money.

Lieut. S. C. Barney, of Maryland, an old naval officer, who was summarily dropped from the list in 1863, is to be reinstated and retired as a Rear-Admiral, with back pay, amounting to over $35,000. He was suspended, it is said, on a false representation maliciously made to Secretary Welles.

Tilden is home again from a foreign shore.

A large band of Mexican raiders are reported depredating thirty miles west of San Antonio, Texas. The stage driver between Fort Stockton and El Paso is reported killed. The Rangers are organizing for defence.

New Hampshire Items.

Francis Martel, a Frenchman 33 years old, was instantly killed by a falling tree near Suncook, Friday morning.

Advices from the Arctic whaling fleet report the loss of two vessels, the Three Brothers and W. A. Farnsworth, and the Roman and Milton badly stove. The catch averages small and there is more ice than usual.

A case growing out of the forcible ejection of a Mrs. Burleigh from the Concord tent at the Alton camp-meeting in 1876 was recently tried at Laconia, and resulted in a verdict for Mrs. Burleigh, the plaintiff, of $408.38.

One day, a short time ago, Mr. S. S. Clark of Weare shot a grey squirrel from the limb of a tall tree. After it had fallen to the ground he observed a young squirrel, evidently an offspring of the squirrel shot, come out of a hole in the tree, near where the grey was shot, and peer around in search for its mother who had so suddenly and mysteriously left it. Mr. Clark climbed up the tree and secured the youngster without difficulty, and carried it to his home, and placed it in with a cat which was tending a litter of young kittens, and Tabby received the stranger kindly and at once adopted it as her own, permitting it to share with her kits the maternal attentions which she bestowed, and young Mr. Grey was not slow to avail himself of the livelihood offered him, and is now being brought up in a very domestic and civilized manner. He is as smart as a cricket, and runs and hops about the house and yard, and is as tame and happy as ever squirrel could have hoped to be.

Political.

The President will visit New Orleans.

"I stand firmly by the policy."—*Sergeant Bates.*

The proposed change in the Cabinet would be a good one if Schurz should retire to make room for Gov. McCormick.

"We have the best army in the world, considering its strength," once more observes Gen. Sherman, "but we need more soldiers."

The closeness of the political contest in Massachusetts has led to the recall of the Senators for the purpose of making political speeches in the principal cities.

Messrs. Spofford and Kellogg, contestants for the Louisiana Senatorship, were heard Friday by the Senate Committee on Elections. No action was taken by the Committee.

Is it not time for the other side to conciliate a little? Suppose, for a change, that the Republican Senate does not surrender three United States Senators to the ex-rebels.—*National Republican.*

The name of Gov. Fish of New York is again mentioned for the British mission, but it is understood that no appointment will be made until the middle of November.

The investigation of the claims of Spofford and Kellogg to a seat in the Senate will probably occupy several weeks. There are about 1000 pages of testimony and numerous witnesses to be examined.

The President has informed some Pennsylvania visitors that one of his Cabinet has written an article giving the views of the Administration on the part which Government clerks may take in their home election. O-o-oh!!!

Tweed says if Tilden were President, and the Constitution required him to send in his message on the 4th of March, he would perhaps have it ready by the 4th of April. He always puts off everything, and made his money by tiring people out.

Bernard Clancy was discharged Friday from the Boston Custom House for violation of the President's order to office-holders, by participating actively in a Senatorial Convention. The *Post* says that Mr. Clancy was discharged "for voting for the 'opposition' candidate."

It is proposed in some quarters that the President and Secretary Evarts shall relieve themselves from embarrassment by nominating Gen. Grant for the English Mission. That he would be acceptable to the government and the people of Great Britain, and would creditably represent his country at the Court of St. James, is certain.—*Traveller.*

Senator Davis seems to be the new party. One day the democratic correspondents announce with glee that he votes on their side, and the next day republican correspondents blow bubbles of pride at an action of his, favorable to their side. Mr. Davis seems likely to up the Senate chamber in whichever direction he moves. He should have a seat in the middle of the center aisle.

Fernando Wood, who, as the predestined Chairman of Ways and Means Comtee, must be considered some authority, says it will be impossible for Congress to adjourn before November 15, at the very earliest. Heister Clymer says he does not think the Navy Deficiency bill will be passed until the regular session. It certainly will not be passed, he says, until the House knows just where all the money went, just who authorized illegal borrowing of money from one fund for another, and just what auditors passed the accounts.

An issue must soon be made under the Civil Tenure act, to test the sincerity of the President's professions in regard to the civil service. He laid down the rule distinctly and emphatically that no public officer should be displaced except for good cause affecting his competency or his personal character, and that an official who had faithfully served one term under a commission should be reappointed. Senators are prepared to state that Hayes repeatedly took this position with them, and they are equally prepared to prove that he deliberately violated his own rule and broke his voluntary promises.

The Pennsylvania delegation which went to Washington to confer with the President have left in disgust. They represent that the conference was not spirited, but that the President gave no assurance which indicated that he was disposed to do any more for his party than he has already done. After they left the President's presence, a conference was held, and a committee was appointed to wait upon Senator Conkling and invite him to deliver his Rochester Convention speech in Pennsylvania. Mr. Conkling declined, giving as an excuse that he thought his post of duty now was in the Senate.

Vacant Places

In the dental ranks will never occur if you place your trust in Sozodont. From youth to age it will keep the enamel of the teeth spotless and unimpaired. It has the same effect upon them that kyanization has upon wood; rendering them impervious to decay.

All fractures, except of the bones, cured by Spalding's Glue.

To those who are so unfortunate as to become prematurely gray, or whose hair exhibits a tendency to fall off, we recommend a trial of Hall's Hair Renewer. We do so with the utmost confidence because it is everywhere received with marked favor, and has built upon its own merits such a sure foundation that it is known and used in all civilized countries.—*Addison (N. Y.) Advertiser.*

THAT Major Generals P. T. Beauregard of La. and Jubal A. Early of Va. should manage the distribution of prizes of the Louisiana State Lottery at its grand semi-annual drawing on December 11th, is a fair guarantee to the people of the United States that the transaction will be a high-toned honorable lottery. Capital $1,000,000, with accumulated surplus of over $350,000. Address M. A. Dauphin, President, P. O. Box 692, New Orleans, La., for information or tickets.

LAME AND SICK HORSES, pronounced incurable, cured, free of cost. Giles' Liniment Iodide Ammonia.

Spavins, Splints, Ringbones, Bunches, Thoroughpins. Spring Knees cured without blemish.

Strains, Shoulder Lameness, Navicular Disease, Shoe Boils, cure guaranteed. Send for pamphlet containing full information to

Dr. WM. M. GILES, 401 6th Avenue, New York.

Use only for HORSES, the liniment in YELLOW wrappers. JOHN H. SLATER, Agent.

THE WALKER HOUSE, No. 1 Elm Street. For particulars apply to WM. P. WALKER, No. 3 Market Square, or HENRY A. YEATON, at Brooks & Co's, Market street.

For Rent.

HOUSE of ten rooms, No. 2 Melcher St., near Pleasant St.; water in house; rent very low to a good tenant,—or will rent to two tenants, with six or four rooms. Apply at No. 51 PLEASANT STREET.

Lots of Land for Sale.

THE LOT OF LAND on North Street on Jones' Hill, near the estate of Samuel M. DeMeritt, Esq. Also, a piece of Land on Freeman's Point, adjoining the premises of W. F. Fernald.

Also, the Dwelling House and Land of John Mathews, on Main Street in Kittery, a short distance east from Navy Yard Bridge.

WILLIAM H. HACKETT.

Woodlot for Sale.

A LOT OF FORTY ACRES, more or less, of Pasturage and Woodland, situated in Newington, being a portion of the homestead farm of the late John Fabyan. This lot is mostly covered with a heavy growth of PINE and OAK, the latter suitable for ship timber. It is also well watered, and affords an abundance of feed in the dryest seasons; some portions are suitable for tillage. For further information apply to

S. D. FABYAN, on the premises.

Newington, N. H. August 8th.

E. G. PIERCE, JR., P. M.

SOUTH END FOUNDRY.

The foundry on Mechanic street, facing the old cemetery at Point of Graves, is one of the land marks of our city. When it was built we cannot say; but in the palmy days of Portsmouth, during its greatest commercial prosperity, it was used as a store or warehouse by Mr. Jacob Sheafe, who was then one of the principal merchants. At that time the depth of water at the wharves in that vicinity,—where now a fisherman's dory will hardly float at low water,—was sufficient to allow the largest merchant vessels to come in to land their cargoes. Many anecdotes are related of Mr. Sheafe, which mark him as having possessed more than ordinary shrewdness. One of them is that he one day bought a quantity of pork in barrels, and on entering the warehouse next morning found his pork was gone; but he said nothing to any person about his loss. Some time afterward, when at the Spring Market, he was asked by a man if he had ever found out who stole that pork, to which he at once replied, "Yes; you and I are the only persons who know about it." It is hardly necessary to say that the pork was paid for.

After the war of 1812—15, which virtually destroyed the commerce of Portsmouth, (as of other places,) this building became the receptacle of the irrepressible small boys' missiles, as the urchins of those days, as of the present, were apt to make the windows of desolate buildings the marks of their skill. But though the city's commerce was gone, the enterprising spirit of the citizens was left, and in many cases turned from mercantile to manufacturing pursuits. This place was selected for an iron foundry, and a stock company was formed to run it, with Mr. John Smith as agent and Mr. John W. Fernald as clerk. Since that time it has, we believe, always been a foundry, sometimes full of busy workmen for years together and at other times unused for years; and the number of times it has been on fire passeth the memory of man.

Mr. Ira Haselton occupied it for the manufacture of stoves, and secured a wide reputation for the excellence of his goods. Mr. Haselton was followed in his occupancy of the building by Huntoon, Baker & Co., general jobbers; and they in turn were followed by Drake & Co., who used the building as a brass and iron foundry, and machine shop. Mr. Drake was a thorough mechanic, and had his capital been equal to his mechanical ability, his extensive business would have resulted in marked success. He engaged largely in the manufacture of iron fence, (specimens of which now adorn this and many other cities,) and also in composition and brass fittings. During Mr. Drake's occupancy the foundry was partially destroyed by fire, (it had been partially destroyed by fire a good many times before, but this time the destruction was less partial than on any other occasion,) and when rebuilt was extended to its present form and size.

Succeeding Drake & Co., was Mr. J. L. Ross, of Boston, jobber and fitter. Then the old foundry was idle a long while; and then Sweetser & Clark, of this city, started in to make stoves and do general foundry work. But they were not long in finding that they could not make stoves at a price to compete with the great stove-making establishments of the large cities, and the enterprise was abandoned. The old foundry was abandoned, too, for another series of years, until a few months ago.

The present occupants are d'Este & Co., of Boston, the only manufacturers in New England of soil pipe and fittings; they also do all sorts of plumbers' brass and iron work, ship work in brass and iron, all kinds of jobbing in all sizes of castings that are likely to be called for here, and make sleigh shoes, etc.; manufacturing the ventilating hopper is also an important item of their business. An extension has been added to the foundry by d'Este & Co., for finishing rooms; and one of the outer buildings has been converted into a brass foundry. The firm commenced operations with seven workmen, which number has already been increased to fourteen; and with their present orders they are assured of work for some months ahead. We hope they will soon see their way clear to still further increase their business; and if their enterprise does not succeed it will not be because we do not wish it success. The office of d'Este & Co. is at No. 65 1-2 Sudbury street, Boston.

MEMORABLE WEDDING ANNIVERSARY.

The thirtieth anniversary of the wedding of Dr. and Mrs. Adams Perry was celebrated at their residence on High Street on Friday evening last. The Doctor's friends and patients are very numerous, and they gathered in large numbers to pay their respects to this worthy couple. Nearly every physician in this city was present. So highly is the Doctor esteemed by his patients, that many of them brought choice presents, much to the surprise of the Doctor and his estimable wife—presents never having entered into their heads when inviting their friends to call. We learn that the Doctor is the oldest physician here in practice and in years. He has been a resident of Portsmouth for nearly thirty years, and although at the time he came here there was only one physician here older than himself, he has outlived all who were in practice here at that time. Whether this is owing to his method of practice, and taking his own medicine is not for us to decide. The Doctor has been the father of seventeen children, ten of whom are now living, scattered over various States in the Union; but several of them were present on this occasion, as well as numerous grand-children, and there are also great-grand-children at a respectable age. May the Doctor and his worthy wife long live to minister to the sufferings of his fellow citizens. The "wedding cake" that the CHRONICLERS had a taste of was "prime."

FIXING THE SIDEWALKS.

The Aldermen are considering the cost of repairing some of the bad sidewalks, particularly in front of H. H. Ladd's on Middle street, Mr. Durgin's on Islington street, and Frye's and Clark's stores on Congress street. While they are about it we respectfully suggest that they take a look at the sidewalk on Market square just in front of Henry F. Gerrish's store; this walk is not absolutely dangerous, but there is a depression in it which fills with water on the slightest provocation, and leaves but a narrow strip of dry land on each side for the use of pedestrians; and gentlemen going along this walk on their way home late at night invariably walk through the puddle, and then use all sorts of language about the Board of Aldermen. This language no doubt the Board will be held responsible for at some future day, and the sooner they fix the walk the easier it will be for them to answer; we hope they will do it quickly, for we want them to get off easily,—as we give the present Board credit for working as earnestly and intelligently for the best interests of the city as any Board within our recollection.

SUPREME COURT--SECOND WEEK.

Saturday, Oct. 27th, before *Stanley, J.*

In case State *vs.* Ward, the jury at the coming in of the Court, returned a verdict of "not guilty." The jury were out about an hour and a half, before coming to an agreement.

State *vs.* John S. Havey: This was an indictment for keeping liquor for sale, contrary to law, at Salem. The respondent waived reading the indictment, and pleaded not guilty. Three witnesses were produced to prove sales, besides the evidence of an officer who searched the premises. The respondent was put upon the witness stand and testified that he formerly kept groceries and liquors, but since last spring, when he was indicted, he went out of business, and sold out to his son, John J. Havey, and has since had no interest in the store. He has waited there when his son was absent. Didn't know anything about liquors being there; did not see any to his knowledge. A government license to sell tobacco in name of John J. Havey was shown the witness. He denied selling liquors to the other witnesses who had testified as to purchasing. The evidence by the production of the license was objected to and excluded. The respondent further testified that his son was 23 years of age, and was to pay him $800 for the stock and had paid a part. Mr. Gordon of Salem testified that as an insurance agent he had issued a policy of insurance on the stock in the store for J. J. Havey, the son. This comprised the evidence. The case was given to the jury in the forenoon. Small for State. Hatch for Havey.

The Court adjourned until Monday, when the verdict in this case was announced.

POLICE COURT.

Saturday, Oct. 27.

The amount of costs and fines assessed by Judge Batchelder was $49.50, all for simple drunks. Charles Clark and John Ferguson went to Brentwood to work out their sentences. John Sullivan, a witness in the Hankins case, had witness fees due him, and went to jail. He will pay his fine when he gets his witness fees. F. W. Seavey and E. M. Foss paid their $9.90 each, like good little men, and are free to go and do so some more.

THE CITY.

The editor of this paper has escaped to Massachusetts, and business was generally suspended throughout this city, yesterday.

Col. J. Horace Kent delivered a temperance address at the Town Hall in Exeter, Sunday evening.

Friday night's frost brought down the horse-chestnut leaves in profusion, and the trees look naked.

The old house at the corner of Penhallow and Daniel streets, which refused to burn last week, survived the great fires of 1808 and 1805.

Wade Hampton is said to strongly resemble the late Hon. Richard Jenness of this city, but is said to be younger and a handsomer man.

The sale at auction of the thirty-second part of the new ship Paul Jones on Saturday, resulted in its disposal to John W. Caswell for $2125, or at the rate of $68,000 for a ship that has cost over $83,000.

Detective wanted at this office—to keep us posted as to the whereabouts of our "devil." Persons applying for the position must come prepared to "put in" all their time.

A nice thing is Hodder's Blotter for protecting note and bill paper from soiling; it is also constantly on hand, as a blotter when wanted. O. M. Knight applies them to all work ordered from him, when desired.

Tweed has no small vices. He says he never smoked a cigar or chewed a piece of tobacco in his life, don't like whiskey, and was always very temperate. Why don't the *Weekly* hold him up as an example for the youth of the country?

Every one but "The Sage of Broad Street" seems to have had a diploma awarded at the Grange Hall Show. He hopes to make the best show of onions next year, however, having planted that "little kitten" that the boys stoned to death, in his onion-bed. "After life's fitful fever she sleeps well."

Mr. Martin Hoyt, at his hair-dressing saloon on Congress street, over Freeman's oyster-house, has three juvenile golden robins, which he has brought up from infancy. Mr. Hoyt has recently built them a hotel, 3x2x2 1-2 feet, and it is amusing to see them playing every day at "touch-and-run" with all the vivacity and earnestness of the small boy of the period. The robins are quite tame, fly about the room without fear, and frequently perch upon the occupants of the tonsorial chairs while the artists are amputating beards. Their morning ablutions always interest the "next."

THE VICINITY.

Major George Marston has sold his homestead and several acres of woodland, lying near Philips pond, Sandown, to Messrs. Gage & Jones, for $3600. The Major has not yet decided where he shall settle, but intends to spend the winter at Washington, D. C.

The new town hall at Hampton Falls will be dedicated to-morrow evening at seven o'clock. The exercises will consist of an introductory address by Hon. Warren Brown, Chairman of Building Committee, a historical address by Hon. John J. Bell of Exeter, and speeches from citizens of Hampton Falls and other places.

Walter A. Hayes discharged a shot gun at some pigeons in his father's garden at Dover, and one of the shots hit Mr. William Rafferty, who was digging a cellar on a lot opposite, entering the fleshy part of the thigh. The shot must have glanced, as the young man says he fired at the pigeons on the ground, and had no idea of its going in that direction. The surgeon was unable to find the shot.

The yield of corn in all sections of the State is very large. In no localities has it been affected by frost. In Rockingham county the harvest of corn is the largest for many years. The unusually warm weather of September ripened the grain perfectly. One writer from Rockingham county says that fifty bushels to the acre in that section would be a low average.

The funeral of Joseph W. Welch, Esq., of Dover, will be held this forenoon at 11:30. Mr. Welch was a prominent Mason and for many years a member of the Grand Commandry of Knights Templar of New Hampshire. His funeral, although without Masonic ceremony, will be attended by many of the present and past officers of the Grand Commandry.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&sep15 78

Portsmouth Chronicle

The premium issued by "Peterson's Magazine" for 1878, like everything else from that quarter, is of rare excellence and beauty. It is not one of the cheap, colored lithographs, with which the country is flooded, but a first-class line and stipple engraving, executed in the highest style of art; engraved expressly for Peterson's Magazine. The picture represents the "Angels of Christmas." You can get it, gratis, by raising a club for Peterson for 1878, or by remitting $2.50 for it and for the magazine, the magazine alone being two dollars. Specimens of the magazine sent, gratis, to those wishing to get up clubs. Address Charles J. Peterson, 306 Chestnut Street, Philadelphia, Pa.

"Combines more attractions than any other."—*Beaver (Pa.) Times.*

☞ *CHEAPEST AND BEST!* ☜

Peterson's Magazine !

FULL-SIZE PAPER PATTERNS!

☞ A SUPPLEMENT *will be given in every number for 1878, containing a full-size paper pattern for a lady's or child's dress. Every subscriber will receive, during the year, twelve of these patterns, so that these alone will be worth more than the subscription price.* ☜

"PETERSON'S MAGAZINE" contains every year, 1500 pages, 14 steel plates, 12 colored Berlin patterns, 12 mammoth colored fashion plates, 24 pages of music, and 900 wood cuts. Its immense circulation enables its proprietor to spend more money on embellishments, stories, &c., &c., than any other. *It gives more for the money than any in the world.* Its

Thrilling Tales and Novelettes

are the best published anywhere. *All the most popular writers are employed to write originally for "Peterson."* In 1876, in addition to the usual quantity of short stories, five original copyright Novelettes will will be given, by Mrs. Ann S. Stephens, Frank Lee Benedict, Mrs. F. H. Burnett, and others.

Mammoth Colored Fashion Plates

Ahead of all others. These plates are engraved on *steel, twice the usual size,* and are unequaled for beauty. They will be superbly colored. Also, Household and other receipts; in short, everything interesting to ladies.

N. B.—As the publisher now prepays the postage to all mail subscribers, "Peterson" is cheaper than ever; in fact is the cheapest in the world.

TERMS, Always in Advance, $2 A YEAR!

2 copies for $3.50; 3 copies for $4.50; with a copy of the premium picture (34x28) "*The Angels of Christmas,*" a five dollar engraving, to the person getting up the Club.

4 copies for $6.50; 5 copies for $8; with an extra copy of the Magazine for 1878, as a premium to the person getting up the club.

6 copies for $9.00; 8 copies for $12; 11 copies for $16; with both an extra copy of the Magazine for 1878, and the premium picture, *a five dollar engraving,* to the person getting up the club.

For the Bowels,—Regulating the action.

For the Nerves,—Soothing, tranquilizing bracing, and imparting vigor.

A Boon to delicate females in a thousand ways not necessary to speak of.

A Perfect Cure for Sick Headache, Liver Complaints, Costiveness, Dyspepsia, and all similar diseases. Use the Plantation Bitters temperately, medicinally, and expect a certain cure.

Sold everywhere.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth; and always surely restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brashy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousands of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based on my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases indicated to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** Its results, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and will fulfill a **POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being made fair and honest with me, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, I feel warranted and perfectly safe in risking both my reputation and my money on its merits.

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases peculiar to woman not mentioned here. In all affections of this nature, my Favorite Prescription works cures—**the marvel of the world.** This medicine, I do not extol as a cure-all, but it admirably fulfills a **singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of these affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

President—FREDERICK M. STONE.

Vice Prés.—FREDERIC W. LINCOLN, THOS. codlm TALBOT, SAMUEL C. COBB.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all scruffiness, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,
For the Whiskers.

This elegant preparation may be relied on to impart the color of a beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

37 SOMETHING NEW. Have you seen that nice CHOUAGUEN? At 37 Market Street.

Centaur Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The White Centaur Liniment is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have per ormed more wonderful cures of obstinate b d-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been specially restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment,** been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Grubs and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castorin** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. It is a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,
NORMAN P. LITTLE.

The Centaur Liniments are the greatest covered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of clumsy, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the active and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Such little **Purgative Pellets** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough, yet gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that in all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, ROSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,300 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & CO. is thus secured. We desire to win success by deserving it. Address

☞ *All New Subscribers for 1878 paying in advance after November 1, 1877, will receive the paper Weekly, from receipt of remittance to January 1st, 1878, without charge.*

COMBINED PAPERS—FORTY-EIGHTH YEAR.

THE COUNTRY GENTLEMAN.

A Premium Annual to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy, one year, $2.50; Four copies $10, *and an additional copy for the year free to the sender of the Club;* Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs*, to each subscriber—a book of 144 pages and about 140 engravings—a gift by the Publishers, in honor of the completion, in its present weekly form of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman possesses an unequaled Corps of Correspondents, regular and occasional, among the *Best Farmers of all Parts of the Country*, and constantly reflects the practical condition and progress of the husbandry of every section of the United States and civilized world.

The Country Gentleman gives in its *Horticultural Department* a continuous variety of information and suggestions, equal or superior in the aggregate to what is obtained in the monthly numbers of most magazines devoted to Horticulture.

The Country Gentleman has probably done as much as all other journals combined, to introduce and disseminate *Improved Stock* of every kind through the country; and commands, to a greater degree than any contemporary, the confidence and support of breeders and purchasers.

The Country Gentleman contains unusually full and trustworthy *Market Reports*, and devotes special attention to them and to the prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and so on, and weekly presents a column or two for the Housewife and an interesting variety of Fireside Reading. It contains a well-edited review of current events, and its advertising pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address

LUTHER TUCKER & SON, PUBLISHERS,

CATARRH

Catarrh of the Nasal Cavities, Acute, Chronic, and Ulcerative, Hay Fever, or Rose Catarrh, Catarrh of the Eye and Ear and Catarrh of the Throat,

SUCCESSFULLY TREATED WITH

SANFORD'S RADICAL CURE.

CATARRH is a disease of the mucous membrane. Temperaments and constitutions vary its severity in individual cases. Catarrh may arise from a cold or a succession of colds, from sudden change of atmosphere, wearing wet clothing, or exposure to inclement weather, and becoming thoroughly chilled when the digestive organs are in a wretched or torpid condition, and the strength and vital forces exhausted. The disease may arise from a scrofulous condition of the blood, from Scarlet Fever, Measles, and Diphtheria, in which cases the eye and ear are generally involved and discharge quantities of matter. The discharges from the nose, the distinctive feature in all catarrhal cases from mere snuffing to those cases, may be thin and watery, and so acid as to cause redness and excoriation of the skin with which they come in contact, or thick and yellow, emitting a foul odor, or clear and white like the white of an egg. There may be an entire lack of secretion, the surfaces being dry and feverish, the face, front and upper part of the head feeling uncomfortable, and as if it was encircled by a tight, unyielding band. This latter phase is called Dry Catarrh. The free mattery discharge causes the passages to swell and become thickened, rendering breathing through the nose difficult or impossible, and the sufferer finds it necessary to breathe through the mouth, thereby permitting cold air to pass directly to the bronchial tubes and lungs. The matter passing down the throat creates a constant desire to hawk and expectorate to throw it off; but when the membrane is dry and feverish, instead of passing freely down from the nose and throat, the mucus becomes hard and forms into scabs, incrustations and hard masses, which adhere so firmly to the nasal passages and throat as to require very persistent efforts to dislodge them. The eye in sympathy becomes inflamed, red, weak, and watery, or in the morning the lids may be found glued together, and matter is secreted in more or less quantity. The ear also becomes seriously affected, discharging quantities of matter, besides being vitiated by the most vivified neuralgic pains, ending frequently in inflammation, ulceration, and finally deafness. The throat, bronchial tubes, and lungs are in many cases affected by catarrh, and when prostration of the nervous system is superadded, such affections become alarming.

A timely survey of this most serious disease warns all who are afflicted with it to make immediate preparation for its treatment before it becomes chronic. The advantages offered by SANFORD'S RADICAL CURE we confidently believe are to be found in no other remedy. Every step in its preparation, every line in the directions, mark it as a scientific remedy, calculated to meet every phase of the disease. The numerous testimonials from the best people in the United States attest the esteem in which it is held by those who have been freed from the most destructive and dangerous disease with which mankind is to-day afflicted.

JUST PUBLISHED.

A carefully revised Treatise on Catarrh, with an accurate description of symptoms and sympathetic diseases, together with minute directions for effecting with SANFORD'S RADICAL CURE a speedy and permanent cure. Also observations on diet and the general health, of vast importance to a sufferer with catarrh. It is wrapped about each bottle of the RADICAL CURE, or will be mailed free on receipt of stamp.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1. Sold by all wholesale and retail druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

37 A SPLENDID LINE of **WINDOW CURTAINS, Cheap,** At 37 Market Street.

Daily Chronicle.

—Hon. Israel Washburn, Jr., of Portland, has caused to be printed and neatly framed the poem of John G. Whittier upon Burns. This poem thus prepared is to be hung upon the walls of Burns' cottage in Scotland, with other similar testimonials contributed by the leading writers of Europe and America.

—South Londonderry, Vt., has been enjoying a pretty little love romance, which has ended in the proper way. Rev. L. W. Wheeler brought his nineteen years old grand-daughter Ida from the White Mountains region of New Hampshire, to prevent her marrying the man of her choice, and to force her into wedding a rich Lyme, N. H., youth. The favored lover followed, and there have been numerous delicious little stolen talks between the couple, with scornful dismissals and threats of violence by the reverend grandpa—all to the delight of the sympathizing villagers. Recently, however, the grandfather was caught away from the house, the girl was hurried to the hotel to her lover, and, while grandpapa was storming around trying to bring a breach of promise suit against the girl in the name of the unfortunate Lyme youth, the heroine and her hero were quietly married.

Daily Chronicle.

TUESDAY, OCTOBER 30, 1877.

Washington Correspondence.

WASHINGTON D. C. Oct 24th.

Mr. Bakers' bill, just introduced, provides for the remonetization of the silver dollar, 412 1-2 grains weight standard silver, to be a legal tender for all debts, public and private; it authorizes the issue of Treasury notes similar (as near as possible) to greenbacks, redeemable in silver on presentation, and receivable for taxes due the United States, and also exchangeable for silver bullion at the rate of one dollar for every 480 grains pure silver. Senator Ingalls has also introduced a remonetization bill by the provisions of which the silver dollar is made a legal tender for all public and private debts, save those specially contracted to be paid in gold. Other members, ambitious of distinction as financiers, have indicated their purpose to follow suit, and others, still, are said to be preparing measures having for their object the repeal of the act designating the first of January 1879 as the date of resumption.

The designation of Simon Cameron to represent us at the Court of St. James has given the politicians a severe turn. Democrats insist that it is a sop thrown to placate radical republicans, who have certainly made themselves felt since the meeting of Congress. In other words that the President has turned his conciliatory efforts in the direction of his own party which threatened to take the bits in its teeth. Of course the old liners are pleased and ascribe it to their vigorous protests.

Sitting Bull's discourteous reception of the Commission, is treated good humoredly, the conviction seeming to be that with the Nez Perces subdued and the Sioux, recently represented here, reconciled to their removal to the Missouri, we can deal effectually with that gentle savage, with the forces thus liberated, should he venture across the line with hostile intent. KNOX.

News and Notes.

A musical convention commences at Saco to-day in which Henry C. Barnabee takes a prominent part.

Edwin Adams, the actor, died in Philadelphia, Sunday.

Edward Southward, late cashier of the North Bridgewater Savings Bank, died eight months ago, none too soon. An investigation shows a deficit in his accounts of only $80,000.

President MacMahon has accepted the resignation of the French Cabinet, and has agreed to a policy of compromise.

Russia is to have a new constitution "on an aristocratic basis"—whatever that may be.

Chickasaw county, Miss., is distinguished as a place where juries are bribed in open court into rendering iniquitous verdicts. At the last term the jury-rooms were invaded, and whisky and cigars furnished the jurors, while they made up verdicts of "not guilty" in the face of the most positive evidence of guilt. The Judge finally closed the docket and adjourned the court, declaring that he would "try no more cases before these juries."

Pietre Paliona and Hosea Divita, both Italics, got into a quarrel at a christening party in Newark, N. J., on Sunday. Paliona inserted a long stiletto into Divita's anatomy some nine times, and Divita is thinking seriously of departing this life.

The Merchants' National Bank of Salem attached during the past week, as property of the Eastern Railroad, that portion of the Portland and Ogdensburg road in Strafford and Grafton counties running from Livermore Station to Saunders Falls, about three miles in extent. It also trusteed many patrons of the road in those counties, being a continuation of the suit begun early in October for the sum of $50,000 loaned to the road. This action is the second brought by that bank, and is returnable at the January term of the Supreme Court, Rockingham county.

The American Seamen's Friend Society are to furnish the Life Saving stations with a library. The government furnishing the cases to hold the books. The eighty-two libraries will contain 3,280 volumes, mostly of a religious nature.

President MacMahon, when receiving General Grant at the Elysees, said he was much gratified to make the acquaintance of so illustrious a soldier. He offered to open all the French military establishments to his inspection, and to furnish him with means of knowing everything he desired concerning the military affairs. Grant accepted the offer with thanks.

It is said that Bob Ingersoll was made an infidel by the alternate praying and flogging of his father, who was a minister, and a very stern parent.

Tosselli proposes to establish watering places for ships at sea. It is well known that in many places springs of fresh water arise from the bottom of the ocean. These he proposes to utilize by means of flexible tubes held at the surface by suitable buoys. M. Tosselli, it is said, has given the subject careful study, and made provisions for the preservation of his apparatus against storms.

In one of the public schools of New York city two thousand children are gathered daily. Like many school buildings, this one is badly ventilated, has no cellar, and stands close to a crowded tenement-house. The rooms are only kept habitable by sprinkling the floor with disinfectants. One teacher has died already of typhoid fever, and another has been ill with the same disease.

A Mrs. Ball, of New Jersey, has sued Richard Grant White for breach of promise; damages $25,000. And yet Richard growls because some people persist in spelling "bouquet" with only one "u," and "diphtheria" with but one "h."

A woman named Bowen, living in Norwich, Conn., killed a burglar named Benj. H. Muzzey with a base ball bat, Sunday morning.

Gabrielle Greeley is very beautiful.

Some one suggests that the Londonera place Cleopatra's needle in Threadneedle street, But wouldn't it be just as proper to stick it in the outskirts?—*Norr. Herald.*

Many people are busy in this world gathering together a handful of thorns to sit upon.—*Jeremy Taylor.*

It is a lonesome day when no savings bank fails.—*Chicago Post.*

A tramp called at a house on West Hill recently and asked for something to eat. He was so thin, he said, that when he had a pain he couldn't tell whether it was a touch of the colic or the backache.—*Burlington Hawk-Eye.*

Found, on Boston Common, a small piece of elastic about ten inches in length, with monogram buckle. The owner can have it by calling and proving her property.—*Boston Post.* Let's see. Ten inches in length; scarce three and a third inches in diameter. H'm. 'Twasn't any Down East girl lost that.—*Belfast Journal.*

It is reported that Lydia Thompson will bring her performances to a close next spring. If her next spring should bring any clothes to her performance, it will be a great improvement.—*Atchion Champion.*

The mysterious disappearance of Frank Edsall, aged fifteen years, who left Hamburg, N. J., to attend school at New York, three weeks ago, is solved by a letter stating that he is penniless in London, to which place he went by a sudden impulse.

A legal question of some importance has arisen in Pennsylvania, touching the authority of the grand jury of Allegheny to compel Governor Hartranft, the Adjutant-General, Secretary of State, and several military officials of the State, to appear before it and testify regarding the Pittsburg riots. The Attorney-General denies jurisdiction, but attachments have been issued against the officers.

The Register of Bankuptcy in New York draws a heavy indictment against the Bankrupt Law. He says that it has almost become the universal practice in that city for persons knowing themselves to be insolvent to make large purchases of merchandise, make fictitious debts to friends, and then make a general assignment to some personal friend, who continues the business at the old stand. The bankrupt continues to live in style, and at the end of six months is put through involuntary bankruptcy and discharged, his general creditors benefitting at their expense.

The Turks are reported negotiating for the surrender of Kars, there is a panic at Erzeroum on account of a Russian advance, and England is negotiating for peace. The exportation of grain from Constantinople is forbidden.

New Hampshire Items.

Shaw & Haywood's excelsior mill, situated at East Tilton, was destroyed by fire Saturday night. Loss, $10,000; no insurance.

A daughter of Ossian Ray of Lancaster broke an arm recently by falling from a sofa.

In the Supreme Court, in session a Ossipee, in the case of John G. Cate vs. the town of Wolfeboro, for injuries received in 1875 by a defective highway, a verdict was rendered for plaintiff in $3500. In the action of Adam Brown vs. the Lake National Bank, to recover $1000 loaned in 1857, a verdict was rendered for plaintiff for $3900.

The Fish Commissioners of the State have issued a notice, declaring the waters of Winnipesaukee, Winnesquam, Squam Lake, Sanbornton Bay, and all waters thereto tributary, closed from all fishing, for a period of sixty days from October 20th, 1877. This is in pursuance of the authority vested in them by the act passed by the last legislature.

Forest King won the 2:34 race at Dover, Saturday; best time 2:29.

The Dover *Democrat* says it is "reported from Washington that the Naval office held in Boston by Col. Daniel Hall is to be abolished. Well, there are a great many offices that ought to be abolished; but whether this is one of that sort, we are not well informed. But this abolition dodge looks like one of Bro. Small's schemes to accomplish what he is not likely to do if the office remains."

John Welsh of Philadelphia is said to be booked for the English mission. Mr. Welsh was one of the big backers of the Centennial Exhibition.

Henry Colony and Samuel W. Hale, of Keene, directors of the Manchester and Keene Railroad, were arrested in Boston on Friday and held in $500,000, to answer suit for $1,500,000, for labor and material furnished by the contractors in building the road. The case involves a point of individual responsibility for the acts of incorporated companies, and will go to the Supreme Court for adjudication.

It turns out that the young man recently arrested for attempted burglary in Nashua, who said his name was John Brown, and that he lived in Concord, is Calvin Underwood, and that he has been working in the Nashua shoe shop several months. The lady with whom he boarded says in her opinion he is a steady, honest lad. She thinks he is not in his right mind. One or two of the night watchmen who saw the young man shortly after he was taken into custody are of the same opinion.

The Manchester Print Works have suspended until about Dec. 1, to effect the usual change in patterns from Fall to Spring styles. The fancy dye house of the Manchester mills is also included in the temporary suspension.

Mr. Asa L. Peckett, station agent at Nashua for the Concord Railroad, left home on Wednesday last and has not been heard from since. Whither he went or on what business, if any, no one is informed. In fact, the cause of his absence cannot be explained. His friends are greatly alarmed. It is said that his accounts at the road are all right, and it is believed that worriment over a recent lawsuit of the road in which he was the principal witness has caused insanity.

Political.

On Monday, the President sent in to the Senate the names of E. W. Stoughton of New York, to be Envoy Extraordinary and Minister Plenipotentiary to Russia; Theodore Roosevelt, Collector of the port of New York; E. A. Merritt, Surveyor; L. Bradford Prince, Naval Officer.

If the republican party had stuck to principle everywhere as it did in Maine and Iowa, it might have carried Ohio with a rush and been standing upon certain ground in Massachusetts. The reign of the Pharisees is about finished.—*Traveller.*

The democratic party of Ohio have resumed.—*Eaton Democrat.*

From which we may reasonably expect renewed assaults on the Common Schools; the revival of Ghegan bills; increase of taxation; mismanagement of the State finances, and the prostitution of the charitable, penal and reformatory institutions to partisan purposes.—*Eaton Register.*

Hon. Joseph B. Morss of Newburyport is likely to be the democratic candidate for Senator from that district.

"Once," say the office-holders, "it was meat and drink for us to put up for the party, but times have changed—no more halcyon days. We won't lose our heads any quicker by not giving than by giving, and they can't force it from us. We don't owe R. B. anything, for he has trod upon our liberties, and may order us out, and we can't contribute in the interest of any person who could save us. Solid men to the front is their only help just now."

By dint of judicious boarding around. Gen. McClellan hopes to make himself the favorite son of thirty-eight different States.

After eight months and more of cogitation, Ex-Gov. Tilden has opened his mouth, and whineth forth that he was elected President. It is a dismal "yawp."

The great expense of an extra session of Congress was incurred because the democratic House failed at the last session to make needed appropriations, and because the machinery of the Government was interrupted for want of them.

One of the peculiarities of the debate on the Colorado case is the conduct of Judge Harris, of Virginia, who appears as the champion of Mr. Patterson. It is quite certain that Judge Harris will be continued as chairman of the Committee on Elections, and will, by reason of his position, be called to pass judicially on a number of contested cases. A judge who should step down from the bench and argue the case he was sworn to try before the jury would startle everybody's sense of propriety; and yet this is the exact position of Mr. Harris. Should the Colorado case be referred to the Committee on Elections, we know now just what Judge Harris' decision will be; for has he not announced it already? Men who are called upon to act as judges should drop the *role* of advocates; otherwise their decisions will be the subject of popular contempt.—*Washington Rep.*

The day that Harlan's name was sent to the Senate as Justice of the Supreme Court, to fill the place of David Davis, I caught sight of Gen. Bristow going down Broadway in an omnibus. Bristow looked dark, fierce and bull-headed. He had lived to see that his small and sinister underminings of Grant's great fame had only brought him suspicion and defeat. The fulsome adulations of what are called independent newspapers have never dispossessed the American mind of the notion that Bristow was false to Grant, who was his friend, admirer and developer.—*Gath.*

Congressman Martin I. Townsend, of New York, is reported as saying that he "felt very kindly toward the President, and had desired to support him cordially, but he had been surprised at the reports which he had read from time to time that the President regarded the members of Congress as a set of scamps and not exactly reputable people, and as he was considered a tolerably honest and respectable man at home, he did not care to introduce himself at the White House, when he could not be certain of the standing which he occupied."

The utter folly of seeking to conciliate and tame democrats by concessions and kindness was never more clearly illustrated than just at present.

The Tammany hall Senatorial Convention of the Seventh district, New York, nominated Augustus Schell to run against John Morrissey in place of George W. McGlynn, who has resigned on account of insanity.

P. T. Barnum was on Saturday nominated at Bridgeport for Representative in the Legislature.

I wish it distinctly understood that I live where I do now—General McClellan. *Rochester Democrat.*

The Utica *Republican* calls George William Curtis "the apostle of swash."

Opposition to the Brooklyn Bridge.

Rumors that the Brooklyn Bridge is to meet with an opposition that will decide whether or not it is to be completed, are in circulation among ware-house-men, property-owners, ship-owners and ship-masters. These men are opposed to the bridge because they declare that it is not of a sufficient height above the water to permit the passage of vessels of the largest class, with all their spars standing. The striking of the spars, they say, cannot be done by regular crews, and hence would cause a loss, both in the wages paid to riggers especially employed for the purpose, and in the detention of the vessels. They say, if ten feet could be added to the present height, almost every vessel, submerged to half load line, could pass, provided the light spars above the top-gallant masts were sent down. If completed upon the present plan, they declare that many of the larger vessels will be obliged to send everything down, to the topmasts. The following are some of the vessels which it is claimed will be seriously affected by the bridge at only 135 feet above mean high water level in mid-river; their height from the water's edge to the top-gallant masts is given: Ship Hudson, 149 1-2 feet; ship Amazon, 183 feet; ship N. B. Palmer, 169 feet; ship Mercury, 170 feet. The following vessels are given, with the height of their topmasts above the water's edge: Ship Great Republic, 143 feet; ship Palestine, 134 feet; ship John C. Calhoun, 135 1-2 feet; ship Constellation, 132 feet.

The basis of action by the opposers seems to be in one section of the Act of Congress, permitting the bridge to be built upon a plan approved by the Secretary of War. This section reads: "Provided that the said bridge shall be so constructed and built as not to obstruct, impair, or injuriously modify the navigation of the river." They claim that if any one vessel is obliged to strike her spars to pass under the bridge, then the structure becomes an illegal one under the strict letter of the law. It will then have to be removed, and the money already spent upon it will have been wasted. Case No. 108 on the calendar of the United States Circuit Court, is to test the legality of this structure. Its opponents say that no more time will be wasted, but that the case will be pushed forward to a decision as rapidly as possible. It is also claimed that the Council of Political Reform will bring a suit against the Bridge Company for wasteful expenditure of the people's money. Henry A. Burr opposes the bridge, by contesting the company's right to open a new street without a special act of the Legislature, which has not been obtained. He has presented his argument before the Supreme Court and a decision is expected in a few days.—*N. Y. Tribune.*

Movements of the Fishing Fleet.

The shore mackereling fleet continue in the neighborhood of Cape Cod, meeting with indifferent success, and it becomes more and more apparent that the mackerel stock for 1877 will be the smallest known for years. Scarcely a vessel employed in the business will pay expenses, and a majority of the crews will find themselves in straightened circumstances when they come to sum up the season's work. The demand is not active, the present call being supplied to a large extent by Provincial fish, which were hurried forward on account of the small catch and expectation of high prices, the receipts at Boston from foreign ports being nearly twice as large as they were to this date of last year, and buyers are holding off lest there should be a lively Fall spurt to unsettle the market. The probability of such a spurt grows smaller every day, and the market is firm and buoyant.

The Bay mackerel fleet report no catch of consequence since the gale a month ago, and the weather is growing so rough that there is little prospect of increasing the catch, and the arrivals will begin to grow numerous soon. The prospect is that many of the vessels will be compelled to come home with very light fares, and a balance on the wrong side of the ledger. The number of arrivals since our last issue has been ten, and the receipts 1925 bbls.

The Bank fleet continue to make short trips, and bring in light fares; twelve have been reported the past week. The market has been fairly supplied with fresh halibut, but the receipts of Bank codfish have not been large. We notice receipts of 145,000 lbs. halibut and 365,000 lbs. Bank codfish.

The Georges season is drawing to a close. Twenty arrivals have been reported since our last issue, with 160,000 lbs. codfish. The stock on the market is small, the call fair, and prices well sustained.

During the late storm two reliable men from the Boston Fish Bureau went through the Shore Mackerel Fleet rendezvousing at Provincetown and boarded 162 vessels, having a total catch of 7310 bbls. sea-packed mackerel, a trifle less than 60 bbls. each. On a basis of a fleet of 500 vessels, with a catch of 60 bbls. on the average, the stock to be landed would be 18,000 bbls. sea-packed, or about 14,400 bbls. after inspection. This amount will not probably be largely increased by later catch. The fleet remained at Provincetown Monday and Tuesday, and have not had good fishing weather since. Late advices report mackerel passing South rapidly, and unless the next few days show an improvement in the catch, most of the fleet will withdraw.—*Cape Ann Advertiser.*

—By care being exercised in saving all the remnants of models found in the ashes in the Patent Office after the fire many of the destroyed models can be reproduced.

—A new religious sect has been formed where a man is obliged to confess all his sins to his wife once a week. This is his punishment. It is needless to mention any other one for her.

—William H. Vanderbilt was an inveterate smoker in his youth, and one day in 1853 as the family were on the steam yacht North Star en route for St. Petersburg, his father remarked to him, "I wish you would give up that smoking habit of yours. I'll give you $10,000 if you do it." The son replied: "You need not give me any money. Your wish is quite sufficient." He has not smoked since.

—Score one good word for tobacco. An Ohio couple recently quarreled, and in the heat of the moment the man packed his carpet-bag and left the house, forever, as he informed his wife. At a short distance from the house he found that he had forgotten his tobacco box. He accordingly returned, filled his mouth with the fragrant weed, its influence causing him to look upon his wife with kinder eyes, and in another moment a reconciliation had been effected.

—Any one who takes an interest in the sensations of hanging will be pleased with the recently narrated experience of John Burns of Newtonia, Mo., who, during the war, was choked by ruffians who wished to compel him to give up money which he was supposed to have. He was four times hauled up by a rope tied about his neck, and each time lost consciousness as soon as his feet left the floor; though he felt no pain at any time, except the chafing of the skin of his neck. He weighs 200 pounds and probably stretched the rope considerably.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a selfaddressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&tuseptl3 78

THE SUN.

1878. NEW YORK. 1878.

As the time approaches for the renewal of subscriptions, THE SUN would remind its friends and wellwishers everywhere, that it is again a candidate for their consideration and support. Upon its record for the past ten years it relies for a continuance of the hearty sympathy and generous co-operation which have hitherto been extended to it from every quarter of the Union.

The **Daily Sun** is a four-page sheet of 28 columns, price by mail, post paid, 55 cents a month, or $6.50 per year.

The **Sunday** edition of THE SUN is an eight-page sheet of 56 columns. While giving the news of the day, it also contains a large amount of literary and miscellaneous matter specially prepared for it. THE SUNDAY SUN has met with great success. Post paid $1.20 a year.

The Weekly Sun.

Who does not know THE WEEKLY SUN? It circulates throughout the United States, the Canadas, and beyond. Ninety thousand families greet its welcome pages weekly, and regard it in the light of guide, counsellor, and friend. Its news, editorial, agricultural, and literary departments make it essentially a journal for the family and the fireside. Terms: **One Dollar** a year, post-paid. This price, quality considered, makes it the cheapest newspaper published. For clubs of ten, with $10 cash, we will send an extra copy free.

THE CITY.

It is said that a choir of one hundred singers is being recruited in this city to assist at the revival meetings, but that none but professors of religion will be eligible. What a choir that will be!

Engines Nos. Three and Four had a competitive trial as to which could get up steam quickest, Monday evening, Four getting up ten pounds of steam in six minutes, and Three in six and a half.

Mr. Jonathan Buzzell, Jr., a member of the Common Council, has gone to Florida to seek a climate more conducive to his health than that of New Hampshire. He is accompanied by Mr. Fred. C. Moses.

The Light Artillery will commence a course of assemblies this (Tuesday) evening in Mechanics' Hall. Music by Harlow's Orchestra. The management guarantee a good time to all who attend. Tickets 50 cts.

This is a good opportunity for the city to secure a part of the lot on which the old house stands at the corner of Daniel and Penhallow street, in order to make the latter street of uniform width; as it now is the end of the house projects into the street about ten feet.

The course of lectures under the auspices of the Methodist church which was to have opened on Wednesday evening of this week, is postponed until after the Union meetings, which are to be held under the direction of Major Whittle during the month of November.

SUPREME COURT--THIRD WEEK.

Monday, Oct. 29th, before *Stanley, J.* In case State *vs.* Havey, the jury were unable to agree on a verdict, and were discharged from the case.

Edgar W. Warner, who was charged at the October term, 1876, with stealing a watch in August, 1876, and was allowed to go on probation, was brought into Court upon the representation that he had not conducted himself as stipulated when he was allowed to go last October, and was sentenced to one year's confinement in the jail at Exeter, and to pay a fine of one dollar and costs of prosecution.

The trials in the civil list began with the case Sarah E. Merrill *vs.* Wm. B. Merrill, action by a daughter for services rendered her father. Hatch for plaintiff, Marston and Stickney for the defendant.

The new docket was called in the afternoon.

POLICE COURT.

Monday Oct. 29th.

Obed Nickerson and William Leary were judged guilty of being drunk on a public street, and fined the usual cost of $9.90, which they paid.

Thomas Spottiswood, charged with an assault with intent to commit rape, was bound over in the sum of $100 for his appearance at the Supreme Court to be holden at Exeter in April next.

THE NEW OPERA HOUSE.

The steam tubular boiler for heating the new Opera House, was placed in the basement last week. It was manufactured by the Exeter Machine Company and is said to be an improvement upon all models of steam heating yet produced.

The contractor for putting up the building having concluded his labor and withdrawn from the work, the finishing is now being done by a gang of joiners from Kittery. As the staging comes down and the brick wall receives a coat of oil, the exterior of the building begins to look more attractive.

Rear Admiral George H. Preble will be detached from the command of the South Pacific Squadron in January next, and Rear Admiral John C. Howell, now chief of the Bureau of Yards and Docks, will relieve him if his health purmits; if not, Commodore Robert H. Wyman will be ordered. Admiral Preble will be retired on his return home.

The U. S. frigate Alaska, now being fitted at the Brooklyn Navy Yard as flag ship of the South Pacific, the command of which has been offered to Capt. George Brown, has been declined. The honor of the choice lies between Capt. O. C. Badger and Capt. A. E. K. Benham.

MARRIAGES.

SHAW—MCCOLLIN. In this city, Oct. 28th, by Rev. John A. Goss, Mr. Joseph O. Shaw and Miss Clara A. McCollin, all of Portsmouth.

SEWALL—GUPTILL. In South Eliot, Me., Oct. 24th, by Rev. B. Freeman, Mr. N. Millard Sewall, of York, and Miss Emma E. F. Guptill, daughter of Dr. Guptill, of Eliot.

Portsmouth Chronicle

The Lawrence (Mass.) Aldermen vote to decrease the Mayor's salary from $1500 to $1200, City Clerk from $1800 to $1500, Treasurer from $2500 to $2300, and the Marshal and Street Commissioner from $1500 to $1200. The Assessors are to have $2 a day, instead of $3, but the police remain at $2 a day.

—General Grant has been the innocent cause of a most unseemly row between the Mayor and Council of Leamington, England. Hearing that he was to visit the town a "reception" was projected, but the Council voted down the matter on account of the expense. The Mayor accordingly paid the expenses out of his own pocket, and revenged himself by not inviting the Councillors to the banquet. A spirited interchange of verbal compliments ensued, in the course of which the Mayor remarked that "the General was not accustomed to be exhibited at feeding-time at so much a head." The towns-people loudly criminate both the Mayor and Council.

—Mr. Sunset Cox says that when he had been in Brown University two or three weeks he came to the college one morning "in a hurry and made a bee-line across the grass from the gate to the entrance to my room. (You know how the gravel walk winds about through the campus?) Well, I was about half way across when I noticed Dr. Wayland's tall form coming out of the chapel. In a minute he was beckoning to me in his stately way. Then I made a bee-line for him. "My son, where did you come from?" I answered that I came from Ohio. "Don't you see these gravel walks?" was his next question. I replied that I did. "Then why don't you use them?" "I don't know what put it into my head," said Mr. Cox, "but I answered on the instant, "I don't know, sir, but I guess it is because there is more grass than gravel where I came from." From that minute the doctor, it is said, seemed to take a special interest in the young freshman from Ohio.

AYER'S SARSAPARILLA,

For Purifying the Blood.

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potash and Iron, makes a most efficacious cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Irregular Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Female Weakness, Sterility, Joint Swellings, Dropsy from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

S.T-1860-X. PLANTATION BITTERS

THE WONDERFUL OLD HOME TONIC AND HEALTH RENEWER.

For the Stomach.—Ensuring hearty appetite, good digestion and vigorous health in every fibre of the body.

For the Liver.—Regulating, cleansing, curing and vital tonic, giving clear, rich, life-giving blood.

For the Bowels.—Regulating the action.

For the Nerves.—Soothing, tranquilizing, bracing, and imparting vigor.

A Boon to delicate women in a thousand ways not necessary to speak of.

A Perfect Cure for Sick Headache, Liver Complaints, Costiveness, Dyspepsia, and all similar diseases. Use the Plantation Bitters temperately, medicinally, and expect a certain cure.

Sold everywhere.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely. AYER'S HAIR VIGOR, by long and extensive trial, has proven that it stops the falling of the hair immediately; often restores the growth; and always surely restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus lifeless, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; the beard, whiskers, and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

C. E. MYERS & CO.,

No. 3 BOW STREET.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, in treating its native results in the few special diseases incident to the sequence organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and efficacious remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a female invalid, after having taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription works **cures—the marvel of the world.** This medicine I do not extol as a cure-all, but it admirably fulfills **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

Centaur Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The **White Centaur Liniment** is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate bed-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment,** been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Gripes and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,

NORMAN P. LITTLE.

The Centaur Liniments are the greatest discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of clesgy, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and delicate tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough, yet gently and kindly operating, cathartic.**

$1000 **Reward** is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other form of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care or diet is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsettledness of Mind, and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, HORMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,800 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & Co., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

☞ *All New Subscribers for 1878 paying in advance after November 1, 1877, will receive the paper Weekly, from receipt of remittance to January 1st, 1878, without charge.*

COMBINED PAPERS—FORTY-EIGHTH YEAR.

THE COUNTRY GENTLEMAN.

A Premium Annual to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy, one year, $2.50; Four copies $10, *and an additional copy for the year free to the sender of the Club*; Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs*, to each subscriber—a book of 144 pages and about 140 engravings—a gift by the Publishers, in honor of the completion, in its present weekly form of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman possesses an unequaled Corps of Correspondents, regular and occasional, among the *Best Farmers* of All Parts of the Country, and constantly reflects the practical condition and progress of husbandry of every section of the United States and civilized world.

The Country Gentleman gives in its *Horticultural Department* a continuous variety of information and suggestion, equal in value to that in the aggregate to what is obtained in the monthly numbers of most magazines devoted to Horticulture.

The Country Gentleman has probably done as much as all other Journals combined, to introduce and disseminate *Improved Stock* of every kind through the country; and commands, to a greater degree than any contemporary, the confidence and support of breeders and purchasers.

The Country Gentleman contains unusually full and trustworthy *Market Reports*, and devotes special attention to them and to the prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and so on, and weekly presents a column or two for the Household an an interesting variety of Fireside Reading. It contains a well-edited review of current events, and its advertising pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address

LUTHER TUCKER & SON, PUBLISHERS,

ALBANY, N. Y.

$777 is not easily earned in these times, but it can be made in three months by any one of either sex, in any part of the country who is willing to work steadily at the employment that we furnish. $66 per week in your own town. You need not be away from home over night. You can give your whole time to the work, or only your spare moments. We have agents who are making over $20 per day. All who engage at once can make money fast. At the present time money cannot be made so easily and rapidly at any other business. It costs nothing to try the business. Terms and $5 Outfit free. Address at once. 6Jy28'78

H. HALLETT & Co., Portland, Maine.

CATARRH

Catarrh of the Nasal Cavities, Acute, Chronic, and Ulcerative, Hay Fever, or Rose Catarrh, Catarrh of the Eye and Ear and Catarrh of the Throat,

SUCCESSFULLY TREATED WITH

SANFORD'S RADICAL CURE.

CATARRH is a disease of the mucous membrane. Temperaments and constitutions vary its severity in individual cases. Catarrh may arise from a cold or a succession of colds, from sudden change of atmosphere, wearing of clothing, or proximity to inclement weather, and becoming thoroughly chilled when the digestive organs are in a morbid or inactive condition, and the strength and vital forces exhausted. The disease may arise from a secretion of the blood, from Scarlet Fever, Measles, and Diphtheria, in which cases the eye and ear are generally involved and discharges cause the passages to swell and become thickened, rendering breathing through the nose difficult or impossible, and the sufferer finds it necessary to breathe through the mouth, thereby permitting cold air to pass directly to the bronchial tubes and lungs. The matter passing down the throat creates a constant desire to hawk and expectorate to throw it off; but when the membrane is dry and feverish, instead of passing freely down from the nose and throat, the mucus becomes hard and forms into scabs, incrustations, and hard lumps, which adhere firmly to the nasal passages and throat as to require very persistent efforts to dislodge them. The eye in sympathy becomes inflamed, red, weak, and watery, or in the morning the lids may be found glued together, and matter is secreted in more or less quantity. The ear also becomes seriously affected, discharging quantities of matter, besides being visited by the most acute and excruciating pains, ending frequently in inflammation, ulceration, and finally deafness. The throat, bronchial tubes, and lungs are in many cases affected by catarrh, and when protection of the nervous system is superadded, such affections become alarming.

A brief survey of this most insidious disease warns all who are afflicted with it to make speedy preparation for its treatment before it becomes chronic. The advantages offered by SANFORD'S RADICAL CURE we confidently believe are to be found in no other remedy. Everything in its preparation, every line in the directions, mark it as a scientific remedy, calculated to meet every phase of the disease. The numerous testimonials from the best people in the United States attest the success in which it is held by those who have been freed from the most destructive and dangerous disease with which mankind is to-day afflicted.

JUST PUBLISHED.

A carefully revised Treatise on Catarrh, with an accurate description of Symptoms and sympathetic diseases, together with minute directions for effecting with SANFORD'S RADICAL CURE a speedy and permanent cure. Also observations on diet and the general health, of vast importance to afflicted with catarrh. It is wrapped about each bottle of the RADICAL CURE, or will be mailed free on receipt of stamp.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, with full directions for use in all cases. Price, $1. Sold by all wholesale and retail druggists throughout the United States and Canada. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

Gold, Silver--Bankruptcy.

Let us hang out a "stern head-light" that we may for a moment, observe the financial track over which nations have passed. Spain, the Eldorado of the 14th, 15th, 16th and 17th centuries, is bankrupt and has no patrimony.

Germany, resolving on an exclusive gold currency in 1873, is convulsed with national distress, notwithstanding she compelled France at the cannon's mouth to pay her a ten hundred million indemnity, and to give up two of her most valuable provinces, while France, the victim of ambition, cowardice and treachery, has suffered the loss of Alsace and Lorraine, and sweat out not only the $1,000,000,000 indemnity, but twice that amount in her own war expenses, with scarcely a bankrupt case on her dockets; and besides, her laborers, artizans and merchants are all busy—all prosperous—all happy—France has been doing business exclusively on a national paper currency, which is all the while at par with gold.

England has nominally a mixed currency, though in fact ninety-and-nine one-hundredths of her financial business is transacted with paper, but since the poor man's cheap silver has been demonetized, bankruptcies rage like the measles among the Fejees, and national distress stalks in all the manufacturing thoroughfares.

The United States adopted the gold standard in 1873, for 1879, and demonetized silver, and our people have been running a break-neck steeple-chase in the bottomless pit of bankruptcy ever since.

Mexico, the land of precious metals and of exclusive metallic currency, is always bankrupt, and has no more credit than her Camanche "greasers."

Peru, whose very soil is full of precious metals and whose fiscality would be polluted with paper money, has recently repudiated her debt, is as poor as a church-mouse, and has not enough assets to entitle her to become bankrupt.

Brazil, paradise for the precious stuff, has repudiated millions of her debt, and is a world's vagrant.

Other South American and Central states—ditto.—*Exchange.*

Towing the Obelisk.

Screw Steamer Olga, nearing Algiers, Oct. 2.—Our voyage hitherto has been successful, though slow, and the Cleopatra behaves splendidly—seems light as a cork, rising to every wave, but pitching tremendously. I have counted as many as seventeen times a minute that her nose has been under water, and then ten or twelve feet above it; but in the worst weather she doesn't show a sign of rolling. The drum on the bow acts as a splendid breakwater, and takes all the force of a head sea from the front of the cabin.

We are towing her now with nearly the full length of the wire rope out, and she steers first rate. We had some trouble at first in calm weather with the shorter cable, when she "yawed" about terribly, but they tightened up the steering chains, and with more rope she now follows straight in our wake. She offers much more resistance to the sea than I anticipated, and I think would have been better with sharper bow and stern. She drives the water off her bows even in fine weather in a mass of foam, and her stern is all in broken water. With favorable wind she carries sail, but it does not appear to help her much. The maximum speed that we have made is a little over six knots with favorable wind, which is two knots or two and one-half less than the Olga's usual speed when heavily loaded, but a head wind brings us down below five at once.

We have had but one casualty. On the 31st ult., Carter signalled: "Stop; want assistance," and it was soon evident that the tow line had parted from the Cleopatra and hung down over our stern. It took some time to haul in the wire rope by purchase tackle and steam winch at first and then by hand. When the end came up we found the thimble on the end of the tow line was gone and the eye broken through. We turned the rope end for end, so as to give the other end to Carter. This was not done much before midnight, when we made up to the Cleopatra and, as the night was very dark and somewhat stormy, told Carter we must wait for daylight; so lay to and dodged about until 5 A. M., when we passed him the other end of the wire rope and fastened it on with an anchor shackle to the bridle-chain, made fast at one end to the clamp on the sternpost, and the other passed round the drum.

This gave us the first opportunity of speaking to Carter since we started. He reported the ship all right and watertight,

fixings all right; the upper bolts of chain sheaves, crab winch, etc., had leaked a little at first, and given some trouble, but they had stopped all with cement. I thought Carter looked careworn; he must have a terribly anxious time, and is constantly on deck, as his boatswain is laid up with congestion of the liver. He can get no rest day or night, and I wonder how any one can sleep in such a "rocking horse," pitching almost constantly fifteen times a minute. We should reach Gibraltar on the 6th inst., and even if we have fine weather can't calculate on reaching Falmouth in less than nine or ten days, so we may hope to drop anchor there. "Insballah," any time between the 15th and 20th instant.—*London Daily News.*

Daily Chronicle.

WEDNESDAY, OCTOBER 31, 1877.

Congress.

In the Senate, Monday, a large number of Executive nominations were received and a few were confirmed.

In the House there was a perfect avalanche of bills under the call of States and Territories, until the total footed up 883. The great bulk were old bills. The call was closed at five o'clock, whereupon the Speaker announced the Committees, the chairmanships being disposed of as follows:

Elections, John F. Harris of Virginia;
Ways and Means, Fernando Wood of New York;
Appropriations, John D. C. Atkins of Tennessee;
Banking and Currency, Aylett H. Buckner of Mississippi;
Pacific Railroads, Clarkson N. Potter of New York;
Claims, John M. Bright of Tennessee;
Commerce, John H. Reagan of Texas;
Public Lands, William R. Morrison of Illinois;
Post Offices and Post Roads, Alfred M. Waddell of North Carolina;
District of Columbia, Alpheus S. Williams of Michigan;
Judiciary, Proctor Knott of Kentucky;
War Claims, John R. Eden of Illinois;
Public Expenditures, Robert A. Hatcher of Missouri;
Private Land Claims, Thomas M. Gunter of Arkansas;
Manufactures, Hendrick B. Wright of Pennsylvania;
Agriculture, Augustus W. Cutler of New Jersey;
Indian Affairs, Alfred M. Scales of North Carolina;
Military Affairs, Henry B. Banning of Ohio;
Militia, Miles Ross of New Jersey;
Naval Affairs, Washington C. Whitthorne of Tennessee;
Foreign Affairs, Thomas Swann of Maryland;
Territories, Benjamin M. Franklin of Missouri;
Pensions of Revolution and War of 1812, Levi A. Mackey of Pennsylvania;
Invalid Pensions, Americus V. Rice of Ohio;
Railways and Canals, Gustave Schleicher of Texas;
Mines and Mining, George M. Beebe of New York;
Education and Labor, John Goode, Jr., of Virginia;
Revision of the Laws, William Walsh of Maryland;
Coinage, Weights and Measures, Alexander H. Stephens of Georgia;
Patents, Robert B. Vance of North Carolina;
Public Buildings and Grounds, Philip Cook of Georgia;
Accounts, Charles M. Roberts of Maryland;
Mileage, James R. Cobb of Indiana;
Expenditures of the State Department, William M. Springer of Illinois;
Expenditures of the Treasury Department, John M. Glover of Missouri;
Expenditures of the War Department, J. C. S. Blackburn of Kentucky;
Expenditures of the Navy Department, Benjamin A. Willis of New York;
Expenditures of the Post Office Department, Jeremiah N. Williams of Alabama;
Expenditures of the Interior Department, Sparks of Illinois;
Expenditures on Public Buildings, William B. Lynde of Wisconsin;
Expenditures in Department of Justice, Edward S. Bragg of Wisconsin;
Reforms in the Civil Service, Carter H. Harrison of Illinois;
Mississippi Levees, Robertson of Louisiana;
Rules, the Speaker;
Revision of the Law Regulating the Counting of the Electoral Vote, etc., Milton I. Southard of Ohio.
Printing, Otho R. Singleton of Mississippi;
Enrolled Bills, Andrew H. Hamilton of Ohio;
Library, Samuel S. Cox of New York.

The House Chairmanships.

Out of thirty-six most important chairmanships the South gets twenty-three, as follows: Elections, Appropriations, Banking and Currency, Claims, Commerce, Post Offices and Post Roads, Judiciary, Public Expenditures, Private Land Claims, Indian Affairs, Naval Affairs, Foreign Affairs, Territories, Railways and Canals, Education and Labor, Revision of the Laws, Coinage, Weights and Measures, Patents, Public Buildings and Grounds, Accounts, Expenditures in the Treasury Department, in the War Department, for the Post Office Department, and Mississippi Levees. The chairmanships by States are assigned as follows: New York gets five, New Jersey two, Pennsylvania two, Maryland three, Virginia two, North Carolina three, Georgia two, Alabama one, Mississippi one, Louisiana one, Ohio three, Kentucky two, Tennessee three, Indiana two, Illinois four, Missouri four, Arkansas one, Michigan one, Texas two, Wisconsin two. New England does not get a single chairmanship. The new members who received chairmanships are Potter of New York, Wright of Pennsylvania, Robertson of Louisiana, Cobb of Indiana and Bragg of Wisconsin.

The "Solid South" is in a fair way to be conciliated, having secured two-thirds of the important chairmanships, a large proportion of them having been given to active Confederates, and very few (we believe not one) to southern democrats who opposed the rebellion. S. S. Cox is stuck away in one corner at the head of the library committee, which is of no earthly consequence in a national point of view; while Hendrick B. Wright, the pitiful, shallow demagogue from the coal district of Pennsylvania, who told the striking railroad men and miners, when they were doing their worst to destroy property and defy the law, that he "would demand of Congress $10,000,000 for the relief of the laboring men"—this wretched demagogue is placed at the head of the committee on manufactures! The committee on banking and currency is considered to be rather a soft-money concern, and the Pacific railroads committee is said to be arranged with special reference to promoting the Texas Pacific grab.

Political.

The New York *Tribune* says: There is a curious anomaly in the canvass in Monroe County. The Democratic party seems to be pretty well in the hands of Jarvis Lord again, one of his counsel, Wm. H. Bowman, being made the chairman of the convention; and yet George Raines, an ardent Tilden man, was nominated for Senator. Mr. Raines is a brother of Thomas Raines, the former State Treasurer, and is a young and eloquent lawyer.

The nomination of Daniel Hall as Naval Officer of the port of Boston was reported back to the Senate from the Committee on Commerce, with the recommendation that it be confirmed.

Collector Simmons, of Boston, expresses himself as ready to speak every second night in behalf of the republican nominees in Massachusetts.

Collecter Arthur of New York has finally decided not to forward his resignation to the President, as requested.

Col: Daniel Hall was confirmed by the U. S. Senate on Tueday as Naval Officer at Boston.

The President sent the name of Hon. John Walsh of Philadelphia to the Senate on Tuesday as Minister to England.

New Hampshire Items.

John Dame of Rochester, depot baggage master at Old Orchard Beach, has been doctored for many years by several physicians for various supposed diseases, until the other day, when a physician told him that he had a snake or some other reptile in his stomach. He did not partake of any food for twenty-four hours, and then medicine was given for the creature inside, with good results, and a wood snake has left the place where it has lodged so long.

A Canaan farmer recently saw two men attempting to drive a hog past his house, but the brute was so obstinate that they finally told the farmer that if he would kill it for them they would give him half of the meat. He accepted the offer with joyful alacrity, and not only killed the hog but dressed it into the bargain, after which the strangers drove away with their half. But when the farmer went at night to feed his own hog he found the pen empty, and it did not take him long to discover that he had killed his own property, receiving half of it for his trouble.

Appleton Hutchinson of Mount Vernon, hearing persons around his house Sunday evening, went out and has not since been heard from. Foul play is feared. The whole town is in search.

Albert Little of Goffstown, lately deceased, left a will, leaving to the town of Goffstown $300, requiring said town to expend $12 a year to keep his burial lot in that town in good condition till the death of his wife. The residue of his property he gave to the use of his wife during her life, there being no children, the estate amounting to $30,000, more or less. This whole amount he directed should be expended in erecting a monument to himself and beautifying his burial lot in Goffstown and keeping it in proper condition forever. This will came up for probate in solemn form before Judge Leavitt of Rockingham county. Judge Burnham of Hillsborough county having been of counsel and not sitting in the case. Judge Leavitt decided that the testator was not of sound mind, and decreed the will to be null and void. The property will, therefore, be distributed as if there were no will.

John W. Ricker, of Dover, has been convicted before the Supreme Court at Dover on nine indictments for selling liquor, fined $50 and costs on each indictment, and ordered to stand committed until all is paid.

On Saturday night some Massachusetts men who were at the races in Dover that day, went to the Plains House at Great Falls, kept by Thomas D. Locke, took charge of the premises, ransacked the rooms and stole a large lot of wearing apparel, besides other goods. Sheriff Chick of Great Falls was notified, and succeeded in arresting some of the parties as they were about to take the train for Boston. Part of the stolen articles were recovered. The thieves were taken to Great Falls on Monday, and arraigned before the Police Court.

News and Notes.

Commodore James H. Watmough, Paymaster-General of the U. S. Navy, has tendered his resignation.

The Texas cattle disease has appeared at Worcester, Mass.

Senator Morton's death is hourly expected.

Fredericton, N. B., was visited by another fire Tusday. The exhibition building and several others were burned. Loss $30,000; no insurance.

The sea monster seen off the mouth of the Kennebec the other day would seem to be the veritable sea serpent. Capt. Ingalls of Portland, who saw it says that in his fifteen years' experience at sea he never saw anything like this. It passed within one hundred feet of his vessel, and was apparently about eighty feet in length, as the entire crew agree. Its head was long and sharp and black in color, while on its back were several large white spots. A few feet behind the head projected two flippers about twenty feet in length, which it would occasionally strike together with a report which the captain compares to the discharge of a cannon.

A new invention—a torpedo balloon—is being experimented with in Bridgeport, Conn. It is designed to convey torpedoes by means of a balloon above a hostile army or city, when by an automatic arrangement they are detached, and exploded by a gauge fuse. It has attracted much attention, and an agent of the Russian government is observing the experiments.

The barque George A. Wright, which left Boston Oct. 12th on her first voyage to Liverpool, loaded with grain, foundered at sea Oct. 29th. All hands, including the captain's wife and two children, were saved by the schooner Joshua S. Sanborn, of Gloucester, and landed at Shelburne, N. S. The barque was owned in Portland, and is understood to be insured. The vessel was valued at $40,000 and the cargo at $25,000, the cargo being insured in Boston.

Frank E. Jones, a young man about eighteen years of age, was recently arrested on the charge of stealing $25 worth of jewelry from Albert C. Lord of Tilton, and for stealing money and cigars at the Dexter House, T. D. Foss, proprietor. His examination resulted in binding him over in $300 bonds for appearance at the next term of the supreme court at Laconia. Jones procured bail and is now at his home in Exeter.

The dwelling, shed and stable owned and occupied by Alvah S. Libby of Wolfeboro' were burned Sunday morning. Loss $2500; insured $1800.

Some 400 sailors formed a mob in Fourth Ward in New York, Monday, and assaulted McCaffrey's sailors' boarding-house, smashing all the windows. Nobody was hurt. The arrests of three or four ringleaders dispersed the mob. The cause was some disagreement with their employers about wages.

Private letters from Japan state that recent secret negotiations between England and Japan, and Russia and Japan embrace the following results: England insists on sharing all Japan's advantages in opening Corea, and Japan refuses to concede to the demand. Russia consents to support Japan's refusal to any extremity, if Japan will waive her claim to a northern port of entry and choose one further south.

The steamer Faraday sailed from New York on Friday for Liverpool, loaded with grain and provisions, besides 500 horses and cattle on decks. The Faraday was constructed expressly for cable laying, and with the Great Eastern laid all the cable connecting the old and new worlds. She is a vessel of 5,000 tons burden, and all the available space, including the receptacles for the cable, was filled with grain. The Great Eastern, of 10,000 tons burden, is on the way to New York on a similar errand, and it is said that enough orders have been received for grain, on English account, to give employment to every idle British vessel afloat. Said a well-known shipper: "England is preparing for next season's stock, and must rely on America for her food. The Black Sea is closed. Only the Prussian provinces on the Baltic are open, and as they must necessarily be closed if the war is prolonged, America will be England's only resort. Fortunately, the crop is large and ample enough to feed the entire world."

Gen. N. B. Forrest died at Memphis, Tenn., on Monday. He was a dashing cavalry officer in the Confederate service, and commanded the rebel forces at the capture of Fort Pillow, where the colored troops composing the garrison were all brutally massacred after having surrendered.

President Hayes has appointed November 29th as a day of National Thanksgiving.

A grand dinner was given to General Grant at the American Legation in Paris, Monday evening. President MacMahon and all the French Ministers were present.

John S. Damrell, formerly chief of the Boston fire department, has been appointed inspector of buildings in that city, for three years.

About eighty lawyers assembled in the general term room of the Supreme Court, at New York, on Saturday afternoon, pursuant to a notice posted upon the door, that "the members of the bar will assemble to take suitable action upon the judicial nominations before the people at the next general election." Every man inquired of his neighbor who had got up the meeting. No one could tell. No organizers appeared, and finally it was decided that the whole affair was a hoax.

E. G. PIERCE, JR., P. M.

THE CITY.

Schooner Henry M. Clark, Cahoon master, arrived at Doane's wharf, on Monday, with 100 barrels of mackerel.

This evening, at Franklin Hall, Spaulding's Swiss Bell Players and concert company will give one of their excellent entertainments; Miss Georgie Dean Spaulding is still one of this well known and always favorably received company. Tickets are put at popular prices—35 cts. for reserved seats. See advertisement.

Mr. Wm. W. Prior, the driver of the "Hourly," has come out with a new vehicle,—one of the Kittery Point stage-coaches, we believe. The owner of the coach which Mr. Prior has been driving since he started into the business for himself, apparently thinking Mr. Prior was making too good a living from his enterprise, took charge of the coach and has started an opposition "Hourly;" but he will find, we opine, that Mr. Prior is too firmly grounded in the good will of the local travelling public to be easily crowded off the track.

OVERSEERS' MEETING.

The Board of Overseers of the Poor held their regular meeting at the City Rooms on Tuesday evening. The general business being disposed of, the Mayor read the following communication, which was accepted and placed on file:

To the Hon. the Mayor and Board of Overseers of the Poor.

Gentlemen: We have considered the questions submitted to us by your agreement of the 16th inst., and respectfully reply: That whenever any person in the city is poor and unable to maintain himself, he shall be relieved and maintained by the Overseers of the Poor of the city; and the statute requires the City Council to raise and appropriate sufficient money for this purpose. The city by its City Council is authorized to provide lands and buildings and all means that may be necessary for the accommodation, support, and employment of the poor. The Overseers of the Poor are bound to use for the support and accommodation of the poor, so far as they reasonably may, the means and supplies, whether buildings, provisions, or other necessaries, which the city shall from time to time provide for this purpose. If the city fails to provide, or the articles provided are not suitable for the relief and maintenance which may be found necessary, it will be the duty of the Overseers to supply them at the expense of the city. An ordinance of the city provides for the election by City Councils of a keeper of the Almshouse, and authorizes him to purchase provisions and supplies for the use of the inmates of the house and outdoor pensioners, subject to the general direction and control of the Board of Overseers. This ordinance appears to be consistent with the laws of the State, and the Overseers are bound to accept and use all proper supplies in this way provided. From what we have said it will be understood, that the City Councils have power to direct in what manner the supplies, etc., shall be procured for the use of the Overseers of the Poor, and they may from time to time choose such agents for this purpose as they think proper. The remaining questions are, who are Overseers of the Poor? and how they may lawfully act? The original charter of the city, Sec. 25, provides for the election of one Overseer of the Poor by each ward at the annual meeting, and that the Board of Overseers so chosen, with the Mayor as chairman, shall perform the same duties that are incumbent on that body in towns. In another section of the charter it is said that the Mayor shall be *ex-officio* chairman of the Board of Overseers of the Poor. The alterations of the charter in 1874 and 1876 changed the number but not the constitution of the Board. The Mayor therefore is a member of the Board of Overseers of the Poor, with full power to vote and act as one of them. We see no reason to revise the opinion of this subject given by one of the undersigned to the Mayor of the city on the 30th of February, 1860. We think the law goes further, and makes the presence of the Mayor necessary for any valid meeting or action of the Board. When assembled the vote of the majority will prevail, but the presence of the Mayor is necessary before any vote can be taken, and the statute has provided no method of filling the place in his absence. Individual members of the Board have no power to purchase or distribute supplies, and their action is not valid unless authorized or confirmed by a vote of the Board.

Signed { W. H. Y. HACKETT, ALBERT R. HATCH.

The weekly report of the Keeper of the Almshouse was accepted, as follows: In House week ending Oct. 30th, paupers nineteen, convicts two, boarders, eight, male help two, female help two, Superintendant's family three.

POLICE COURT.

Tuesday, Oct. 30th.

Joseph Fabian, drunk $9.90 worth, will board it out at Brentwood.

Jeremiah Murphy, brawl and tumult, same sentence, and will pay the penalty exacted in the same way as Joseph.

A LEGAL OPINION.

We publish this morning the opinion of two distinguished lawyers on the questions at issue between the Mayor and the other Overseers. From this document we learn

1st. That the City Councils are authorized to provide lands, buildings, provisions and other necessaries for the support of the poor. [This is what the Mayor claims.]

2d. That the Overseers are bound to use whatever may be supplied by the City Councils "so far as they reasonably may." But if the city fails to provide, or the articles are not suitable, (according to the judgment of the Overseers,) they may supply them at the expense of the city. [This is what the Overseers are doing.]

3d. That the city ordinance which provides for the election of a superintendent of the City Farm, and authorizes him to purchase provisions and supplies for out-door pensioners appears to be lawful, and the Overseers are bound to use all *proper* supplies in this way provided. [This is what the Mayor says, with a qualification "*proper*" which suits the Overseers.]

4th. The Mayor is a member of the Board of Overseers, with full power to vote and act as one of them. [This appears to give the Mayor less power than he claims and more than the Overseers allow, though we are not quite certain.]

5th. The presence of the Mayor is necessary for any valid meeting or action of the Board; the Mayor must be present before any vote can be taken, and a majority must prevail, and no way is provided by law for filling his place in his absence. [This is a plum for the Mayor.]

6th. Individual members of the Board have no power to purchase or distribute supplies, but if they do their action must be confirmed by the Board. [Which the Board in most cases will do.]

There is an old story of a wise lawyer who settled a dispute by giving to each of the contestants a shell, and eating the oyster himself. When the two lawyers are each paid a fat fee, the vexed questions between the Mayor and Overseers will be similarly decided.

THE VICINITY.

The U. S. S. Speedwell went out of commission at the navy yard on Tuesday.

Mr. Edwin C. Nealley has been reinstated as superintendent in charge of steam fire engines at the navy yard, *vice* Moses Harriman removed. This puts Mr. Nealley ahead, the boats now standing—Nealley three, Harriman two.

The cable steamer Minnie arrived at Halifax on Monday from North Sydney, and left the same day for Rye Beach, to repair the break in the direct cable, which break is located by the electric tests about ten miles southeast of the Shoals.

Congressman Frank Jones stands fifth on the House committee on Naval Affairs, and also on the committee on Militia. The other New Hampshire Congressmen are located in the committees as follows: Blair tenth on Pacific Railroads and fourth on Accounts; Briggs tenth on Patents.

Several distinguished visitors were in town to-day, among whom we noticed Postmaster Pierce, Dep. Int. Rev. Collector Young, Mr. Beacham, Mr. Loomis, and Hon. Isaiah Wilson, all of Portsmouth, hale, hearty and serene. Our reporter tried to interview the two former concerning the policy of Hayes, but all he could get out of them was that they understood the civil service order was to be modified, and they seemed to be pleased. Sly fellows those.—*Dover Democrat, Monday.*

—Keely has named his first motor "The Tramp," because it won't work.

—A retired New York sea-captain has a pet crow named "Jack," which takes its grog like an old salt. It will take down at a dose a half glass of raw whiskey, after which it gives a hoarse croak of maudlin delight and falls over on its side. Its recovery is rapid and it soon walks off. This dissolute bird is in the habit of getting drunk two or three times a day, and the more it drinks the better it seems to thrive.

—The expected rise in flour alarms the bakers. They doughnut know what to dough.—*Lowell Courier.*

—A policeman hunting in a Sharon, Conn., house for Charles Lockwood, who had broken out of the Litchfield jail, was just about giving it up, when he saw a human nose sticking out of the cellar-earth under his feet. Further search showed that Lockwood was neatly buried, and that the officer had been unwittingly standing on his breast.

Portsmouth Chronicle

—A street peddler of tooth powder has been arrested in Philadelphia for cruelty to children in applying to the teeth of bootblacks and other small boys a substance which whitened the teeth, but quickly destroyed the enamel.

—When Governor Gerry managed Massachusetts, a country deacon happened to catch a fine salmon, and knowing that the Governor had a particular liking for that sort of fish, he determined to present it to him. So the salmon was carefully packed, and the deacon, in the absence of railroads, started in his wagon for Boston. On the journey he stopped to dine, and telling at the table his errand in regard to the fish, a practical joker present could not resist the temptation of slipping out to the wagon and changing the salmon for a poor codfish. The unconscious deacon went on to the Governor's house, and after announcing his gift, the two worthies opened the box and discovered the flavorous codfish. Mortified, the poor deacon started for home with his codfish, and stopping for a lunch at his dining place, the wag secretly removed the codfish and replaced the salmon. When he reached home, the deacon mournfully told the story to an incredulous wife, who had herself packed the salmon; they opened the box together. The deacon stared. "Well, you are a pretty good salmon when you are in the country," said he; "but when you are in Boston you are a miserable codfish."

S.T-1860-X. PLANTATION BITTERS

THE WONDERFUL OLD HOME TONIC AND HEALTH RENEWER.

For the Stomach.—Ensuring hearty appetite, good digestion and vigorous health in every fibre of the body.

For the Liver.—Regulating, cleansing, curing malarial taint, and giving pure, rich, life-giving blood.

For the Bowels.—Regulating the action.

For the Nerves.—Soothing, tranquilizing, bracing, and imparting vigor.

A Boon to delicate females in a thousand ways not necessary to speak of.

A Perfect Cure for Sick Headache, Liver Complaints, Costiveness, Dyspepsia, and all similar diseases. Use the Plantation Bitters temperately, medicinally, and expect a certain cure. Sold everywhere.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; then renews the growth; and always surely restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus healthy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,
No. 3 BOW STREET.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications specified by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, I rest, with all my professional and under all circumstances, act kindly and in harmony with the laws which govern the female system. I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectation of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhea, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing-down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription works cures—**the marvel of the world.** This medicine I do not extol as a cure-all, but it admirably fulfils **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of these diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

☞ **FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.** ☜

HALL'S VEGETABLE SICILIAN *HAIR* RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

37 SOMETHING NEW. Have you seen that nice CHOUAGUEN? At 37 Market Street.

Centaur Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The **White Centaur Liniment** is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate bed-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence: Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinarians. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules Bable on Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly sold of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment,** been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Gripes and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,
NORMAN P. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect: but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough,** yet **gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, Highcolored Urine, Costiveness, Inability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, HORMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,800 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

LANGDON PARK,

PORTSMOUTH, N. H.

THE citizens of Portsmouth are respectfully informed that the funds placed in the hands of the Trustees by citizens and others have been entirely expended in the improvements thus far made in the Park. We, therefore, would hereby inform all interested that we are ready to expend in further adornments and improvements of the grounds, such sums as may be donated for the purpose; and contributions of any amount are hereby solicited to be sent at any time to the Treasurer or either of the other Trustees.

Board of Trustees.

FRANK W. MILLER, Chairman.
HENRY M. CLARK, Treasurer.
T. SALTER TREDICK, Secretary.
ALFRED M. HOYT,
JOS. HILLER FOSTER,
MOSES H. GOODRICH,
JOHN R. BROUGHTON, Mayor, *Ex. Of.*

The PAMPHLET which was printed last year, containing a report of all the proceedings at the Dedication of the Park, the Addresses of Rev. Mr. DeNormandie, Hon. C. L. Woodbury and others, with a full list of the 600 Trees set, and the names of the persons or Associations who set or paid for them—may be had at 25 cents per copy, at the Bookstore of J. H. FOSTER, or at the Portsmouth *Weekly* Counting Room. Sent postpaid on receipt of price.

☞ *All New Subscribers for 1878 paying in advance after November 1, 1877, will receive the paper Weekly, from receipt of remittance to January 1st, 1878, without charge.*

COMBINED PAPERS—FORTY-EIGHTH YEAR.

THE COUNTRY GENTLEMAN.

A Premium Annual to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy, one year, $2.50; Four copies $10, *and an additional copy for the year free to the sender of the Club;* Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs*, to each subscriber—a book of 144 pages and about 140 engravings—a gift by the Publishers, in honor of the completion, in its present weekly form of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman possesses an unequaled Corps of Correspondents, regular and occasional, among the *Best Farmers* of All Parts of the Country, and constantly reflects the practical condition and progress of the husbandry of every section of the United States and civilized world.

The Country Gentleman gives in its *Horticultural Department* a continuous variety of information and suggestions, equal or superior in the aggregate to what is offered in the monthly numbers of most magazines devoted to Horticulture.

The Country Gentleman has probably done as much as all other agencies combined, to introduce and disseminate *Improved Stock* of every kind through the country; and commands, to a greater degree than any other paper, the confidence and support of breeders and purchasers.

The Country Gentleman contains unusually full and trustworthy *Market Reports*, and devotes special attention to them and to the prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and so on, and weekly presents a column or two for the Housewife and an interesting variety of Fireside Reading. It contains a well-edited review of current events, and its advertising pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address

CATARRH

THE EYE, EAR, and THROAT

Successfully Treated with

SANFORD'S RADICAL CURE.

SUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, after so many miserable failures, means undoubted specific curative properties in the remedy used. Does SANFORD'S RADICAL CURE for Catarrh possess such properties? The evidence, in the shape of unsolicited testimonials from the most respectable people in all stations of life, must be conclusive on this point. Never, we believe, in the history of popular medicines has such valuable testimony been offered, clearly claiming for any remedy, as that in the possession of the proprietors of SANFORD'S RADICAL CURE. And valuable as it is, it does not represent a thousandth part of the recommendations which are to-day offered by friends to friends in its favor. People of wealth and refinement in all parts of the country daily admit its superiority over any method of cure known, or any popular medicine before offered to the publicly incidental to a published statement. Hence the testimonials in our possession represent but a small part of those withheld for the reason mentioned. The following unsolicited testimonial from HENRY WELLS, Esq., of Wells, Fargo & Co.'s Express, is an outspoken indorsement of which we are justly proud.

INVALUABLE.

Messrs. WEEKS & POTTER, Wholesale Druggists, Boston, Mass.: *Gentlemen*—I have for some months felt it a duty that I owe to suffering humanity to write you, stating the great benefit that I have derived from the use of SANFORD'S RADICAL CURE FOR CATARRH. For more than 20 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, but without material or permanent benefit. Last fall the disease had arrived at that state that I must have relief or die. The entire membranous system had become so inflamed, and the stomach so disordered, that it was a doubtful matter whether I would get to the Pacific coast, or if I did go whether I should live to come back or not. I saw an advertisement of this medicine, and although being very incredulous about specifics or nostrums of any kind, yet in sheer desperation I tried this, and was at once benefited by it. The changes of climate, a chronic disease of the liver, and my age—over 52—may prevent my entire restoration, but the benefit I derive from its daily use is to me incalculable, and I am hoping to be completely cured, and at last arrive at a respectable old age.

If this statement of my case can be of any service to those afflicted as I have been, and enable you to bring this remedy into more general use, especially on the Pacific coast where it is much needed, my object in writing this note will be obtained.

Very truly yours, HENRY WELLS,
AURORA, N. Y., June, 1876. of Wells, Fargo & Co.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1.00. For sale by all Wholesale and Retail Druggists and Dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

Daily Chronicle.

A Swindle.

One of the most adroit swindles yet perpetrated through the mails has been discovered at the Dead Letter office through the sudden accumulation of letters, all addressed to the same parties and in the same handwriting, and each containing a check for fifty or seventy-five dollars. The letters purported to have been sent from manufacturing jewelers in New York to their drummers in Western towns and cities. They read as follows. "Yours at hand. In reply would say that all orders up to date have been filled and are quite satisfactory. We are making a new line of buttons and studs; will send you sample in a few days. Enclosed find our check for seventy-five (or fifty) dollars. Be as careful as possible with money. Also be careful in making new trades. Keep to the route laid out and let us hear from you often." The modus operandi of the swindle was as clever as the letters. The pretended drummer, after registering at the hotel to which a decoy letter had been previously sent, would inquire for letters. The decoy would be handed out, opened and read in the presence of the hotel clerk, who, after his confidence had been won by the letter and the pleased air of the recipient, and his vanity tickled with a promise of some of the new styles of buttons and studs, would be asked, in the most off-hand way in the world, to cash the check. It is learned that the ruse has been played quite successfully. The letters all purport to be sent from New York but are all post-marked Boston.

—Three daughters of a Kentuckian determined to be married the other day, and as their father refused to approve their resolve, they all eloped with the men of their choice the same night. Only in Kentucky do they such things in this wholesale way.

STATE OF NEW HAMPSHIRE.

ROCKINGHAM, SS.

By the Judge of Probate for said County.

TO the heirs at law and creditors to the estate of MARY D. HUTCHINGS, late of Portsmouth in said County, deceased, intestate, and all persons interested in said estate, greeting:

You are hereby notified that JOSIAH S. HALEY, Executor of the will of said deceased, will present his account of administering said estate at a Court of Probate to be holden at Portsmouth, in and for said County, on the second Tuesday of November next, at 10 o'clock A. M. for examination and allowance.

You are therefore hereby cited to appear at said Court to be heard thereon, and to make such objections as you may then have. And notice is hereby required to be given by causing this citation to be published three weeks successively in the Daily Morning Chronicle, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least one week prior to said Court. By order of the Judge,

WOODBURY W. DURGIN,
oct18 2aow1 Register of Probate.
Dated at Portsmouth, Oct. 16, 1877.

THE SUN.

1878. NEW YORK. 1878.

As the time approaches for the renewal of subscriptions, THE SUN would remind its friends and wellwishers everywhere, that it is again a candidate for their consideration and support. Upon its record for the past ten years it relies for a continuance of the hearty sympathy and generous co-operation which have hitherto been extended to it from every quarter of the Union.

The **Daily Sun** is a four-page sheet of 28 columns, price by mail, post paid, 55 cents a month, or $6.50 per year.

The **Sunday** edition of THE SUN is an eight-page sheet of 56 columns. While giving the news of the day, it also contains a large amount of literary and miscellaneous matter specially prepared for it. THE SUNDAY SUN has met with great success. Post paid $1.20 a year.

The Weekly Sun.

Who does not know THE WEEKLY SUN? It circulates throughout the United States, the Canadas, and beyond. Ninety thousand families greet its welcome pages weekly, and regard it in the light of guide, counsellor, and friend. Its news, editorial, agricultural, and literary departments make it essentially a journal for the family and the fireside. Terms: **One Dollar** a year, post-paid. This price, quality considered, makes it the cheapest newspaper published. For clubs of ten, with $10 cash, we will send an extra copy free.

Daily Chronicle.

THURSDAY, NOVEMBER 1, 1877.

Congress.

In the Senate, Tuesday, a number of bills were introduced and a batch of executive appointments were confirmed. The committee on elections had a discussion over the investigation of the credentials of Kellogg and Spofford, and without conclusion adjourned until Thursday.

The House was not in session, but most of the newly-appointed committees organized and began their labors. Mr. Eames, of Rhode Island, has introduced into the House a bill which provides for the reduction of postage on letters, and proposes that on and after January 1st, 1878, postage on letters to and from any place in the United States, excepting local or drop letters, shall be charged at the uniform rate of two cents for each half ounce or fraction thereof.

Mr. Waitt, of Connecticut, has introduced a bill to equalize the pay of Rear Admirals on the retired list. It proposes that officers of the navy who have been heretofore or are hereafter to be retired, after forty or more years' of consecutive and faithful service, and promoted to the grade of Rear Admiral on the retired list, shall receive the retired pay of that grade from the date of such retirement.

The naval committee of the House, Wednesday, agreed to report in favor of immediately paying the arrears due naval officers.

News and Notes.

A negro was arrested in Red Bank, N. J., Oct. 29th, for some trivial offence, when a German handed him a revolver and told him to shoot, which he did, shooting the officer who arrested him in the abdomen, and mortally wounding a man named Longstreet. The black ruffian then made his escape, but the German was arrested.

A passenger train on the North Central Railroad of Utah, on Tuesday, was lifted from the track and turned over by the wind. Two passenger cars and the baggage car were turned over. The coals from the stove were scattered through the cars, but the fires were put out before any damage was done. Several persons were hurt, but are expected to recover.

The United States Consul at Curacoa, reports the loss by the great hurricane there of the 23d of September, at about two million dollars.

The Indians in Alaska are threatening serious trouble, and a revenue cutter arrived just in time to prevent the Indians from destroying the barricades around the town, and a murdering of the whites.

An attempt was recently made at San Pedro Jocopilias, near the Mexican frontier, to assassinate President Barrios of Guatemala. He was attacked while driving by a priest named Felix Pajes, who fired a revolver at him. The first shot missed, and before the second could be fired Barrios seized the assassin and struggled for the possession of his weapon. The President's body-servant at that moment entered the door, and, seeing the priest still endeavoring to fire the revolver, shot him dead.

The celebrated trotting mare, Goldsmith Maid, has been finally withdrawn from the turf. She is twenty-one years old.

The United States Circuit Court has ordered a perpetual injunction against any disturbance of the iron-clad Tecumseh, sunk in Mobile bay May 5th, 1864, with 200 men. The wreck was sold last winter, by Secretary Robeson, to junk dealers.

Emery W. Shaw, who has been in jail for about a year on a charge of murdering Simeon Smith of Weymouth, Mass., whose daughter he had secretly married, was on Tuesday discharged without a trial, there being no case against him.

It is intimated that an effort will be made this winter to induce Congress to abolish the office of Pension Agent, and provide for the payment of pensions by check directly from the Treasury of the United States.

The numbers of *Littell's Living Age*, for the weeks ending October 20th and 27th, respectively, contain Prussian History; Lord Falkland and his Modern Critics; The Science of Electricity as Applied in Peace and War; Green Pastures and Piccadilly; On the Discovery of Oxygen in the Sun; Africa "Translated;" translations from Heine, and other choice poetry, and miscellany. A new volume began October 1st. For fifty-two numbers of sixty-four large pages each (or more than 3000 pages a year,) the subscription price ($8) is low; while for $10.50 the publishers offer to send any one of the American $4 monthlies or weeklies with the Living Age for a year, both postpaid. Littell & Gay, Publishers, 17 Bromfield street, Boston.

New Hampshire Items.

As Mrs. Cyrus Booth, of Concord, a lady about sixty years of age, was going to a temperance meeting, she slipped off the curb-stone and dislocated her shoulder joint, and was otherwise injured by the fall.

Cyrus Nelson, of Sanbornton, a youth sixteen years of age, committed suicide Tuesday evening by shooting himself through the heart with a revolver.

Hutchinson, the missing man from Milford, returned home on Wednesday. He has been out of his head as well as out of town.

Winter has fully set in on the summit of Mount Washington, and the frost formations, so peculiar to the high mountain region, are wonderfully beautiful. Sergt. Cone of the United States signal service station, and his assistant, D. C. Murphy, are now the only persons on the summit. Sergt. Cone, who had been to the Fabyan House for the mails, walked to the summit recently, it taking four hours to go three miles, from the base to the signal station. The wind was blowing 100 miles an hour, and the mercury had fallen to 20 degrees.

In the Supreme Court at Wolfeboro', Tuesday, Carter Jenness of Eaton and George Haskell of Maine were sentenced to three years each in the State Prison for sheep stealing.

The boy Flanders, who shot his father in Bow last spring, will be tried for manslaughter next week, at Concord.

A young man named Goodspeed barely escaped death at Nashua on Saturday night, by falling dead drunk on the track of the Boston, Lowell, & Nashua Railroad. Private watchman Griffin discovered him just in time to save him from death by the down freight over the Wilton railroad.

One day recently one of the children of the Nashua Mt. Pleasant school met with quite an accident. Her name is Mabel Graham, and as she was standing near the corner of the building, one of the boys came running by the corner, accidentally struck her and threw her to the ground with considerable force, cracking her collar bone.

Political.

The New York custom house officials say that they were perfectly willing to tender their resignations at the beginning, if the Administration had desired it. After the Administration had proclaimed its intention to remove them, they were unwilling to tender their resignations, or take any step whatever in the premises.

Collector Simmons of Boston made a strong speech in favor of the republican ticket in Massachusetts, Tuesday evening, in Boston Highlands.

Slowly but surely the republican press of the country are coming on to the ground occupied by the *Inter-Ocean*. The motto is "No lowering of the republican flag!" Presidents do not make parties. Parties make Presidents.—*Chicago Inter-Ocean.*

The supreme court of Missouri has decided the contested election case of Frost vs. Metcalf in favor of the latter, giving the certificate of election to Congress to the latter, who is a republican. This was a case in which the republican candidate received an acknowledged majority of votes, but the returns were altered while in possession of a democratic clerk, who openly denounced the fraud but did not have authority to remedy it.

John Walsh, the new Minister to England, is a wealthy man, and seventy-two years old.

Randall's committee on banking and currency are eight to three in favor of repealing the resumption act.

A paper signed by nearly all the members of the bar and by all the Federal Judges in New York, and by several hundred merchants, requesting the President not to remove Collector Arthur, having come to the knowledge of the Collector, he has very firmly requested that it be dropped and not sent to Washington.

A Wide Awake Dog.

Mlle. D., a good and worthy lady, who lived in a country house in the neighborhood of Columbier, had a dog of special intelligence. He was of the race of poodles, which, everybody knows, is remarkably sagacious. When Mlle. D. passed the evening with ladies of her acquaintance in Columbier, as often happened, the dog lighted her home by carrying two little lanterns, which were fastened on each end of a stick which he carried in his mouth. If she went to walk during the day, the faithful dog carried her work-basket. On a beautiful autumn morning, as Mlle. D. was going by a vineyard on her way back from Columbier, a hare sprang out into the road. The dog set out after him, forsook his mistress, and sowed a part of the contents of the work-basket at every turn in the field. When he came home with the empty basket, Mlle. D. scolded him well. Wholly ashamed, with drooping ears and tail, he did not wait for the end of the lecture, but scampered off. Scarcely had half an hour passed when he came gayly back, bringing a pair of shears; then he hurried off again, and brought the knitting work; then a skein of thread, and at evening all the articles which the basket had contained, except the thimble, were together again.

A Sparrow's Reprehensible Conduct.

This gentleman, who resides in New York, had erected last spring, in his back yard, a large box for sparrows' nests. It was divided into three rows, each containing four compartments. These were all speedily taken possession of by a dozen pair of sparrows, and the business of making nests proceeded amid the customary chippering din of these fussy and pugnacious feathered colonists. Sitting idly at the window one Sunday, watching the birds, the gentleman saw one cock sparrow come flying to his place with a fine, soft white feather in his bill. The box was so placed that he could see into the compartments, and he saw this bird fix the feather into an incomplete nest and then fly away. No sooner was he out of sight than a female sparrow from the adjoining compartment, who had evidently seen that proceeding, hopped into her neighbor's house and pulled out and carried off the coveted feather. Becoming interested, the observer watched the performance, expecting to see the little thief carry her stolen prize to her own nest; but no; she knew a trick worth two of that, and here is where she displayed an undeniable reasoning process and acted on a clear perception of cause and effect, making a prudent use of her knowledge of the character and disposition of her plundered neighbor. She flew off with the feather to a neighboring tree, where she securely fastened it, in an unconspicuous place upon and between two twigs, and there left it. Pretty soon the bird she had defrauded came back with a straw to add to his nest. Discovering his loss he came out with an angry chirruping that boded no good to the despoiler of his hearth and home, if he could only find the rogue. His first demonstration was to visit his next door neighbor without any search-warrant. In that abode of peace and innocence he found no trace of the stolen feather; and as for the actually guilty party, she was hopping innocently about, and loudly demanding—as far as birdtones could be understood by the man at the window—what was meant by this ungentlemanly intrusion. The cock-sparrow was evidently puzzled. Unable, after a minute search, to find the lost feather, he apparently gave it up, and flew away in search of another. The thief demurely waited until he had got well off, and then flew to the tree, secured the stolen feather and took it in triumph to her own nest.—*Hartford Times.*

—David Stephen of Sunnyside, Iowa, is quite a singer, and he has a cat which intensely enjoys his music, rubbing against his legs as he sings, and purring an accompaniment. The other day a Dane came into the store and began creating a discordant noise which he probably considered singing. The cat at once appeared before the man, looked at him a moment to assure herself against mistake, and sprang directly into his face, clawing wildly. Popular feeling declares that that cat is too critical to be a pleasant pet.

HUTCHINGS ASSOCIATION

ENTERTAINMENTS

A COURSE OF FIVE ENTERTAINMENTS will be given by this Association

IN THE UNIVERSALIST VESTRY,

COMMENCING NOVEMBER 5th, and continuing once in two weeks until the close of the Course. Programmes of varied interest have been arranged for each evening, consisting of

Evening Tickets, Adults, 15 cts.; Children, 10c. For sale by James M. Carr, Benjamin Whitcomb, G. T. Vaughan, and by the Committee. 1w

WIDE AWAKE FOR 1878.

The popular estimation of WIDE AWAKE is well summed up in what a distinguished literary gentleman said:—"The other magazines lie on the table from and clean, while WIDE AWAKE is read to tatters." That WIDE AWAKE will continue to be "read to tatters" the following announcements for 1878 are good guarantees.

I.

"TRUE BLUE."

By MRS. LUCIA CHASE BELL.

A Serial Story for the Girls of Life in the great North-west.

E. G. PIERCE, JR., P. M.

THE CITY.

About thirty men are to be taken on in the bureau of construction and repair at the navy yard, this morning.

The U. S. S. Tallapoosa, last from Boston, arrived at this navy yard with stores Wednesday afternoon.

The Boston *Globe* says the new boat which has just been placed on Exeter River is named "Mohork," and is commanded by Mr. Augustus Bickford.

The naval authorities will put the U. S. S. Speedwell out of commission today. We beat the naval authorities two days,—we put her out of commission on Tuesday.

Messrs. John S. Sides and "Doc" Nelson recently made a day's shooting excursion to Candia, and returned with fifteen woodcock and two partridges. It was one of the handsomest strings of birds brought in this season.

In our publication of the communication of Messrs. Hackett and Hatch to the Board of Overseers of the Poor, we inadvertently gave the date "30th of February, 1860," as the time when a similar opinion had been rendered, instead of the 14th.

There is a story going about town of a partridge flying into the third story window of the building opposite the post-office, occupied by Mr. John S. Sides, and allowing itself to be caught. We have not heard what the marines think of this yarn. "It won't do; it smokes!"

Master Lyman G. Spalding, U. S. N., of this city, has successfully passed an examination for promotion to the rank of lieutenant. He is now attached to the Enterprise, which vessel is now at Norfolk, Va., having come out of dock and taken on board her coal and stores.

The first of a series of assemblies, given by the Light Artillery at Mechanics' Hall, Tuesday evening, was well attended and a general good time followed, Harlow's Band furnishing the music for the occasion. The next assembly will be given next Tuesday evening, Nov. 6th, when another large party is expected.

Grand Master A. F. Craig of the New Hampshire Odd Fellows, visited all the fifty-seven lodges in the State, last year, which was never done by any predecessor—instituted several new lodges, dedicated three halls and witnessed the work in forty-six lodges. He has been elected Grand Representative to the Grand Lodge of the United States.

Some little excitement was occasioned in the vicinity of Market square, Wednesday afternoon, by the performances of a cow that was hitched behind a load of wood drawn by a horse. This cow towed worse than a water-logged vessel without a rudder, for the latter would go ahead in some direction if not the right one, while the cow would not go ahead at all, but laid flat down as soon as she felt the tow-line draw on her horns. The men in charge of the animal treated her as gently as possible, but after they would coax her to her feet she would only go about ten feet and then slam herself down again. The convoy was about fifteen minutes going from the reservoir on the square to the post-office corner, and we do not know if the obstinate cow has been gotten home yet.

One of the most interesting of the extraordinary planetary phenomena which have marked this summer and fall occurs Saturday night, when Mars and Saturn will be in conjunction for the third time this year. Almost every one has noticed these brilliant objects in the southern sky, and careful observers have been interested in watching the fiery god's apparently erratic course, passing and repassing his less showy brother; but it doesn't come from any indecision of his, as the earth's motion is responsible for it all.—Those who saw the embrace of Venus and Jupiter several years ago will remember that such a conjunction is one of the most beautiful of celestial appearances, and all who wish to see Mars and Saturn cross the heavens with rays blending had better take the chance Saturday, for they won't have another till 1946.—*Exchange.*

SUPREME COURT--THIRD WEEK.

Wednesday, Oct. 31, before *Stanley, J.*

The case of Sarah E. Merrill vs. William B. Merrill, an action for services rendered by a daughter to her father, which had occupied the attention of the court since Monday afternoon, was given to the jury in the forenoon, and at twelve o'clock they came in with a sealed verdict.

The case Merrill vs. Merrill (similar to the above) was next called.

POLICE COURT.

Wednesday, Oct. 31st.

Timothy Leary and James Rivero, drunk, were assessed $9.90 each, fine and costs, and found it more convenient to go to Brentwood than to pay up.

Jane W. Parks, another "drunk," was assessed the same amount, which was paid.

John Hanscom (not John Hanscom the bell ringer, who is not one of the Police Court customers, but another and less worthy John,) and Phebe Ann Hanscom were complained of for keeping a disorderly house, and were bound over in the sum of $100 each to answer at the term of the Supreme Court to be holden at Exeter in April next,—so they will not keep disorderly house any more until after that term.

DOGS.

On Tuesday evening a good-sized dog belonging to Mr. Charles H. Mendum attacked two little boys, children of Mr. Nathan W. Lear, bit both of them, and also snapped at Mr. Lear himself; the animal then ran away and has not been seen since. The dog had never before exhibited any symptoms of ferocity; on the contrary, he was noted for his good disposition.

On Wednesday, at noon, a dog belonging to Mr. James McClure was taken to the police station and shot. The police report that the dog made an attempt to bite Mr. Harvey Lear, and actually had a grip on Mr. Lear's pants when the City Marshal grabbed him, though he fortunately did not draw blood.

Capt. Thomas H. Eastman's valuable setter dog was poisoned on the evening of Oct. 27th, and died next afternoon. He was a fine animal, very gentle and intelligent, and was the constant playmate of Capt. Eastman's children and others.

[Communicated.]

THE POOR-LAW DISPUTE.

Mr. Editor: That the eminent legal gentlemen who expounded the law regarding the matters in dispute between the Mayor and the Board of Overseers of the Poor, expounded it correctly, I presume no one will question; but just what has been settled by their opinion, further than that the Mayor is an active member of the Board and the only legal chairman of it, I cannot see. If anything else is settled by it, it is that the city ordinance is defective in not making any one person or number of persons the responsible purchaser of supplies for the poor; the keeper of the Almshouse is to purchase the supplies, subject to the "general direction and control" of the Overseers; and the Overseers are to use "all *proper* supplies" in this way provided, the Overseers of course being the sole judges as to what "proper" supplies are; failing to receive "proper" supplies in this manner, the Overseers can purchase what is needed and the city must pay for it. In other words, the keeper of the Almshouse is empowered to buy the supplies, and so are the Overseers; and the Mayor, by persistently absenting himself from the Board of Overseers, can invalidate anything the Board may do and bring the business to a dead stop—in which case the poor would be the ones to suffer. When Messrs. W. H. Y. Hackett and A. R. Hatch, working together, cannot decide that the ordinance makes it *anybody's* business to purchase supplies for the poor, it is time for the City Councils to take hold of the matter and invent an ordinance that will put the power and the responsibility *somewhere*.

WATCHER.

[Communicated.]

THE GRANGE HALL SHOW.

Mr. Editor: We read in the CHRONICLE a report of the entries, awards, etc., of the recent exhibition given by the Grangers at their hall, and we are somewhat surprised, considering the many citizens who visited it, and who were unanimous in their expressions of commendation and pleasure, that it has not received any other extended notice in one of our city papers. Certainly, though it was an impromptu affair it claims more than a casual notice. We have visited State Fairs, where every effort has been made to collect the finest specimens of fruits and vegetables from those engaged in agricultural pursuits, and also works of art, needle-work, etc., and except in number of articles, they have not presented a more attractive show than that given to us by the Grangers' association. It is said Rockingham county possesses the finest land and the best farms in the State. The articles exhibited by the Grangers fully substantiate this; and one more truth might be added,—that it has the best farmers. The display of plants and flowers, though necessarily small for want of room, possessed more than ordinary attraction to those aware of the labor and judgment requisite for the successful raising of rare plants; Portsmouth need fear no competition from neighboring cities in this line of business. Of the collection of fancy articles and needle work we mention a few which attracted our especial attention. On entering the hall we noticed a crochet quilt, the handiwork of Miss Lizzie A. P. Treadwell, which showed not only excellent taste in the design but a large amount of labor. There were also two patch-work quilts made of silk by Miss Mary E. B. Miller and Miss Eliza A. Garrett, which were very handsome. A knit nubia, by Miss Ella Philbrick of Rye Beach, looked as delicate as if made from snow flakes. A carriage afghan and embroidered sacque by Mrs. Charles H. Mendum; worsted embroidered ottomans by Mrs. John H. Hutchinson, and Mrs. John P. Weeks of Greenland; an embroidered travelling bag, by Miss Annie E. Huntress; rugs, by Mrs. John A. Hodgdon and Miss Charlotte Walker; darned netting toilet sett, by Mrs. Willis Barnabee, a lady seventy-eight years old; ten tomato pin-cushions, by Mrs. W. I. Israel, of Little Harbor; embroidery on flannels, by Mrs. Emmons B. Philbrick of Rye, and a large number of other articles, were all worthy of special mention. For a now-a-days novelty, a home made blanket and cotton sheet, by Mrs. John Stearns of the Peirce farm, Greenland, carried off the palm. A collection of immortelles, raised and arranged into a wreath and basket by Mrs. E. P. Seavey, was very beautiful. Of the paintings—but we feel that we should get into deep water did we dare attempt to describe their artistic beauties. We know that the panel paintings of wild flowers and autumn leaves by Miss Mary E. B. Miller looked as if they had just been culled from the fields and woods, and the basket of arbutus—May Morning—made us wish that we were a connoisseur that we could expatiate on its merits. Two other paintings, the faces of a pet cat and dog, were much admired. The paintings by Miss Sarah A. Foster, one representing the hall of an old mansion, and the other a basket of pansies, were subjects skillfully handled by the artist,—at least they were very pleasing to look at. Two panel paintings by Miss Mattie Fernald were very fine, and came in for a share of admiration. Of the dairy products, etc., the bread and butter—which is a strong point with us—did look nice, but we failed to find a "Miss" on either of the cards, so we could not pop the question. By some mistake we did not get on the committee on preserves and pickles, so we remarked, "sour grapes," but the committee said, "A 1." As the Grangers have shown us what they can do in a hurry, we shall wait with pleasant anticipation their exhibition of next year.

VISITOR.

NATURAL HISTORY ITEMS.

As Alderman Charles W. Norton was passing along Pleasant street shortly after noon, one day not long ago, he noticed a tramp coming along the sidewalk toward him, and at once recognized the fact that the walk was not wide enough to accommodate both at once, and that one had got to take to the street. His first impulse was to assault and batter the tramp with two brickbats; but fortunately recollecting that an Alderman is expected to set a conspicuous example of keeping the peace, and that he had never been introduced to the stranger, so that it would not be polite to address him, Mr. Norton dropped his brickbats and courteously yielded the walk to the tramp. More than this; he went clear across the street, so as to give the tramp all the room he could ask. The unknown traveller walked under a gate, sat up on Mr. Wentworth's cellar door for a few minutes to view the landscape, and then disappeared in the bushes. He had four legs, was about the size of a cat, with a bushy tail, and colored black and white. Mr. Norton is satisfied that at least one member of the Board of Aldermen knows what judicious politeness is. He intends to give the next tramp of that kind he meets with *two* streets' width to pass in, if he wants it.

On the evening of the day that Alderman Norton showed how extra polite he can be when he lays himself out, shortly before eleven o'clock, a gentleman noticed a score or so of young men, apparently part of some military company that had been drilling, stretched in a skirmish line diagonally across the street near Congress Block. They were armed with such stones as they could pick up in the street, and were firing at will at a little black animal that was skipping along from door to door of the stores in Congress Block and below it. Once in a while the animal would run back a little way, and then there would be a masterly falling back of the skirmish line. The missiles rattled against the doors and brick walls, but the terrible enemy did not seem to be getting killed any, and at last one reckless young fellow rushed up with a rock in each hand for a close shot, and then called out, "Thunder, fellers! Hold on; it's only a kitten." It was a little cat belonging to Mr. Henry M. Clark; the young men had not hit her, which was perhaps not very wonderful, nor had they broken any windows in trying to hit her, which was wonderful indeed. Pussy was picked up and taken across the street to Freeman's oyster saloon, placed on the counter, and treated to a "raw" with the rest of the crowd, which she evidently relished very much; and after the "conciliation" was completed she was returned unharmed to her own side of the street.

Skunks are unusually and unpleasantly abundant this year, in this as well as in other cities. One was caught in a steel trap one night last week, in a garden on Mason's Hill, and was killed in the morning by the milkman, (who had fortunately about finished his route for that morning before he killed him,) this making the fourth one killed in that immediate vicinity within a few months. Another was stoned to death by a lot of boys on South street, near the cemetery, a day or two later.

Active Service

cannot wear out the teeth that are brushed daily with Sozodont. If it were in universal use the dentist would have little to do, for it is a positive preventive of dental disease.

The teeth of persons who use it cannot decay or turn yellow.

"Stick!" said Sumner. He referred to Spalding's Glue.

To those who are so unfortunate as to become prematurely gray, or whose hair exhibits a tendency to fall off, we recommend a trial of Hall's Hair Renewer. We do so with the utmost confidence because it is everywhere received with marked favor, and has built upon its own merits such a sure foundation that it is known and used in all civilized countries.—*Addison (N. Y.) Advertiser.*

THAT Major Generals P. T. Beauregard of La and Jubal A. Early of Va. should manage the distribution of prizes of the Louisiana State Lottery at its grand semi-annual drawing on December 11th, is a fair guarantee to the people of the United States that the transaction will be a high-toned honorable lottery. Capital $1,000,000, with accumulated surplus of over $350,000. Address M. A. Dauphin, President, P. O. Box 692, New Orleans, La., for information or tickets.

LAME AND SICK HORSES, pronounced incurable, cured, free of cost. Giles' Liniment Iodide Ammonia.

Spavins, Splints, Ringbones, Bunches, Thoroughpins. Spring Knees cured without blemish.

Strains, Shoulder Lameness, Navicular Disease, Shoe Boils, cure guaranteed. Send for pamphlet containing full information to

Dr. WM. M. GILES, 451 6th Avenue, New York.

Use only for HORSES, the liniment in YELLOW wrappers. JOHN H. SLATER, Agent.

Portsmouth Chronicle

—An ingenious use of carrier-pigeons is on record. They were employed in Belgium to smuggle tobacco into France. Each bird carried from ten to fifteen grammes of the weed, and two dozen pigeons per day were regularly despatched. How long the new industry had been established is not stated; but one day it came to grief. A bird was too heavily loaded, and he dropped with his burden, exhausted, into the Seine. A police inquiry resulted, and the whole business was exposed.

—It is said that when Andrew Jackson was military commander in Florida, he had tried at drumhead court-martial, sentenced and hanged, two Englishmen who had tried to incite insurrection among the Indians. President Monroe feared that Great Britain would be indignant, and summoned Jackson to Washington to be reprimanded. Secretary Adams defended Jackson and made a long argument, in which he quoted international law as expounded by Grotius, Vattel and Puffendorf. Jackson listened in sullen silence, but that evening, when asked at a dinner party whether he was not comforted by Mr. Adams' citation of authorities, he exclaimed: "What do I care about those old musty chaps? Blast Grotius, blast Vattel and blast the Puffen-chap. This is a fight between Jim Monroe and me, and I propose to fight it out."

"Combines more attractions than any other."—*Beaver (Pa.) Times.*

☞ *CHEAPEST AND BEST!* ☜

Peterson's Magazine !

FULL-SIZE PAPER PATTERNS!

☞ A SUPPLEMENT *will be given in every number for 1878, containing a full-size paper pattern for a lady's or child's dress. Every subscriber will receive, during the year, twelve of these patterns, so that the dress will be worth more than the subscription price.* ☜

"PETERSON'S MAGAZINE" contains every year, 1000 pages, 14 steel plates, 12 colored Berlin patterns, 12 mammoth colored fashion plates, 24 pages of music, and 900 wood cuts. Its immense circulation enables its proprietor to spend more money on embellishments, stories, &c., &c., than any other. *It gives more for the money than any in the world.* Its

Thrilling Tales and Novelettes

Are the best published anywhere. *All the most popular writers are engaged to write originally for "Peterson."* In 1878, in addition to the usual quantity of short stories, five original copyright Novelettes will be given, by Mrs. Ann S. Stephens, Frank Lee Benedict, Mrs. F. H. Burnett, and others.

Mammoth Colored Fashion Plates

Ahead of all others. These plates are engraved on steel, *twice the usual size*, and are unequaled for beauty. They will be superbly colored. Also, Household and other receipts; in short, everything interesting to ladies.

N. B.—As the publisher now prepays the postage to all mail subscribers, "Peterson" is cheaper than ever; in fact is the cheapest in the world.

TERMS, Always in Advance, $2 A YEAR!

S.T.-1860-X. PLANTATION BITTERS

THE WONDERFUL OLD HOME TONIC AND HEALTH RENEWER.

For the Stomach.—Ensuring hearty appetite, good digestion and vigorous health in every fiber of the body.

For the Liver.—Regulating, cleansing, curing malarial taint, and making pure, rich, life-giving blood.

For the Bowels.—Regulating the action.

For the Nerves.—Soothing, tranquilizing, invigorating, and imparting vigor.

A Boon to delicate females in a thousand ways not necessary to speak of.

A Perfect Cure for Sick Headache, Liver Complaints, Costiveness, Dyspepsia, and all similar diseases. Use the Plantation Bitters temperately, medicinally, and expect a certain cure.

Sold everywhere.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely. AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth; and always surely restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus lanky, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

C. E. MYERS & CO.,
No. 3 BOW STREET.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to women, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** Unwarranted, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under a **POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhea, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription works cures—**the marvel of the world.** This medicine I do not extol as a cure-all, but it admirably fulfills **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

President—FREDERICK M. STONE.

Vice Pres.—FREDERIC W. LINCOLN, THOS. codtf TALBOT, SAMUEL C. COBB.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It promotes a luxuriant growth, cleans dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

Centaur Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The **White Centaur Liniment** is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate bed-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Foll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment**, been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Gripes and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,
NORMAN P. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of clumsy, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so thoroughly and modified, one by the others, as to produce **a most searching** and **thorough,** yet **gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any colomel or other forms of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, HORMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1850 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO. and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

MORSE & ILSLEY, No. 13 Pleasant Street, opp. Post Office, up stairs Portsmouth, N. H.

☞ *All New Subscribers for 1878 paying in advance after November 1, 1877, will receive the paper Weekly, from receipt of remittance to January 1st, 1878, without charge.*

COMBINED PAPERS—FORTY-EIGHTH YEAR.

THE COUNTRY GENTLEMAN.

A Premium Annual to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy, one year, $2.50; Four copies $10, *and an additional copy for the year free to the sender of the Club;* Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs*, to each subscriber—a book of 144 pages and about 140 engravings—a gift by the Publishers, in honor of the completion, in its present weekly form of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman possesses an unequaled Corps of Correspondents, regular and occasional, among *the Best Farmers* of all Parts of the Country, and constantly reflects the practical condition and progress of the husbandry of every section of the United States and Canada.

The Country Gentleman gives in its *Horticultural Department* a continuous variety of information and suggestions, equal or superior in the aggregate to what is obtainable in the monthly numbers of most magazines devoted to Horticulture.

The Country Gentleman has probably done as much as all other journals combined, to introduce and disseminate *Improved Stock* of every kind through the country, and commands, to a greater degree than any contemporary, the confidence and support of breeders and purchasers.

The Country Gentleman contains unusually full and trustworthy *Market Reports*, and devotes special attention to them and to the prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and so on, and every week presents a column or two for the Housewife and an interesting variety of Fireside Reading. It contains a well-edited review of current events, and its advertising pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address

LUTHER TUCKER & SON, PUBLISHERS, ALBANY, N. Y.

CATARRH

THE EYE, EAR, and THROAT

Successfully Treated with

SANFORD'S RADICAL CURE.

SUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, after so many miserable failures, means undoubted specific curative properties in the remedy used. Does SANFORD'S RADICAL CURE for Catarrh possess such properties? The evidence, in the shape of unsolicited testimonials from the most respectable people in all stations of life, must be conclusive on this point. Never, we believe, in the history of popular medicines has such valuable testimony been offered, freely offered, in favor of any remedy than that in the possession of the proprietors of SANFORD'S RADICAL CURE. And valuable as it is, it does not represent a thousandth part of the recommendations which are to-day offered by friends to friends in its favor. People of wealth and refinement in all parts of the country daily admit its superiority over any method of cure known to the regular medical profession, but shun the publicity incidental to a published statement. Hence the testimonials in our possession represent but a small part of those withheld for the reason mentioned. The following unsolicited testimonial from HENRY WELLS, Esq., of Wells, Fargo & Co.'s Express, is an outspoken indorsement of which we are justly proud.

INVALUABLE.

Messrs. WEEKS & POTTER, Wholesale Druggists, Boston, Mass: *Gentlemen,*—I have for some time felt it to be a duty that I owe to suffering humanity to write you, stating the great benefit that I have derived from the use of SANFORD'S RADICAL CURE FOR CATARRH. For more than 20 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, but without material or permanent benefit. Last fall the disease had arrived at the stage that I must have relief or die. The entire membranous system had become so inflamed, and the stomach so disordered, that it was a doubtful matter whether I could go to the Pacific coast, or if I did go whether I should live to come back or not. I saw an advertisement of this medicine, and thought trying very incredulous about specifics or nostrums of any kind, yet in sheer desperation I tried this, and was at once benefited by it. The changes of climate, a chronic disease of the liver, and my age—over 70—may prevent my entire restoration, but the benefit I derive from its daily use is to me *incalculable*, and I am hoping to be completely cured, and at last arrive at a respectable old age.

If this statement of my case can be of any service to those afflicted as I have been and enable you to bring this remedy into more general use, especially on the Pacific coast (where it is much needed), my object in writing this note will be obtained.

Very truly yours, HENRY WELLS, AURORA, N. Y., June, 1876. of Wells, Fargo & Co.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1.00. For sale by all Wholesale and Retail Druggists and Dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

37 A SPLENDID LINE of WINDOW CURTAINS, Cheap, At 37 Market Street.

Daily Chronicle.

Mathematics and Medicine.

Among other talk it came out that whale-ships carry no doctor. The captain adds the doctorship to his own duties. He not only gives medicines, but sets broken limbs after notions of his own, or saws them off and sears the stump when amputation seems best. The captain is provided with a medicine chest, with the medicines numbered instead of named. A book of directions goes with this. It describes diseases and symptoms, and says: "Give a teaspoonful of No. 9 once an hour," or "Give ten grains of No. 12 every half hour," etc. One of our sea-captains came across a skipper in the North Pacific, who was in a state of great surprise and perplexity. Said he: "There's something rotten about this medicine chest business. One of my men was sick—nothing much the matter. I looked in the book; it said give him a teaspoonful of No. 15. I went to the medicine chest and I saw I was out of No. 15. I judged I'd got to get up a combination somehow that would fill the bill, so I hove into the fellow half a teaspoonful of No. 8, and half a teaspoonful of No. 7, and I'll be hanged if it didn't kill him in fifteen minutes! There's something about this medicine chest system that's too many for me!"—*Mark Twain.*

The Deacon Answered.

Up in New Hampshire, where I used to live when a boy, (says Gov. Noyes) there was a loud praying hypocrite, a deal more pious than honest. When he had done any particularly mean thing, he eased his conscience by going into the field, along one side of which was a stone wall, and, kneeling beside it, prayed the Lord to topple it over on him if he had done anything offensive to Him or wrong in His sight. Well, we boys found it out, and one day when we saw the deacon making for the stone wall, we got on the other side and waited. He knelt down, according to his usual custom, and went through with his usual formula, closing with the petition to have the wall topple over if he had done anything wrong. And we toppled it. Jumping out from under the stones, the old man cried, in tones of mingled disgust and alarm: "Good gracious, Lord! Can't you tell when a man is joking?"

WIDE AWAKE FOR 1878.

The popular estimation of WIDE AWAKE is well summed up in what a distinguished literary gentleman said:—"The other magazines lie on the table fresh and clean, while WIDE AWAKE is read to tatters." That WIDE AWAKE will continue to be "read to tatters" the following announcements for 1878 are good guarantees.

I.

"TRUE BLUE."

By MRS. LUCIA CHASE BELL.

A Serial Story for the Girls of Life in the gr North-west.

II.

A GENERAL MISUNDERSTANDING.

D. LOTHROP & CO., Publishers, Boston, Mass.

THE SUN.

1878. NEW YORK. 1878.

As the time approaches for the renewal of subscriptions, THE SUN would remind its friends and wellwishers everywhere, that it is again a candidate for their consideration and support. Upon its record for the past ten years it relies for a continuance of the hearty sympathy and generous cooperation which have hitherto been extended to it from every quarter of the Union.

The **Daily Sun** is a four-page sheet of 28 columns, price by mail, post paid, 55 cents a month, or $6.50 per year.

The **Sunday** edition of THE SUN is an eight-page sheet of 56 columns. While giving the news of the day, it also contains a large amount of literary and miscellaneous matter specially prepared for it. THE SUNDAY SUN has met with great success. Post paid $1.20 a year.

The Weekly Sun.

Who does not know THE WEEKLY SUN? It circulates throughout the United States, the Canadas, and beyond. Ninety thousand families greet its welcome pages weekly, and regard it in the light of guide, counsellor, and friend. Its news, editorial, agricultural, and literary departments make it essentially a journal for the family and the fireside. Terms: **One Dollar** a year, post-paid. This price, quality considered, makes it the cheapest newspaper published. For clubs of ten, with $10 cash, we will send an extra copy free.

Address PUBLISHER OF THE SUN, New York City.

Daily Chronicle.

FRIDAY, NOVEMBER 2, 1877.

A Great Man Gone.

Oliver P. Morton, Ex-Governor of Indiana and United States Senator from that State died at Indianapolis at 5:30 o'clock Thursday evening. An earnest patriot, fearless and of vast ability, his services to the country during the rebellion were immense. Few men did more than he—fewer still in his position would have been able to do as much as he—toward saving the Union. Fortunate indeed for the Republic was it that at the time the Knights of the Golden Circle and other treasonable organizations carried the legislature of Indiana, Oliver P. Morton was governor of that State; for to his patriotism and courage and fertility of resource, more than to all other causes combined, was it due that in spite of a rebel-sympathizing legislature Indiana sent her troops to the field, well armed and equipped, by the hundred thousand. A man of strong convictions, it was impossible for him to be other than radical in politics; and though for many years a hopelessly incurable invalid, his iron will would never allow his wearied body to take the repose it needed. Democrats, republicans and liberals will all agree that his permanent removal from the place he has so long filled in the Senate will make a gap that will be sensibly felt by every one of his associates. Only the most wonderful tenacity of purpose has brought him annually to the Capital and every day into the Senate and committee-room, with the shadow of death always about him; and doubtless many of the bitter resentments born of political differences, and still cherished, will go down into the grave, enabling all to see and appreciate his heroic and manly qualities.

Congress.

In the House, Wednesday, the anti-resumptionist won their first victory by twenty-two majority. The vote in committee on reporting a bill to repeal the resumption clause stood five democrats and one republican in favor of it, and three republicans and two democrats agains it. The Army Appropriation bill will not permit any increase of the army and will not contain any proviso in relation to the use of the army for election purposes.

Conger of Michigan, republican, took the lead of the House resumptionists on Wednesday, Ewing of Ohio, democrat, leading the anti-resumptionists. Ninety-five republicans and twenty-one democrats voted with Conger, and thirty-one republicans and one hundred and seven democrats with Ewing. The New England vote was as follows: Maine, New Hampshire, Vermont and Rhode Island voted solidly with Conger; Massachusetts and Connecticut did the same, except that Butler of Massachusetts, republican, and Phelps of Connecticut, democrat, voted with Ewing. Loring of Massachusetts was absent.

Naval Affairs.

Promotions—Commodore Thomas H. Patterson to be Rear Admiral; Capt. George M. Ransom to be Commodore; Commanders J. G. Walker and Henry A. Adams to be Captains; Lieut. Commanders Oliver A. Batcheller, Albert S. Barker, M. W. Sanders, John R. Bartlett and Silas W. Terry to be Commanders; Paymaster Frank C. Crosby to be a Pay Inspector; Passed Assistant Paymaster E. N. Whitehouse to be Paymaster; Assistant Paymaster William W. Barry to be Passed Assistant Paymaster; Capt. William N. Jeffers to be Chief of the Bureau of Ordnance in the Navy Department.

It is gratifying to learn that the vote in the House naval committee on the question of reporting a bill to appropriate money to promptly pay the arrears due officers of the navy, as required by the Secretary of the Navy, was unanimous. This is but tardy justice and honesty, to be sure, but even tardy justice is better than continued injustice. If the naval officers are too many, or not worth their pay, they should be discharged or have their pay reduced by law; but the way they have been treated for some months back is shamefully dishonest and contemptible.

The Eastern War.

The Russian troops around Plevna are estimated at 150,000 men, together with fifty siege and 500 field guns. A despatch from Constantinople says that the Porte admits the capture of Teliche by the Russians. Great uneasiness prevails in Constantinople regarding Plevna, there being rumors of the success of the Russians in the rear of that place.

A despatch from Erzeroum says that the siege of Kars has reopened. The garrison, which consists of 10,000 men, is well provisioned and has plenty of ammunition.

News and Notes.

Early Thursday afternoon the report was flashed all over the Union that Senator Morton of Indiana was dead, and the news—which though long-expected was still startling—was bulletined everywhere. A later report said the Senator was still alive; but at about seven o'clock a third despatch, over the Atlantic & Pacific line, announced that he breathed his last at half-past five o'clock in the evening. His last hours were free from pain, and he passed away without a struggle.

Returns show that the cotton crop of the Southern States for the eight years succeeding the war, show a surplus of 2,800,000 bales over the crop of the eight years preceding the war. And the crop was not mortgaged to the extent that it was in former times.

The loss of the barque Glide, Capt. Beadle, 492 tons register, of Salem, Mass., off the Cape of Good Hope, is reported. The vessel and cargo were valued at over $200,000. No other particulars but her loss with all hands on board, have been received, and the story is not fully credited.

Senator Blaine arrived at his home in Augusta, Me., on Wednesday evening.

Oakey Hall has returned to New York. He says he has been deranged and the Tweed exposures had nothing to do with his running away. This story is very thin indeed.

The First Baptist Church of Salem, Mass., was partially burned on Wednesday night. Loss $20,000.

Mrs. Joseph Whitely, of Lowell, Mass., knocked her husband on the head with a hammer and then cut her own throat, Wednesday. The wounds are not fatal in either case. Jealousy was the cause of the trouble, Mrs. Whitely, who is Joseph's fourth wife, having learned that she was to be superseded in her husband's house by a widow to whom the husband had made over all his property.

Thomas M. Barry, second mate of the bark A. Houghton, which vessel was lost in Hudson's Bay last June, has returned to New York bringing a silver spoon given him by the Esquimaux. It undoubtedly belonged to Sir John Franklin, as it has his family crest upon it. The Esquimaux stated that the white men of the Franklin expedition all died at one of their villages from starvation and suffering, although the Esquimaux divided their scant supplies with them. A cairn was built in which were deposited all the valuables and effects of the Franklin party, which has always been held sacred by the Esquimaux. It is proposed to send a whaling vessel next spring to that region, a portion of the crew of which will be detailed under Barry to find the cairn and bring the contents home. A subscription to raise $15,000, to defray the necessary expenses, is about being started.

E. A. Eberle, an actor of over twenty years' experience, was seen to be very strangely at fault in his part in the Albany Theater a few nights ago. He had the reputation of being "letter perfect," but on this occasion he was at a loss for words, went on and off the stage at wrong points in the play, and gave the audience the impression that he was drunk. At length he advanced to the footlights and said: "I don't know what is the matter with me, but I certainly am not drunk—I never drink anything intoxicating. I was perfect in my part at rehearsal this morning, but now I cannot recall a word of it." He retired, and another actor read the rest of his part. His trouble was paralysis of the brain, and there is not much hope of his recovery.

Of all the million and one religious sects that have come and gone within the last two thousands years, the most absurd is that now agitating some of the western States. Its principal tenet is that a man is obliged to confess all his sins to his wife once a week, and *vice versa*. What a numerous amount of domestic lying this will entail. One advantage is manifest, and that is there will be no period of painful suspense as to the penalty, as to the repentance, or as to the instant forgiveness.

New Hampshire Items.

Amos H. Davis of Hopkinton, while returning from Concord, was run over by his ox-team, which became frightened and ran. Mr. Davis was cut badly on the head and had one shoulder dislocated. He was taken up insensible and conveyed to his home.

A man named Currier, seventy years old, was arrested in Concord on Wednesday for stealing a team from Joseph A. Brown of Manchester. The old fellow hired the team to go to Bow, and cleared out with it.

The last number of the New Hampshire *Daily Patriot* was issued on Wednesday, Oct. 31st. It was a good paper, but we judge was not quite bitterly partisan enough to suit the New Hampshire democracy. Col. Bailey will continue to issue the weekly.

Joshua Haynes of Newbury, for taking six trout from a brook near Sunapee Lake, has been fined $60 and costs, amounting to $71.25.

Some weeks ago an item went the rounds of the State press about a silly and confiding girl in Dover being swindled out of $100 she had saved from her earnings, and which she drew from the bank to lend a plausible rascal who made love to her and borrowed the money "to go into business with." His name was not given; but he is now in jail at Dover in default of $200, to answer to a charge of stealing a great coat and mittens. His name is James M. Sanborn, and he belongs in Haverhill, Mass.

Political.

Washington despatches report that Gov. Blue J. Williams, of Indiana, will appoint Daniel W. Voorhees to fill the late Senator Morton's position. He may be appointed to fill it, but he never will do it until he is many times a greater man than he is now. If Voorhees should become Morton's successor, it will be merely the fulfilment of a more or less tacit understanding among all the parties to the Senatorial election of 1875, which resulted in the choice of Judge McDonald. At that time Voorhees withdrew, and it was understood that next time he should have no party opposition. Another dispatch, however, says that at a conference of democrats in Washington on Tuesday, (before Mr. Morton was dead,) at which Governor Williams was present, it was considered best that the position should first be tendered to Hendricks.

Says the democratic *Courier-Journal*: "The President is said to be wavering as to Civil Service reform. So much the worse for the republican party. The coming democratic Administration will not waver in the matter." That's so; no democratic administration ever did "waver" on the subject of civil service reform, and nobody expects that one ever will. The democratic idea of civil service reform is "To the victors belong the spoils," and they have never faltered or "wavered" in the least, in carrying it out to the extreme.

It is now universally acknowledged that the workingmen of Baltimore were outrageously cheated at the recent election in that city. It has been discovered that in three of the wards several thousand votes were stolen from the workingmen's party. The democrats carried the city by an immense majority—and no wonder.

—The marriage of King Alfonso of Spain to Princess Mercedes, daughter of the Duke de Montpensier, will occur on the 23d of January next.

—It is reported that when somebody asked Mrs. Secretary McCrary if she had Mrs. Belknap's carriage, she immediately answered, "No; you won't find any of that skulduggery about us!"

—A Cambridge man, waiting in line for his turn to buy some lecture tickets, got hungry and gave a boy a quarter to hold his place while he went to lunch. The boy, with true Yankee thrift, immediately sold out the position to another man for two dollars, and left.

—Indian meal and vinegar or lemon juice used on the hands when roughened by cold or labor, will heal and soften them. Rub the hands in this and then wash off thoroughly and rub in glycerine. Those who suffer from chapped hands in the winter will find this comforting.

—A marvellous escape from death by lightning was that of Mr. Vest of Suisun Valley, Cal., the other day, when a bolt struck the buggy in which he was riding, tore the top completely off, twisted up the iron work of the vehicle, killed both his horses, and tore off two panels from the fence in front of them. Mr. Vest himself was stunned for the moment, but entirely uninjured.

—A new safety cannon, that shoots an anchor from ships in distress, has lately been tried at Bremerhaven. From a cannon with a diameter of five inches an anchor weighing seventeen pounds was shot, attached to a double rope 2,400 feet in length, and weighing thirty-two pounds, to a distance of 300 yards, by which a stronger rope was pulled on to the ship, with which ship and men could be drawn ashore.

—The Mayor of Denver recently issued a manifesto, in which he intended to order all shade tree limbs cut off below the height of nine feet from the ground; but by a neat bull the order is to cut off all limbs above nine feet from the ground. Several years ago, the same man was Mayor of the city, and caused this notice to be posted on the Cherry Creek bridge: "No person shall cross this bridge in opposite directions at the same time." The joke of this story is that it is absolutely true.

JACKSON'S CATARRH SNUFF,
AND TROCHE POWDER.
A DELIGHTFUL AND PLEASANT REMEDY.
Catarrh, Headache, Bad Breath, Hoarseness, Asthma, Bronchitis, Coughs, Deafness, &c.

E. G. PIERCE, JR., P. M.

THE CITY.

Congressman Frank Jones voted in the House, Wednesday, with the other members from this State and nearly all those from the other New England States, in favor of letting the specie resumption act stand as it is.

Spalding's Bell Ringers on Wednesday evening gave—what this company always gives—an excellent entertainment. Though the price of tickets was very reasonable the attendance was but moderate, the bad weather no doubt keeping away many who would otherwise have been present.

Col. Jerome C. Butler on Wednesday concluded (in deference to the wishes of others) to get rid of a large dog owned by him, though the animal was a valuable one, imported by a naval officer about a year ago, and was apparently all right. So he sent him away to be killed,—but he isn't dead yet, owing to the fact that a fisherman appropriated him and carried him off.

A new building belonging to Messrs. A. Sidney and Henry D. Carroll, located on their land on Sagamore Creek near the old Moses ferryway, and used for fishing purposes, the storage of seines, lines, etc., was burned early Friday morning, 26th ult., doubtless by an incendiary. Loss about $700, insured $300. In its secluded position, it is not known that anybody saw it burn, unless perhaps the wanton incendiary.—*Weekly.*

Ship Paul Jones sailed for Baltimore at half-past three o'clock Thursday afternoon. There was a large gathering of people on the wharves at the north end to see her off, and not a few took passage in her down the river, returning in the tug. Steamer Clara Bateman towed her down, Pilot Rufus A. Preble being in charge of the ship; sail was made on the way down the river, and the tow-line was cast off just outside of Whale's-back. No more beautiful ship than the Paul Jones ever left the Piscataqua.

The Hutchings Association are to give a course of entertainments, five in number, in the vestry of the Universalist church, the first one to be given on the evening of Thursday, Nov. 8th, the others to follow at intervals of two weeks. They will consist of dramas, readings, tableaux, music, etc. Tickets for the course, at only fifty cents each, can be procured of James M. Carr, Benj. Whitcomb or G. T. Vaughan. Evening tickets—for adults, fifteen cents; for children, ten cents. See advertisement.

The venerable father of Mr. L. V. Newell of this city, who lives in Gilmanton—the father, not the son, is the one who lives in the latter named place—and has been on a visit here, started on Thursday morning to drive home in a wagon accompanied only by a little boy. The old gentleman does not look or act like a man much over sixty years old, though he is nearly ninety-one; and with the exception of a slight deafness all his faculties are as keen as they were when he was forty years of age. It is rare indeed that so old a man presents such an example of physical and intellectual vigor.

There was a shooting-match at the Trotting Park, Thursday afternoon, between Messrs. John S. Sides and Joseph Locke, for the possession of the Eldredge medal, which had been in Mr. Sides' possession nearly two years. The winner has to hold the medal against all challengers who are members of the Sportsman's Club, for two years, accepting all challenges from April to November, inclusive; if not won from him during that time, the medal becomes his property absolutely. Mr. Locke won the match Thursday, killing twelve birds out of fifteen; Mr. Sides killed ten, and would probably have secured another but for an "outsider," who fired at and started the bird out of bounds when it bid fair to drop within.

In Thursday's CHRONICLE we published an item respecting the killing of four skunks on State street, at the foot of Mason's Hill, within a brief period. During the day we were informed by a resident there that he had that morning trapped and killed a fifth one; and shortly afterward another gentleman, residing near Lincoln Hill, came in and told us a moving story about the finding of one in his hen-coop an hour or two previously, and the killing of him by the gentleman's son, who blew the animal all over the neighborhood with a charge of duck-shot. On our pressing the latter informant for some definite idea as to about how much ground the animal was spattered over, he informed us that from the smell he thought it was about three square miles. In the evening another of these odoriferous beasts was making his presence known on the lower end of State street; and another (or the same) one has for several nights honored Sheafe street with his presence. Between these creatures and badly-behaved dogs on our streets, it will soon be unsafe to venture out without a suit of armor and a bottle of patchouli.

[Communicated.]

PETROLEUM INSPECTION.

BOSTON, Oct. 27th.

Ed. Chronicle: I have just received a copy of your paper of the 22d inst., and as the article on Petroleum is so manifestly incorrect ask your indulgence in what I have to say. The article says "an out of town inspector sent here by the manufacturers." Now as my name was freely used in your papers at the time, every one knows very well who is meant. The fact is I was not sent to your city by the manufacturers; I visited your city, by request of Messrs. D. J. Goss & Co., of this city, whose oil sold to C. Dwight Hanscom & Co. has been condemned. No doubt my going met their approval, but that has nothing to do with the fact that Messrs. Goss & Co. were the parties at whose request I went.

It also states that "the inspector just made it up and stated he *could* make it higher." When I tested that sample in your city, in the presence of the gentlemen there, I stated why the great difference exists between your inspector and myself. I explained fully when I burned it that as it was 100 and 110 which was all the law required, we could try the experiment of holding fire just at the surface of the oil as had been done by your inspector, and see how quick it would go; and I well know before trying, what was seen by those watching the test, that it would be but a few seconds before it would, as you say, "flame."

You also speak very plainly in regard to low test oils, and I will say that I endorse what you say in regard to them, and will add that an inspector should be very sure an oil *is* low, and not condemn unjustly. The law says tested by "Tagliabue's or a similar instrument," and stops there. I claimed to follow the custom of inspectors throughout the country, who have made it a business for years to inspect oil. I have been in New York, Philadelphia and the West, have had nearly fifteen years experience myself, have been upon the witness stand in nearly every important oil case here during that time and have heard the decisions of different judges, etc., in regard to tests, and I could see no way but to follow custom to be right, more especially after a decision applying directly to the point, which condensed was that "until the legislature saw fit to adopt Mr. ——'s method no inspector would be justified in so testing, and no court in the State (Massachusetts) could recognise it, but must be governed by general custom."

So I say, viewed in the light of past experience, no inspector has a right to set up a way of his own, no matter what may be his opinions or preference; he must follow the law as it is interpreted by the courts, and they have always so far said *custom*; and I feel confident if your inspector can only have a few years experience in testing oil, and learn what it is to be his own lawyer in cases where he has entered complaints for illegal selling, he will think and act very different from what he is to-day.

Yours, R. F. MEANS, Ins., Boston.

[*Note.* We cannot see what particular bearing it has on the case, whether Mr. Means was sent here by the manufacturers of the oil, by their agents, or by any one else. The local inspector had condemned certain oil, and "an out-of-town inspector" was sent here by some one to upset the local inspector's inspection and show that he was wrong, and that the oil was merchantable under the law of the State; who it was sent him is immaterial. Mr. Means may be correct as to the law and the custom in Massachusetts; but this city is in New Hampshire, a State which is not bound by the laws or the customs of any other State of the Union.—*Ed. Chron.*]

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, hearing was had on the petition of E. W. Clough for a new road. Voted to visit the premises at the call of the Mayor.

The following petition, largely signed by heavy tax-payers, and prominent citizens of all shades of political belief, was presented:

To the Mayor and Board of Aldermen of the city of Portsmouth:

Your petitioners respectfully represent that for the public accommodation there is need that Penhallow street should be widened and straightened on the south side of Daniel street at a point forty feet westerly of the eastern side of Penhallow street, and carrying that width southerly until it strikes the fence in the rear of the building on the southeast corner of Daniel and Penhallow street. Wherefore your petitioners pray that said street may be widened and straightened accordingly.

Mr. Robert F. Gerrish, owner of the building which must be cut for the widening, appeared before the Board and objected to the petition being granted. Voted that the petitioners be granted a hearing before the Board on the 22d inst.

A communication was received from the Common Council that they had so far amended resolution in regard to railroad crossings as to make it read "flagman" instead of "gate." The Mayor stated that three communications had been sent to the railroad authorities, and none had been answered. The Aldermen nonconcurred in the Council's amendment. A committee of conference was appointed, (Messrs. Hadley and Coffin on the part of the Aldermen, and Prior, Long and Whidden for the Council,) and the Councils then passed a joint resolution "requiring the proprietors of the various railroads to secure the crossings in the compact part of the city by said railroads, by gates on both sides of the tracks at such crossings."

A petition for the city to accept a gas-light at the corner of Court and Atkinson streets, was referred to the committee on gas lights.

Petition of Harry B. Drew for use of Ward One ward room two nights in each week, petitioner to pay for gas and fire-wood, was referred to Ald. Hadley, with power.

City Solicitor sent in a communication in regard to a suit against the city by Howe Call, stating that Mr. Call had agreed to refer the question at issue to Judge Batchelder. Referred to committee on finance.

Petition of L. E. Davis and others for cross-walk on State street opposite No. 89, was referred to committee on streets, with power.

C. W. Bailey made complaint that the nuisance of J. Stokell & Co's piggery had not been abated, and asked that action be taken. Referred to Ald. Norton of Ward Two.

Committee on streets reported the estimated cost of repairing sidewalks: In front of H. H. Ladd's, $85; in front of Mr. Durgin's $50; in front of Clark's and Akerman's stores, $50. Also reported the sidewalks in front of Henry F. Gerrish's store, and in front of Franklin Hall, needing repairs; and it was voted that the needed repairs be all made, providing the parties named bear one-half the expense.

Charles E. Walker asked for relay of sidewalks on Islington and Union streets, and crosswalks on same streets. Referred to committee on streets.

Committee on police were instructed to confer with City Marshal relative to adoption of some method whereby the city may be relieved of tramps.

Mayor reported repairs needed at the Almshouse, and was empowered to make such repairs.

Petition for a cross-walk on Market street, at or near Green street, was referred to committee on streets, with power.

Statement of stock needed to repair Sagamore Bridge was made; subject referred to committee on streets, roads and bridges, with power.

Voted that Frank W. Miller's bill be paid when the City Solicitor pronounces a deed of land that he may give valid.

Petition of James DeNormandie and others, which was referred to committee on school houses, was reported upon, the committee reporting that the school-room on State street asked for by petitioners is not fit for an evening school for adults, being fitted with small seats for children.

Reports of repairs needed on school-houses were referred to committee on school-houses, with power.

Adjourned.

—A Southern paper has the news that base balls will be delivered from small cannon next year, and that the catchers will be iron-clad. Thus in our sports do we progress backward to the middle ages, when the players wore armor.

—The largest land-owner in America is probably ex-Gov. Abner Coburn of Maine, who owns 593,000 acres, 350,000 of which are in Maine, 185,000 in Canada, 35,000 each in Wisconsin and Dakota, 20,000 in Michigan and 18,000 in Minnesota.

—A new periodical for women, sneers an ungallant exchange, devotes eighteen pages to fashion and only one to cookery. Jack Falstaff had to endure the same censure. "O, monstrous! but one half pennyworth of bread to this intolerable deal of sacque?"

—While the Jews in New York number between 80,000 and 100,000, or about ten per cent. of the population, they contribute less than one per cent. to the criminal classes. Out of 1,037 convicts coming under the notice of one association only eight were Jews.

—A party of emigrants from Pittsburg to Arkansas are going to their new homes in a cheap and novel manner. They have built themselves a large boat, on which they intend to place all their household goods, and to float by way of the Ohio and Mississippi Rivers to the mouth of the White River, from which latter point they will have their boat towed up that river to the lands in Arkansas upon which they intend to settle.

Active Service

cannot wear out the teeth that are brushed daily with Sozodont. If it were in universal use the dentist would have little to do, for it is a positive preventive of dental disease.

The teeth of persons who use it cannot decay or turn yellow.

"Stick!" said Sumner. He referred to Spalding's Glue.

To those who are so unfortunate as to become prematurely gray, or whose hair exhibits a tendency to fall off, we recommend a trial of Hall's Hair Renewer. We do so with the utmost confidence because it is everywhere received with marked favor, and has built upon its own merits such a sure foundation that it is known and used in all civilized countries.—*Addison (N. Y.) Advertiser.*

THAT Major Generals P. T. Beauregard of La and Jubal A. Early of Va. should manage the distribution of prizes of the Louisiana State Lottery at its grand semi-annual drawing on December 11th, is a fair guarantee to the people of the United States that the transaction will be a high-toned honorable lottery. Capital $1,000,000, with accumulated surplus of over $350,000. Address M. A. Dauphin, President, P. O. Box 692, New Orleans, La., for information or tickets.

Portsmouth Chronicle

—The following explanation appears in the Rome *Sentinel*: "The gentleman who left church so suddenly last Sunday was not sick, as his friends feared at the time. That forenoon just before service, he visited his barn to see that his horse had been properly cared for, and finding a new-laid egg he put it in his coat-skirt pocket. The recollection that the egg was still in his pocket prompted him to steal away from the congregation to make investigations, and we regret to say that his worst fears were realized."

—How the police inspectors are made game of is told by a French paper: A police inspector being informed that a restaurateur in his bailiwick was serving game out of season, visits the restaurant in mufti and orders dinner. "Waiter," says he, "can you give me a salmi of partridge?" "Settingly, sir," replies the waiter promptly, and yells to the cook, "Partridge for one." The inspector finishes his dinner leisurely and then says to the waiter, "Ask the boss to step this way a minute." "What for?" "I wish to notify him to appear in court to-morrow and answer for selling partridge out of season." "Oh, I guess it ain't worth while bothering him about that." "Do as I tell you. I am the police inspector, and have secured the necessary evidence against him." "O, I spoted you and guessed what you were after. It wasn't partridge you had." Police inspector (uneasily)—"What was it then?" Waiter (cheerfully)—"Crow."

"Combines more attractions than any other."—*Beaver (Pa.) Times.*

S.T-1860-X. PLANTATION BITTERS

THE WONDERFUL OLD HOME TONIC AND HEALTH RENEWER.

For the Stomach.—Ensuring hearty appetite, good digestion and vigorous health in every fiber of the body.

For the Liver.—Regulating, cleansing, curing sick headache, and making pure, rich, life-giving blood.

For the Bowels.—Regulating the action.

For the Nerves.—Soothing, tranquilizing bracing, and imparting vigor.

A Boon to delicate females in a thousand ways not necessary to speak of.

A Perfect Cure for Sick Headache, Liver Complaints, Costiveness, Dyspepsia, and all similar diseases. Use the Plantation Bitters **generously, medicinally, and expect a certain cure.** Sold everywhere.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely. AYER'S HAIR VIGOR, by long and favorite use, has proven that it stops the falling of the hair immediately; often renews the growth; and always surely restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both hair and its beauty. Thus brashy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

C. E. MYERS & CO.,

No. 3 BOW STREET.

WOMAN.

By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.

To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while discharging its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under **A POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time twelve bottles of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and a statement of the ailment which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures, in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**

The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription works cures—**the marvel of the world.** This medicine I do not extol as a cure-all, but it admirably fulfills **a singleness of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

FAVORITE PRESCRIPTION SOLD BY ALL DRUGGISTS.

eod1a1

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

37 SOMETHING NEW. Have you seen that nice CHOUAGUEN? At 37 Market Street.

Centaur Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The **White Centaur Liniment** is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate bed-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment**, been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Gripes and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,

NORMAN P. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical, and Pharmaceutical science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** represents, in a most concentrated form, as much cathartic power as is contained in any of the large pills found for sale in drug-shops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching and thorough,** yet **gently and kindly operating, cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other form of mercury, mineral poison, or injurious drug.

Being entirely vegetable, no particular care is required in using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Heated Feeling about Stomach, Rush of Blood to Head, High-colored Urine, Unsociability and Gloomy Forebodings,** the **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative, or Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all Druggists at 25 cents a bottle.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fee in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a rehearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,267,540 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

LANGDON PARK,

PORTSMOUTH, N. H.

THE citizens of Portsmouth are respectfully informed that the funds placed in the hands of the Trustees by citizens and others have been entirely expended in the improvements thus far made in the Park. We, therefore, would hereby inform all interested that we are ready to expend in further adornments and improvements of the grounds, such sums as may be donated for the purpose; and contributions of any amount are hereby solicited to be sent at any time to the Treasurer or either of the other Trustees.

Board of Trustees.

☞ *All New Subscribers for 1878 paying in advance after November 1, 1877, will receive the paper Weekly, from receipt of remittance to January 1st, 1878, without charge.*

COMBINED PAPERS—FORTY-EIGHTH YEAR.

THE COUNTRY GENTLEMAN.

A Premium Annua to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy, one year, $2.00; Four copies $10, *and an additional copy for the year free to the sender of the Club;* Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs*, to each subscriber—a book of 144 pages and about 140 engravings—a gift by the Publishers, in honor of the completion, in its present worthy form of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman possesses an unequaled Corps of Correspondents, regular and occasional, among the *Best Farmers* of All Parts of the Country, and constantly embodies the best information and progress of the husbandry of every section of the United States and civilized world.

The Country Gentleman gives in its *Horticultural Department*, a variety of information and suggestions, equal or superior in the aggregate to what is obtained in the monthly numbers of most magazines devoted to Horticulture.

The Country Gentleman has probably done as much as all other journals combined, to introduce and disseminate *Improved Stock* of every kind through the country; and commands to a greater degree than any contemporary, the confidence and support of breeders and purchasers.

The Country Gentleman contains unusually full and trustworthy *Market Reports*, and devotes special attention to them and to the prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and so on, and weekly presents a column or two for the Housewife and an interesting variety of Fireside Reading. It contains a well-edited review of current events, and its advertising pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address

CATARRH

THE EYE, EAR, and THROAT

Successfully Treated with

SANFORD'S RADICAL CURE.

SUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, after so many miserable failures, means undoubted specific curative properties in the remedy used. DOES SANFORD'S RADICAL CURE for Catarrh possess such properties? The evidence, in the shape of unsolicited testimonials from the most respectable people in all stations of life, must be conclusive on this point. Never, we believe, in the history of popular medicines has such valuable testimony been offered, freely offered, in favor of any remedy than that in the possession of the proprietors of SANFORD'S RADICAL CURE. And valuable as it is, it does not represent a thousandth part of the recommendations which so to-day offered by friends to friends in its favor. People of wealth and refinement in all parts of the country daily admit its superiority over any nostrum of our known to the regular medical profession, but shun the publicity incidental to a published statement. Hence the testimonials in our possession represent but a small part of those withheld for the reason mentioned. The following unsolicited testimonial from HENRY WELLS, Esq., of Wells, Fargo & Co's Express, is an outspoken indorsement of which we are justly proud.

INVALUABLE.

Messrs. WEEKS & POTTER, Wholesale Druggists, Boston, Mass.: *Gentlemen,*—I have for some months felt it a duty that I owe to suffering humanity to write you, stating the great benefit that I have derived from the use of SANFORD'S RADICAL CURE FOR CATARRH. For more than 20 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, but without material or permanent benefit. Last fall the disease had arrived at that point that I must have relief or die. The entire membranous system had become so infamed, and the stomach so disordered, that it was a doubtful matter whether I could go to the Pacific coast, or if I did go whether I should live to come back or not. I saw an advertisement of this medicine, and although being very incredulous about specifics or nostrums of any kind, yet in sheer desperation I tried this, and was at once benefited by it. The changes of climate, a chronic disease of the liver, and my age (over 70—may prevent my entire restoration, but the benefit I derive from its daily use is to me incalculable, and I am hoping to be completely cured, and at least arrive at a respectable old age.

If this statement of my case can be of any service to those afflicted as I have been, and enable you to bring this remedy into more general use, especially on the Pacific coast (where it is much needed), my object in writing this note will be obtained.

Very truly yours, HENRY WELLS,
AUBURN, N. Y., June, 1876. of Wells, Fargo & Co.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1.00. For sale by all Wholesale and Retail Druggists and Dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

37 A SPLENDID LINE of WINDOW CURTAINS, Cheap, At 37 Market Street.

Daily Chronicle.

Old Time Chronicles, No. 158.

BY UNCLE JOSEPH.

Having noticed Councillor John Gilman of Exeter, an account of another of the Gilman family will now be given. His name was Peter. He was called Hon. Peter Gilman, Col. Peter Gilman, and sometimes the military title "Brigadier" was applied. He was born in Exeter Feb. 6, 1703. His father's name was John, son of John, son of John, who came over with Edward his father, who was the emigrant. Peter Gilman was the third child of a family of eleven children. At the age of 21, he married a widow of John Gilman. He married second Dorothy Taylor, widow of Rev. John Taylor of Milton, Mass. A daughter of hers, Ann, became the wife of Nicholas Gilman of Exeter, and Gen. John Taylor Gilman was one of their sons. Peter Gilman had a third wife, also a widow, by the name of Prince. Peter Gilman had seven children, but four of them died young. Mehitable married Dr. John Giddings, we suppose of Exeter; Abigail married Rev. Job Strong, pastor of the South church in Portsmouth. He soon died and she married Rev. Woodbridge Odlin of Exeter. We have not the genealogy of the present Odlins of Exeter, but suppose they are of this lineage; if so, they are of noble descent. Mary, another daughter of Peter Gilman, married Major Daniel Tilton. He was of the Tilton family which lived in Hampton and Hampton Falls. The late Dr. Joseph Tilton of Exeter was also of this family. He was from Hampton Falls.

Peter Gilman appears to have been possessed of a spirit stirring nature, active and energetic. He had a share in the French and Indian wars, commanding a regiment at Crown Point in 1755. In 1756 he was one of the commissioners from this State in charge of the military stores at Albany. He frequently represented Exeter in the Provincial Assembly and from 1759 to 1771 was Speaker. The two following years he was a member of the Council.

It is not altogether strange that some, when the Revolutionary struggle came on, sympathized with the British authorities. But the Provincial Government kept a lookout on such. Mr. Gilman was suspected, and the Provincial Assembly ordered him to confine himself to the town of Exeter. But if he had sympathy with the Royalists, there is no evidence that it was much, or lasted long, as he was chosen moderator of the town meeting in 1775, and in 1777 a sergeant in Col. Stickney's regiment in General Stark's brigade, which participated in the well-fought battle of Bennington.

Col. Gilman was warm-hearted on the subject of religion. We could make this part of the narrative of him full, but one or two specimens must suffice. Robert Hale, Jr., of Beverly, Mass., had married his sister Elizabeth, and went a colonel of a regiment with Gen. Wm. Pepperell in 1745. In it is this passage; we follow his spelling and the use of capital letters: "The the archers may Shoot Sore at you I hope the Lord will cause your Bow to abide in Strength and that your arms may be made Strong by the hands of the mighty God of Jacob. I hope we shall be prepared for the second coming of our Dr Redeemer and to meet and Dwell together with him in his kingdom above where we shall never more hear the Clamor of War and Garments Rold in Blod."

Hon. C. H. Bell writes of Col. Gilman that he was a great admirer of Rev. George Whitefield, and says an amusing story is told of the power of the great preacher's eloquence on him and others, causing them to roll on the ground in an agony of penitence. We rather infer from this account, that some one of these was the one that rolled in dirt, but afterwards on being told that it was not Mr. Whitefield, who preached that day, but another minister, he exclaimed, "I have had all this fuss and dirtied my cost for nothing."

The house in which Col. Gilman lived is standing and is undoubtedly the oldest in Exeter. It is thought it was built by Councillor John Gilman, and if so, is about two hundred years old. Walk a few rods from the town hall in the direction of the bridge, and we come to it. It is on the right hand side. When we visited it Mr. Manly Darling lived in it. The old part or back wing has its walls of square timber as a defence against the Indians. We were shown dark and well-built closets where the inmates might hide if the savages should come and the danger be imminent. On the small panes of the old glass windows, the name, Peter Gilman, was found with a short record and dates of a few events. This house is now a hotel and is called the

American House.

Col. Peter Gilman died Dec. 1, 1788, aged 85 years.

Daily Chronicle.

SATURDAY, NOVEMBER 3, 1877.

The Naval Constructorship.

When President Hayes issued his instructions to the officials holding office under him, that civil service was to be henceforth recognized, and that promotions were to be made according to seniority and merit, we supposed it meant to apply to all departments of the Government, and have therefore looked for a change in the Bureau of Construction and Repair of the Navy Department. The senior officer entitled to have charge of that Bureau is Constructor Edward Hartt, but he was before the "investigating committee" of the last House, and the report of the committee as to the management of the yards under his charge was not such that his appointment would strengthen the present administration; and we are informed that he does not, at his age, desire the cares and duties of such a position. But such is not the case with the next officer in rank and seniority, Constructor Thomas E. Webb, late of this city, a courteous gentleman and one whose efficiency cannot for a moment be questioned; and whom the last House Committee on Naval Affairs endorsed "As one of the most exact and conscientious of public officers, who impressed them with the belief that he guarded the public interest with the same jealousy that a virtuous citizen protected the honor of his family." The appointment of such a man, who has shown by his fearless action against abuses that he will tolerate none of them, would strengthen the Administration by giving notice to all that Mr. Hayes meant not only to talk, but to act. The country demands that the best officers, and those who have in the past shown clean hands and fearless action, shall handle the great amounts of money which are yearly controlled by such officers as heads of naval bureaus. By right of seniority the position of chief of the Bureau of Construction and Repair is due (after Mr. Hartt) to Constructor Webb, and simple justice alone would dictate his appointment. That he is abundantly qualified none can question, and that the interest of the government requires the services of men of his character and standing none can doubt.

Washington Correspondence.

WASHINGTON, D. C., Oct. 31.

It must be confessed that the selections of chairmen of committees of the House have created more than the usual amount of dissatisfaction; and the retirement of Messrs. Morrison and Cox from the prominent places they held last session, and their assignment as chairmen of comparatively unimportant committees, has led to the charge of a lack of magnanimity on Mr. Randall's part. His very pointed action in the case of Cox seems to warrant the conclusion as regards his disposition toward his most prominent rival in the Speakership contest. It always happens, of course, that out of the large number of the indignant party striving for recognition, there are some among the failures who are ready to dispute the accuracy of the Speaker's estimate of their worth, and more or less grumbling is always heard. The South certainly appears to have no cause to quarrel with the share of patronage accorded its representatives, as they walk off with twenty-six out of the whole number of chairmanships, while the West must be content with twelve, the Middle States with nine, and New England retires white-washed!

There are some significant winks exchanged over the announcement that Clarkson Potter has declined the chair of the Pacific Railroad business, and there are hints of a "put-up-job." It is put in this way. Randall, anxious to abstain from all appearances of evil, and at the same time desiring to pay his honest debts, appoints Mr. Throckmorton, an out-and-out advocate of the Texas Pacific scheme, as second on the committee, with the various views relative to it all represented, but in such a way as to insure a majority in its favor by the withdrawal of an opponent. Mr. Potter conveniently resigns to insure harmony; Mr. Throckmorton is advanced; Mr. Randall has saved his reputation and paid his debts.

Monday was one of the most busy days ever known in the House. Under the call of States, which began at about twelve and closed a little past five, nearly 900 bills were introduced. To be sure many of them were of no public importance, but it gave members ambitious to appear in the *Record* as authors of a bill, the opportunity desired, and as it only consumed time that might otherwise have been more mischievously spent, no great harm was done. It is said there are now over fifty bills introduced relative to remonetization and repeal of the resumption bill. The House exhausted itself by its unwonted activity, and adjourned over Tuesday; and as the three days' racing at Benning's begins to-day, another day or two devoted to that sport will be demanded by the precedent of last week.

Hardly sufficient time has yet elapsed to enable republicans to ascertain their own sentiments relative to the appointment of Mr. Welsh as Minister to England, but it is entirely safe to predict that there are many other names that would have elicited a greater share of cordiality among those devoted to the party.

The President, family and Cabinet are at Baltimore, where they appear to have received an almost extravagant welcome.

KNOX.

The Eastern War.

A despatch from Bucharest says that Chevket Pasha, in attempting to recapture Teliche, had been repulsed with great loss. The English Government has offered the Porte mediation on terms that Bosnia, Bulgaria and Herzegovina shall obtain local and administrative autonomy. Russia's adhesion to these terms is considered doubtful.

A despatch from Erzeroum says that a strong force of Russians are trying to turn Moukhtar Pasha's army and prevent his retreating to Erzeroum. His position is considered as being very desperate.

The official return of the Russian killed, wounded and missing from the commencement of hostilities to October 25th, is 61,942.

News and Notes.

By a collision on the Philadelphia and Erie Railroad Thursday the engineers of both trains and one brakeman were instantly killed, another fatally injured and several passengers were injured, but none seriously.

Field Marshal Wrangel, of Prussia, died on Thursday. He was the oldest general officer in the world.

There is a grand muss along the line of the Canadian Southeastern railroad in Vermont, the State authorities and Passumpsic railroad folks having torn up the tracks. A raid by Canadians, and a relay of the track is talked of.

A runaway freight train on the New England Railroad ran into a passenger train at Franklin, Mass., Thursday evening; the firemen and engineer of the passenger train were fatally injured, but no passengers were hurt.

The public debt was decreased during the month of October $4,236,554.30.

A despatch from St. Thomas reports the arrival of the American ship Marienne, with second mate Kelley in irons, charged with murdering the captain and throwing him overboard. The vessel was bound from New York to San Francisco.

Jacob G. Otis, who assisted in swindling some fifty firms of New York several years ago out of nearly a million dollars, was captured by the police Wednesday. He was a member of the notorious firm of Lagrave & Co., who bought goods of A. T. Stewart & Co. and other firms on credit, and sold them and decamped with the money. Lagrave was subsequently arrested in France, but when brought to New York was released on account of a technicality in the extradition treaty.

Dishonest practices that have been going on for some time past in the Refiner's Department of the Philadelphia mint, have just come to light, but only one employe is known to be guilty, and at his house has been found one hundred ounces of silver. Director Pollock refuses to make public any further facts in the case, on the ground that his doing so might defeat the ends of justice.

A horrible murder was committed Tuesday night, eight miles west of Terre Haute, Ind., near Sanford Station, on the Indianapolis and St. Louis Railroad, at the residence of Burgoyne Tritt, a wealthy former. His daughter Ross, aged nineteen, had been the object of attention from a young man in the neighborhood, and also from Sylvanus Burnham, a hired man, who had been in the employ of Tritt three years. On Sunday evening, Rosa's lover paid her a visit, which caused a quarrel with Burnham, and he threatened her, saying he would get even with his rival. Tuesday night the old folks were awakened by a light, and found the upper story of the house on fire. Burnham was missing. The house was consumed, with everything in it, after which the corpse of Rosa was found in the ruins, with her legs, arms and head burned off, but there was enough of evidence to show that the girl's throat had been cut, and there was a deep wound in her side. Burnham is still missing.

New Hampshire Items.

Thursday, Nov. 29th, the date of the National Thanksgiving Day, has been set apart by the Governor and Council as a day of Thanksgiving and Praise in this State.

At a meeting of the Governor and Council Thursday the nomination of Edward A. Jenks as State Reporter was confirmed.

John W. Allard, ex-Superintendent of the schools of Nashua, has been elected President of the New England Association of Superintendents.

The suicide of Cyrus Nelson at Sanbornton, Tuesday night, is shrouded in mystery. An investigation will be made. The circumstances indicate foul play. Suspicion rests on the father of deceased, who is represented as rather an unsavory character.

Political.

Congressman Clarkson N. Potter has written a note to Speaker Randall, asking that some one else to be appointed Chairman of the Pacific Railroad Committee in his stead. He would cheerfully serve, he says, but for the fact that he is largely interested in a railroad in Pennsylvania, of which Col. Thomas A. Scott is the President.

Already the southern press is showing signs of fear that the President may be wavering in his reconciliation policy. This alarm, it seems, was brought about by southern Congressmen writing home that there is no further hope of offices for democrats, and that applicants had better save their money and remain at home.

The man who, acting as Mayor of Richmond, welcomed Hayes so heartily on Tuesday, is the same who was chairman of the committee on resolutions at the convention that nominated Tilden.

SUNDAY SERVICES.

At the Unitarian church, preaching at 10:30 A. M.; vesper service at 7:30. Preaching to-morrow by the pastor, Rev. James DeNormandie.

At the Universalist church, preaching at 10:30 A. M., by Rev. E. M. Grant: Subject, "Overcoming the World." Sunday School meets at 2:45 P. M.

At St. Mary's (Catholic) church, Children's Mass at 8:30, Solemn Mass at 10:30 A. M.; Sunday School at three o'clock, P. M.

At St. John's (Episcopal) church services at 10:30 A. M. and 7:30 P. M. every Sunday,—except the first Sunday in each month, when the Children's Choral Service and public cathechising, commencing at four o'clock, is substituted for the usual one at 7:30; seats free at this service.

At the Middle street (Baptist) church, services at 10:30 A. M., 7:30 P. M. Preaching to-morrow by the pastor, Rev. Dr. W. H. Alden.

At the Advent church, services at 10:15 A. M., 2:45 and 7:30 P. M. Elder Jesse Gray, of Portland, will preach.

At the Methodist church, preaching at 10:15 A. M. and 2:45 P. M., by the pastor, Rev. J. Noyes.

At the Congregational church, service at 10:30 A. M. and 3 P. M. Preaching to-morrow by Rev. James W. Hubbell.

At the Court street (Christian) church, preaching by the pastor, Rev. John A. Goss, at 10:30 A. M.; subject, "Saul's Conversion." No service afternoon or evening.

Bow Mission services are suspended until December 2d.

Andrew J. Penhallow will hold a Revival Meeting at Mechanics' Hall in the afternoon from two to four o'clock. Seats free.

THE REVIVAL MEETINGS.

The revival meetings under the lead of Major Whittle and McGranahan commence on Sunday, the order of exercises being as follows:

Prayer meeting from nine to ten o'clock A. M. at the Middle street church. At three o'clock, services at the North church: preaching by Major Whittle; solo singing by Mr. McGranahan, his wife accompanying on the organ; choruses by the choir of sixty voices, under direction of Mr. E. B. Goodall. At 7:30 P. M., similar exercises in the North church. Previous to the commencement of the afternoon and evening services the chorus will hold a praise meeting of about half an hour's duration. Should it be necessary to hold overflow meetings, they will take place at the Middle street church. Ten ushers will be in attendance in the evening to seat the people.

[Communicated.]

WHITTLE AND McGRANAHAN.

Messrs. Whittle and McGranahan closed their evangelistic labors in Rutland on Thursday night, after a month of continuous effort. The attendance from the first has been very large; on Sundays and each week night (except Saturday) the large Congregational church has been crowded. The daily prayer meeting has been well attended and grew in interest; many requests for prayer were presented, and gradually new voices began to appear in the meetings. The bible readings in the afternoon were well attended, and were very interesting and instructive. The ministers of the city were in hearty accord, and assisted in the work. Large numbers have gone into the inquiry rooms after each service, and many have been converted. The result of the work has been very satisfactory. During the month the gospel has been preached day after day to large numbers, many of whom were not accustomed to attend church. The churches have been aroused and church members quickened. Many well known business and professional men have been converted and have come out and identified themselves with the work. A large number of young men have been converted, and very many young people. The infusion of new, young life into the churches, and their induction into Christian work, cannot but exert a healthy influence. The subject of religion has assumed a prominence in all circles such as it has not done, if ever before, in many years; and has been the great topic of conversation and comment alike in the parlors of the rich, the humble homes of the poor and in the haunts of the depraved. Possibly the most hopeful sign looking to the continuance of the work has been the number of intelligent, active young men who have been quickened and converted, and who are ready for active work. Arrangements are in progress for organized effort to utilize the material, and looking to special, continued effort for young men. The daily prayer meeting will be continued, and the Sunday afternoon meetings for men; and other special efforts will be made under the direction of the pastors of the city.

Major Whittle is an earnest, impressive preacher; his sermons are filled with good words; he is thoroughly sympathetic and carries with him the sympathy of his audience. He is specially attractive to young men. Mr. McGranahan has a voice of unusual sweetness, and many of the solos are of his own composition. Mrs. McGranahan, who accompanies her husband, sings very sweetly; and the solos and duets, accompanied by the chorus of a good choir, is winning and impressive.

Messrs. Whittle and McGranahan begin evangelistic efforts in Portsmouth on Sunday, Nov. 4th, in the Congregational church.

SUPREME COURT--THIRD WEEK.

Friday, Nov. 2d, before *Stanley, J.*

The evidence in case Otis S. Merrill vs. William B. Merrill having been closed on Thursday evening, Gen. Marston began his argument for the defendant on Friday morning. This action was brought to recover about $1500, alleged to be due from the defendant to the plaintiff, his son, for services. The counsel for defendant contended that the relation of the parties were those of parent and child, not of master and servant, from the time the young man came of age to the date of his writ; and that if the latter position were the correct one, then the set-off for board etc., when engaged at work for others, should be allowed. The plaintiff, as represented by Mr. Hatch, relied upon an express promise which he claimed to have proved by four witnesses. The case was given to the jury [at noon, and at 4:30 P. M., returned a verdict for the plaintiff, for $814.17.

Court adjourned to Monday forenoon at eleven o'clock. New jurors are summoned for the fourth week.

In the case in which W. B. Merrill's daughter sought to recover for services, the jury gave Miss Merrill $394.33. In each of these cases, Mr. Hatch was counsel for the plaintiff; Messrs. Stickney and Marston for the defendant.

THE HARBOR IMPROVEMENTS.

Those of our readers who scanned the list of appropriations asked for of Congress, for the improvement of rivers and harbors during the next fiscal year, noticed that not one dollar was asked for our harbor, notwithstanding its importance as a coal and winter-fishing port and shelter harbor, and the urgent necessity of something being done. We have published a number of articles on this subject, in hope that the "solid men" of our city who are interested in the improvement of the harbor—and every person in the city is more or less interested in it—would adopt such measures as to insure a favorable result, as has been done in other places. That some combined movement to attain so desirable an end was not made long ago seems incomprehensible; the people of Dover secured appropriations for blowing the bottom out of the Cocheco river, and enough money has been spent in improving the navigation of the "trout brooks" up Newmarket way to clear the Piscataqua of two or three of its most dangerous and most easily removed obstructions; yet until the CHRONICLE commenced to agitate the matter it seems never to have occurred to any one that Portsmouth harbor needed any improvement, or was of importance enough to be worth improving if improvement was needed. Since then one gentleman at least has moved in the matter; Col. William H. Sise, as President of the Board of Trade, has been in correspondence with Brig. Gen. Thom in reference to the obstructions in our river and the probable cost of their removal, and has transmitted the correspondence to Congressman Jones, of this district. This is first-rate, as far as it goes, but it is asking almost too much of our Congressman to expect him to secure an appropriation for surveying this harbor unless he is aided by the business men generally, with their representations and influence. A petition, properly setting forth the importance of the harbor and asking attention to its needs, would no doubt receive the signature of every business man in the city, and such a document would be a strong argument for Mr. Jones to use in urging the river and harbor committee to insert in their estimates an appropriation for making the necessary surveys. Give him the data to work with, and we have no fear but he will do his share of the work. The Whale's-back fog-horn is an illustration of his readiness in this direction; in the latter part of December of last year the CHRONICLE published an article urging a better fog-signal for this harbor than the old bell, and followed it up with others; and before the March election came off Mr. Jones had secured a promise of the necessary appropriation, and the horn is now in position, and braying cheerily whenever there is a fog. We believe he will be equally in earnest in working to forward the improvement of the harbor, —though his re-election to Congress is not now pending; [the Dover *Democrat* has however nominated him for Governor—this is by way of a note;] but it may not be so easy to get the larger sum as it was to get the small one for the horn, and his hands should be strengthened by the citizens in every possible way. The Washington correspondents say that the present administration has "decided that a large reduction can be made in the appropriations for improvements of rivers and harbors, and in the building of fortifications. It is contended that an immense amount is spent on rivers and harbors that might be saved and applied to the sinking fund or some other more useful purpose." From this it is evident that if any new enterprise in this line is to be undertaken, the most convincing reasons for it will have to be given, and its advocates will have to be persistent in their advocacy.

It would seem not a difficult matter to make a strong showing in favor of improving this harbor—so strong that even the present "economical" government will acknowledge that something should be done—and do it. Over 200,000 tons of coal are landed at our wharves in a season, besides lumber, salt, lime, etc., in considerable quantities. To transport this requires a large number of vessels, the wreck of almost any one of which on one of the sunken ledges would involve the loss of more money than would be required to remove the ledge; the amount which the wreck of the brig Clara J. Adams has cost somebody, if expended on the beacon ledge, would blow it to pieces and clear it away at least as far in as the beacon. Not a deep-loaded vessel of any large size is ever berthed on the north side of Concord Railroad wharf without being endangered by Ham's ledge; we are informed that such vessels can only be moved at high tide, and if by any accident one should swing upon the ledge she would be sure to bilge as the tide fell. One vessel was wrecked on this ledge some years ago, and though its position is now marked by a buoy it is as much in the way as ever, and becomes more and more so every year as our coal trade increases; and it is easily possible that another and more valuable vessel, or a number of them, may be wrecked on it in the future if it is not cleared away. If these and similar facts were properly represented in the proper quarter, and backed up by such shipping statistics as could be easily procured from the custom house and private mercantile records, it is more than probable that the government engineers would be set to work on a survey, with a certainty that such a survey would finally result in the obstructions being removed.

THE CITY.

Ship Anna Decatur, 1210 tons register, built at this port in 1856, has been sold to go under the German flag.

Ship Paul Jones, hence for Baltimore, put into Gloucester, Mass., on Friday, to escape the storm. The Paul Jones was very lucky to get in somewhere, for in her light condition she would not do much at clawing off a lee shore if caught on one in a gale.

The *Times* says: "The CHRONICLE man don't believe our story in regard to the partridge breaking through Mr. John S. Sides' window." Who authorized the *Times* to say we don't believe that story? We didn't say we don't believe it. All we said was, "we have not heard what the marines think of that yarn,"—and we haven't; we have not yet seen any of them to ask. But we have seen Mr. Sides, who assures us that he did find the partridge in the room on the third floor of the building occupied by him, as stated, and that he has no doubt the bird flew in through the window which was found broken. The bird was kept in a cage in Mr. Sides' saloon for a couple of days, where it was seen by many persons, and was then set at liberty.

NAVY YARD ITEMS.

Lieutenant-Commander A. W. Kellogg is detached from command of the Speedwell (now at this yard) and placed on waiting orders.

Advices from Norfolk, Va., contain the following: "Sloop-of-war Enterprise has been ordered to follow the Plymouth to Vera Cruz, previous to which, however, a Board of Inspection, by order of the Secretary of the Navy, will examine and report upon the construction of the Enterprise. This ship is one of the eight new sloops recently built and has never made a cruise. She came here from the contractors' hands at Portsmouth, N. H., months ago, and has been undergoing repairs ever since."

In compliance with the recommendation of the officers at the navy yard, the alteration in the propeller of the U. S. S. Ticonderoga will be done there.

Forty-two men have been required in the bureau of construction and repair at the navy yard, as follows: eleven shipwrights, ten laborers, six fasteners, five iron platers, four boat builders, two brass founders, two engine tenders, one plumber and one coppersmith.

Passed Assistant Engineer George W. Hill is ordered to the Ossipee.

THE VICINITY.

A petition is circulating in Newington, addressed to the Postmaster General, asking that arrangements be made whereby the residents of that town can receive the mail four times instead of twice a week.

A few nights since sneak thieves robbed the hen-coop of Mr. Jeremiah Marston at Hampton of fifteen of his best chickens. Thieves have also visited other premises in that vicinity, and stolen corn, squashes, apples, onions and other products.

On Thursday evening, at about nine o'clock, as Mr. Charles Marden of Greenland was driving through Great Swamp on his way home from this city, his horse stumbled and Mr. Marden was thrown with much force to the ground, injuring one of his legs and straining him considerably.

Active Service

cannot wear out the teeth that are brushed daily with Sozodont. If it were in universal use the dentist would have little to do, for it is a positive preventive of dental disease.

The teeth of persons who use it cannot decay or turn yellow.

"Stick!" said Sumner. He referred to Spalding's Glue.

To those who are so unfortunate as to become prematurely gray, or whose hair exhibits a tendency to fall off, we recommend a trial of Hall's Hair Renewer. We do so with the utmost confidence because it is everywhere received with marked favor, and has built upon its own merits such a sure foundation that it is known and used in all civilized countries.—*Addison (N. Y.) Advertiser.*

THAT Major Generals P. T. Beauregard of La and Jubal A. Early of Va. should manage the distribution of prizes of the Louisiana State Lottery at its grand semi-annual drawing on December 11th, is a fair guarantee to the people of the United States that the transaction will be a high-toned honorable lottery. Capital $1,000,000, with accumulated surplus of over $330,000. Address M. A. Dauphin, President, P. O. Box 692, New Orleans, La., for information or tickets.

WIDE AWAKE FOR 1878.

The popular estimation of WIDE AWAKE is well summed up in what a distinguished literary gentleman said:—"The other magazines lie on the table fresh and clean, while WIDE AWAKE is read to tatters." That WIDE AWAKE will continue to be "read to tatters" the following announcements for 1878 are good guarantees.

I.
"TRUE BLUE."
BY MRS. LUCIA CHASE BELL.
A Serial Story for the Girls of Life in the gr North-west.

II.

Portsmouth Chronicle

—A pair of devoted lovers out in the country had a separation last Sunday night. She had previously presented him with her photograph, which he, on his bended knees, swore he would always wear next to his heart. Last Sunday night he pulled out his handkerchief from his back pants pocket, when lo! the photograph fell to his lady's feet. She says he is either a liar or else his heart is not in the right place.

THE SUN.

1878. NEW YORK. 1878.

As the time approaches for the renewal of subscriptions, THE SUN would remind its friends and wellwishers everywhere, that it is again a candidate for their consideration and support. Upon its record for the past ten years it relies for a continuance of the hearty sympathy and generous co-operation which have hitherto been extended to it from every quarter of the Union.

The **Daily Sun** is a four-page sheet of 28 columns, price by mail, post paid, 55 cents a month, or $6.50 per year.

The **Sunday** edition of THE SUN is an eight-page sheet of 56 columns. While thoroughly a newspaper of the day, it also contains a large amount of literary and miscellaneous matter specially prepared for it. THE SUNDAY SUN has met with great success. Post paid $1.20 a year.

The Weekly Sun.

Who does not know THE WEEKLY SUN? It circulates throughout the United States, the Canadas, and beyond. Ninety thousand families greet its welcome pages weekly, and regard it in the light of guide, counsellor, and friend. Its news, editorial, agricultural, and literary departments make it essentially a journal for the family and the fireside. Terms: **One Dollar** a year, post-paid. This price, quality considered, makes it the cheapest newspaper published. For clubs of ten, with $10 cash, we will send an extra copy free.

Address,

PUBLISHER OF THE SUN,
New York City.

"Combines more attractions than any other."—*Beaver (Pa.) Times.*

☞ *CHEAPEST AND BEST!* ☜

Peterson's Magazine !

FULL-SIZE PAPER PATTERNS!

☞ A SUPPLEMENT *will be given in every number for 1878, containing a full-size paper pattern for a lady's or child's dress. Every subscriber will receive, during the year, twelve of these patterns, so that these alone will be worth more than the subscription price.* ☜

"PETERSON'S MAGAZINE" contains every year, 1000 pages, 14 steel plates, 12 colored Berlin patterns, 12 mammoth colored fashion plates, 24 pages of music, and 900 wood cuts. Its immense circulation enables its proprietor to spend more money on embellishments, stories, &c., than any other. *It gives more for the money than any in the world.* Its

Thrilling Tales and Novelettes

Are the best published anywhere. *All the most popular writers are employed to write originally for "Peterson."* In 1876, in addition to the usual quantity of short stories, five original copyright Novelettes will will be given, by Mrs. Ann S. Stephens, Frank Lee Benedict, Mrs. F. H. Burnett, and others.

Mammoth Colored Fashion Plates

Ahead of all others. These plates are engraved on steel, *twice the usual size*, and are unequaled for beauty. They will be superbly colored. Also, Household and other receipts; in short, everything interesting to ladies.

N. B.—As the publisher now prepays the postage to all mail subscribers, "Peterson" is cheaper than ever; in fact is the cheapest in the world.

TERMS, Always in Advance, $2 A YEAR!

2 copies for $3.00; 3 copies for $4.50; with a copy of the premium picture (24x30) *"The Angels of Christmas,"* a five dollar engraving, to the person getting up the Club.

4 copies for $6.00; 5 copies for $8; with an extra copy of the Magazine for 1878, as a premium to the person getting up the club.

6 copies for $9.00; 8 copies for $12; 11 copies for $15; with both an extra copy of the Magazine for 1878, and the premium picture, *a five dollar engraving*, to the person getting up the club.

Address, post-paid,

CHARLES J. PETERSON,
306 Chestnut Street, Philadelphia, Pa.

☞ Specimens sent gratis, if written for.

ST-1860-X. PLANTATION BITTERS

THE WONDERFUL OLD HOME TONIC AND RENEWER.

For the Stomach.—Enervating hearts grateful, good digestion and vigorous health follow every dose of the bitters.

For the Liver.—Regulating, cleansing, curing malarial taint, and making pure, rich, life-giving blood.

For the Bowels.—Regulating the action.

For the Nerves.—Soothing, tranquilizing, bracing, and imparting vigor.

A Boon to delicate females in a thousand ways not necessary to specify.

A Perfect Cure for Sick Headache, Liver Complaint, Costiveness, Dyspepsia, and similar diseases. Use the Plantation Bitters temperately, medicinally, and expect a certain cure.

Sold everywhere.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; then renews the growth; and always surely restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brachy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and stationary; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

WOMAN.
By an immense practice, extending through a period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have succeeded in perfect a most potent and agreeable medicine that meets the indications presented by that class of diseases with positive certainty and exactness.
To designate this natural specific compound, I have named it
Dr. Pierce's Favorite Prescription.
The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as **the climax or crowning gem of my medical career.** On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it upon a **POSITIVE GUARANTEE.** If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, **I feel warranted and perfectly safe in risking both my reputation and my money on its merits.**
The following are among those diseases in which my **Favorite Prescription** has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhœa, Excessive Flowing, Painful Monthly Periods, Suppressions, when from unnatural causes, Irregularities, Weak Back, Prolapsus, or Falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Sterility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my **Favorite Prescription** works cures—**the marvel of the world.** This medicine I do not extol as a cure-all, but it admirably fulfils a **single class of purpose,** being a most perfect specific in all chronic diseases of the sexual system of woman. It will not disappoint, nor will it do harm, in any state or condition.
Those who desire further information on these subjects can obtain it in THE PEOPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of $1.50. It treats minutely of these diseases peculiar to Females, and gives much valuable advice in regard to the management of those affections.

HALL'S VEGETABLE SICILIAN *HAIR* RENEWER.
This standard article is compounded with the greatest care.
Its effects are as wonderful and satisfactory as ever.
It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff, and the scalp by its use becomes white and clean.
By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.
As a dressing nothing has been found so effectual, or desirable.
Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."
BUCKINGHAM'S DYE,
For the Whiskers.
This elegant preparation may be relied on to change a gray beard to a brown or a gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickness and economy produces a permanent color which will neither rub nor wash off.
MANUFACTURED BY
R. P. HALL & CO., Nashua, N. H.

37 SOMETHING NEW. Have you seen that nice CHOUAGUEN? At 37 Market Street.

Centaur Liniments.
They relieve pain;
They subdue swellings;
They cure burns without a scar.
The **White Centaur Liniment** is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate bed-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle affliction either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, String-halt, Foll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment**, been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.
J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey
To the taste but death to Gripes and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. Castorin is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.
COLUMBIA, CONN., May 3, 1876.
Messrs. J. B. ROSE & CO., N. Y.:
I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.
Very truly yours,
NORMAN P. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all fresh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

Pierce's Pleasant Purgative Pellets
SIZE OF PELLETS.
Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.
The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients when we can, by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each bite **Purgative Pellet** represents the most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drugstores. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect; but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a **most searching** and **thorough, yet gentle** and **kindly operating, cathartic.**
$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any calomel or other forms of mercury, mineral poison, or injurious drug.
Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations from the Stomach, Bad taste in the mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Heat in the Head, Hot Head, High-colored Urine, Unsociability and Gloomy Forebodings,** take **Dr Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair the properties of these Pellets. They are sugar-coated and inclosed in glass bottles, their virtues being thereby preserved unimpaired for any length of time, in any climate, so that they are always fresh and reliable. This is not the case with those pills which are put up in cheap wooden or pasteboard boxes. Recollect that for all diseases where a **Laxative, Alterative,** or **Purgative,** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.
They are sold by all Druggists at 25 cents a bottle.

H. E. CHAMBERLAIN, Supt.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., successors to CHIPMAN, HOSMER & CO., Solicitors, Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different states, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,267,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & Co. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & Co., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

CATARRH

THE EYE, EAR, and THROAT

Successfully Treated with

SANFORD'S RADICAL CURE.

SUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, after so many miserable failures, means undoubted specific curative properties in the remedy used. Does SANFORD'S RADICAL CURE for Catarrh possess such properties? The evidence, in the shape of unsolicited testimonials from the most respectable people in all stations of life, must be conclusive on this point. Never, we believe, in the history of popular medicines has such valuable testimony been offered, so freely offered, in favor of any remedy than that in the possession of the proprietors of SANFORD'S RADICAL CURE. And valuable as it is, it does not represent a thousandth part of the recommendations which are to-day offered by friends to friends in its favor. People of wealth and refinement in all parts of the country daily admit its superiority over any method of cure known to the regular medical profession, but shun the publicity incidental to a published statement. Hence the testimonials in our possession represent but a small part of those withheld for the reason mentioned. The following uncolicited testimonial from HENRY WELLS, Esq., of Wells, Fargo & Co.'s Express, is an outspoken indorsement of which we are justly proud.

INVALUABLE.

Messrs. WEEKS & POTTER, Wholesale Druggists, Boston, Mass.: *Gentlemen.*—I have for some months felt it a duty that I owe to suffering humanity to inform you, stating the great benefit that I have derived from the use of SANFORD'S RADICAL CURE FOR CATARRH. For more than 20 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, but without material or permanent benefit. Last fall the disease had arrived at that state that I went days relief or die. The entire membranous system had become so inflamed, and the stomach so disordered, that it was a painful matter whether I could go to the Pacific coast, or if I did go whether I should live to come back or not. I saw an advertisement of this medicine, and although being very incredulous about specifics or nostrums of any kind, yet in sheer desperation I tried this, and was at once benefited by it. The changes of climate, a chronic disease of the liver, and my age—over 70—may prevent my entire restoration, but the benefit I derive from its daily use is to me *inestimable*, and I am hoping to be completely cured, and at least arrive at a respectable old age.

If this statement of my case can be of any service to those afflicted as I have been, and enable you to bring this remedy into more general use, especially on the Pacific coast (where it is much needed), my object in writing this letter will be obtained.

Very truly yours, HENRY WELLS,
AUBURN, N. Y., June, 1876. of Wells, Fargo & Co.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1.00. For sale by all Wholesale and Retail Druggists and Dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

ALWAYS CURES.

Enlarged Spleen.

Chicago, Ill., 1875. I have been using your COLLINS' VOLTAIC PLASTERS for Enlargement of the Spleen and Depression in the Stomach, and they have given me more relief than any other remedy I have used. I would highly recommend them to all suffering from the effects of pain and inflammation.
J. W. SELLS.

PICKERING, MO., June 26, 1877.

Severe Pain.

Having occasion to use a remedy for a *very severe pain* in my side, I tried one of your COLLINS' VOLTAIC PLASTERS, and in twenty-four hours the pain was entirely removed. A. S. BARNES,
Ass't Cashier First Nat. Bank.
WINONA, MINN., June 19, 1877.

Weaknesses.

Collins' Voltaic Plasters give the best satisfaction here of anything that has been tried for Sore Lungs and Weakness of the Back. Please send more right away.

Daily Chronicle.

A Model Pastor.

C. C. Pierce, rector of the Episcopal Church at Placerville, Cal., is the identical man that Diogenes so long sought after. He is in the prime of life, and enjoys excellent health, probably owing to his simple mode of living. He is a theological seminary graduate, and a divine of fair erudition. Mr. Pierce has occupied his present pulpit for over seventeen years. During this period he has never received any salary, depending wholly upon voluntary contributions from the townsfolk. He is a bachelor; his wants are few, and but little money is required to supply them; the citizens revere the rector, and he does not lack. Furthermore, he is so frugal that he saves most of the donations and expends the money in books and trinkets for the village children, of whom he is very fond, and who, it is hardly necessary to state, love him dearly. He stubbornly refuses to spend a cent on himself beyond what is necessary for food and clothing. He has a circuit which embraces the whole of El Dorado County, and preaches five or six times during the week in the surrounding country. He is a free passenger on all the stage lines, and is often given money by the citizens wherewith to hire a conveyance to transport him about the county. When his destination is not on the stage route, and he is given money for a vehicle, he goes on foot, even if it be twenty miles, and gives the carriage money to the poor, or buys books for the village children. As one thinks of this clergyman, the Lord's injunction to his disciples comes to his mind: "Provide neither gold, nor silver, nor brass in your purse; nor scrip for your journey, neither two coats, neither shoes, nor yet staves; for the workman is worthy of his meat."

—What next? Before the war the fashionable styles in ladies' dresses reminded us of an umbrella hoisted. Now they remind us of an umbrella let down and buttoned.

"A Repository of Fashion, Pleasure and Instruction."

Harper's Bazar.

ILLUSTRATED.

Notices of the Press.

The *Bazar* is the organ of the fashionable world and the expounder of that world's laws; and it is the authority in all matters of decorum, etiquette, costume, and social habits.—*Boston Traveller.*

The *Bazar* commends itself to every member of the household—to the children by droll and pretty pictures, to the young ladies by its fashion plates in endless variety, to the provident matron by its patterns for the children's clothes, to *paterfamilias* by its tasteful designs for embroidered slippers and luxurious dressing-gowns. But the leading matter of the *Bazar* is uniformly of great excellence. The paper has acquired a wide popularity for the literary enjoyment it affords, and has become an established authority with the ladies of America.—*N. Y. Evening Post.*

TERMS:

Postage free to all Subscribers in United States.

HARPER'S BAZAR, one year..... $4.00.

$4.00 includes prepayment of U. S. postage by the publishers.

Subscriptions to HARPER'S MAGAZINE, WEEKLY, *and* BAZAR, *to one address for one year, $10.00; or, two of Harper's Periodicals, to one address for one year, $7.00; postage free.*

An Extra Copy of either the MAGAZINE, WEEKLY, *or* BAZAR *will be supplied gratis for every Club of* FIVE SUBSCRIBERS *at $4.00 each, paid for by one remittance; or, Six Copies one year, without extra copy, for $20.00.*

Back Numbers can be supplied at any time.

The Volumes of the *Bazar* commence with the year. When no time is mentioned, it will be understood that the subscriber wishes to commence with the Number next after the receipt of his order.

The Annual Volumes of HARPER'S BAZAR, in neat cloth binding, will be sent by express, free of expense, provided the freight does not exceed one dollar, for $7.00 each. *Cloth of Set, comprising Ten Volumes, sent on receipt of cash at the rate of $5.25 per vol., freight at expense of purchaser.*

Cloth Cases for each volume, suitable for binding, will be sent by mail, postpaid, on receipt of $1.00 each.

Subscriptions received for Harper's Periodicals only.

Newspapers are not to copy this advertisement without the express order of HARPER & BROTHERS.

Address HARPER & BROTHERS, New York.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them decline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth; and always restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brashy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

Practical and Analytical Chemists,

Sold by all Druggists and Dealers in Medicine. No. 8.

Daily Chronicle.

MONDAY, NOVEMBER 5, 1877.

The Eastern War.

It is reported that the Russians are forming an army of 70,000 men with which it is designed to cross the Balkans and advance upon Adrianople without waiting for the fall of Plevna.

The Porte has issued to the populace an official assurance that Plevna is amply provisioned and can hold out for months. Chevket Pasha telegraphs that on Thursday he repulsed the Russian advance on Orchanie, on the road to Plevna. The Russian loss was very heavy.

Silistria is threatened with investment, but is exceedingly strong in its defences and fully armed. The garrison is in admirable condition, and is commanded by Selami Pasha, one of the ablest Turkish generals.

News and Notes.

The *Cape Ann Advertiser* reports the schooner Etta Gott as "high line" of the mackerel fleet, with a little over 300 barrels. Very few of the fleet have taken over 200 barrels, one has taken only 70 barrels, and the average will not exceed 180 barrels. The business this year has been a losing one to owners and fitters of vessels, and has given but meagre returns to the fishermen for their labor. The stock of mackerel on hand is light.

A decision of much interest to the gambling fraternity has just been made in New York. A stranger was recently enticed into a gambling den in that city and fleeced, and the District Attorney, finding by experience that conviction on the charge of swindling was almost impossible, indicted the men for larceny. It was contended that there could be no larceny in the case, as the victim gave up his money voluntarily; but the judge charged for conviction, and the jury brought in a verdict of guilty. The case was promptly taken to the Court of Appeals, which has now confirmed the decision of the lower court.

The death of Dr. H. S. Smith, a practicing physician of Webster, Mass., causes much talk. The Doctor was subject to drunken sprees, and while on one of these, was put in the lock up for the night, where there was no fire. He claimed and his friends also claim, that he there took cold, which was the cause of his death. There is to be an investigation. He leaves a wife and two children.

The barque George A. Wright, before reported lost at sea, was knocked down while laying-to in a heavy gale with only a lower main-topsail set. She cost $60,000, and was on her first voyage. All hands, including the captain's wife and two children, were taken off by schooner Joshua S. Sanborn, of Gloucester, the barque sinking soon after. The cargo of grain was insured $25,000, and vessel $40,000.

The Congressional question—to resump, or not to resump!

Weston, the pedestrian, is lecturing to large audiences in England on "Will Power" and "Temperance."

Harwich, Ont., has had a shower of fish, some of them large enough to furnish the inhabitants a square meal.

Herring have suddenly reappeared on the coast of Denmark. They went away one Fall just as suddenly, over 300 years ago.

Ladies are awful frail beings, but when a man has to put on a thick overcoat the ladies are plenty warm enough in a thin lace shawl.

A French chemist is said to have succeeded in producing a paint with which to illuminate the numbers on street doors at night. Figures traced with it are so lustrous as to be read even on a dark night, and the preparation of the compound is said to be simple, inexpensive and not injurious.

Mrs. John C. Green, of New York, donates $50,000 to the home for destitute children of seamen.

"Woman," says an ancient writer, "can never become an orator." But he had probably never seen a housewife with her head out of the window in the morning, arguing with the milkman about that quart he overcharged her for in last week's bill.

A new method of preserving fish is announced. The fish, either raw or boiled, is cut in thin slices and plunged in a bath of water strongly acidulated with citric acid. After two or three hours' soaking it is removed and dried, either in the air or under moderate heat. In the latter case one hour is sufficient; in the former, five or six days exposure is required. Fish thus treated will keep anywhere for an indefinite period. Three or four days' soaking in fresh water is required to prepare it for use.

New Hampshire Items.

We are informed by the Dover *Press* that Mr. Voorhees telegraphed a cancellation of his engagement to speak at Dover on Wednesday evening, on the ground of important business; and thus Dover will have to fall back upon its duet of democratic editors to find out the strong points of Thomas Jefferson, as the voice of the Tall Sycamore will not be heard on the banks of the Cocheco as advertised.

Five clergymen are now living in Concord who have been engaged for more than fifty years in the labors of their professions: Rev. N. Bouton, Congregationalist; Rev. E. F. Cummings, Baptist; Rev. S. Curtis, Free Will Baptist; Rev. E. Smith and Rev. J. W. Merrill, Methodist. Each has passed his three-score and ten, the oldest being seventy-eight.

Political.

General Joe Johnson is convinced that the commercial condition of the South is better than it was before the war.

The Columbus *Herald* "believes that Hayes will yet cast aside the scoundrels who betrayed him, and return to the principles of the party that made him President."

The chair of the Senate Committee on Privileges and Elections will probably be filled by the promotion of Senator Wadleigh of New Hampshire. Mr. Mitchell of Oregon stands first on the Committee, but prefers to retain the Chairmanship of the Railroads Committee. Mr. Wadleigh is Chairman of the Committee on Patents, but prefers the Privileges and Elections Committee.

"Love, the toothache and tight boots are things which cannot be kept secret. Neither can the sorrows of a machine politician." We clip this item from a republican paper that has always denounced "the machine" in politics, and assisted the republicans to gain victories by assailing the party, its workers and its principles just in the warmest part of the campaign. The same issue of the paper from which we clip the fling at the "machine politician," contained an agonized appeal for "the people"—*i.e.*, the policy-holding reformers—to take hold and help prevent a democratic victory in Massachusetts! as the "machine politicians are doing nothing and the custom house is minding its own business." From this we judge that the independent divine-right-of-bolting policy-gush reform politician has sorrows, as well as the machine fellow.

Outrageous Scoundrelism.

On Thursday evening at about half-past eight o'clock, while the evangelists, Messrs. Whittle and McGranahan, were conducting the evening service in the Congregationalist Church at Rutland, Vt., an incendiary fire was started in the barn of Judson Howard, near the church. The exercises were the last to be held by the evangelists in Rutland, and fully 2000 persons were present in the church, filling every available space. As soon as the fire was started, and before it was hardly under way, some unknown party came to the door and cried "Fire," which caused a terrible panic for a few minutes. The presence of mind of Major Whittle, and the assistance of a number of the prominent citizens of the place, who almost forced the crowd to sit down, happily allayed the panic. As it was, a number of ladies fainted. The barn was not so near as to endanger the church.

Proclamation by the President.

EXECUTIVE MANSION,
WASHINGTON, D. C., Nov. 2, 1877.

I lament the sad occasion which makes it my duty to testify the public respect for the eminent citizen and distinguished statesman whose death yesterday at his home in Indianapolis has been made known to the people by telegraphic announcements. The services of Oliver P. Morton to the nation in the difficult and responsible affairs of the State of Indiana as its Governor at a critical juncture of the civil war can never be overrated by his countrymen. His long service in the Senate has shown his great powers as a legislator, and as a leader and chief counsellor of the political party charged with the conduct of the Government during that period. In all things and all times he has been able, strenuous and faithful in the public service, and his fame with his countrymen rests upon a secure foundation. The several executive departments will be closed on the day of his funeral, and appropriate honors should be paid to the memory of the deceased statesman by the whole nation.

E. G. PIERCE, JR., P. M.

THE CITY.

Fifth of November—Guy Fawkes--Pope Night—pumpkin lanterns, tin horns, etc.

Mars embraced Saturn on Saturday night, and on Sunday evening was "sagaciating" north-easterly from S.

Mr. William H. Gardiner, principal of the Jaffrey High School, was in town last week on a brief visit home.

We sent four different reporters to attend the various revival services in this city on Sunday, and the results of their labors are apparent in our columns this morning.

Schooner Grace Choate made a lively run across from Gloucester to this port in the blow of Friday afternoon, springing her mainboom and splitting her mainsail on the way.

Laighton Brothers, of Appledore, are improving their new steam yacht "Mollie" by putting a house on her, and otherwise better fitting her for making the trip between this port and the Shoals during the coming winter.

Schooner Mary S. Hontvet, Hontvet master, has been thoroughly repainted since she arrived home from the Banks some two weeks ago, and now looks as gay as the latest style of fall bonnet. She will commence shore fishing the last of this week.

The opposition "Hourly" which was put on the streets on Tuesday of last week did not drive Mr. Prior out of the business. The opposition ran well for a season—Tuesday and Wednesday—but the passengers *would* patronize Mr. Prior's coach, so the opposition "busted" on Thursday. Glad of it.

The cable steamer Minia, from Halifax, N. S., appeared off the Shoals at about one o'clock Saturday, steamed down in the bay toward Rye beach, laid off and on for some time, and then ran into the lower harbor and anchored at about four o'clock. Her errand here is to repair the break in the Direct Cable, located by the electrical tests about ten miles southeast of the Shoals.

A correspondent desires us to call the attention of the city authorities to the dangerous condition of the sidewalk at the southwest corner of Union and Islington streets, a pile of dirt having accumulated there during the construction of the Walker house, that needs speedy removal if the city is expected to escape a suit for damages when some unlucky pedestrian comes to grief there in the darkness of night.

THE REVIVAL MEETINGS.

The concerted effort toward evangelizing the city was formally commenced on Sunday at the Middle street church, the first public service being held there in the forenoon, between the hours of nine and ten o'clock, Major Whittle and Mr. McGranahan conducting, and several clergymen of the city being present. The services consisted of prayer, congregational singing, and the singing of two hymns ("The beautiful words of light," and "Nothing without Thee,") by Mr. McGranahan, who was accompanied on the piano by Mrs. McGranahan, the reading of selections of Scripture by Major Whittle, and a very interesting and impressive discourse by the latter-named gentleman, on the importance of prayer with faith. The church was well filled, considering the early hour of the service, the congregation consisting mainly of members of the various evangelical churchs or constant attendants upon their ministrations.

We observed on Saturday, conspicuously displayed on our streets, the following poster, which we copy verbatim: "Andrew J. Penhallow, Revivalist and Common Sense Delineator of Bible Truths of the One Living and True God and Universal Salvation of Jesus Christ, will speak at Mechanics' Hall on Sunday afternoon Nov. 4 from 2 till 5." Following the information given as above, we betook ourselves to Mechanics' Hall, where we listened to Mr. Penhallow patiently for nearly an hour, without experiencing any revivification. This was probably no fault of the *Delineator*, however, as we are fully convinced that the trouble was with the writer.

The sermon or lecture, whichever it was, seemed to be too cursory to accomplish the author's purpose. He undertook to discuss too many points. Some of his remarks, though, were trenchant and deserve record. Among other things the speaker observed that men will grow insane if they neglect to use their reason. A fool is a person of one idea. In this definition Mr. P. differs from the opinions of modern lexicographers, but he is just as likely to be right as they, for aught we know. His exegesis of Bible Truths was not a success with us, though we must confess to a natural stupidity in the understanding of these matters. We gathered from Mr. Penhallow's remarks, the idea that he is an evangelical Unitarian, believing in the Trinity and particularly in salvation through the man Christ Jesus.

Now if the reader can understand this definition of the Revivalist's position, he has got Mr. Penhallow "right down fine," as the expression is. His illustration of the moral situation of man deserves a word or two. He remarked parenthetically that a man and his son while attempting to cross the marshes in Ipswich, lately, came to a bog and commenced to sink. Extrication on their own part was impossible, and they continued to sink. A little timely aid would then have saved them. It was not forthcoming. They slowly sank until overtaken by the rising tide, when they were drowned by the overflowing waters. Now, said the speaker, a platform would have saved them. [He did not tell us whether he would have used the democratic or republican platform, or that of the liberals.] Mankind, said the Revivalist, is in a marshy bog; (of ignorance, we suppose he meant, morally speaking.) They (mankind) are slowly sinking; morality is the platform that should be thrust under them; but the derrick, guys, and so forth, that are necessary to lift them out should be the heavenly attractions, that are found in the Bible, the Book of Books. [It seemed to our dull mind, that the man must be pretty well out after they had succeeded in getting a platform between him and the bog. To us the derrick simile appeared superfluous. However, we will yield to the Revivalist.]

As an initial meeting of a course of revival gatherings, Mr. P.'s was not particularly discouraging. We fear, however, that the next of the series will not find assembled the select crowd of intelligent thinkers that convened on the occasion referred to. This apprehension is based on a notion of ours that the Revivalist is too profound generally and too rambling particularly to bring himself within the understanding of the masses. His moral character however is a better sermon than he can verbally utter, and he had better save hall expenses, printer's bills, et cetera, and confine himself to the silent method that we have suggested.

After the lecture, Mr. Penhallow very courteously invited any of the audience to make a few remarks, if there were those present who desired so to do. No one responding, the meeting was dissolved.

The evangelical campaign for a revival of religion through the ministrations of Major D. W. Whittle and Mr. James McGranahan has fairly commenced, the first appearance of these two gentlemen at the North Church, Sunday afternoon, drawing an audience of 1200 persons, most of whom were comfortably seated through the exertions of a goodly corps of ushers, the Sabbath schools occupying the galleries, which were reserved for them.

The church was filled long before the appointed time for the services to commence, and the choir of some seventy singers were early in attendance. Dr. Goodall, who has enthusiastically entered into the work of training the choir, relieved the waiting audience by commencing a praise meeting shortly after half-past two o'clock, which he led with vigor for about half an hour, the choir alternating in singing with the large audience, the first selection being: "Come thou fount of every blessing."

Promptly at three o'clock, Messrs. Whittle and McGranahan made their appearance, the former taking possession of the desk, and the latter the command of the choir, which Dr. Goodall gracefully relinquished. There was an air of business in the appearance of the two strangers, and the fact that the audience was not tired with the first performance was largely due to the promptness which both displayed. The audience had hardly begun to inquire if these were the revivalists when Major Whittle sent Mr. McGranahan to the front with a finely rendered hymn: "Whomsoever will believe." We were at first somewhat disappointed in the singing, although Mrs. McGranahan's accompaniment was most opportune, the two voices blending well. The chief charm appeared to be in the perfect time in which the selection was rendered. Before the whispering audience could take time to compare notes, Rev. Dr. Alden was called on and offered prayer. Major Whittle then called on Mr. McGranahan to sing: "In the presence of the King," a gospel song that gave more scope to Mr. McGranahan's fine voice, and was rendered more impressively than the first, Mrs. M. again joining in an accompaniment with a sweetness of voice that added greatly to the effect.

Major Whittle went straight to business at the conclusion of the singing, announcing that his platform was based on his his belief in Christ. He quoted copiously from the Scriptures to show the testimony of Christ. What our Savior believed should be, in his way of thinking, the belief of all his followers. They must take Christ's testimony—in fact it was the only testimony offered. Christ stated that He spoke whereof He knew, and testified whereof He witnessed. To disbelieve in Him was to be lost. It is not a question of whether disbelievers shall be lost. All are already lost, and none can be saved who reject Christ. Safety is insured by embracing this belief, and everything is lovely for the true believer. No person could know God and reject Christ. The non-believer would be visited by God's wrath and indignation, and his path would be one of tribulation.

The speaker seemed to think that the Supreme Ruler *cared* what the belief of His creatures should be. He would be "put out" at not being shown due homage, and at the end would get right up and knock the poor wight out of all future happiness who should from ignorance of His ways, or the force of circumstances, decline to adopt the views of His living advisers, the evangelists. It soon became evident that the speaker was a believer that "I, thy God, am a jealous God," and this may account for the fact that Major Whittle believes it "safest" to adopt the hot-house system of making converts, instead of waiting for the ripening fruit to drop naturally into the vineyard, lest the delay be too dangerous. We waited for the full expression of his views, and found that he "stood pat" on the original orthodox belief, (antediluvian though it be,) and deemed it impossible to better his "hand." Said he, impressively and earnestly, with all the air of a person who believes firmly what he is about to state: "I believe in a Heaven, a hell, the judgment and a resurrection." And thereby lies his consistency! In the struggle after revelation, he who wants more light and goes to science and philosophy for it, finds no promise and is compelled to return to the belief that to be saved, he must believe in God, through Christ, said the speaker, and without that course of proceeding goes to eternal woe. Christ's testimony should be either impeached or be believed. That is, we opine, that if one man or god, be be saint or sinner, made a statement that certain things had been seen by him, and millions upon millions of people could not prove the negative, he must be believed.

To reject Christ, said the evangelist, is worse than murder or any crime on the catalogue. Rather a "sockdologer" that, to think that any honest man who cannot in his heart feel like absorbing the religion of the evangelists after a careful inquiry into its plausibility and its terminal points, though trying to observe pretty much all the commandments and the "Golden Rule," is worse than a murderer who "accepts Christ." No wonder this is a sinful world when men like the self-styled evangelists of the day, go about the country and preach—not "good will toward men," but "Believe as I do, or be damned."

We give Major Whittle credit for being an honest believer in his mission and the manner of its accomplishment. He is evidently aiming to do a great amount of good in this world, and though his belief is not the belief of a majority of his listeners, and never can be, all well-meaning people will wish him success in his efforts to better the condition of mankind. He is not, however, talking in this community so much to sympathizers with his belief as to its critics, and it is not well to make statements that appear ridiculous on their face to reflecting minds and are liable to result in damage to the cause he espouses. There is a vast amount of practical common sense cropping out in these enlightened times, when every man is apt to do his own thinking, and resents any interference with that right, especially when that interference comes in a shape that demands that he take counsel of his fears rather than of his affections and his good judgment. The tendency of the times toward liberalism is too marked to make it profitable for believers in any theory to announce that to believe otherwise than they do, or not to see wholly through their spectacles, is simply to be damned! Such self-assumption does not even tend to stimulate respect for cause or advocate. A becoming humility is far more effective than self-righteousness, but then we can't have *everything* to please us.

The evening meeting was preceded by by a praise meeting conducted by E. B. Goodall, some seven or eight songs being sung by the chorus and the audience, the song entitled "He Leadeth Me" being rendered with spirited effect. Promptly at 7:30 the Evangelists made their appearance. First the 100th Psalm was sung to the tune of Old Hundred. Prayer was then offered by Rev. James Noyes. Mr. McGranahan and wife sang in clear and sweet tones, "Wonderful Words of Life." After Mr. Whittle invoked the divine blessing he took his passages of scripture from the 16th chapter of John. He said the different verses were the last words of Jesus to His Apostles. He went on to explain who the Holy Ghost was. He explained that the three things which the Holy Ghost does are: (1) Convinces the world of sin; (2) He shows us how we may be righteous; (3) Convicts of sin. He said in the course of his remarks that it was the work of the devil in putting Christ to death. In Jesus Christ the devil is spoiled. The day of his punishment is hastening on and he will soon be punished by being thrown into hell. He warned the people to look out and see that they do not suffer punishment in the same manner and at the same time. Our righteousness is not in ourselves, but in God. He takes our sins, we take his righteousness. Men don't like to be convicted of sin. There is no greater sin than to turn back on God by not believing on the Son. The Holy Spirit is the spirit of love; it is representative of the motherhood of God. He closed by saying we cannot trust our feelings in all these matters. We must trust God and testimony. May Christ enable us to take his word.

The house was well filled, many persons remaining standing in the aisles during the services. Numbers left the building for want of sitting accommodations and went to the "overflow meeting" at the Baptist church. There was only one minister present during the whole of the services, Rev. James Noyes; Mr. Hubbell being present at first and then leaving for the Middle street church. One of the gentlemen members of the choir caused considerable annoyance by his trying to outsing the others, and his finishing the first word when the others were half through the next. The audience seemed disposed to go out at the singing of the last piece, but after some words by Mr. Whittle to the people upon the subject they respected his wishes.

After the sermon was ended Mr. McGranahan sang: "The Lord of the Vineyard is Waiting for Thee." The audience appeared very much interested in the sermon, and the speaker was listened to with marked attention. It seemed to be the opinion, from the tenor of the remarks of the audience as they dispersed, that the Evangelists have done good already, and that their efforts in reforming the community may meet with much success.

There being more people desirous of attending the evening meeting than the North Church could accommodate, an overflow meeting was held at the Middle street church, at which remarks were made by Rev. Messrs. Goss, Hubbell and Alden; Mr. McGranahan sang "Tell me more about Jesus," and "The Clanging Bells of Time;" and there was also singing by the congregation. The church was three-quarters filled, or more, and the meeting was a very interesting one.

During the week morning meetings will be held at the Middle street church at nine o'clock, continuing just one hour. Gospel mass meetings will be held every evening (except Saturday) at the North church at 7:30 o'clock.

SUPREME COURT--4TH WEEK.

The Court comes in at half-past ten o'clock this morning.

The following is the list of persons returned to serve as jurors this week:

Wm. A. C. Follansbee, Geo. W. Braxton, Exeter; Stephen Tobey, Portsmouth; David W. Clay, Plaistow; Geo. W. Moulton, Raymond; George H. Seavey, Rye; Saml. D. Fellows, Sandown; Thomas Sawyer, South Hampton; Danl. C. Wiggin, South Newmarket; David J. French, Stratham; Saml. Campbell, Windham; Stephen C. P. Tressey, Atkinson; Edwin Plumer, Edward O. Prescott, Auburn; Wm. S. L. Heath, Robt. S. French, Danville; Lorenzo D. Duntley, Thomas Mahoney, Greenland; J. William Sanborn, Andrew M. Murch, Hampstead.

NAVY YARD ITEMS.

The schooner Ida E. Latham, a large three-master, is discharging coal at the navy yard.

U. S. S. Tallapoosa, Lieut. Joseph E. Jones commanding, sailed from the navy yard for Boston on Saturday morning.

Mates Hugh Kuhl and James A. Smith, Passed Assistant Surgeon T. H. Street, and Assistant Engineer A. V. Zane, detached from the Speedwell, are ordered to return home and wait orders.

Chaplain William H. Stewart reported for duty at the navy yard on Thursday. The yard chapel is to be put in good condition this week, and the court room in the "office building," will be fitted up as a Sunday School room for the children on the yard. There has been no chaplain stationed at this yard for a long time past.

A schooner, in getting under weigh on Saturday morning between three and four o'clock, before getting enough sail on to be under good command was swept by the wind and tide across the bows of the U. S. S. Lancaster, lying alongside the wharf at the navy yard, and had a hole knocked in her quarter. The schooner was held under the Lancaster's bow by the wind and tide until after daylight, all efforts to haul her clear being unavailing; then the steamer Clara Batemen took hold of her and towed her off.

[ESTABLISHED 1822.]

Portsmouth Chronicle

—There is more fun in sweating an hour than yawning a century.

—John B. Gough during a lecture in Boston, said: "A drunken man has no more idea of what is going on around him than a dead man has of music, or, (looking at an elderly gentleman who, seated at the outer end of the front row of seats on the platform, was enjoying a sound nap) a man asleep has of a lecture." The audience saw the point, and laughed heartily.

—A milkman was lately seeking the aid of the police to trace the whereabouts of a family who had left the neighborhood owing him eighteen dollars. "Well, I suppose there was nine dollars' worth of water in that milk account," remarked the policeman. "That's where it gulls me—that's where it hurts," replied the dealer. "They were new customers, and I hadn't commenced to water the milk yet."

"Unquestionably the best sustained work of the kind in the World."

Harper's Magazine.

ILLUSTRATED.

Notices of the Press.

The veteran *Magazine*, which long ago outgrew its original title of the *New Monthly Magazine*, has not in the least abated the popularity it won at the outset, but has added to it in many ways, and has kept fairly abreast of the times, thanks to the enterprise of the publishers and the tact and wisdom of its editors. For whatever is best and most readable in the literature of travel, discovery, and fiction, the average reader of to-day looks to *Harper's Magazine*, just as expectantly as did the reader of a quarter of a century ago; there is the same admirable variety of contents and the same freshness and suggestiveness in its editorial departments now as then.—*Boston Journal.*

C. E. MYERS & CO.,

No. 3 BOW STREET.

This Cut illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of "Cold in the Head" by a few applications.

CATARRH

SYMPTOMS—Frequent sneezing, discharge falling into throat, sometimes profuse, watery, thick, mucous, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, coughing in ears, deafness, hawking and coughing to clear throat, expectoration, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dry cough, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with Dr. Pierce's Nasal Douche, and administered with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 50 cents, by all Druggists.

HALL'S VEGETABLE SICILIAN **HAIR** RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all scurf, dirt, and other dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of whiskers from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

R. P. HALL & CO., Nashua, N. H.

Sold by all Druggists and Dealers in Medicine. No. 5.

37 SOMETHING NEW. Have you seen that nice CHOUAGUEN? At 37 Market Street.

Centaur Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The White Centaur Liniment is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have per ormed more wonderful cures of obstinate bed-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment**, been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Gripes and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,
NORMAN P. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Bites, Sprains, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

DOCTOR PIERCE'S

ALT. EXT. OR

Golden Medical Discovery

CURES DISEASES OF THE

THROAT, LUNGS, LIVER & BLOOD

In the wonderful medicine to which the afflicted are now invited for relief, the discoverer believes he has combined in *harmony* more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver, or "Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

SOLD BY DRUGGISTS AT $1 PER BOTTLE.

Peterson's Magazine!

FULL-SIZE PAPER PATTERNS!

☞ A SUPPLEMENT *will be given in every number for 1878, containing a full-size paper pattern for a lady's or child's dress. Every subscriber will receive, during the year, twelve of these patterns, so that these alone will be worth more than the subscription price.* ☜

"PETERSON'S MAGAZINE" contains every year, 1000 pages, 14 steel plates, 12 colored Berlin patterns, 12 mammoth colored fashion plates, 24 pages of music, and 900 wood cuts. Its immense circulation enables its proprietor to spend more money on embellishments, stories, &c., &c., than any other. *It gives more for the money than any in the world.* Its

Thrilling Tales and Novelettes

Are the best published anywhere. *All the most popular writers are employed to write originally for "Peterson."* In 1878, in addition to the usual quantity of short stories, five original copyright Novelettes will will be given, by Mrs. Ann S. Stephens, Frank Lee Benedict, Mrs. F. H. Burnett, and others.

Mammoth Colored Fashion Plates

Ahead of all others. These plates are engraved on steel, *twice the size of those* usually issued for beauty. They will be superbly colored. Also, Household and other receipts; in short, everything interesting to ladies.

N. B.—As the publisher now prepays the postage to all mail subscribers, "Peterson" is cheaper than ever; in fact is the cheapest in the world.

TERMS, Always in Advance, $2 A YEAR!

2 copies for $3.50; 3 copies for $4.89; with a copy of the premium picture (24x28) "*The Angels of Christmas,*" a five dollar engraving, to the person getting up the Club.

4 copies for $6.50; 5 copies for $8; with an extra copy of the Magazine for 1878, as a premium to the person getting up the club.

6 copies for $9.00; 8 copies for $12; 11 copies for $16; with both an extra copy of the Magazine for 1878, and the premium picture, *a fine dollar engraving,* to the person getting up the club.

CATARRH

THE EYE, EAR, and THROAT

Successfully Treated with

SANFORD'S RADICAL CURE.

SUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, after so many miserable failures, means undoubted specific curative properties in the remedy used. Does SANFORD'S RADICAL CURE for Catarrh possess such properties? The evidence, in the shape of unsolicited testimonials from the most respectable people in all stations of life, must be conclusive on this point. Never, we believe, in the history of popular medicines has such valuable testimony been offered, freely offered, in favor of any remedy than that in the possession of the proprietors of SANFORD'S RADICAL CURE. And valuable as it is, it does not represent a thousandth part of the recommendations which are to-day offered by friends to friends in its favor. People of wealth and refinement in all parts of the country daily admit its superiority over any method of cure known to the regular medical profession, but shun the publicity incidental to a published statement. Hence the testimonials in our possession represent but a small part of those withheld for the reason mentioned. The following unsolicited testimonial from HENRY WELLS, Esq., of Wells, Fargo & Co.'s Express, is an outspoken indorsement of which we are justly proud.

INVALUABLE.

Messrs. WEEKS & POTTER, Wholesale Druggists, Boston, Mass.: *Gentlemen,*—I have for some months felt it a duty that I owe to suffering humanity to write you, stating the great benefit that I have derived from the use of SANFORD'S RADICAL CURE FOR CATARRH. For more than 30 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, but without material or permanent benefit. Last fall the disease had arrived at that state that I must have relief or die. The entire membranous tissue had become so inflamed, and the stomach so disordered, that it was a doubtful matter whether I could go to the Pacific coast, or if I did go whether I should live to come back or not. I saw an advertisement of this medicine, and although being very incredulous about specifics or nostrums of any kind, yet in sheer desperation I tried this, and was at once benefited by it. The changes of climate, a chronic disease of the liver, and my age—over 70—may prevent my entire restoration, but the benefit I derive from its daily use is to me *incalculable,* and I am hoping to be completely well, and at last arrive at a respectable old age.

If this statement of my case can be of any service to those afflicted as I have been, and enable you to bring this remedy into more general use, especially on the Pacific coast (where it is much needed), my object in writing this note will be obtained. Very truly yours, HENRY WELLS.
AUBURN, N. Y., June, 1876. of Wells, Fargo & Co.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1.00. For sale by all Druggists and Retail Druggists and Dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

ALWAYS CURES.

Enlarged Spleen.

This is to certify that I have been using your COLLINS' VOLTAIC PLASTER for Enlargement of the Spleen and Depression in the Stomach, and find it far more relief than any other remedy I have ever used. I would highly recommend them to all suffering from the effects of pain and inflammation.

PICKERING, MO., June 26, 1877. J. W. SELLS.

Severe Pain.

Having occasion to use a remedy for a very severe pain in my side I tried one of your COLLINS' VOLTAIC PLASTER, and in twenty-four hours the pain was entirely removed. J. B. SAMMIS,
Ass't Cashier First Nat. Bank.
WINONA, MINN., June 19, 1877.

Weaknesses.

Daily Chronicle.

French Politeness.

An American correspondent of the New York *Post* reports the following incident, which occurred at Etretat, a quiet watering place on the French coast:

"The other evening, while we were at dinner, an American lady opened a door for air: a French gentleman thereupon jumped up, slammed it shut, locked it and put the key in his pocket. An American gentleman procured a key, opened the door, and stood against it, to the delight of everybody. The excitement was intense. Every one left the table and rushed into the court, where a Frenchman, a Count de Luz, challenged the American and presented his card; but the American tore up the card and told him if he troubled him again he would knock him down; upon which the count got his whip and went to the Casino with his friends. Every one walked over there, and when the American appeared on the terrace, the Count stepped up to him and called him *un lache.* Of course, no American would tamely endure this, so our countryman knocked the count down forthwith, receiving himself a slight cut from the whip. The excitement is much easier imagined than described, and the little Frenchmen all positively yelled with rage. The American was arrested for striking the first blow, which according to French law, is the point where the offence comes in; as long as one keeps only to words, the *sergeant-de-ville* can do nothing, but the arrests the first man who strikes. It is on account of this absurd French law that you often see two Frenchmen talk wildly and call each other awful names, vociferating and disturbing the peace, but at last walking off unmolested. The Count has gone off, for no one troubled him, but he has his cheek cut open; the American will probably have to pay a fine of a thousand francs to appease justice. The American Minister was telegraphed for; the Americans in a body demanded a room to themselves; and everything has been said on both sides that can be said. By the time you read this the feud will have blown over, but just now it has lent tongues of fire to all sojourners here, especially to the American ladies."

—A Shaker community at Pleasant Hill, Ky., have had a series of matrimonial misfortunes recently, which threatened to destroy the society. First a young man and a young woman eloped, then an old man and an old woman travelled the same road; and within a month nine more marriages have taken place.

Daily Chronicle.

TUESDAY, NOVEMBER 6, 1877.

Congress.

The House on Monday passed the Bland bill providing for the coinage of a silver dollar 112 1-2 grains in weight, making it legal tender for all debts public and private except where otherwise provided by law; it provides for free coinage. The vote was 163 yeas to 34 nays. The rules were suspended, and a resolution assigning Tuesday, after the morning hour, for the special consideration of the bill repealing the date for resumption of specie payments, was rushed through without opposition.

The House Committee on Naval Affairs has called upon Secretary Thompson of the Navy with regard to the investigation which it is proposed to have made of the manner in which the naval appropriations have been spent during two years. Secretary Thompson said he had no objection whatever to such an investigation, and would do what he could to aid it; but he suggested to the Committee that they might as well wait and get his annual report, which would contain explanations of many points before beginning their investigation. The Secretary's report will be ready in the course of the next three weeks.

The Senate in 1879.

The appearance in the Senate of a democratic successor to Mr. Morton will reduce the republican majority to four, when all seats are full. As Senator Sharon is habitually absent, the actual majority is only three. The admission of the democratic claimants from Louisiana and South Carolina would balance evenly the strength of parties upon the floor, but the republican supremacy would still be maintained by the casting vote of Vice President Wheeler. Since 1871 the republicans have lost sixteen Senators, and gained one—not considering the seats now in dispute. The gain is in California, and the losses are in the following States: Connecticut (2.) New York, New Jersey, Pennsylvania, Indiana (2.) Illinois, West Virginia, North Carolina, Florida, Mississippi, Arkansas, Missouri and Texas (2.) Unless a breaking up of parties should sooner occur, the democrats will be certain during the next two years, to make further gains of one Senator in each of the following States: Ohio, South Carolina, Florida, Alabama, and Arkansas. In no State have the republicans any prospect of gaining a seat, unless it be in Connecticut. It would therefore seem as well assured as anything can be in politics, that the control of the Senate will pass into the hands of the democrats in 1879.—*N. Y. Tribune.*

Disgraced Base Ball Players.

On the 2d inst. there was an examination of the players of the Louisville Base Ball Club for alleged "crookedness," conducted by an able lawyer, which resulted in the expulsion of A. H. Nichols, James A. Devlin, George W. Hall, and William Craver. Hall, Devlin and Nichols confessed to having received bribes for selling games. The first two told the whole story, and begged for mercy at the hands of the directors. Nichols gave the information which led to the discovery of the nefarious practice. Craver proclaimed his innocence. He was expelled for general misconduct. Devlin acknowledged having "stood in" with Hall, and in his statement of "crooked" transactions, related how he swindled the latter out of the proceeds of their dishonesty. McCloud, a New York gambler and poolseller, is the name of the party who is known to have paid them for "throwing" games. The expose causes much indignation in Louisville.

News and Notes.

A severe shock of earthquake was felt throughout New England and northern New York about two o'clock Sunday morning. The shock passed from west to east and lasted over a minute. A rumbling noise, followed by the shaking of buildings, etc., was heard. No serious damage is reported, but in many places the shock caused the bells to ring and moveable articles were thrown down.

The exports of wheat from New York during the past week aggregated 2,401,-971 bushels, most of it being destined for Great Britain. Wheat declined during the week, notwithstanding these large exports.

Jabez Elverson, a Newark, N. J., jeweller, had his store robbed on Saturday night of its entire contents, about $15,000, by a young man named George W. Taylor, from Boston. Taylor had been in Elverson's employ, and since being discharged had been allowed to sleep in the store.

A mad dog entered the St. Dominick Catholic Church, at Portland, Sunday night, and bit two persons before he was removed. He was finally shot.

The wife of Stephen Way, Mechanicsville, New York, stole out of the house while her husband was sleeping, threw her four children into a deep, swift running creek in the rear of the house, and jumped in herself. The eldest child, nine years of age, reached the shore, and gave the alarm. The mother and one child were rescued alive. Two of the children were drowned.

There have been fifty-three steamers and 700 men engaged in porgy fishing on the Maine coast and rivers this season, but fewer fish than usual have been caught. The largest school seen was five miles long and a mile wide, and was estimated to contain millions of barrels, but the largest single catch was 1400 barrels. There are sixteen porgy oil factories in Maine, each employing from twenty-five to sixty men, and involving a capital of over $1,000,000.

The Russian general Gourkho has died from wounds received in a late fight.

Three cows died in Woonsocket, Mass., last week, of hydrophobia, having been bitten while tied in their stalls by a rabid dog on Oct. 10.

Mrs. William Van Voorhees, a young woman of Wilton, Wis., who had been left by her husband with three young children to provide for, poisoned herself and the children and then set the house on fire, on Thursday night. All were dead when taken out of the burning house.

New Hampshire Items.

Miss Ellen A. George, who was brutally outraged by Charles A. Stevens at Canterbury, on January 7th, 1875, died at Loudon on Oct. 31st. She had never recovered from the effects of the terrible assault, and had been confined to her bed nearly the whole time since, and while in this condition a few months ago, the house at Canterbury, where the family were then living, was burned, which of course greatly aggravated her sickness, as her removal on a bed was effected with some difficulty. She was seventeen years of age at the time of her death. Thus the scoundrel Stevens (who is now serving out a long term in the State prison) worse than murdered his victim, having caused her to endure a living death for nearly three years after the atrocious crime was committed.

Woodward & Plaisted's starch mill and dryer at Lancaster, were burned Saturday night, with fifteen tons of starch. Loss $3000; insured $2500.

Manufactures in New Hampshire.

We give place to the following, which we clip from an exchange, in order to show what currency is given to statements at such variance with the facts, when the names of those high in position are used as collateral:

The death of the cotton manufacturing in New Hampshire is thus prophesied by E. H. Cheney, brother of the ex-Governor and of President Cheney of Bates College, and a well-known editor, who has spent some years in the South: "Cotton manufacturing in New Hampshire has probably seen its best days. If an old mill burns it will rarely be rebuilt, for capitalists are not likely to put more money into manufacturing business so far from the raw material, and where fuel is so scarce. More mills have been built in Georgia since the war than are now in operation in all New Hampshire. They are all paying factories, too. That tells the story, and New Hampshire people may as well look the matter square in the face."

We have no disposition to underrate the large increase in the building of cotton mills in the cotton-growing States, but as it is comparatively new, so much more is the above statement ludicrous, since it exposes want of information as to facts that is inexcusable, when they are a matter of history, and so easily obtainable. To show the relation of the New Hampshire cotton mills to those of Georgia, we annex a memorandum of the same as compiled to 1875:

Georgia—42 mills, 2934 looms, 155,000 spindles, No. 12 71-100 average weight of yarn, average running time 47 77-100 weeks, consumption of cotton 18,822,899 pounds.

New Hampshire—42 mills, 20,422 looms, 950,000 spindles, No. 23 13-100 average of yarn, average running time 51 46-100 weeks, and consumption of cotton 59,759,468 pounds.

Total in Southern States—187 mills, 10,495 looms, 487,629 spindles, average of yarn No. 12 1-2, average running time 47 weeks, and consumption of cotton 59,-793,774 pounds.

During the last seven years more spindles have been added to the capacity of the New Hampshire production than are in operation in Georgia, while, by way of comparison, the number of spindles in New Hampshire show nearly double those for the whole of the Southern States, the consumption of cotton per annum in the whole of the Southern States being less than 35,000 pounds more than consumed by the mills of New Hampshire. It is hardly necessary to add that the Amoskeag Manufacturing Company, Manchester, N. H., contains 135,000 spindles, and the Great Falls Manufacturing Company 107,298 spindles, to run which it is only necessary to build water wheels sufficient to withstand the pressure of the water power. That shows how far they are from the full supply.—*N. Y. Journal of Commerce.*

Crime in Mexico.

Details of a horrible crime reach here from Matamoras. About the 10th of September, Donna Rita Chara de Menchaca, a wealthy lady of Matamoras, accompanied by her nieces, Senorita Orila, and one female and two male attendants, left Matamoras bound for Monterey. The bodies of the whole party were found four days ago near Lobita Rancho, about forty miles from Matamoras. The women had been assaulted, bound hand and foot and gagged. There were no marks of shooting or stabbing, and it is believed they were left to die a horrible death of starvation and exposure. Donna Rita had a large amount of money and much valuable jewelry on her person. The greater part of the money was in drafts, which the robbers left undisturbed. Her rings and other jewelry and money, amounting to some $300, were taken by the murderers. The mules were killed, and the ambulance by which the party was travelling was thrown into a lagoon. It is reported that in an old well a short distance from the scene of this horrible crime was found the remains of thirteen persons. The authorities are doing their utmost to obtain some clew to the perpetrators of these atrocities, but with little prospect of success.—*Galveston (Texas) News.*

How the Bolivia's Shaft was Mended.

The Anchor Line steamship Bolivia, which sailed from Glasgow on the 15th ult. for New York, had the misfortune to break her shaft on the 20th, when off the outer edge of the banks of Newfoundland. The ship was immediately put under canvas, and the engineers set about repairing the shaft, the break in which was situated thirty feet abaft the engine, in the bowels of the ship. The break extended diagonally across the shaft, was about two feet in length, and jagged. Before the engines could be stopped, at the time of the fracture, the rapid revolutions of one portion of the shaft against the other had so splintered and twisted the iron that twenty-four hours were spent in smoothing the ends so that they could be welded. At one end of the fracture a four-inch hole was drilled entirely through the fifteen-inch shaft after forty-eight hours' constant labor, and through this was driven an iron bolt. A two-inch bolt in a similar manner holds the other end of the break, and over all is bolted an immense band of six-inch iron, entirely covering and concealing the fracture. All this work was done in the shaft tunnel, in which a man cannot stand upright, by the light of little, smoking oil lamps. The chief engineer and his seven assistants worked incessantly, and on the 26th the job was completed, and steam was again used as the propelling power. From that day until Thursday, when she reached her port, the Bolivia made an average speed of eight and a half knots. In the meantime the majority of the passengers enjoyed the whole affair immensely. The weather was fine, they had plenty to eat and drink, and they enjoyed the novelty of proceeding under sail.

Whipping and Prayer.

Colonel Robert Ingersoll was born in Oneida County, New York, and a letter in the Utica *Herald* gives some remembrances of the paternal sternness which has possibly inspired his protest against severe domestic discipline. It is told of his father that when his son was seized with a fit of coughing at the table one day, and could not stop when ordered, the elder Ingersoll took the boy to the carriage house and whipped him severely. The punishment could be heard in the house. The preacher-parent whipped till he was tired, probably, and then ceased for prayer. The praying, like the whipping, could be heard by the family. After praying a while whipping was resumed. Then more prayer. Then more whipping. And thus the prayer and the strap alternated for a considerable time. Meanwhile Mrs. Ingersoll was crying, and none of the household could continue the meal.

A Race Between Mails.

There are two lines of steamers carrying the mails from Australia and the East Indies to England, one being the British line, known as the Peninsular and Oriental, going by the way of the Red Sea, and the other the American line, known as the Pacific Mail, connecting at San Francisco with the Pacific railroad, thence to New York, and by the Cunard line to England. There is great rivalry between the lines, and recently the American beat its British competitor. On the trip that is now being made, the Peninsular and Oriental steamer left in advance of the steamer Australia, of the American line, and the latter steamer arrived at San Francisco on Wednesday, Oct. 17th, three hours too late for that day's overland train, which left on time, but the managers of the line were determined that the mails should go on the overland been transferred to the Pittsburg and Fort Wayne road, and next day he had a consultation with the agent of the Cunard company, and found that its steamer, the Abyssinia, must leave at seven o'clock Wednesday morning, on account of the tide. The mails would be due in New York on the Pennsylvania road at 6:45, giving a dangerously small margin of time. Portmaster James then saw Mr. A. L. Dennis, the Vice President of the Pennsylvania road, and besought him to hurry up the train. Mr. Dennis telegraphed the facts to Col. Scott, and asked for instructions. Col. Scott prompt-train, and dispatched them on a fast special train, which overtook the overland train and transferred the mails to it. Postmaster James of New York received a despatch in reference to the matter, and called the attention of General Superintendent Vail, of the railway mail service, to the desirability of expediting the transmission of the mails; Mr. Vail told the officers of the railway mail service that special pains should be taken, and communicated with the Pennsylvania railroad, urging special efforts for a prompt transmission. On Monday, the 21st, Postmaster James received word that the mils had arrived in Chicago, and had ly replied that he would arrange that; the train should arrive at six o'clock instead of 6.45, and thus the transmission of the mails to the Abyssinia was assured, and there is little doubt that the Peninsular and Oriental line, instead of gaining any advantage by its start, will be beaten, as it was on the last mail trip.

Books, Magazines, Etc.

Henry W. Longfellow, William Cullen Bryant, Dr. J. G. Holland, Theodore Winthrop, Louisa M. Alcott, the author of "Alice in Wonderland," Gail Hamilton, Frank R. Stockton and Lucretia P. Hale are among the contributors to *St. Nicholas* for December, the Grand Christmas Holiday Number, of which 100,000 copies will be issued.

Among the writers of poetry in the December *Scribner* are Emma Lazarus, Susan M. Spaulding, William S. Shurtleff, Edgar Fawcett, and Charles DeKay, the last named writer being represented by a three page poem, entitled "Hesperus." "The World's Work" department contains a record of "Progress in Telephony," "New Sounding Apparatus," "The Aleurometer," "Electrical Deposition of Metals," and "Carrier-Pigeons in Fishing." The aim of this department is to keep pace with the latest and most important inventions.

EASTERN RAILROAD CO.

To the Holders of Certificates of Indebtedness:

THE VOTING REGISTER of Certificate Holders is now making up at the Office of the Trustees, No. 73 State Street, Boston, Mass. The names of parties to whom certificates were originally delivered have been placed in the Register. Any subsequent purchaser or holder desiring to register may do so on presenting at said office to Mr. JOSHUA CRANE a written statement of his name, address, and the denomination and number of each certificate held by him or a written order from the last registered holder.

In accordance with regulations fixed by the Trustees the Voting Register will be closed on the thirtieth day of November, between which time and the Annual Meeting on the second Wednesday of December no registration will be made.

Per Order of the Directors,

nov30 EDWARD C. PERKINS, *Clerk.*

THE CITY.

The Light Artillery propose to have a grand ball in Franklin Hall on Thanksgiving eve.

Six car loads of oil casks, holding from fifty to three hundred and forty-five gallons each, arrived here from Boston on Monday, to be used in raising the brig Clara J. Adams.

The small boy was out in force early Monday evening, with tin horns and pumpkin lanterns, to celebrate "Pope night;" but the welcome rain came down and happily extinguished him at an early hour.

Venus and Jupiter will be in conjunction on Friday evening, the 9th inst. They will not appear to be so close together as did Mars and Saturn on the evening of the 3d, but they will present one of the most beautiful sights ever seen by stargazers.

The cable steamer Minia, of London, laid quietly at anchor in Pepperell's cove, lower harbor, throughout Sunday and Monday, waiting a favorable opportunity to pick up and repair the broken Direct Cable. Several parties from this city visited the big vessel on Sunday, and were most courteously received by the officers.

The second regular Light Artillery assembly takes place this (Tuesday) evening at Mechanics' Hall; tickets 50 cts.; grand march at 8:30, Harlow's band furnishing the music. The first one of this course was a well-conducted and most enjoyable affair, and the managers propose the others shall be. No postponement on account of the weather.

POLICE COURT.

Monday, November 5th.

David LaChance and Joseph LaChance were arraigned on a charge of keeping a saloon—the "Washington House" on Bridge street—open on Sunday. The first-named was discharged, it being shown that he was merely a servant or agent; Joseph was fined $10, costs 5.76, which he paid.

GIVE US FAIR PLAY.

The following item went the rounds of the press last week:

A Washington despatch says that owing to the extraordinary expense incurred in continuous repairs to the sloop-of-war Enterprise, which was built by Griffiths at Portsmouth, N. H., navy yard, under contract, and is now being made seaworthy at Norfolk, and also to the unseaworthiness of the Huron and the Ranger, the Secretary of the Navy is about to order an inquest by competent naval constructors in relation thereto. The Adams, built at Boston, and the Essex, built near New London, are exceptions.

We do not feel the spirit move us to assert that the Enterprise is a good vessel, or that she was not built at this navy yard, by contract; but we do feel called upon to deny that the Essex was built "near New London." If the yard is to be blamed for the bad work turned out of it in an irregular manner, it should also be credited for the good work done by it in the regular order of business, and the Essex was built here, under the superintendence of Naval Constructor Thomas E. Webb, as capable and faithful an official as the navy or any other branch of the government service can boast. After her launch the Essex was sent to Boston to be fitted for sea, but all the heavy work—that which decides the strength and seaworthiness of a vessel—was done at this yard; even her boats were built here and sent around to Boston. There are no better shipwrights in the world than those of the Piscataqua river district, and the Essex is a fair specimen of the work they turn out under competent and faithful supervision.

SUPREME COURT--4TH WEEK.

Monday, Nov. 5th, before *Stanley, J.*

The complaint State vs. Janvrin was held by the Court to be bad, in not alleging sufficient in the complaint, and it was quashed. The complaint alleged that the respondant a certain number of ducks, to wit, six ducks, cruelly did beat, torture, torment, wound, mutilate and kill, and did cause and procure to be cruelly beaten, tortured, tormented, wounded, mutilated and killed the said ducks; but there was no allegation that it was done "maliciously and wilfully." The defendant also maintained that the complaint was bad for being double. Hatch for defendant; Small for State.

No. 158, Edmund E. Smith vs. John P. Griffin. Suit to recover for the balance of the price of a pair of work horses; defence that one was a kicking animal, and that $100 paid at delivery was all the pair was worth. Hatch for plff.; Small and Rowell of Manchester for Griffin.

[Communicated.]

A SCHOOL QUESTION.

Ed. Chronicle: Allow me to enquire through the columns of your paper why it is that the schools in Districts One and Three are so much more highly favored than those in District Two? Why is it that not only in the severe storm of Friday, but three times within a month or a little more, those schools have been closed for the afternoon, while the children of this District (No. Two) have been required to plod through wind and rain to the school-room? Who is in fault in this matter? It can hardly be the teachers, since the same ones are now employed, who in years gone by have always, when the weather has not been suitable, closed the school. Is it the Master who from neglect or indifference does not notify the teachers of the schools under his care? or who is the authority? Every inducement is offered for the children to be prompt, and punctual, and no provision made for removing any obstacles in their way. My own girl came home two or three weeks ago with wet feet, and nearly drenched, not being strong enough to hold her umbrella against the violent wind; and when her prudent mother resolutely refused to allow her to return, the result was a flood of tears, which scene has been since twice repeated. We could not blame the child, since the tears were not called forth by rebellion against her mother's authority, as was proved by her words: "Oh, mamma dear! *please* let me go; I shall lose my rank, and get a mark for absence—and I did not want to be absent this year." I presume there are scores of such cases—only, in too many, parents have not the requisite decision, and yield a reluctant consent to an exposure of their children to such weather as is almost sure to bring sickness and suffering to the child, and consequent care and anxiety to themselves. Are the children of this District so much stronger than those of the other two that they are expected to successfully breast a storm which compelled even stout men to close their umbrellas, and pull their hats down over their brows? Winter is at hand, and we would like to know what prospect is before our children. I do not approve of the long session from nine till one. Four hours is too long a time for any child to be confined in the schoolroom; but the school should close at the usual hour, on *very* stormy days, with the understanding that if the storm continues, there will be no school in the afternoon. That's my idea; let us hear from others. R.

THAT "BENEVOLENT PEDDLER."

The "benevolent peddler" who distinguished himself by tricking a lot of silly people out of two dollars each on Market square a short time ago, has been operating in Gloucester, Mass., where he and his pals were more successful than they were in this city. It will be remembered that the boss trickster was started off the Parade by City Marshal Entwistle, just when he had got so far on in his little game as to have disposed of a lot of brass watch-chains at two dollars apiece; but in Gloucester the pack of rogues were allowed to carry out their scheme to the end. There, as here, the fellow in the carriage sold at ten cents each a dozen or so of rings, which he requested the buyers to hold up so he could see them, meantime haranguing the crowd to the effect that the money he had received was his, or belonged to "the house he represented," and that he could do with it as he pleased, or, in his own words, "give it to the poor, scatter it among the crowd, or put it in his own pocket;" but in this case, he should return it to the persons who had bought the rings of him—which he did. The next move was to sell silver half dollars for twenty-five cents, a number of which he disposed of to his confederates in the crowd. Then came one-dollar chains of brass, and then two-dollar ones, the money for all being returned to the purchasers. This, it will be remembered, was as far as the fellow was allowed to go in this city; but it may interest those who were victimized by the shallow swindle here, to know how it ends when not interfered with. We quote from the Boston *Globe*:

He then told the crowd that he had one dozen more of extra long and nice chains that he would sell for $10 each, (before disposing of a dozen watches, which he would soon sell at $4 each,) most of which he readily disposed of to the crowd, which by this time was very jubilant over the bargains he was giving, and vieing with each other to see who could pass their money up first. After talking to the crowd as he previously had done about doing with the money as he pleased, the peddler quietly said he guessed he needed the money as much as anybody, and would put this in his pocket; bade the crowd good evening, saying he hoped he would meet them in Heaven, and in an instant whipped up his horse and was gone, leaving the crowd perfectly dazed and bewildered at the suddenness of his departure.

THE REVIVAL MEETINGS.

The morning prayer meeting at the Middle street church, Monday, was largely attended and the exercises were very interesting. Messrs. Whittle and McGranahan were present.

The evening service at the North church was not attended by so large an audience as that of Sunday night,—probably on account of the rain,—a very unusual proportion of the audience being men. The chorus under Dr. Goodall sang "Gates ajar," "Hallelujah! 'Tis done," and other sacred songs, before the evangelists arrived. The regular services were opened by a hymn by the chorus, followed by a prayer by Rev. Mr. Goss; Mr. McGranahan then sang "How much owest thou?" and prayer was offered by Rev. Mr. Creed; the chorus then sang "What hast thou done for me?" Major Whittle offered prayer, and then taking John 17:17 as a text, proceeded to speak upon the necessity of drawing the line between God's people and the people of the world,—for Christians are not of the world, even as Jesus Christ was not. As soldiers have to separate themselves from the comforts and endearments of home and family, if need be, so must soldiers of Christ, if necessary, separate themselves from all that interferes with their work. The speaker holds that God himself teaches this separation. He took up the histories of Abraham and Lot, the former representing the true Christian, the latter the worldly one, and drew lessons from their character and works. At the close of the address Mr. and Mrs. McGranahan sang "Hast Thou any here besides?" Rev. Mr. Hubbell offered prayer, the chorus sang "Jesus, keep me near the cross," and the meeting then closed, the audience leaving with the exception of such as wished to join in a short prayer meeting.

WIDE AWAKE FOR 1878.

The popular estimation of WIDE AWAKE is well summed up in what a distinguished literary gentleman said:—"The other magazines lie on the table fresh and clean, while WIDE AWAKE is read to tatters." That WIDE AWAKE will continue to be "read to tatters" the following announcements for 1878 are good guarantees.

I.
"TRUE BLUE."
BY MRS. LUCIA CHASE BELL.
A Serial Story for the Girls of Life in the gr North-west.

Bad Breath.

Offensive breath can be easily got rid of, for from six to eight drops of the concentrated solution of chloride of soda in a wine glassful of pure fresh water, taken immediately after the ablutions of the morning are completed, will sweeten the breath by disinfecting the stomach, which, far from being injured, will be benefitted by the medicine. If necessary, this may be repeated in the middle of the day. In some cases the odor from carious teeth is combined with that of the stomach. If the mouth is well rinsed by a teaspoonful of the solution of the chloride in a tumbler of water, the bad odor of the teeth will be removed.

—Bunches of autumn leaves are a novelty for hat ornamentation.

—Where's the advantage in being an Emperor? Kaiser William had money in the Berlin bank which failed, and his cash went up the spout with the rest.

"Unquestionably the best sustained work of the kind in the World."

Harper's Magazine.

ILLUSTRATED.

Notices of the Press.

The veteran *Magazine*, which long ago outgrew its original title of the *New Monthly Magazine*, has not in the least shaken off the youthfulness of its youth at the outset, but has added to it in many ways, and has kept fairly abreast of the times, thanks to the enterprise of the publishers and the tact and wisdom of its editors. For whatever is best and most readable in the literature of trave, discovery, and fiction, the average reader of to-day looks to *Harper's Magazine*, just as expectantly as did the reader of a quarter of a century ago; there is the same admirable variety of contents and the same freshness and suggestiveness in its editorial departments now as then.—*Boston Journal.*

TERMS:

Postage free to all Subscribers in United States.

HARPER'S MAGAZINE, one year. ... $4.00.

$4.00 includes prepayment of U. S. postage by the publishers.

Subscriptions to HARPER'S MAGAZINE, WEEKLY, *and* BAZAR, *to one address for one year, $10.00; or, two of Harper's Periodicals to one address for one year, $7.00: postage free.*

An Extra Copy of either the MAGAZINE, WEEKLY, *or* BAZAR *will be supplied gratis for every Club of* FIVE SUBSCRIBERS *at $4.00 each, paid for by one remittance; or, Six Copies one year, without extra copy, for $20.00.*

Back Numbers can be supplied at any time.

The Volumes of the *Magazine* commence with the Numbers for June and December of each year. When no time is specified, it will be understood that the subscriber wishes to begin with the current Number.

A complete Set of HARPER'S MAGAZINE, now comprising 55 Volumes, in neat cloth binding, will be sent by express, freight at expense of purchaser, for $2.25 per volume. *Single Volumes*, by mail, *postpaid*, $3.00. Cloth cases, for binding, 58 cents, by mail, postpaid.

A Complete Analytical Index to the first Fifty Volumes of HARPER'S MAGAZINE has been published, rendering available for reference the vast and varied wealth of information which constitutes this periodical a perfect illustrated literary cyclopedia. 8vo, Cloth, $3.00; Half Calf, $5.25. BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. BROWN & CO.,

No. 3 BOW STREET.

This Cut illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of **"Cold in the Head"** by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche**, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 50 cents, **by all Druggists.**

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, (itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

37 SOMETHING NEW. Have you seen that nice CHOUAGUEN? At 37 Market Street.

Centaur Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The White Centaur Liniment is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate and hidden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment**, been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Grubs and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,

NORMAN P. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

DOCTOR PIERCE'S ALT. EXT. OR

Golden Medical Discovery

CURES DISEASES OF THE THROAT, LUNGS, LIVER & BLOOD

In the wonderful medicine to which the affected are above directed for relief, the discoverer believes he has combined to *harmony* more of Nature's recondite curative properties, which Art has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver, or "Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

SOLD BY DRUGGISTS AT $1 PER BOTTLE.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fees in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,207,540 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & Co. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & Co., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

CATARRH
THE EYE, EAR, and THROAT
Successfully Treated with
SANFORD'S RADICAL CURE.

SUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, after so many miserable failures, means undoubted specific curative properties in the remedy used. Does SANFORD'S RADICAL CURE for Catarrh possess such properties? The evidence, in the shape of unsolicited testimonials from the most respectable people in all stations of life, must be conclusive on this point. Never, we believe, in the history of popular medicines has such valuable testimony been offered, freely offered, in favor of any remedy, that has in the possession of the proprietors of SANFORD'S RADICAL CURE. And valuable as it is, it does not represent a thousandth part of the recommendations which are to-day offered by friends to friends in its favor. People of wealth and refinement in all parts of the country daily admit its superiority over any method of cure known to the regular medical profession, but shun the publicity incidental to a published statement. Hence the testimonials in our possession represent but a small part of those withheld for the reason mentioned. The following unsolicited testimonial from HENRY WELLS, Esq., of Wells, Fargo & Co.'S Express, is an outspoken indorsement of which we are justly proud.

INVALUABLE.

Messrs. WEEKS & POTTER, Wholesale Druggists, Boston, Mass.: *Gentlemen,*—I have for some months felt it a duty that I owe to suffering humanity to bear my testimony to the great benefit that I have derived from the use of SANFORD'S RADICAL CURE FOR CATARRH. For more than 20 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, but without material or permanent benefit. Last fall the disease had arrived at that state that I must have relief or die. The entire membranous system had become so diseased, and the stomach so disordered, that it was a doubtful matter whether I could go to the Pacific coast, or if I did go whether I should live to come back or not. I saw an advertisement of this medicine, and although being very incredulous about specifics or nostrums of any kind, yet in the desperation I tried this, and was at once benefited by it. The changes of climate, a chronic disease of the liver, and my age—over 70—may prevent my entire restoration, but the benefit I derive from its daily use is to me *incalculable,* and I am hoping to be completely cured, and at last arrive at a respectable old age.

If this statement of my case can be of any service to those afflicted as I have been, and enable you to bring this remedy into more general use, especially on the Pacific coast (where it is much needed), my object in writing this note will be obtained. Very truly yours, HENRY WELLS,
AUBURN, N. Y., June, 1876. of Wells, Fargo & Co.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1.00. For sale by all Druggists and Retail Druggists and Dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'
VOLTAIC PLASTER
ALWAYS CURES.

Enlarged Spleen.

This is to certify that I have been using your COLLINS' VOLTAIC PLASTER for Enlargement of the Spleen and Depression in the Stomach, and find they have done more relief than any other remedy I have ever used. I would highly recommend them to all suffering from the effects of pain and inflammation. J. W. SELLS.
PICKERING, MO., June 28, 1877.

Severe Pain.

Having occasion to use a remedy for a *very severe pain* in my side I tried one of your COLLINS' VOLTAIC PLASTERS, and in twenty-four hours the pain was entirely removed. J. B. SAMMIS,
Ass't Cashier First Nat. Bank.
WINONA, MINN., June 19, 1877.

Weaknesses.

Collins' Voltaic Plasters give the best satisfaction here of anything that has been tried for Lameness and Weakness of the Back. Please send me half a gross.

Daily Chronicle.

Mrs. Partington.

Mr. B. P. Shillaber has been writing a bright and graceful article for the *Post,* of Boston, concerning the good old lady who first made her appearance in its columns—Mrs. Partington. Her first innocently wise saying was inspired by a remark of one of the newspaper men, on a night when a steamer from England had brought news of an advance in breadstuffs, who said he did not care, as he bought his flour by the half-dollar's worth. "Mrs. Partington" was then made to say, in the little paragraph that Mr. Shillaber wrote, that it made "no difference to her whether flour was dear or cheap, as she always received just so much for a half-dollar's worth." This was copied the next day, and the inducement was thus offered to try again. This meeting with like success, they were kept on, until Mrs. P., as she expressed it, had attained a "memento" she could not check. Mr. Shillaber adds: "Mrs. Partington was an entirely original creation, for I had never seen 'The Rivals' acted, nor read it, and though I knew from extracts in comic compilations, of Mrs. Malaprop's existence and character, it moved no pulse of my ambition. The real inspiration which prompted the effort to continue the Partington sayings, when the idea took positive form, was the constant hearing of expressions, by very excellent people, that seemed too funny to be allowed to pass into forgetfulness—queer errors, inadvertently made, and otherwise."

—A Philadelphia man has filed a caveat relating to an improvement for a safety pocket designed to thwart pickpockets. After valuables have been put in the pocket it can be closed up instantly by a neat and convenient contrivance, so that when a pickpocket gets his hand in, he is foiled by a false pocket that puts a stop to further operations. The pocket does not differ from an ordinary one except when the owner chooses to close it. The arrangement can be fitted to either vests or pantaloons, or to ladies dresses.

—The treatment of timber by means of creosote, for over forty years employed in England, but just being introduced into this country, if used on railroad ties and wood pavements of our streets, would greatly increase their durability. Creosote has the effect of arresting all decay in wood, and of rendering it almost as hard as iron. The sap is first expelled by steam, and the wood is then steeped with a dead oil impregnated with creosote. The hard pines of Honduras are naturally supplied with this material.

Harper's Bazar.

ILLUSTRATED.

Notices of the Press.

The Bazar is the organ of the fashionable world and the exponent of that world's laws; and it is *the* authority in all matters of manners, etiquette, costume, and social habits.—*Boston Traveller.*

The Bazar commends itself to every member of the household—to the children by droll and pretty pictures, to the young ladies by its fashion plates in endless variety, to the provident matron by its patterns for the children's clothes, to *patent-leather* and luxurious dressing-gowns. But the leading matter of the *Bazar* is uniformly of *great* excellence. The paper has acquired a wide popularity in the fireside enjoyment it affords, and has become an established authority with the ladies of America.—*N. Y. Evening Post.*

TERMS:

Postage free to all Subscribers in United States.

HARPER'S BAZAR, one year.....$4.00.

MANHOOD RESTORED.

Victims of youthful imprudence, who have tried in vain every known remedy, will learn of a simple prescription, FREE, for the speedy cure of nervous debility, premature decay, lost manhood, and all disorders brought on by excesses. Any druggist has the ingredients. Address JASON & Co., 55 Nassau St., N. Y.

Daily Chronicle.

WEDNESDAY, NOVEMBER 7, 1877.

The Elections.

There were elections on Tuesday in twelve States. The principal interest centered in New York and Massachusetts. The returns we were able to get up to midnight were very meagre. The indications at early evening were that the republicans had carried the New York Assembly, and also Massachusetts; and that McClellan had captured New Jersey by a large majority.

The Eastern War.

A despatch from Erzeroum says that on Monday a battle was fought at Deve Boyoun, and after ten hours' fighting the Turkish centre was driven in, and they retired on Erzeroum during the evening. The losses on both sides were very heavy. Moukhtar Pasha was wounded.

Russian official bulletins report continued progress on Plevna and Orchanie, and the Lovats and Orchanie roads. Tetceven and Turskilsver are occupied by infantry and cavalry. A cavalry detachment penetrated the Yablanitza Pass in pursuit of retreating Turks. A Turkish force numbering between 3000 and 4000 men, from south of the Balkans, attacked the Russian force at Mahren, south of Elena. After three hours' fighting the Turks retreated, leaving hundreds of dead and many wounded.

News and Notes.

Jesse H. Pomeroy, the "boy devil" of Massachusetts, was on Sunday last found to have succeeded in tearing away a portion of the wall of the State prison, so that in a short time he would have been at liberty. If the worthless cur had been put under ground long ago, as he should have been, there would have been no danger of his getting out to practise his dime-novel atrocities on those smaller and weaker than himself; and if he ever should escape from confinement it is to be hoped the first man who meets him will become suddenly "insane" enough to knock out the young brute's brains, and not trust to the mawkish sentimentality of Massachusetts to take care of him any longer.

Lieut. Albert G. Squires, of the First Infantry, aged eighteen, is the youngest officer in the army. He had been in Washington nearly two years, pushing his own cause and applying in vain for an appointment to West Point or Annapolis, when he managed to secure a chance for an examination. He passed acceptably, and, after waiting some months, got a commission to fill a vacancy made in an Indian battle.

A case of alleged blackmailing, in which Dr. H. F. Damon, one of the physicians at Boston City Hospital, Charles A. Barry, Supervisor of Drawing in the public schools, W. S. McFarlane, counsellor-at-law, Addie E. Ward, formerly a teacher in a Boston school, and others, are mixed up, is mildly exciting Boston. Dr. Damon is the alleged victim, a charge of seduction brought by Miss Ward being the derrick used to hoist money out of his pocket.

The Australian mail from Sydney, Sept. 21st, via San Francisco and New York, arrived in London Nov. 2d, making the distance in forty-two days, against a run in fifty-six days by the Peninsula and Oriental Steamship Line.

Heller, the magician, undertook one of his practical jokes on a stranger in a Cambridge horse car the other day, such as taking quantities of supposed stolen market produce out of his pocket, etc. Everybody enjoyed things hugely, and so did Heller till he came to alight when he found that the stranger he had been making fun of was an expert pickpocket who had taken a valuable scarf pin from his bosom while the joke was being carried on.

One of the largest cigar making firms in New York has sent to California for 500 Chinese to take the place of strikers. Several manufacturers have started up with American girls as help, most of the help having previously been taken from the foreign born population. The prospect now is that the great strike among the cigar makers will result in suffering among themselves.

There was a snow storm extending from Minnesota to Montreal on Monday. At Redesburg, Wis., ten inches fell.

A Springfield, Mass., school boy who was walking on Armory street, saw a bull-dog holding his head low and frothing at the mouth, apparently mad, and making straight for a five-year-old boy who was playing in the street. He at once stepped up to the child, and when the dog reached him kicked it over, throttled it with one hand, and killed it with a stick he was carrying, receiving during the scuffle a bite in the wrist, that left three tooth-marks, which he proceeded coolly to burn out with some matches. The child was uninjured.

The owner of one of the most fashionable bar-rooms in Chicago is a bankrupt. Among the claims against him is one of a druggist for $1000 "for materials used in compounding liquors." A clergyman made this fact the theme for an uncommonly effective temperance sermon.

Charles A. Dana's home at Glen Cove, L. I., was robbed recently of 500 chickens.

Captain Chisholm, agent for Liverpool underwriters, who has been in Peru adjusting the losses to British vessels occasioned by tidal waves and earthquakes of the memorable 9th of May, has returned to England via Panama. The aggregate loss to the insurance companies was about £70,000.

Two roughs had a street fight with dirks in Zonesville, Ohio, Monday evening. One was stabbed and cut in ten places; and the other ran off, when the police came to arrest him, with his adversary's dirk sticking in his neck Neither of the roughs will die.

The Supreme Court has rendered a decision of interest to the traveling public. An Ohio man was ejected from a Lake Shore train for refusing to pay over three cents per mile—the rate fixed by the law of the State; he brought suit for damages, obtained a verdict in the lower court, which the Ohio Supreme Court affirmed, and the United States Supreme Court now indorses.

Two highwaymen, who had just robbed a coach between Deadwood and Cheyenne, Black Hills country, and a train of freight wagons, besides committing other depredations, were captured by Lieutenant Chase, with a detachment of the Third infantry, after being chased five miles and fired on, and one of them proves to be Webster, the murderer of Deputy Sheriff Cuney.

The purpose of the Postmaster General's order requiring postal employes on railroads to provide themselves with uniforms is to guard more effectually against robberies of the mails, and especially to prevent the handling of mail bags between the wagons and the office or cars by persons who boldly take advantage of the presumption that they have a right to be carrying the mail pouches that may be seen in their hands.

Commodore Nutt, the dwarf, is betrothed to Miss Jennie Quigley, a diminutive lady who travels in the same troupe with him.

It has been ascertained that the killing of some fifteen natives at Cape Prince of Wales, recently reported, was done by the crew of a Honolulu whaling brig. The natives boarded the brig and demanded liquor, and being refused attacked the crew, who obtained arms from the cabin and beat off the assailants.

The Secretary of War orders all employes, except General Sherman and staff, to abstain from intoxicating beverages between nine A. M. and four P. M.

New Hampshire Items.

A practical joke attended with serious consequences was perpetrated at Bedford the other day by two men named John Robinson and George Welsh. They were at work with Clinton Adams and managed to fill his pipe, which he had left on a wall, with mixed powder and tobacco. When Adams picked up his pipe and lighted it for a smoke the powder exploded, shattering the pipe, filling Adams' face with powder and severely injuring one of his hands. He has since been unable to see out of one eye, and it is thought the sight of that organ is permanently destroyed. The humorists were arrested.

Charles Whittem and wife of Northwood, and a tramp named George Smith, having got a supply of liquor in Deerfield, went on a spree and finally got into a fight in which Whittem struck Smith with a stake across the face, smashing his jaw, and then left him in the woods near the Raymond line. He was able after several hours to reach a house in the vicinity and was sent to the county farm at Brentwood.

On Monday, in the Supreme Court at Concord, the trial of William Flanders for manslaughter in shooting his stepfather, George E. Austin, in May last, was commenced. The boy, who is but seventeen years old, has always persisted that ha shot Austin in defence of his mother, who was being abused by her drunken husband. Mrs. Austin's arm was so badly wounded by the same charge that killed the man that her hand had to be amputated.

James B. Spencer of Raymond has been arrested by the United States marshal for selling liquor without having paid the internal revenue tax.

Hon. E. A. Straw has resigned the superintendency of the manufacturing department of the Amoskeag Manufacturing Co., and his son, Herman F. Straw, has been appointed to that position.

The man who stole a team from Joseph Brown of Manchester a few days ago, and was subsequently arrested at Concord, turns out to be Richard L. Currier of South Hampton, instead of Colby, the name given by him at the stable when he procured the team. He was arraigned before the court at Concord, and bound over in the sum of $900 to appear at the April term of court. In 1871 Currier was commissioned justice of the peace by Gov. Weston, and in his pockets after his recent arrest was found, dated Oct. 15, 1877, a recommendation to Gov. Prescott from Moses J. Eaton, the present representative to the legislature from South Hampton, that rascally Richard be again made a justice of the peace.

Benjamin E. Harriman, youngest son of ex-Governor Harriman, has recently graduated from the Dartmouth Medical School with honors.

Political.

The Cincinnati *Enquirer* (democratic) is shockingly disrespectful to its late candidate. It says: "Sam Tilden has received a hammering for his last speech. It is looked upon by the press as a clear case of squeal. Take your gruel, Sammy, and be quiet."

John Welsh, who has been nominated by President Hayes as minister to England, is a wealthy gentleman, who has made a fortune in business but who never held a political office, and makes no pretensions to being a statesman. In a word, very much such a man as Gen. Grant used to sometimes select for an important position, to the astonishment of the country. The appointment seems a creditable and wise one, but it is funny to see the papers which abused Grant for selecting men "without experience," pouring their praises over Hayes for "going outside the politicians for a minister to England."—*Mirror.*

Here is a crumb of comfort for the republican lovers of the Southern policy. The Natchez *Democrat* warns the republicans of Adams County, Miss., who are mainly colored men, against making nominations, and reminds them of "the difficulties of peaceably electing their men," and of "the utter impossibility of their men giving the required bonds."

Our New York Fashion Letter.

OUT DOOR GARMENTS.

Whatever else you may see fit to do, have nothing to do with a short cloak; neither let your cloak be of plain material, unless porchance, that material be silk, yet even here I would advise the choice of silk devised in mosaic patterns, for Fashion has set her face against plain materials of every kind, unless as an offset to such as display bourette or mosaic characteristics. Even plain velvet, although the most truly respectable thing possible, is at a discount. Stylish cloth cloaks also show throughout, long, hairy tuftings, and others are mottled in keeping with bourette goods. As to shapes, in the selection of something to grumble about, do not let us choose these. They are all we can ask, and with circulars, dolmans, and mantillas on the one side and sacques on the other, one must be a very Mrs. Gummidge, if one does not find something to suit. But in my judgment, the style which will prevail is the demi-long, half fitting sacque. In this shape the "Felicia" and "Aurelia" are handsome designs adapted either to material *en suite* with the costume, or to independent garments of any kind of goods.

FURS.

In furs, the pelerine is the newest thing—a cape reaching to the shoulders, and having long ends in front, narrowed down and finished by three fur tassels on either side. Boas however are by no means discarded, but we observe an increase in length, since the most fashionable are from two, to two and a half yards long. Muffs are quite small, and finished with tassels of fur, these being in greater favor in the way of ornamentation than anything else. All things considered, seal skin is perhaps the most desirable of furs, as it is dressy enough to be worn with a handsome costume, yet may suitably accompany a plain outfit, while it is also regarded as appropriate for mourning. Seal skin sacques retain prestige, but dolmans of seal skin have been more recently introduced. Silk sacques and circulars lined with fur are worn, but we do not rush after them as we did two years ago. Lynx and black marten rank next to seal skin; chinchilla is a beautiful fur and very fashionable, but although prices are not extravagant, it becomes expensive, because it is not durable. As to sables of fine quality, black and silver fox, I can only express my admiration of the woman who wears them. If she is not very happy, she ought to be, for she has the satisfaction of knowing that she causes many pangs of unhappiness to other women who survey her with envious eyes. Mink is as thoroughly respectable as velvet, but fashionables pass the one as the other, on the other side.

NEW DESIGNS: GLOVES: LINGERIE.

The "Victoria" dress is cut in princess style, with drapery across the front; the Royal Princess dress shows a peculiarly graceful arrangement of scarf drapery; the Adrienne basque is a stylish modification of the Breton basque and may be worn with the Van Zandt overskirt which has a long apron draped across the front, and is laid at the back in a deep box plait fastened by a sash. The new gloves heavily stitched or embroidered on the back of the hand, divide favor with the self stitched in the same delicate styles hitherto seen. In color, the medium shades are most worn, but serviceable and even handsome gloves are in dark hues, while for dress occasions, we find all manner of pale tints to say nothing of white. For evening or full dress the Harris Prevost side cut glove is preferred, as it is extremely elegant and stylish. The Harris seamless is also very durable and perfect in fit, while somewhat more moderate in price; the Victoria and Dorma Maria are much esteemed by judicious purchasers. We hear much talk about "new collars," but the facts are that there is really no "new departure" in this line, and the upright linen collar with ends rolled over (the most masculine thing possible,) continues to be more liked than anything else. A change is afforded by all manner of lace and crepe lisse ruchings; these last being intensely feminine.

EVENING TOILETS.

I will not be common place enough to write that evening toilets are beautiful. That is a matter of course. But there are some characteristics peculiar to the present season, and of these we will do well to take note. Prominent here we find close, straight falling drapery, often without any looping, and heavy materials are therefore employed to the disadvantage of diaphanous fabrics. The latter of course, can never be discarded, but this winter they are but little used in comparison with the former. Satin, velvet and thick silk plain woven are combined with materials of like character wrought in Oriental, bourette and mosaic designs. Superbly rich fringes are the favorite finish, but not to the exclusion of bands and box plaitings. A low corsage is the exception since the greater number show sleeves to the elbow with heart shaped or Pompadour front; the arm being covered with a side buttoned glove. *Clair de lune*, and other jets illumine dark toilets worn by middle aged ladies, but on light colored toilets they are not much used as the effect would not be good. In the evening toilet especially is found the opportunity for a pretty stocking, and the art of showing it coquetishly deserves serious study. The ornamentation is all on the instep, and the choice lies between beads, embroidery, and open work.

LUCY CARTER.

Grant and Sumner.

Hon. Hamilton Fish, in a letter responding to the request of Edward L. Pierce that he would name the treaties which Senator Sumner had delayed to report to the Senate, says:

"I have the honor to comply with Mr. Pierce's request, and present herewith a specific statement of the treaties, not 'drafts of treaties,' which had been transmitted to the Senate for its action, and referred by that body to the Committee on Foreign Relations while Mr. Sumner was its chairman, and which remained unacted upon when he ceased to be such chairman. They are nine in number, viz.:

1. The Mexico protocol, signed 23d October, 1869, to confirm the validity of the organization of the joint commission on claims—submitted to the Senate December, 1869; referred to the committee December 8th, 1869: approved by the Senate March, 1871.

2. The Colombia-Darien Canal treaty of January 26th, 1870—submitted to the Senate March 31st, 1870; referred to the committee April 1st, 1870; still pending before the Senate, but not having received its approval at the end of March, 1871.

2. The Peru treaty of friendship, commerce and navigation, of September 6, 1870—submitted to the Senate December 6, 1870; approved by the Senate March 31, 1871.

4. Peru extradition treaty of September 12, 1870—submitted to the Senate December 6, 1870; referred to committee December 8, 1870; amended and approved by the Senate March 31, 1871.

5. Guatemala extradition treaty of October 11, 1870—submitted to the Senate December 6, 1870; referred to committee December 8, 1870; amended and approved by the Senate March 31, 1871.

6. Nicaragua extradition treaty of June 5, 1870—submitted to the Senate December 6, 1870; referred to committee Dec. 8, 1870; amended and approved by the Senate March 31, 1871.

7. Austria Hungary naturalization treaty of September 20, 1870—submitted to the Senate December 12, 1870; referred to committee December 14, 1870; approved by the Senate March 22, 1871.

8. Salvador treaty of amity, commerce and consular privileges, of December 6, 1870—submitted to the Senate January 27, 1871; referred to committee January, 1871; approved by the Senate March 31, 1871.

9. Great Britain Naturalization Convention of February 23, 1871, supplemental to that of May 13, 1870—submitted to the Senate February 27, 1871; referred to committee February 28, 1871; approved by the Senate March 23, 1871.

Sumner's appointment as Chairman of the Committee on Foreign Relations expired on the 4th of March, 1871. His successor was appointed on or about March 10, 1871. Be it observed that one of these nine treaties had been referred to the committee nearly fifteen months before the expiration of Sumner's service as its chairman, and that eight of them were acted upon and approved within three weeks after the appointment of his successor."

The English Channel Tunnel.

Operations connected with the submarine tunnel have already been commenced on the other side of the Channel, several pits having been sunk to a depth of about 110 yards. At the same time the French and English committees have definitely drawn up the conditions of working for the route. The property of the tunnel is to be divided in half by the length: that is to say, each company is to own half of the line, reckoning the distance from coast to coast at low tide. Each company will cover the expenses of its portion. The general work of excavation will be done, on the one hand, by the Great Northern of France, and on the other by the Chatham and South Eastern companies, the two latter having each a direct route from London to Dover. All the materials of the French and English lines will pass through the tunnel in order to prevent unnecessary expenses and delay of transhipment, as in England and in France railway companies use each other's line, and goods can pass from one line to another without changing vans. It is understood that an arrangement will be established for a similar exchange of lines between all the the English and continental railway companies when the tunnel is completed. The tunnel will belong to its founders. At the expiration of thirty years the government will be able to take possession of the tunnel upon certain conditions.—*Mining Journal.*

—A Pennsylvania jury recently acquitted a man charged with murder, because, as one of the jurymen said, they were afraid his ghost would haunt them if they found him guilty.

—The Eminence (Ky.,) *Constitutionalist* relates that two married ladies (twins,) aged thirty-three years Oct. 3, who live in Trimble county, one about four miles and the other about five miles from Campbellsburg, recently gave birth to twin sons, one on Monday evening, Oct. 22, the other Wednesday morning, Oct. 24.

—It is customary with the students in an Eastern college to say, "Not prepared," when called upon to recite a difficult and not well-memorized passage. One summer afternoon the class was sleepily stumbling through the introduction to Butler's Analogy. The reverend doctor had a way of his own in conducting the recitation, giving out topics for the students to discuss instead of asking questions. "Mr. T—," said the doctor, "you may pass on to the 'Future Life.'" Mr. T—— was too much of a wag to let the occasion pass unimproved, and promptly responded, "Not prepared."

E. G. PIERCE, JR., P. M.

THE CITY.

There was a feeble attempt at a snow-storm here on Tuesday forenoon, but it did not amount to anything.

Hon. William E. Chandler and Col. J. Horace Kent were registered on Tuesday, one at the Fifth Avenue Hotel and the other at the Grand Central, New York city.

The oil casks brought down from Boston for the purpose were placed in the brig Clara J. Adams on Tuesday, and at high tide she was taken in to the end of Union wharf. About thirty tons of coal were taken out on Tuesday.

Several hitherto irreligious persons requested the prayers of the church, after the services at the North church on Monday evening; and five others asked for prayers at the morning service at the Middle street church, Tuesday.

The schooner John Stroup, Capt. John C. Hurst, arrived at this port on Monday with 380 tons of coal, only forty-eight hours from New York, and was becalmed eight hours out of that time off Cape Cod. She made the trip from here to New York and back in ten days, which at this season is very quick work.

A correspondent suggests that it might be a good thing if the reporter who attended the revival meeting on Sunday afternoon, and wrote an account of it for this paper, would keep right on attending the services, as there is no fear he would become any too good. Also, it is suggested that he learn to play cribbage or whist, and henceforth eschew Minister Schenck's favorite game.

Dr. Samuel Baker, formerly of this city but now of Madison, has sent us specimens of sheet mica from the Grafton mines, and silver ore from the Madison mines, which are supposed to be a continuation of the Newburyport mines. One of the mica specimens, on which the doctor's business card is printed, is remarkably clear, and transparent as glass. These specimens can be seen in the windows of Mr. Wm. B. Lowd's bookstore.

Congressman Frank Jones did not vote on the silver-remonetization bill, or on taking Ewing's anti-resumption bill out of the morning hour, Monday. He says he was not absent when the votes were taken, and did not dodge. He was paired with Mr. Bagley of New York. If he had been free to vote he says he should have voted against Mr. Bland's bill, and for taking Mr. Ewing's bill out of the morning hour, as he wants the latter discussed and voted on.

The first of the Hutchings Association course of entertainments at the Universalist vestry will be given on Thursday evening of this week. Tickets for the course of five entertainments, fifty cents; evening tickets, for adults fifteen cents, for children ten cents. The first entertainment will consist of the drama "Once upon a time," and the farce "Wanted, a male cook," with tableaux and music between the plays, and two scenes representing "Langdon Park—as it was" and "as it will be."

Mr. John S. Treat has recently furnished for the town hall of Merrimac, Mass., a slab of Italian marble five and one-half feet long and four feet wide, bearing the following inscription: "This edifice was erected by the munificence of William P. Sargent, Esq., of Boston, Mass., and presented to his native town Nov. 13th, 1876. In honor of whom this tablet is placed here by the citizens of Merrimac." It is not probable Mr. Treat will have any immediate order for a similarly inscribed slab for a public hall in this city.

SUPREME COURT--4TH WEEK.

Tuesday, Nov. 6th, before *Stanley, J.*

The case Smith vs. Griffin was given to the jury. In the morning it was discovered that Robert S. French, one of the jurors drawn, was related to one of the parties in the case; Mr. French did not know the party or know of the relationship, but he was excused from further service in the case, and the trial proceeded with the eleven remaining jurors. The jury at a quarter to six o'clock gave a verdict for $114.16, the balance claimed, and interest.

Case State vs. John H. Havey of Salem, was next tried. This respondent has been before tried at this term upon this indictment, which charges him with unlawfully keeping for sale spirituous liquors, at his store in Salem. The defence is that he has sold out to his son, and was not the keeper of the place, and if any sale was made by him, (which is denied) he was acting for his son, the then proprietor of the store. Small for State; Hatch for Havey.

MECHANICS' ASSOCIATION.

The annual meeting of the Mechanics' Association was held Tuesday evening; Mr. John Pender was chosen Moderator, and the following officers were elected for the ensuing year:

President, Lewis G. Davis;
Vice President, Thomas E. O. Marvin;
Treasurer, John Knowlton;
Secretary, Joseph R. Curtis;
Deputy Secretary, Edward J. Moulton;
Marshal, Aaron Young;
Deputy Marshal, John Pender;
Standard Bearer, E. G. Peirce, Jr.;
Trustees, Joshua M. Vaughan, William G. Billings;
Auditors, Frank W. Miller, John W. Moses, Isaac Dow.

Major D. J. Vaughan, the Vice President of last year, was re-elected, but declined to serve.

MARINE CHRONICLE.

PORT OF PORTSMOUTH.

ARRIVED, Nov. 6.

Sch Albert Daley, Nason, New York.
Sch John Stroup, Hurst, New York.
Sch Andrew Neisinger, Smith, Philadelphia.

Pretty Lips

should have pearly teeth behind them. To make the teeth pearly, and to keep them so, there is nothing like Fragrant Sozodont. It neutralizes every element of impurity that affects the soundness or whiteness of the shell which sheathes the dental bone. Moreover, it prevents gum-boil and canker.

For the "attraction of cohesion," see Spalding's Glue.

THE Supreme Court of the State of New York has decided that J. C. Ayer & Co., of Lowell, have the sole right to use the words CHERRY PECTORAL for a medicine, and has issued an injunction against F. V. Rushton of New York City, for selling Rushton's Cherry Pectoral or Cherry Pectoral Lozenges, or any other use of the name to deceive the public. This decision of the high court includes all dealers who sell any similar article.—*Port Jefferson (L. I.) Leader.*

The Grand Semi-Annual Drawing at New Orleans, on December 11th, of the Louisiana State Lottery Company, will be conducted entirely by Generals P. T. Beauregard, of La., and Jubal A. Early, of Va., who act as Commissioners on behalf of the State and People, and who, by their high reputation, give the guarantee of entire justice and fair dealing in all respects. They will distribute over half a million of dollars in such round sums as $100,000, $50,000, $25,000, etc., etc. The scheme, which is unprecedented for liberality, appears in another column. For further information or tickets, address M. A. Dauphin, P.O. Box 692, New Orleans. 16d&w

FOR IMMEDIATE RELIEF of Coughs and Colds, use the popular remedy, *Madame Porter's Cough Balsam*, one of the best and cheapest medicines sold; its virtues have been tested by thousands for many years in the treatment of all diseases of the Throat and Lungs, and is confidently offered as a reliever of those diseases. Price 25, 50 and 75 cents a bottle. d&wtfecc6

LAME AND SICK HORSES, pronounced incurable, cured, free of cost. Giles' Liniment Iodide Ammonia.

Spavins, Splints, Ringbones, Bunches, Thoroughpins. Spring Knees cured without blemish.

Strains, Shoulder Lameness, Navicular Disease, Shoe Boils, cure guaranteed. Send for pamphlet containing full information to

Dr. WM. M. GILES, 451 6th Avenue, New York.

Use only for HORSES, the liniment in YELLOW wrappers. JOHN H. SLATER, Agent.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, Bible House, New York City.* eod&6tsept15 78

EASTERN RAILROAD CO.

To the Holders of Certificates of Indebtedness.

THE VOTING REGISTER of Certificate Holders is now making up at the Office of the Trustees, **No. 75 State Street, Boston, Mass.** The names of parties to whom certificates were originally delivered have been placed in the Register. Any subsequent purchaser or holder desiring to register may do so on presenting at said office to Mr. JOSHUA CRANE a written statement of his name, address, and the denomination and number of each certificate held by him or a written order from the last registered holder.

In accordance with regulations fixed by the Trustees the Voting Register will be closed on the thirtieth day of November, between which time and the Annual Meeting on the second Wednesday of December no registration will be made.

Per Order of the Directors,
EDWARD C. PERKINS, *Clerk.*

Portsmouth Chronicle

—Learned professors know about 80,000 words, children of two from 200 to 700; ordinary people 90,000; book agents, 9,980,999.

—The melancholy days have come, the saddest of the year, when whiskey, gin and rum take the place of lager beer. We stop here for the want of a stimulant. —*Washington Union.*

—Among the books kept by the Pennsylvania Railroad Company is one which is known as "The Accident Book." This volume contains a record of every person killed or injured on the road, whether employee or otherwise, embracing the nature of the casulty, whether fatal or trivial—even to the crushing of a finger. Reference to the index gives the place of accident, the name of the person injured, the nature of injury, etc., and the page in the general record book containing all the details. The book runs back to 1859, and is complete in every particular.

"Enquestionably the best sustained work of the kind in the World."

Harper's Magazine.

ILLUSTRATED.

Notices of the Press.

The veterans *Magazine*, which long ago outgrew its original title of the *New Monthly Magazine*, has not in the least abated the popularity it won at the outset, but has added to it in many ways, and has kept fairly abreast of the times, thanks to the enterprise of the publishers and the taste and wisdom of its editors. For whatever is best and most readable in the literature of travel, discovery, and fiction, the average reader of to-day looks to *Harper's Magazine*, just as expectantly as did the reader of a quarter of a century ago; there is the same admirable variety of contents and the same freshness and suggestiveness in its editorial departments now as then.—*Boston Journal.*

C. E. MYERS & CO.,

No. 3 BOW STREET.

This Cut illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried high up and *perfectly* applied to all parts of the nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of "Cold in the Head" by a few applications.

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche**, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 50 cents, by **all Druggists.**

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff, and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purpose."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

37 SOMETHING NEW. Have you seen that nice CHOUAGUEN? At 37 Market Street.

Centaur Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The White Centaur Liniment is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate bed-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment**, been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Gripes and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castorir** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,

NORMAN P. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

DOCTOR PIERCE'S ALT. EXT. OR

Golden Medical Discovery

CURES DISEASES OF THE THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in *harmony* more of Nature's sovereign curative properties, which God has installed into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, invigorates the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

CATARRH

THE EYE, EAR, and THROAT

Successfully Treated with

SANFORD'S RADICAL CURE.

SUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, after so many miserable failures, means undoubted specific curative properties in the remedy used. Does SANFORD'S RADICAL CURE for Catarrh possess such properties? The evidence, in the shape of unsolicited testimonials from the most respectable people in all stations of life, must be conclusive on this point. Never, we believe, in the history of popular medicines has such valuable testimony been offered, freely offered, in favor of any remedy than that in the possession of the proprietors of SANFORD'S RADICAL CURE. And valuable as it is, it does not represent a thousandth part of the recommendations which are to-day offered by friends to friends in this favor. People of wealth and refinement in all parts of the country daily admit its superiority over any method of cure known to the regular medical profession, but shun the publicity incidental to a published statement. Hence the testimonials in our possession represent but a small part of those withheld for the reason mentioned. The following unsolicited testimonial from HENRY WELLS, Esq., of Wells, Fargo & Co.'s Express, is an outspoken indorsement of which we are justly proud.

INVALUABLE.

Messrs. WEEKS & POTTER, Wholesale Druggists, Boston, Mass.: *Gentlemen.*—I have for some months felt it a duty that I owe to suffering humanity to write you, stating the great benefit that I have derived from the use of SANFORD'S RADICAL CURE FOR CATARRH. For more than 20 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, but without material or permanent benefit. Last fall the disease had arrived at that state that I must have relief or die. The entire membranous system had become so inflamed, and the stomach so disordered, that it was a doubtful matter whether I could go to the Pacific coast, or if I did go whether I should live to come back or not. I saw an advertisement of this medicine, and although being very incredulous about specifics or nostrums of any kind, yet in sheer desperation I tried this, and was astonished benefited by it. The changes of climate, a chronic disease of the liver, and my age—over 70—may prevent my entire restoration, but the benefit I derive from its daily use is to me incalculable, and I am hoping to be completely cured, and at last arrive at a respectable old age.

If this statement of my case can be of service to those afflicted as I have been, and enable you to bring this remedy into more general use, especially on the Pacific coast (where it is much needed), my object in writing this note will be obtained.

Very truly yours, HENRY WELLS,
AURORA, N. Y., June, 1876. of Wells, Fargo & Co.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1.00. For sale by all Wholesale and Retail Druggists and Dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

ALWAYS CURES.

Enlarged Spleen.

This is to certify that I have been using your COLLINS' VOLTAIC PLASTERS for Enlargement of the Spleen, Depression in the Stomach, and they have given me more relief than any other remedy I have ever tried. I would highly recommend them to all suffering from the effects of pain and inflammation. J. W. SELLS.

PICKERING, Mo., June 26, 1877.

Severe Pain.

Having occasion to use a remedy for a *very severe pain in the side*, I tried one of your COLLINS' VOLTAIC PLASTERS, and in twenty-four hours the pain was entirely removed. J. B. SAMMIS,
Ass't Cashier First Nat. Bank.
WINONA, MINN., June 19, 1877.

Weaknesses.

Collins' Voltaic Plasters give the best satisfaction of anything I have tried for Lameness and Weakness of the Back. Please send more right away. JAMES LEWIS.

BRYANT, ILL., June 16, 1877.

Price, 25 Cents.

Be careful to obtain COLLINS' VOLTAIC PLASTER, a combination of Electric and Voltaic Plaster, with a highly Medicated Plaster, as seen in the above cut. Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

Daily Chronicle.

A Visit to the Steamer Massachusetts.

It is difficult to conceive how such exagerated and erroneous reports in regard to the injury to the Massachusetts should have got into circulation, or obtained such general credence. Instead of being shaken all to pieces, partitions thrown down, mirrors fractured, windows shattered, and riddled with holes that a boat could be sailed through, she is in as staunch a condition as she was before she went on the rocks in that fearful gale. Her timbers have not started, her guard fenders are true to a line, the engine is in actual working order, there is not a mirror harmed in the whole ship, there is just one window broken by the concussions, the joints of the elegant principal stairway from the main to the upper deck, even these are not in the least displaced, and there is hardly a hole in the hull that a man could crawl through. Considerable of the planking is destroyed by the chafing, a large part of the keel is carried away, three of the ribs are so badly worn on the water side as to require removal. Several large holes were cut in the main deck to pump through, and the painted joiner work about the entrance to the dining saloon is badly defaced.

Careful observation detects a slight deflection in one of the lines of moulding on the port side of the upper saloon, which it is thought will come true when she leaves the ways. It was said that the chandeliers were badly injured, whereas the fact is that they are not only in perfect condition, but every globe is in its place, has been so all the time, and there is not one of them all, in the slightest degree fractured. It is true that the noble vessel's capacity for endurance has been severely tried, but she has triumphed gallantly, and deserves the highest commendation for strength and solidity.

President Babcock confidently asserts that she could have lain on the rocks without going to pieces all winter; and Mr. Steers, her builder, expresses great satisfaction that his handiwork has been thoroughly tested without having been found wanting in any particular. A shipbuilder from Connecticut remarked, after inspecting the hull, that if he had it in his yard he would do the carpentering required for two thousand dollars. The expense of docking and remaining on the ways is very large, but it seems probable now that $45,000 will cover all the expense of putting the vessel in perfect order. In addition to this, it will take some $25,000 to pay the expenses attending the rescue and removal to New York. The amount of insurance is $75,000.

Justice to Captain Jones and his officers requires that some of the many misstatements in regard to the circumstances of the disaster should be corrected. Briefly told, the exact facts seem to be these: The gale was of unusual severity and the night exceeding dark. Strafford light was the last seen. When off Saybrook, Captain Jones deemed it prudent to desist from further advance and turned to make a lee on the Long Island shore, not having any reason to anticipate any such change in the wind as afterwards occurred. He was moving very slowly, and taking every precaution, as he supposed, by sounding, when the boat, probably forged ahead by the gale on her quarter, or a powerful tide current, struck. Had the wind continued southerly this would have been an inconsequential matter, as she would have come off at the next tide; but all of the conditions were reversed when, in the lapse of one minute, as observed by Capt. Allen, on board the Rhode Island, the gale swept around to the north with unabated fury. It is true that Capt. Jones counselled the passengers to remain quiet and assured them that they could be taken ashore in perfect safety. The result shows that he judged rightly in this respect, the Massachusetts having easily ridden out one or two smart gales before she was relieved. The impression prevails that nearly all of the passengers were taken to land by the worthy men who came to the rescue from the shore, while the fact is that there were but few of these, and they had at their command only dories, whose carrying capacity was limited to three persons beside the boatman. These men all worked patiently and courageously, but the life boat of the steamer was also steadily engaged in the arduous work, and, in fact, carried more than one-half of the passengers, taking all of the ladies, by the express direction of the captain. It was reported by excited passengers that this boat was manned by inexperienced deck hands, but so far from this being the case, we are assured that she was manned by officers thoroughly versed and experienced in seamanship. She filled once but was freed and her battered

hull gives evidence of continuous hard work.

Captain Jones has received many very sympathizing letters, and we judge that there is no abatement of confidence in his skill and prudence as a commander, either on the part of his company or the community.

There seems to have been a prevailing error in regard to the depth of the Massachusetts below the water line. Mr. Steers informs us that she is intended to draw as much water as any steamer in the Sound. She is about one foot deeper than the Rhode Island, and the Rhode Island is about one foot deeper than the Narragansett and Stonington, which are confessedly two of the best sea boats ever constructed.—*Providence Journal.*

Daily Chronicle.

THURSDAY, NOVEMBER 8, 1877.

The Elections.

Massachusetts is republican; Rice is elected by 17,000 plurality. The legislature is overwhelmingly republican, and the Council unanimously republican. Boston was carried by the democrats by 214 plurality, instead of the 5000 claimed before the election; last year they had over 4000 plurality in the city.

Pennsylvania is democratic by 10,000, probably.

Connecticut has a republican legislature.

New York gave the Tammany-Canal ring candidates 10,000 majority, but the republicans have the legislature by 8 majority in the Senate and 17 in the Assembly.

New Jersey is democratic by 12,500, the legislature democratic.

Wisconsin is republican by 5000 or 6000 majority.

Maryland, Mississippi, and Virginia are of course democratic by any desired majority.

Kansas, Minnesota and Nebraska are of course republican.

The Eastern War.

A despatch from Vienna says that the Russians occupy Erzeroum, and that Moukhtar Pasha is retreating on Erzingham and Trebizond in hope of meeting supplies and reinforcements. The battle of the 5th, in front of Erzeroum, ended in a complete rout of the Turks.

Chevket Pasha, at the head of a strong force, is advancing to the relief of Plevna. Osman Pasha's army is amply provisioned and in fine condition. Notwithstanding the Russian progress westward, the Turks are confident that Plevna will hold out.

Washington Correspondence.

WASHINGTON, D. C., Nov. 5th.

There appears to have been a tacit understanding between the representatives of both great parties in Congress to kill time as best they could, and avoid precipitating any controversy prior to the elections to take place to-morrow. Looking at the amount of business that has actually been perfected and the frivolous pretexts upon which long adjournments have been voted it would be very pertinent to inquire if the interests of the whole country are to always be subordinated to the schemes of a handful of professional politicians for their personal aggrandizements. To those giving little heed to party and personal exigencies, there seems no good reason why Mr. Randall, thoroughly acquainted as he was with most of his material, should not have got his committees in working order the first week; and as all the expenditures called for by the President, save three comparatively unimportant ones, had been exhaustively discussed last session, it looks equally reasonable to suppose that the business might have all been transacted by the end of the second week; and as matters have gone the impression has grown general that the extra session might as well have been dispensed with altogether. There is a suspicion among anti-administrationists, that the resolution looking to the appointment of a Boss Commissioner at the Paris Exposition at a salary of $8,000, squints strongly toward a reward to Gen. Hawley for his services on the Louisiana Commission. Certainly the disproportion between the chief and his subordinates at $1,000 each and pay their own expenses, is a very marked example of Congressional economy. The first is intended to play gentleman on $8,000 and free passes likely, while the latter will be permitted to do the drudgery at a rate of compensation that will barely suffice to keep them respectably.

The Massachusetts friends of Mr. Sumner who were disposed to take up the club in his defense, and to vindicate him from the charges of fickleness and neglect of duty when at the head of the Committee on Foreign Relations, as intimated by General Grant, appear to have suffered a defeat. It appears pretty well established that Mr. Sumner promised his support to the San Domingo scheme and gave the President no intimation of his change of views relative to it until he (Grant) was so far committed that a retrograde movement appeared impossible without seeming to have been bull-dozed from his purpose by the Senator; and Mr. Fish has promptly accepted the challenge to specify the treaties Mr. Sumner pigeon-holed, naming nine, one of which was in his hands fully eighteen months without action. KNOX.

News and Notes.

Schooner Gipsey Bride founded in Rollo Bay on Friday, the 2d inst., and all hands were lost. The captain and crew (five men) of steamer Edward Tillery were drowned on the night of the 5th at Point Peters, in attempting to land from their vessel, which was wrecked. A large vessel, supposed to be a steamer, was seen on her beam ends three miles off Barnegat, on the 6th; she shortly disappeared, and is supposed to have sunk.

The great paper mills at Turner's Falls were burned Wednesday. Loss $300,000.

Monday afternoon two sons of Timothy Stowe of Newry, Me., were gunning when the elder one fired at a partridge, the whole charge lodging in the heart of the younger, aged 13, killing him instantly.

On Monday morning a square rigged ship in passing under the East River Bridge cables, had ten feet of her main skysail mast broken off by coming in contact with the storm cable. The ship had no cargo, and the tide was very high. She would have passed safely, however, had she not run too near the Brooklyn tower. The cable was not damaged.

Rev. Joseph Milliken, a Presbyterian minister of Columbus, Ohio, has given up his ministry, not being able conscientiously to preach the doctrines of that church any longer.

Mr. Waddell of North Carolina has introduced in the House of Representatives a bill involving a complete change in the administration of the present laws relating to steamboat service. The offices of Supervising Inspector-General and Supervising Inspector of Steamboats will be abolished by it if it passes, and the administration of the steamboat law will be placed in the hands of retired officers of the navy. The title of the bill is to provide for a Board of Admiralty and a local Board of Marine Supervisors. It may yet play sad havoc with many patent contrivances foisted on ship owners to endanger life under pretence of saving it.

The United States steamer Kearsarge has arrived at Suez, en route from the Asiatic squadron to the United States.

His millions of friends will sincerely regret to learn of the continued illness of Senator Blaine. A private dispatch announces that he will remain at home for some days, or at least until he recovers more completely from his late severe attack. His physicians have warned him that if he is not careful he will have a return of paralysis, with which he suffered last summer.

Thomas Ashton, a young man of Seekonk, R. I., was out gunning with a companion on Sunday; in getting over a wall the companion's gun was discharged, and young Ashton's throat was torn open, killing him instantly. Another young man was killed near the same place not long ago, while gunning on the Sabbath.

Political.

How would it do for Louisiana to secede from the Union, on the ground that she is deprived of representation in the United States Senate?—*New Orleans Times.*

It would do well enough. It has been decided that treason is more honorable than patriotism, and that a secessionist is more worthy of material reward than a Unionist. Secede by all means, if you want to prosper.

The Senate election committee has decided to report in favor of the admission of Wm. Pitt Kellogg, Republican, as Senator from Louisiana.

Daniel W. Voorhees has been appointed to fill the vacancy in the United States Senate caused by the death of Oliver P. Morton.

All that roguery and rascality can suggest is being done to delay the repeal of the odious Resumption Act. The tricky rascals in the House are offering all manner of motions looking toward a postponement of the vote on the Repeal bill. It is the many against the few, the people against a lot of monopolists. We know the final result will be a victory for the people, and possibly a dear defeat for the sharks.—*Cincinnati Enquirer.* (dem.)

The Kansas City (Mo.) *Times*, the leading democratic paper of the southern section of Missouri, had on Saturday last two obituary notices—one a malignant and brutal attack upon the memory of the dead war Governor, Morton—the other a eulogy upon the dead rebel, Gen. Forrest. The one's fame rests upon his efforts to save an imperiled country; that of the other on his efforts to destroy it. The one is denounced for waving the "bloody shirt," while the other is white-washed for the shirts made bloody at Fort Pillow.

Harper's Weekly says "Senator Edmunds, of Vermont, looks an old man, though he is only forty-nine. He has been eleven years in the Senate, and is one of the ablest members. He looks like St. Jerome, and when in repose folds his hands across his breast as if he were accustomed to hold a skull under them."

New Hampshire Items.

The house and barn belonging to Samuel Young, situated in Middleton, were burned Thursday evening. Loss about $1200; insured for $700. Supposed to be the work of an incendiary.

The valuable and extensive tannery of Hon. James Burnap, in Marlow, together with a large quantity of lumber, was totally destroyed by fire on Sunday morning. Loss $15,000 or $20,000. Probably no insurance.

The Sea Serpent.

For half a century and more, people have been talking and the newspapers telling of "*the* sea-serpent," as if there were but *one* such monster of the deep. With as much propriety might "*the* whale" be referred to, as if but one such creature existed, when, according to Genesis, I., 21, "great whales" were among the first, if not the first, living creatures from the hand of the Almighty. While legends of them have come down from the remote past, well authenticated records have been given, in scores of instances, of the existence of marine serpents, as far back as 1734, when Rev. Paul Egede, a missionary to Greenland, gave a description of one he saw on the 6th of July of that year. Capt. Lawrence De Ferry, of Norway, with his crew, had a near view of one in 1746, which he wounded with bullets from his gun, the ocean being discolored with the blood of the animal before its disappearance from sight. Capt. Little, of the U. S. Navy, in 1781, described one he saw in Penobscot Bay, and followed some distance in a cutter, but could not get near enough before he sank out of sight, for the marines to attack him. Rev. Donald McLear, and others who were with him in a boat, in 1808, saw one within a few yards of them on the coast of Scotland. Rev. Abraham Cummings, in 1809, with his wife and daughter, had a clear view of one while sailing in Penobscot Bay. In the harbor of Gloucester, Cape Ann, in 1817, a sea serpent remained so long as to be seen by hundreds of witnesses, for half a day at a time by some, and within as short a distance in one instance as thirty feet. Capt. Tappan, with his crew, of Newburyport, were within thirty to forty feet of the animal, which they described with the utmost minuteness. Hon. Alanson Nash described one he saw in 1817, that appeared nearly a hundred feet in length, and of the size of a half-barrel. One was seen by four men in 1830, near Kennebunk, Me. A London publication, the *Zoologist*, in 1833, gave a full account of one seen by five officers of the British army, while sailing in a yacht near Halifax, N. S. Hundreds of the most credible witnesses have given testimony to sea serpents being seen on the coast of Norway, as fully described by Sir A. de Capel Brooks, who travelled in Norway in the early part of the present century. In the summer of 1832 or '33, all on board the steamer "Connecticut," while on her passage from Boston to Portland, had a full view of a serpent of large size, soon after leaving Boston; the next day a party who went in search of him encountered one of a smaller size, six to eight inches in diameter, and approached him near enough for a man in one of the boats to strike him across the neck with an oar. One of the most minute accounts of such marine monsters that has ever been given was that of Capt. Peter McQuhae, his officers and crew, of the steamer Dædalus of the British navy, in 1849; the creature having a girth of fifteen inches or more back of the head. To come nearer home, in the summer of 1822, a party of half a dozen, while on a fishing excursion from Newcastle to the ocean, had a full view of a sea serpent, of a large size, when he was within half a mile of their boat. He lay for half an hour, as if asleep, upon the surface, and then after raising a considerable portion of his huge bulk in an erect position, made a plunge and was seen no more. A full account of the adventure, given under affidavit of the party, respectable residents of Newcastle, was given at the time in the Portsmouth *Journal*. As evidence that sea serpents have had an existence, one of a smaller size was taken near Cape Ann, about 1818, and in 1860, one measuring seventeen feet in length floated ashore on one of the Bermuda islands, of which a full, illustrated account was given in *Harper's Weekly*. That such creatures existed in the earlier ages of creation was proved from the fact that the entire fossil remains of a serpent, 120 feet in length, and of a girth in proportion, it was not doubted, when living, was exhibited in New York in 1845. It was found embedded in a limestone formation in Alabama, and Professor Silliman, who visited it, pronounced it without doubt a marine animal, and which was apparent to all from the skeleton remains of what might have been a sort of arms, having joints like an elbow, with which the creature could have propelled itself through the ocean. The cuttle-fish was once regarded as fabulous, from the terrific stories told of such creatures; yet none now doubt their existence. There is such a thing as being over-wise in incredulity, like those who say they will not believe what they cannot comprehend; as if there were not many things in the world that *all* can see, but few or none can understand. J. H. B.

Pretty Lips

should have pearly teeth behind them. To make the teeth pearly, and to keep them so, there is nothing like Fragrant Sozodont. It neutralizes every element of impurity that affects the soundness or whiteness of the shell which sheathes the dental bone. Moreover, it prevents gum-boil and canker.

For the "attraction of cohesion," see Spalding's Glue.

THE Supreme Court of the State of New York has decided that J. C. Ayer & Co., of Lowell, have the sole right to use the words CHERRY PECTORAL for a medicine, and has issued an injunction against F. V. Rushton of New York City, for selling Rushton's Cherry Pectoral or Cherry Pectoral Lozenges, or any other use of the name to deceive the public. This decision of the high court includes all dealers who sell any similar article.—*Port Jefferson (L. I.) Leader.*

The Grand Semi-Annual Drawing at New Orleans, on December 11th, of the Louisiana State Lottery Company, will be conducted entirely by Generals P. T. Beauregard, of La., and Jubal A. Early, of Va., who act as Commissioners on behalf of the State and People, and who, by their high reputation, give the guarantee of entire justice and fair dealing in all respects. They will distribute over half a million of dollars in such round sums as $100,000, $50,000, $25,000, etc., etc. The scheme, which is unprecedented for liberality, appears in another column. For further information or tickets, address M. A. Dauphin, P.O. Box 692, New Orleans. 1d&w

FOR IMMEDIATE RELIEF of Coughs and Colds, use the popular remedy, *Madame Porter's Cough Balsam*, one of the best and cheapest medicines sold; its virtues have been tested by thousands for many years in the treatment and cure of diseases of the Throat and Lungs, and is confidently offered as a reliever of those diseases. Price 25, 50 and 75 cents a bottle. d&wtdec6

E. G. PIERCE, JR., P. M.

THE CITY.

Don't forget the Hutchings' entertainment at the Universalist Vestry this evening.

At the regular monthly trial of the steam fire engines, on Monday evening, the Sagamore got up ten pounds of steam in seven minutes and twenty seconds; the Dearborn raised twenty-five pounds in six minutes.

Mr. Richard Seelye, of this city, has just completed a boat of peculiar construction for oystering in Great Bay. She has a flat bottom and is fitted with a centre board, and carries two leg-of-mutton sails. She is very stiff, and at her trial trip from Wm. R. Martin's shipyard, Wednesday afternoon, worked like a top. Quite a number of boat-builders and owners witnessed the trial, and all agreed in commending the boat as especially adapted for the purpose for which she was designed. The boat is called a "sharpie yacht," and is named the "Duster."

On Wednesday morning at about five o'clock Mr. Herman A. Tarlton met with a severe accident on board the brig Clara J. Adams. The navy yard gang of riggers, of which Mr. Tarlton was one, had commenced work in preparation for raising the vessel and moving her into shallow water. Mr. Tarlton went forward in the brig to get some tools to work with, and supposing that the fore hatch was covered made a step into the hatchway, and fell forward, striking his head on the opposite side of the hatch, falling from there into the hold, striking heavily on the bottom of the vessel. He was cut badly about the head, and was shaken up severely by the concussion. At a late hour in the evening Mr. Tarlton was comfortable, and it was hoped that serious results would not ensue.

The Boston papers give the following particulars of a little unpleasantness in which one of the regular traders to this port—the schooner A. J. Williams, Capt. Murch—was engaged: "A few days since Capt. Eaton of the schooner Alpine employed Messrs. Blackmar & Sheldon to libel the schooner A. J. Williams for damages in running down his vessel. A keeper was placed on board the Williams by the U. S. Marshal, but she suddenly put to sea, taking the keeper with her in spite of his remonstrance and warning. The Williams put into Portsmouth and promptly returned to the custody of the Marshal by the owners, who disavowed any previous knowledge of the evasion of process, and settled the case forthwith, paying all costs. The captain of the Williams was arrested, but it appearing that the mate and crew ran the vessel off during his absence he was discharged."

BOARD OF INSTRUCTION.

The regular meeting of the Board was held Wednesday evening; present Mrs. Knight, Mrs. Wilson, Messrs. May, Shannon, Vaughan, Goodrich, Hutchinson, Hackett and Pender. The Mayor being absent, Mr. Hackett was chosen President *pro tem.*

Records of previous meeting were read and approved, and sundry bills were presented and ordered to be paid.

Voted to proceed to election of a member of the High School Committee, to fill the vacancy caused by the resignation of Rev. James DeNormandie; a ballot was had, and Daniel J. Vaughan was declared elected.

Monthly reports of Districts One, Two and Three were read.

Voted that the district reports be read at each monthly meeting; also, that the teachers be requested to comply with the regulation in rating scholars monthly.

Adjourned for two weeks.

SUPREME COURT--4TH WEEK.

Wednesday, Nov. 7, before *Stanley, J.*

In the case State vs. Havey, given to the jury on Tuesday evening, the jurors spent the night in their deliberations. At the coming in of the Court on Wednesday morning the jury came in, and stated in reply to the questions of the Court that they were unable to agree upon certain questions of fact. Judge Stanley told the jury that this was an important case for the State and the respondent; that it was a reproach upon the administration of justice that in cases of this kind jurors should not agree; that he hoped they would consider,—as he trusted they had considered,—the case on the evidence, and now make a further attempt to agree on a verdict. The jury went out again and struggled with the case all day, but were unable to come to an agreement, and they were discharged from further consideration of the matter at six o'clock in the evening, after twenty-four hours' service in that line.

State vs. O. P. Philbrick was in readiness for trial. This was an appeal from the Police Court, where the respondent was fined one cent and costs on the complaint of Hon. T. E. O. Marvin, for cruelly beating a horse at Rye. The Solicitor on conferring with the witnesses found it was a case in which the evidence would not sustain the complaint, and moved for leave to enter a *nolle prosequi*. Small for the State; William H. Hackett for defendant.

The Solicitor disposed of many appeal cases on the criminal docket.

Joseph Pettigrew vs. Daniel Sullivan, was tried in the afternoon. This was an action to secure the amount of $14 for boots and shoes furnished the defendant's wife. The plaintiff produced his books. The defendant contended that the charges were irregularly entered on the books, were not truly made, and were interlined. The wife and daughter of the defendant denied purchasing the articles charged at the time they purported to have been sold. A verdict was rendered for the plaintiff in the sum of $16.78. Call for plaintiff; Page for defendant.

Case State vs. Odiorne, set down for trial in the afternoon, was entered not to be brought forward *nisi*. Hatch for State; Hodgdon and Hackett for defendant.

THE VICINITY.

The new two-story school-house at South Seabrook is under way; the foundation is completed, and work will be pushed on the building by the contractor, S. W. Dearborn of Hampton, so that the house can be occupied in a few weeks. The building will accommodate two schools, which will be graded.

Jacob Joy's house in Kittery was discovered to be on fire at about quarter before three o'clock Wednesday morning, having caught, it is supposed, from matches kept in a pantry, and probably ignited by the nibbling of rats or mice. The fire was confined to the interior of the house, and was extinguished by buckets of water passed by hand. The navy yard fire department was in readiness and waiting orders, but its services were not needed.

The regular Sunday temperance crusade in Seabrook, on the 4th inst., was held in front of the residence of Jeremiah F. Locke at Seabrook village. Rev. Wm. A. Rand, Messrs. George E. Morrill, John M. Weare and Richard L. Gove were the speakers. The beginning of the meeting was delayed half an hour in consquence of the owner of the team that was to take Mr. Rand up from South Seabrook having borrowed a harness from a cider seller, who sent for his harness when he found out what it was to be used for. Mr. Weare spoke in his usual style,—pronounced himself not in favor of intemperance, but opposed to the method of the crusade; called Richard L. Gove "a puppy," and said "truth is necessary to the prosperity of the State"—a remarkable proposition, truly, but having no especial bearing on the questions of rum and cider making, selling and drinking. [As Mr. Weare raised some thousands of bushels of cider apples last year, remarks in favor of a crusade against cider cannot be expected from him.] Mr. Weare accused Mr. Rand of "trying to break up the school in South Seabrook last year," but did not state that Mr. Rand's desire was to have two teachers instead of one for one hundred and twenty-five scholars; that his views were approved by over fifty of the legal voters of South Seabrook in a petition presented to the school committee, and adopted by them; and that Mr. Rand this year has been elected prudential committee by the voters most vitally interested in school affairs.

***

Sandemanian Society in Portsmouth.

But little is known of the Sandemanians, as religionists, as there have never been many of them in this country, and we believe not very many in any part of the world.

The first mention we find of them in Portsmouth in any publication is in *Merrill's Gazetteer*, published in 1817. It states in the account of Portsmouth, that Mr. Robert Sandeman came to this country about 1764, formed a Society in Portsmouth, which afterwards built a meeting house, and that David Humphreys, Esq., has for many years ministered to this little flock.

The Sandemanian meeting house stood on Brimstone Hill in Pleasant street, not far from the corner of Richmond street.

Robert Sandeman was the founder of the Sandemanians, and was born at Perth in Scotland in 1718. He was educated at St. Andrew's College, and was intended for the ministry. But he turned his attention to the manufacture of linen. He afterwards became preacher of his particular views, but so far as we have seen an account of them, there is nothing very special as to points of doctrine, differing from some other religions. The definition of faith was simple, which was an assent to the divine testimony. In practice, however, many things were peculiar to themselves. The Lord's Supper was administered weekly. It had love feasts at each other's houses; gave the kiss of charity on receiving new members, washing each other's feet when it was a deed of mercy, giving mutual exhortations; a community of goods to a certain extent, etc. They disapproved of laying up treasures on earth, also disapproved of lotteries, cards and dice.

It should be said that a sect arose in Scotland in 1728, founded by one John Glass, called Glassites, and that Mr. Sandeman fell in with that, and after he became active in his public career, we think the Glassites became much merged in the Sandemanians.

Mr. Sandeman not only formed a Society in Portsmouth, but in Boston and in Danbury, Conn., where he died April 2, 1771, aged 53 years. He was an earnest laborer, and some works of his were published.

It has been been stated in this article that probably the Sandemanians were never very numerous anywhere. It seems however that they were so formidable that Rev. Andrew Fuller, a Baptist minister of England, who died in 1815, thought it necessary to controvert their sentiments. See his works, Boston edition 1836, pp. 555–615 inclusive.

The Sandemanian Society in Portsmouth lost visibility many years ago. Perhaps some of the descendants of those connected with it still live and can tell more about it. No other Society of the kind ever existed in New Hampshire.

WIDE AWAKE FOR 1878.

The popular estimation of WIDE AWAKE is well summed up in what a distinguished literary gentleman said:—"The other magazines lie on the table fresh and clean, while WIDE AWAKE is read to tatters." That WIDE AWAKE will continue to be "read to tatters" the following announcements for 1878 are good guarantees.

I.
"TRUE BLUE."
BY MRS. LUCIA CHASE BELL.

w&stieb078

—The Chicago *Journal* says that beetles, bugs, lizards and serpents will continue to be worn as favorite designs in ladies' jewelry. What we want to know, is whether snakes will continue to be worn in gentlemen's boots? We desire to be fashionable, you know.—*St. Louis Journal.*

—B. P. Shillaber tells a funny story of a critic who undertook to prove that his Mrs. Partington was inferior in wit to the like characters of Shakespeare and Sheridan, and to do so, took a half dozen examples of Mrs. Partington's peculiar humor, not one of which happened to have been written by Mr. Shillaber.

—Half an hour's practice on a piano every day will bring on fatal attacks of paralysis in eight months. (This is a lie, but if the press will kindly assist in giving it the widest circulation, a grateful people will neither misinterpret nor fail to reward the generous and humane motive which prompts the item.)—*Burlington Hawkeye.*

"Unquestionably the best and most valuable work of the kind in the World."

Harper's Magazine.

ILLUSTRATED.

Notices of the Press.

The veterans *Magazine*, which long ago outgrew its original title of the *New Monthly Magazine*, has got in the least abated the popularity it won at the outset, but has added to it in many ways, and has kept fairly abreast of the times, thanks to the enterprise of the publisher and the tact and wisdom of its editors. For whatever is best and most readable in the literature of travel, discovery, and fiction, the average reader of to-day looks to *Harper's Magazine*, just as expectantly as did the reader of a quarter of a century ago; there is the same admirable variety of contents and the same freshness and suggestiveness in its editorial departments now as then.—*Boston Journal.*

TERMS:

Postage free to all Subscribers in United States.

HARPER'S MAGAZINE, one year. ... $4.00.

$4.00 includes prepayment of U. S. postage by the publishers.

BLUE ARMY BLOUSES.

WE have just received a few more of those BLUE ARMY BLOUSES, which have been in such demand for the last twelve months.

C. E. MYERS & CO.,

No. 3 BOW STREET.

This Cut Illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which catarrh most frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to those cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr Sage's Catarrh Remedy cures recent attacks of **"Cold in the Head"** by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, alterations, scales from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche**, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 50 cents, by **all Druggists.**

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

R. P. HALL & CO., Nashua, N. H.

Sold by all Druggists and Dealers in Medicine. No. 3.

Centaur

Liniments.

They relieve pain;
They subdue swellings;
They cure burns without a scar.

The **White Centaur Liniment** is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate and bed-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle about which either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stiffness, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment**, been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Gripes and Stomach complaints. **Pitcher's Castoria** is the complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 8, 1876.

MESSRS. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,
NORMAN P. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, with use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

DOCTOR PIERCE'S ALT. EXT. OR Golden Medical Discovery

CURES DISEASES OF THE THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in *harmony* more of Nature's own curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver, or "Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are expressed. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

SOLD BY DRUGGISTS AT $1 PER BOTTLE.

SANFORD'S JAMAICA GINGER.

The only combination of the true Jamaica Ginger with choice Aromatics and French Brandy, for weakness, weariness and prostration of the nervous forces, inability to sleep, coldness of the extremities and suspended circulation, a grateful boon to suffering humanity at once soothing, strengthening and refreshing. tnov24

Ask for SANFORD'S JAMAICA GINGER.

RUPTURE.

Those wishing Relief and Cure for Rupture should consult Dr. J. A. SHERMAN, 238 Broadway, N. Y.; send 10c for his new book with photographic likenesses of bad cases before and after cure. Beware of cheats who pretend to imitate Dr. Sherman's treatment. One of these fellows, a German clerk, calling himself Dr. W. G. Crempien, is indicted on complaint of Dr. S. and awaits trial for forgery and embezzlement. tnov24

MOODY His Words, Work, and Workers.

This is the latest, most attractive, largest, cheapest, and best illustrated book on this wonderful man that has yet been published. It contains Life of Moody, Sankey, Bliss, Whittle and others. Also, Moody's best Sermons, Bible Portraits, Outlines of Doctrine, Bible Readings, and addresses in London, Edinburgh, Glasgow, Dublin, New York, Philadelphia, Chicago and Boston.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, HORMER & CO., Solicitors. Patents procured in all countries. *No fee in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & CO. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,8 0 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & CO. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & CO., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address

CATARRH

THE EYE, EAR, and THROAT

Successfully Treated with

SANFORD'S RADICAL CURE.

SUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, and the many miserable failures, means undoubted specific curative properties in the remedy used. Does SANFORD'S RADICAL CURE for Catarrh possess such properties? The evidence, in the shape of unsolicited testimonials from the most respectable people in all stations of life, must be conclusive on this point. Never, we believe, in the history of popular medicines has such valuable testimony been offered, freely offered, in favor of any remedy than that in the possession of the proprietors of SANFORD'S RADICAL CURE. And valuable as it is, it does not represent a thousandth part of the recommendations which are daily offered by friends to friends in its favor. Perhaps of wealth and refinement in all parts of the country daily admit its superiority over all competitors. Known to the regular medical profession, but shun the publicity incidental to a published statement. Hence the testimonials in our possession represent but a small part of those withheld for the reason mentioned. The following unsolicited testimonial from HENRY WELLS, Esq., of Wells, Fargo & Co.'s Express, is an outspoken indorsement of which we are justly proud.

INVALUABLE.

Messrs. WEEKS & POTTER, Wholesale Druggists, Boston, Mass.: *Gentlemen,*—I have for some months felt it a duty that I owe to suffering humanity to write you, stating the great benefit that I have derived from the use of SANFORD'S RADICAL CURE FOR CATARRH. For more than 20 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, but without material or permanent benefit. Last fall the disease had arrived at that state that I must have relief or die. The entire membranous system had become so inflamed, and the stomach so disordered, that it was a doubtful matter whether I could go to the Pacific coast, or if I did go whether I should live to come back or not. I saw an advertisement of this medicine, and although being very incredulous about specifics or nostrums of any kind, yet the sheer desperation I tried this, and was at once benefitted by it. The change of climate, a chronic disease of the liver, and my age—over 70—may prevent my entire restoration, but the benefit I derive from its daily use is to me *incalculable*, and I am hoping to be completely cured, and last arrive at a respectable old age.

If this statement of my case can be of any service to those afflicted as I have been, and enable you to bring this remedy into more general use, especially on the Pacific coast (where it is much needed), my object in writing this note will be obtained.

Very truly yours, HENRY WELLS,
AUBURN, N. Y., June, 1876. Of Wells, Fargo & Co.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1.00. For sale by all Wholesale and Retail Druggists and Dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS'

VOLTAIC PLASTER

ALWAYS CURES.

Enlarged Spleen.

This is to certify that I have been using your COLLINS' VOLTAIC PLASTER for Enlargement of the Spleen and Depression in the Stomach, and they have given me more relief than any other remedy I have ever used. I would highly recommend them to all suffering from the effects of pain and inflammation. J. W. SELLS.

PICKERING, MO., June 28, 1877.

Severe Pain.

Having occasion to use a remedy for a very severe pain in my side I tried one of your COLLINS' VOLTAIC PLASTERS, and in twenty-four hours the pain was entirely removed. J. B. SAMMIS,
Asst Cashier First Nat. Bank.

WINONA, MINN., June 18, 1877.

Weaknesses.

Daily Chronicle.

The Great Wall of China.

The Great Wall of China was measured in many places by Mr. Unthank, an American engineer, lately engaged on a survey for a Chinese railway. His measurements give the height at eighteen feet, and a width on top of fifteen feet. Every few hundred yards there is a tower twenty-four feet square, and from twenty to twenty-five feet high. The foundation of the wall is of solid granite. Mr. Unthank brought with him a brick from the wall, which is supposed to have been made two hundred years before the time of Christ. In building this immense stone fence to keep out the Tartars, the builders never attempted to avoid mountains or chasms to save expense. For 1,300 miles the wall goes over plain and mountain, and every foot of the foundation is in solid granite, and the rest of the structure solid masonry. In some places the wall is built smooth up against the bank, or canons, or precipices, where there is a sheer descent of 1,000 feet. Small streams are arched over, but on the larger streams the wall runs to the water's edge, and a tower is built on each side. On the top of the wall there are breastworks, or defences, facing in and out, so the defending forces can pass from one tower to another, without being exposed to any enemy from either side. To calculate the time of building, or cost of this wall, is beyond human skill. So far as the magnitude of the work is concerned, it surpasses everything in ancient or modern times of which there is any trace. The Pyramids of Egypt are nothing compared to it.—*London News.*

—There was a sound of devilry by night, and a Monroe, Mich., saloon was chuck-full of the nice young men of the place, when suddenly a bright group of the fairest maidens of their set appeared upon the scene. Tableau.

☞ *All New Subscribers for 1878 paying in advance after November 1, 1877, will receive the paper Weekly, from receipt of remittance to January 1st, 1878, without charge.*

COMBINED PAPERS—FORTY-EIGHTH YEAR.

THE COUNTRY GENTLEMAN.

A Premium Annual to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy, one year, $2.50; Four copies $10, *and an additional copy for the year free to the sender of the Club;* Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs*, to each subscriber—a book of 144 pages and about 140 engravings—a gift by the Publishers, in honor of the completion, in its present weekly form of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman possesses an unequaled Corps of Correspondents, regular and occasional, among the *Best Farmers* of All Parts of the Country, and constantly reflects the practical condition and progress of the husbandry of every section of the United States and civilized world.

The Country Gentleman gives in its *Horticultural Department* a continuous variety of information and suggestions, equal or superior in the aggregate to what is obtained in the monthly numbers of most magazines devoted to Horticulture.

The Country Gentleman has probably done as much as all other Journals combined, to introduce and disseminate *Improved Stock* of every kind through the country; and commands to a greater degree than any contemporary, the confidence and support of breeders and purchasers.

The Country Gentleman contains unusually full and trustworthy *Market Reports*, and devotes special attention to the history and prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy—and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and so on, and every week presents a column or two for the Housewife and an interesting variety of Fireside Reading. It contains a well-edited review of current events, and its advertising pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address

ALBANY, N. Y.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth; and always surely restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brash, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is prized for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

Daily Chronicle.

FRIDAY, NOVEMBER 9, 1877.

Sharp Practice.

The bill for demonetizing gold which passed the House on Monday, 4th inst., was not the "Bland bill" of the last Congress, as was supposed; Bland, having received permission to offer his bill, surreptitiously substituted for it the bill of the present House committee on banking and currency. Now it is stated that another vote on the bill will be asked for by Speaker Randall. He says that the substitution of bills on Monday was wholly unwarranted. He was not on the watch for any such thing. It appears that the scheme was carefully set up in the House. Kelley of Pennsylvania was privy to it, and this explains his unusually vehement objection to all inquiries with regard to the bill when it was laid before the House. Kelley's share in the business is regarded as especially discreditable. Senator Stanley Matthews has expressed the opinion that the Bland silver bill will pass the Senate and be signed by the President. This opinion is important because of the intimate relations of Matthews to Hayes, and because the latest statement of the President's views given to the Associated Press under the advice of Matthews early in the Ohio campaign looked in this direction. It is said Matthews has prepared a bill for the inflation of the currency which he will soon offer in the Senate.

News and Notes.

In the trials of South Carolina ex-officials, a verdict of guilty has been rendered in Cardozo's case. An appeal will doubtless be taken. The case against Robert Smalls, member of Congress, for accepting a bribe while member of the legislature, was taken up immediately after the verdict against Cardozo. Judge Melton, counsel for Smalls, filed a petition for the removal of the case to the United States Court, on the ground of prejudice and political feeling. The Grand Jury has returned an indictment against B. F. Whittemore for accepting a bribe as member of the Senate. Whittemore was in Canada when last heard from.

The House Committee on Post Offices is unanimously in favor of increasing letter carriers' pay, and a bill will probably be adopted fixing the salary at $900 per annum for the first five years, and $1,000 subsequently.

Professor Baird, just returned from Halifax, says that about six hundred witnesses have been examined before the Fisheries Commission. The evidence is very contradictory and is no indication of the result. The cases close on December 15, when deliberation begins.

The first compass was used in France in 1150, though the Chinese are said to have employed the loadstone earlier.

Deputy United States Marshal Gainey has seized at Pascagoul, Miss., about two hundred thousand logs and a large amount of tar, turpentine and charcoal, from parties who had stolen them from the Government, and this he says is only a beginning.

The Allan steamship line and the Grand Trunk railroad have got into a quarrel, and all through freight is hereafter to be forwarded by the Dominion and Beaver lines from Portland. The Allan steamers will make Baltimore their winter port.

Lyman Trumbull of Illinois, ex-United States Senator, was united in marriage, Saturday afternoon, 3d inst., to Miss Mary J. Ingraham, eldest daughter of the late Capt. John Ingraham of Old Saybrook, Conn. The marriage took place at the residence of the bride's mother in Saybrook. The bride and groom are cousins.

A Baltimore boy raised his arm to strike his mother, when his brother struck the unfilial youth on the head with a stick, causing his death soon after.

Corydon, Weed & Co., of Bloomington, Ill., have filed a petition in bankruptcy; liabilities $1,800,000, assets merely nominal.

The farmers of Prince Edward Island are rejoicing over the largest crops ever raised and safely housed by them. All the crops are good, but the yield of wheat and oats is much above the average. Potatoes are, as usual, very fine in quality, and as to quantity, there is no room for complaint.

Mr. Key informs the Senate that the wages of postmasters are nearly $700,000 in arrears.

Clarkson N. Potter of New York has written to Speaker Randall that he will insist on being excused from chairmanship of the committee on Pacific Railroads and requesting that no action be taken concerning the vacancy until next week, as he wishes to be present. It is supposed that he intends to make a statement to the House. The Speaker will comply with his wishes. The rules of the House do not permit the Speaker to appoint another chairman in his place, but to make the next member, Mr. Throckmorton of Texas, chairman, unless the committee shall elect some other person chairman.

Mr. Williams of Michigan has introduced in the House a bill providing that until the several staff corps of the army shall be reduced to the numbers which are fixed for permanent appointment therein by act of Congress, approved June 23, 1874, any officer in either of said corps resigning his commission shall receive one year's pay and allowances for each five years of service.

New Hampshire Items.

A lady living on State street, Concord, was recently viewing a picture through a graphoscope. The sun was shining brightly and the picture was so placed as to give it a peculiarly beautiful appearance. She therefore left the graphoscope and picture standing as they were with the purpose of calling the attention of others to it when they came in. In a few moments, however, a smell of burning paper was perceived and in a few moments more the picture was ablaze. It had been set on fire by the rays of the sun brought to a focus on the picture by the lens of the graphoscope. Had no one been present in the room an unaccountable fire would have probably very soon alarmed the family and neighborhood. The fact suggests caution in regard to this and similar instruments.

The evenness of judgment of average jurors is shown by the marking of eleven who sat on a case recently tried in Concord. It was a suit brought to recover damages for the bite of a dog in Pittsfield, and having agreed that the owner of the dog should pay something they chalked the amount as follows: twenty-five cents, $10, $15, $50, $100 and $200. They finally compromised on a verdict of $37.50.

There will be a public installation of the officers elect of Trinity Commandry of Knights Templar of Manchester, by the officers of the Grand Commandry of New Hampshire, on Tuesday evening, Nov. 13th.

The body of Mr. Cass, of East Kingston, was found near the residence of J. Porter Sanborn, on the road to Exeter. It is supposed that he committed suicide, by taking poison, some six weeks ago.

Monday afternoon, Nov. 5, while Mr. Rodney Wilson of New Boston was standing on the bank of the river there, assisting in unloading a log, the log, which was a very large one, rolled off from the wheels and carried him backward into the river and fell across him. A neighbor, who jumped into the river to avoid the log, held Mr. Wilson's head out of the water until the team could be attached to the log and the log drawn out. Mr. Wilson had a severe compound fracture of both bones of the leg, and had received internal injuries; he is seventy-eight years old, and the prospect of his recovery is small.

Political.

In the New York district in which Augustus Schell was the Tammany ring candidate and John Morrissey his opponent, Hamilton Fish polled an open vote for Morrissey amid the cheers of the bystanders. The venerable Peter Cooper voted the same way. These two incidents were spread like wildfire and made the most of, and it was generally believed that Tilden would also vote for Morrissey. At ten o'clock his nephew, Col. Pelton, went the Tammany ticket straight. Mr. Tilden came to vote at two o'clock. Entering the little tailor shop where the ballot-boxes were kept, he uncovered his head in the old fashioned style and approached the inspectors. "Your name, sir?" he was asked. "Samuel J. Tilden." "Your residence?" "One hundred and eighteen East Twentieth street." "All right," said the registrar, and Tilden voted the straight Tammany ticket, after which he bowed to the inspectors and went out again.

Henry S. Sanford is nominated as Minister to Belgium. He has been waiting around for the job a long time.

Major Benjamin P. Runkle, U. S. A., who was convicted by court martial for stealing government funds, was degraded from his rank and dismissed the service in disgrace during Gen. Grant's administration, the interference of the Executive alone saving him from the penitentiary. Don Piatt, the editor of the Washington *Capital*, who suggested the assassination of President Hayes, has urged the restoration of this man to his former rank, and the President has acceded to the request and given Runkle his back pay, amounting to $10,000. The officers of the army are of course delighted to associate with a convicted thief, and Don Piatt doubtless considers this another ray in the dawn of reconciliation, since it was done at his request.—*Boston Traveller.*

Economy and Retrenchment.

The democratic House Committee on Expenditures by the Navy Department has notified Secretary Thompson that it still thirsts for economy. He must reduce his estimates. The army and the navy have been living on no pay during the last six months, and now these democratic economizers, who have no stock in trade but what they make by their "pinch here and starve there" policy, want these two arms of the public service to get along without any pay at all, we suppose. But the worst feature of this whole business is that these bungling democratic legislators have dissipated all the good that they claimed for their parsimonious policy by failing to lower the taxes laid upon the laboring people of the country at the same time that they reduced expenditures. Owing to this bungling, the faces of the poor have been ground to pay the money into the Treasury, where it has lain idle, for months, and still lies idle to the amount of $200,000,000, more or less, when a portion of it ought never to have been collected and withdrawn from circulation, and the other portion should have been expended in compliance with existing laws, and would have been so expended but for the refusal of the democrats in the House to make the necessary appropriations. This two hundred millions of contraction, in the two forms of excessive taxation and neglect to appropriate for necessary expenditure, has caused the greatest distress in the country. Had this amount been added to the currency, how many poor laborers would it have kept in employment? How many merchants it would have saved from failure? How many mills and factories would it have set in motion? And yet the congressional wiseacres are in no haste even now about passing the appropriation bills for which they were called together. They have plenty of time for buncombe speeches on finance, when the simple act of paying the nation's honest debts would solve one-half the problem on which they now labor in vain. It would unlock the Treasury and save hundreds more, who are on the verge of ruin, from failure by suffering the twenty millions now due the army and navy to flow into the channels of trade. Circulation is the life of the nation as well as the animal. Stagnation is death to both. No matter how much blood or currency you have, if they do not circulate the body will die.—*Wash. Repub.*

Danville.

This town is small in territory, and its population but about 550. My acquaintance has been for a period of forty years. In no place where I have been acquainted, has such a proportion of the inhabitants—young in years, especially young men and maidens, and those about mid life, fallen victims to voracious death, as here. All through the period named, quite a class of the most useful and promising for good, have fallen. The last on the long list, departed on Wednesday, Oct. 24th. This was Mr. James Morrill French, aged 46 years.

He was of respectable parentage, and was trained to habits of industry, propriety and good order. During his juvenile years, he was of a quiet, meditative turn of mind, attentive to books, and for a time enjoyed the benefits of the Academy in Kingston. He married, settled on a farm and became active in the business industries of life. After some years he returned to the paternal homestead. Health became impaired a number of months ago. Heart difficulties and dropsy were upon him, and by slow degrees, he went down. The funeral services were largely attended. It was painful to lay him away. He, who was manly in life, looked not only pleasant, but manly in death. He left a widow, daughter, mother, step brother and sister, with other friends, in sadness. J. F.

A Cossack's Trick.

Many stories are told of the cleverness of the Cossacks in obtaining what they need for themselves or their horses. Passing through the streets of Galatz recently, the thin, weary-looking horse of a Cossack fell suddenly, and lay apparently lifeless on the ground. Its master began bewailing the unhappy fate which had not only deprived him of a favorite, but left him horseless at the most interesting moment of the war. A crowd gathered around, and in it were several men who started a subscription to enable the soldier to procure another animal. Taking the money, and then removing the saddle from his horse, the Cossack wiped actual tears from his eyes and went on his way. As the crowd were bending in pure sympathy over the stiffened horse, a whistle was heard at the other end of the street, the horse sprang to his feet, and with a joyful neigh, hastened to join his shrewd master.

Jujube Paste.

Girls who chew jujube paste ought to be able to tell where it comes from. The *Semi-Tropical* of Florida says: "The jujube tree is worthy of attention of all lovers of fancy trees and shrubs. It is both useful and ornamental, and cannot be surpassed for beauty. From the first of April until late in November or until frost, it is covered with a dense, deep green foliage, interspersed with its tiny, ornamental fruit, in all stages of growth. The fruit is speckled and reddish when ripe. The leaves and fruit are borne on a small, wire-like stem from six to twelve inches long, which grows downward, and presents a beautiful, weeping appearance. The tree is a native of Syria, but has been cultivated many years in Spain, Italy, and France for its fruit, which manufactured into paste, is relished by school girls and annoying to teachers. When the fruit is ripe it closely resembles the cranberry in size and shape."

—A bailie of the Scottish capital recently went down to London and came back much impressed with the courtesy of the officials. Narrating how an M. P. had secured for him free access to many public institutions, he reached the climax of eulogy by exclaiming, "Why, sir, he got me a blank cartridge for every place in London." It is supposed that the magistrate meant a *carte blanche.*

Pretty Lips

should have pearly teeth behind them. To make the teeth pearly, and to keep them so, there is nothing like Fragrant Sozodont. It neutralizes every element of impurity that affects the soundness or whiteness of the shell which sheathes the dental bone. Moreover, it prevents gum-boil and canker.

For the "attraction of cohesion," see Spalding's Glue.

THE Supreme Court of the State of New York has decided that J. C. Ayer & Co., of Lowell, have the sole right to use the words CHERRY PECTORAL for a medicine, and has issued an injunction against F. V. Rushton of New York City, for selling Rushton's Cherry Pectoral or Cherry Pectoral Lozenges, or any other use of the name to deceive the public. This decision of the high court includes all dealers who sell any similar article.—*Port Jefferson (L. I.) Leader.*

The Grand Semi-Annual Drawing at New Orleans, on December 11th, of the Louisiana State Lottery Company, will be conducted entirely by Generals P. T. Beauregard, of La., and Jubal A. Early, of Va., who act as Commissioners on behalf of the State and People, and who, by their high reputation, give the guarantee of entire justice and fair dealing in all respects. They will distribute over half a million of dollars in such round sums as $100,000, $50,000, $25,000, etc., etc. The scheme, which is unprecedented for liberality, appears in another column. For further information or tickets, address M. A. Dauphin, P.O. Box 692, New Orleans. 11d&w

FOR IMMEDIATE RELIEF of Coughs and Colds, use the popular remedy, *Madame Porter's Cough Balsam*, one of the best and cheapest medicines sold; its virtues have been tested by thousands for many years in the treatment of all diseases of the Throat and Lungs, and is confidently offered as a reliever of those diseases. Price 25, 50 and 75 cents a bottle. d&wtdec6

PROPOSALS for COAL and for Transportation.

NAVY PAY OFFICE,
No. 420 CHESTNUT STREET,
PHILADELPHIA, Nov. 8th, 1877.

SEALED PROPOSALS in duplicate, endorsed "Proposals for Coal," will be received at this office until THURSDAY, 22d inst., at 1 o'clock, for the following anthracite steamer coal, to be delivered on board of vessels at Port Richmond, FREE OF ALL EXPENSE to the Government, for each of the following places, viz.:

500 tons to Kittery Navy Yard.
1000 tons to Boston Navy Yard.
1000 tons to Norfolk Navy Yard.
500 tons to Washington Navy Yard.

The above coal to be of the best quality, 2240 pounds to the ton, uniform in character, selected free from all impurities, and subject, as to quality and quantity, to inspection by the inspector appointed for the purpose, who will have the right of peremptory rejection.

Bids will only be received from *bona fide* miners or dealers in coal.

Bids will also be received, at the same time and place, endorsed "Proposals for Vessels," for the immediate transportation and delivery of the Coal at the above places in American vessels of the full carrying capacity required, with their names and rates distinctly specified therein.

The right is reserved to reject any bid that may not be deemed advantageous to the Government.

Responsible security will be required for faithful deliveries as above, in conformity with the stipulations on the blank forms for bids to be had at this office, otherwise bids will not be entertained.

JOHN S. CULICK,
Pay Director, U. S. Navy.

E. G. PIERCE, JR., P. M.

THE CITY.

The vegetables from the County Farm exhibited at the Grange Hall Show were given to Mr. Loyne, the volunteer city missionary.

The fishing schooner Josie Johnson arrived at Tredick's wharf on Thursday afternoon with about seven thousand pounds of fish, mostly cod.

A beet weighing ten pounds four ounces, raised at the City Farm, was laid on our table—which is not a table at all, but a desk—on Thursday.

The curculio is now climbing the fruit trees, especially the plum trees. The farmer who proposes to raise a good crop of this fruit next year should protect his trees now.

Steamer Minia left the lower harbor early Wednesday morning to repair the break in the Direct Cable, but returned to her anchorage on Thursday evening without accomplishing her object. She succeeded in picking up the cable and finding the break, but was obliged to buoy the ends without making the splice, owing to the wind and sea.

Fishing schooner Frank Jones arrived at Doane's wharf on Thursday morning, bringing with her four men of the crew of schooner Davy Crockett, of Gloucester. Their account of the way they missed their vessel is that they were on shore at Harwich digging clams, when the schooner put to sea without them; they took to their dories and put to sea after her, but failing to find her boarded the Frank Jones, arriving at this port as above.

The reason why the Portsmouth Board of Trade does not meet is because their careful secretary, F. W. Miller, lost the records some time ago and has not since been able to find them. We suggest that the Board imitate the example of the pickle makers who have poor luck; "begin all over again."—*Times.*

We plead not guilty to that indictment, and desire to retain as counsel in this case of pages lost, the lawyer who don't drink.—*Weekly.*

Possibly the reason the Board does not meet is that the secretary's records have *not* been lost, and each member is afraid to attend lest he might be called upon to decipher them.

SOMETHING ENTIRELY NEW.

All remember the eastern prince who offered a fortune to any one who would give him a new sensation;—but we, more fortunate than the prince, are to have a new pleasure at a very small cost. We have frequently read notices in the Boston papers of semi-private entertainments given by Miss Susan Hale, sister of Edward Everett Hale, called Madame Norton's receptions, at which Miss Hale was the central figure, assisted by her brother Edward, Mr. James Freeman Clarke, and Mr. James T. Fields. Another entertainment given by this lady is called "The Elixir of Life," and is of so novel a character that it needs a description: Miss Hale makes her appearance first as a very handsome old lady, slightly garrulous, recounting her passed glories; then having heard there was a youth-giving potion which would act like a charm on her grey hair and dim sight, she takes a draught, and so on her second appearance she is transformed into a younger and comelier woman. She is so much pleased with the effect of this that she takes a more copious draught and becomes younger and still handsomer, till she goes back through all the stages of life and is finally brought in by her brother, a helpless and beautiful baby. These entertainments are given in Boston by these educated people in aid of the preservation fund for the Old South; and Miss Hale having many friends and admirers in this city, has consented to give this delightful and entirely new entertainment at Miss Morgan's spacious school-room on Wednesday evening, Nov. 14th, at half-past seven o'clock. The number of tickets will be limited to two hundred, and they may now be obtained at Myers' bookstore. †

SUPREME COURT--4TH WEEK.

Thursday, Nov. 8, before *Stanley, J.*

A jury was empanelled to try the case Edward Byrne vs. Wm. C. Scroones & Andrew J. Chase. Action on a promissory note alleged to have been given for dry goods on which the duties had not been paid. The Court directed a verdict for the plaintiff for $166.31. Marston for plaintiff; Lamprey for defendant.

No. 196, Uri Lamprey vs George Doncaour, was next tried. Trover for a large number of cords of wood (309 cords) which the plaintiff claims to have purchased of his nephew, John S. Lamprey, and which the defendant caused to be attached and sold on an execution against John S. Lamprey.

THE REVIVAL MEETINGS.

The revival meeting in the North church, Thursday evening, was well attended. Major Whittle took his text from Eph, 2:1, "Dead in sin," Rom. 6:2, "Dead to sin;" he also read Rom. 3:19, and Gal. 3:10. He said that trusting in the law will not save, because the law is perfect, and men and women are imperfect and cannot be saved by a perfect law. All are condemned because under the law, and will be condemned until they believe in Jesus. Under human law there is hope of pardon; the law is often not executed. Dead in sin means separated from God. Are we living to please God or self? is a test question,—whether there is spiritual life or spiritual death; the gospel is the test. Jesus the crucified—do you love him? If not you are spiritually dead, says the gospel. Whether dead in sin or alive in Christ is a vital question for every one to answer. Licked to Jesus we are all safe. He has paid the whole debt, and all are safe who trust entirely to Him.

After the meeting there was an adjourned prayer meeting at Mechanics' Hall, which was about three-quarters filled with men, the ladies remaining in the church to take part in a similar meeting there.

MUNICIPAL AFFAIRS.

In Board of Aldermen, Thursday evening, Mayor Broughton being absent from the city, Alderman W. E. Hadley was voted to the chair.

A petition from George Bilbruck and others, asking that the pound keeper be ordered to enforce the ordinance in regard to cattle in the public highways, was received and accepted.

Petition for a sidewalk on Warren street, near the new opera house, was referred to committee on streets with power.

Petitions for naphtha lights corner Miller and Lincoln avenues, and Miller avenue and South street, were referred to committee on gaslights to report.

Voted that the matter of a sewer trap at the corner of Warren and Chestnut streets be referred to committee on sewers, with power.

Petition of A. A. Fernald and others for a cross-walk at the north end of Market street at foot of Russell street, was referred to the committee on streets, with power.

Report of the committee on accounts, approving the usual monthly batch of bills, was received and the bills ordered to be paid.

Alderman Coffin addressed the Board at some length in regard to the new highway near Banfield road.

Voted that the committee on streets be requested to obtain of the City Solicitor at an early day his opinion as to the liability of the city for a claim of damages should an accident occur to persons or property by reason of the unsafe roadway or sidewalk upon a way leading from Deer street to Elm, called Railroad avenue. Also if in his opinion the said way is now a public street; also if the city is bound to keep the same in repair, it having been used by our citizens for a period of thirty years or more.

The committee on claims recommended that the bill of Wm. P. Israel for gravel be disallowed. Report accepted and adopted.

Committee on claims returned the bill of George A. Perkins for damage to a horse last winter, with the opinion of the City Solicitor that the city was not liable for the damage. The report was accepted.

Voted that the matter of the city printing be referred to the committee on printing, to draw up an ordinance covering the matter.

Report of the committee on gas lights, to whom was referred the petition of John Kelly and others for a gas light at the corner of Atkinson and Court streets, recommended that the light be located at the southeast corner of Atkinson street; accepted and adopted.

Voted that the Street Commissioner be instructed to notify Mr. Jackson to remove the gravel dumped by him in Jackson Hill street.

Voted that the committee on streets be authorized to have the obstructions on McDonough street, in front of the block owned by Stokell & Co., removed.

Voted that the Street Commissioner be notified to remove the stone step in front of the Melcher lot on Congress street.

The sanitary committee notified the Board that Mr. Rice, the engineer employed by them, would be ready to report Friday night; and the Board voted to adjourn to Friday evening at half-past seven o'clock, and that Mr. Rice be invited to be present.

Judge Davis' Joke on Senator Ferry.

Senator Ferry is a pious man. He is an elder in the Presbyterian church. As far as I can see, and I watch him pretty closely, he is bound for the kingdom. Of all old bachelors he is the most irreproachable. He feels very deeply the dignity of a Senator and maintains it on all occasions. He is polite, courteous and cold as ice. No one ever saw him do a natural or improper thing. Every act is studied and prim and solemn. Yesterday the Senator sat at breakfast glancing, as even deacons and Senators will, over his paper, at the women. He was taking the fiftieth stolen glance at a pretty, golden haired little saint from Georgia, when Senator David Davis, two tables away, startled the dining-room, by roaring in his lusty sailor voice to Mr. Ferry, "I want to see you before you go to the races, Ferry. Afraid I can't go. If it's possible for me to get through my work, I shall be happy to accept your invitation." The saint turned her big, reproachful orbs on Ferry. The women all looked at him and whispered. The model Senator blushed scarlet, stroked his beard nervously and smiled in a feeble way at the jolly giant, who sat shaking his fat sides, and bending his late judicial head over the thimbleful of gruel Banting allows him. His looks told that he had got even with Ferry at last. The tables are turned. Ferry owes him "one."—*Washington letter.*

—Hotel life is for women what garrison life is for men,—leisure without repose.

Torpedo Defence.

A series of experiments have been made at Portsmouth, England, with mats of various construction, with a view of ascertaining how the Whitehead torpedo can be kept at a safe distance from a ship's bottom. These mats comprise rope and wire grummeting and rigid curtains formed of 3-8 inch chains and rods kept in their vertical position by horizontal bars 1 1-2 inches by 1 1-2 inches. Subjected to the attack of the 19 foot torpedo, propelled at a speed of twenty knots, the rope grummet mat arrests the progress of the projectile, but has the disadvantage of not being portable. So far, the preference is given to the wire grummet mat, which not only resists the force of the torpedo, but, as its strands are loosely twisted, cannot be cut through, though the head of the weapon be armed with a saw. Both the mats, however, rise to the service when the vessel is towed through the water at ten knots, and require to be heavily weighed to keep them taut. The wire mat is worked from sliding outriggers, and can be readily adjusted and stowed away.

"Unquestionably the best sustained work of the kind in the World."

Harper's Magazine.

ILLUSTRATED.

Notices of the Press.

The veteran *Magazine*, which long ago outgrew its original title of the *New Monthly Magazine*, has not, in the least abated the popularity won at the outset, but has added to it in many ways, and has kept fairly abreast of the times, thanks to the enterprise of the publishers and the tact and wisdom of its editors. For whatever is best and most readable in the literature of wave, discovery, and fiction, the average reader of to-day looks to *Harper's Magazine*, just as expectantly as did the reader of a quarter of a century ago; there is the same admirable variety of contents and the same freshness and suggestiveness in its editorial departments now as then.—*Boston Journal.*

TERMS:

Postage free to all Subscribers in United States.

HARPER'S MAGAZINE, one year. ... $4.00.

C. E. MYERS & CO.,

No. 3 BOW STREET.

This Cut illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be applied *high up* and *perfectly opposite* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, where the disease most frequently exists, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of **"Cold in the Head"** by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche**, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy to sold at 50 cents, Douche at 50 cents, **by all Druggists.**

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing for getting has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on for changing the color of the hair to gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.

MANUFACTURED BY

Centaur

Liniments.

They relieve pain;

They subdue swellings;

They cure burns without a scar.

The White Centaur Liniment is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate bedridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. Their best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules Lable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the **Yellow Centaur Liniment** is worth its weight in gold. We have thousands of certificates relating how valuable horses have been speedily restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the **White Centaur Liniment**, been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Grubs and Stomach complaints. **Pitcher's Castoria** is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. **Castoria** is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,

NORMAN P. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritation caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

DOCTOR PIERCE'S ALT. EXT. OR

Golden Medical Discovery

CURES DISEASES OF THE THROAT, LUNGS, LIVER & BLOOD.

In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in *harmony* more of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple,** or **Eruption.** Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

SOLD BY DRUGGISTS AT $1 PER BOTTLE.

☞ *CHEAPEST AND BEST!* ☜

Peterson's Magazine !

FULL-SIZE PAPER PATTERNS!

☞ A SUPPLEMENT *will be given in every number for 1878, containing a full-size paper pattern for a lady's or child's dress. Every subscriber will receive, during the year, twelve of these patterns, so that these alone will be worth more than the subscription price.* ☜

"PETERSON'S MAGAZINE" contains every year, 1000 pages, 14 steel plates, 12 colored Berlin patterns, 12 mammoth colored fashion plates, 24 pages of music, and 900 wood cuts. Its immense circulation enables its proprietor to spend more money on embellishments, stories, &c., than any other. *It gives more for the money than any in the world.* Its

Thrilling Tales and Novelettes

are the best published anywhere. *All the most popular writers are employed to write originally for "Peterson."* In 1876, in addition to the usual quantity of short stories, five original copyright novelettes were given, by Mrs. Ann S. Stephens, Frank Lee Benedict, Mrs. F. H. Burnett, and others.

Mammoth Colored Fashion Plates

Ahead of all others. These plates are engraved on steel, *twice the usual size*, and are unequaled for beauty. They will be superbly colored. Also, Household and other receipts; in short, everything interesting to ladies.

N. B.—As the publisher now prepays the postage to all mail subscribers, "Peterson" is cheaper than ever; in fact is the cheapest in the world.

TERMS, Always in Advance, $2 A YEAR!

2 copies for $3.00; 3 copies for $4.80; with a copy of the premium picture (24x28) "*The Angels of Christmas,*" a fire dollar engraving, to the person getting up the Club.

4 copies for $6.80; 5 copies for $8; with an extra copy of the Magazine for 1878, as a premium to the person getting up the club.

8 copies for $9.60; 8 copies for $12; 11 copies for $16; with both an extra copy of the Magazine for 1878, and the premium picture, *a fire dollar engraving*, to the person getting up the club.

CATARRH

THE EYE, EAR, and THROAT

Successfully Treated with

SANFORD'S RADICAL CURE.

SUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, after so many miserable failures, means undoubted specific curative properties in the remedy used. Does SANFORD'S RADICAL CURE for Catarrh possess such properties? The evidence, in the shape of unsolicited testimony from the most respectable people in all stations of life, must be conclusive on the point. Never, we believe, in the history of popular medicines has such valuable testimony been offered, freely offered, in favor of any remedy than that in the possession of the proprietors of SANFORD'S RADICAL CURE. And relying on faith, it does not represent a thousandth part of the recommendations which are today offered by friends to friends in its favor. People of wealth and refinement in all parts of the country daily admit its superiority over any method of cure known to the regular medical profession, but from the publicity incidental to a published statement. Hence the testimonials in our possession represent but a small part of those withheld for the reason mentioned. The following unsolicited testimonial from Henry Wells, Esq., of Wells, Fargo & Co.'s Express, is an outspoken indorsement of which we are justly proud.

INVALUABLE.

Messrs. WEEKS & POTTER, Wholesale Druggists, Boston, Mass.: *Gentlemen.*—I have for some months felt it a duty that I owe to suffering humanity to write you, stating what great benefit I have derived from the use of SANFORD'S RADICAL CURE FOR CATARRH. For more than 20 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, but without material or permanent benefit. Last fall the disease had arrived at that state that I must have relief or die. The entire membranous system had become so inflamed, and the stomach so disordered, that it was a doubtful matter whether I could go to the Pacific coast, or if I did go whether I should live to come back or not. I saw an advertisement of the medicine, and although being very incredulous about specifics or nostrums of any kind, yet in sheer desperation I tried it, and was at once benefited by it. The changes of climate, a chronic disease of the liver, and my age—over 70—may prevent my entire restoration, but the benefit I derive from its daily use is to me incalculable, and I am hoping to be completely cured, and at last arrive at a respectable old age.

If this statement of my case can be of any service to those afflicted as I have been, and enable you to bring this remedy into more general use, especially on the Pacific coast (where it is much needed), my object in writing this note will be obtained.

Very truly yours, HENRY WELLS,
AURORA, N. Y., June, 1876. of Wells, Fargo & Co.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1.00. For sale by all Wholesale and Retail Druggists and Dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

ALWAYS CURES.

Enlarged Spleen.

This is to certify that I have been using your COLLINS' VOLTAIC PLASTERS for Enlargement of the Spleen and Depression in the Stomach, and they have given me more relief than any other remedy I have used. I would highly recommend them to all suffering from the effects of pain and inflammation.

PICKERING, MO., June 28, 1877. J. W. SELLS.

Severe Pain.

Having occasion to use a remedy for a very severe pain in my side I tried one of your COLLINS' VOLTAIC PLASTERS, and in twenty-four hours the pain entirely removed. J. B. SAMMIS,
Ass't Cashier First Nat. Bank.
WINONA, MINN., June 19, 1877.

Daily Chronicle.

—A little girl in North Yarmouth, aged about three years, was taught to pray by her mother, who, however, could not induce the child to kneel. The infant was willing to pray, but not to bow the knee. The other morning the family heard the little girl say: "Please, God, send me down a white rabbit?" No answer was vouchsafed, and the child continued: "Did you hear what I said? Why don't you answer?" Another pause, when the child spoke up spunkily: "Oh, I know what you want. You want me to get on my knees, but I won't."—*Portland Advertiser.*

—Hand a male telegraph operator a murderous dispatch reading, "John Smith: To night I will riot in your heart's gore," and the key manipulator will display no more emotion than a dunning letter, and will, without look or comment, charge you the customary quarter and go attending to his business. Hand a female operator, however, a simple message: "Julia, meet me at the depot," and she'll smirk and giggle and grin and fade behind the door to wipe her face on the towel, and then she'll finally take your message and regain her wits enough to try and charge you double rates. Of course there are exceptions.

—In the town of Wells, Me., live two remarkable men, brothers, one of whom is 77 years old and the other is 72.—Their aggregate weight is 500 pounds, and their combined height is 12 feet 5 inches. They were born in the same house in which they now live and have never been out of the town in their lives. Both are married and have families—have always kept their property in common, never kept any accounts, and never quarrelled or had the least disagreement. Their farm consists of 500 acres, and upon it are hundreds of trees 100 feet high, four and five feet in diameter at the butt, and being worth from $50 to $100 apiece.

☞ *All New Subscribers for 1878 paying in advance after November 1, 1877, will receive the paper Weekly, from receipt of remittance to January 1st, 1878, without charge.*

COMBINED PAPERS—FORTY-EIGHTH YEAR.

THE COUNTRY GENTLEMAN.

A Premium Annual to Every Reader.

The Country Gentleman is published Weekly on the following terms, when paid strictly in advance: One copy one year, $2.50; Four copies $10, *and an additional copy for the year free to the sender of the Club;* Ten copies $20, *and an additional copy for the year free to the sender of the Club.*

For the year 1878, these prices include a copy of the *Annual Register of Rural Affairs*, to each subscriber—a book of 144 pages and about 140 engravings—a gift by the Publishers, in honor of the completion, in its present weekly form of the *Country Gentleman's First Quarter-Century.*

The Country Gentleman possesses an unequaled Corps of Correspondents, regular and occasional, among the *Best Farmers* of All Parts of the Country, and constantly reflects the practical condition and progress of the husbandry of every section of the United States and civilized world.

The Country Gentleman gives in its *Horticultural Department* a continuous variety of information and suggestions, equal or superior in the aggregate to what is obtained in the monthly numbers of most magazines devoted to Horticulture.

The Country Gentleman has probably done as much as all other Journals combined, to introduce and disseminate *Improved Stock* of every kind through the country; and commands, to a greater degree than any contemporary, the confidence and support of breeders and purchasers.

The Country Gentleman contains unusually full and trustworthy *Market Reports*, and devotes special attention to them and to the prospects of the crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.*

The Country Gentleman embraces numerous minor departments of a practical character, such as the Dairy, the Poultry Yard, the Apiary, the Vineyard, and the Farm; and weekly presents a column or two for the Housewife and an interesting variety of Fireside Reading. It contains a well-edited review of current events, and its advertising pages furnish a directory of all the principal agricultural and horticultural establishments of the country.

☞ *Specimen Copies of the paper free.* Address

LUTHER TUCKER & SON, PUBLISHERS,

ALBANY, N. Y.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either or three incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately, often renews a healthy growth; and always restores its color, when faded or gray.

It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brash, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a dressing for ladies' hair, the VIGOR is prized for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.

Practical and Analytical Chemists,

Daily Chronicle.

SATURDAY, NOVEMBER 10, 1877.

Washington Correspondence.

WASHINGTON, D. C., Nov. 7th.

There is little boasting over the result of yesterday's election on either side. Returns are yet too meagre to definitely determine just how far one or the other party has succeeded or been defeated. Extensive preparations were made by the democrats at one of the hotels to receive and promulgate news of "great democratic victories." Sympathizing members of Congress and other distinguished visitors were handsomely entertained in a room specially set apart for the elect; but the expectation of a great "tidal wave" like that of 1874 was not justified by the intelligence received, and at a late hour the crowd adjourned without any particular manifestations of enthusiasm. A general spirit of indifference characterized the action of the thousands of republican office-holders here; no special means were provided for ascertaining the result, many of them spending the evening about democratic headquarters. It was a mixed, good-natured assemblage. Interest seemed to centre on New York, and when it appeared probable that the republicans had made sure of the Legislature, democrats were tauntingly reminded of their rather boastful predictions,—without, however, arousing any bad blood. On the whole the democrats were most disappointed, as their success had been confidently claimed and pretty generally conceded. The result in Massachusetts appears to be about equally regretted by democrats and anti-administration republicans; and friends of the President seem the only ones entirely pleased with a vote that is construed as a victory for the Southern and Civil Service policies.

The failure of Mr. Evarts to comply with the recommendations of Pennsylvania delegation, after inviting its members to name Mr. Pierrepont's successor to the Court of St. James, and the substitution of Mr. Welsh for Mr. Cameron, are cited as the immediate causes of the reverse in the Keystone State.

The large majority in favor of the remonetization bill passed on Monday on motion of Mr. Bland, surprised a good many, even among its friends, the ratio being almost as six to one in its favor; but no one who has watched the development of public sentiment relative to this matter since it was first agitated two years ago, as reflected by members of Congress, could fail to have seen the remarkable revolution wrought in those few months, after public attention was once fairly directed to it and the seemingly covert method by which demonetization was slily effected. By consenting to free debate and to entertain amendments, Mr. Ewing has finally got his bill out of the morning hour, where it was hopelessly stranded. Had he at first gracefully consented to what he was ultimately obliged to yield, there is no doubt the purposes of the committee could have been promptly brought about.

Mr. Phillips on Monday introduced a bill of great public interest under the dispensation of "busted" banks. It provides that at every Post Office where the Postmaster receives a salary of $1,000 or above, there shall be established a Government savings bank where deposits as low as twenty-five cents can be received, to bear three per cent. interest. No account, however, is to exceed $200; and it provides that small bonds may be issued with three months coupons. Finally the Postmaster is to be required to give heavy bonds and the government to be responsible for the safe custody of the money. KNOX.

Senator Blaine's Illness.

The illness of Senator Blaine gives his friends considerable uneasiness. Not that there is any immediate danger perhaps; but his health has not been good since his sudden attack during the sitting of the Cincinnati Convention, and he has to use the greatest care, it said, to guard against the return of that insidious enemy of men of active habit and nervous tendencies—paralysis. Though he may be able to take a moderate part in the deliberations of the Senate at its regular session, the days of his ambition are probably over, and he will have to be satisfied with moderate service hereafter.—*Boston Post.*

From the foregoing paragraph we gather that the *Post* is satisfied that Mr. Blaine's illness last year was not all a sham—a "convenient indisposition" occasioned by fears of a fellow named Mulligan, who had stolen somebody's private correspondence, or by a desire to escape the "investigation" of a democratic committee that had the evidence-suppressing Proctor Knott at its head. The *Post* had as many sneers as its fellows for the "convenient illness" of Mr. Blaine at the time he was on the edge of the grave.

A Queer Contest.

The contest between Merrissey and Schell, for the Senatorship from the seventh district of New York, presented some very peculiar features. That district represents more wealth and culture than any other in New York; Morrissey is a coarse and ignorant man, an ex-prize fighter as well as an ex-Congressman, a "jail-bird," and the most notorious gambling-hell owner in America—a man whose whole life has been one long defiance of the law, though his official record is clean; Augustus Schell is a wealthy, intelligent and highly respectable man; and yet the wealthy and cultured district elected the social criminal, —the gambler and bruiser—and rejected the respected gentleman! The reason for this strange preference is found in the fact that Schell represented Tammany Hall, while Morrissey is the determined opponent of that corrupt but powerful political agency; and the republicans and respectable democrats of the district preferred the ruffianly gambler with his anti-Tammany ideas, to the polished gentleman with his thick-and-thin endorsement of Tammany's infamy.

The Eastern War.

A Russian official despatch, dated at Kuruk-Daro, November sixth, says: General Lazaroff yesterday occupied a position in front of the southeastern forts of Kars for the purpose of erecting siege batteries. The Turks attacked him, supported by a fire from the forts. The Russians beat them back in disorder and pursued them into Fort Hafiz Pasha at the point of the bayonet, and inflicted great loss. They spiked the Turkish guns, captured ten officers and forty men and then retired with a small loss.

The Montenegrins are bombarding Fort Sedar, near Spuz. They have twenty seige guns also in position before Podgoritza.

News and Notes.

Ill-feeling between labor gangs of Florida and North Carolina negroes at King's Ferry, Fla., broke out in a riot a few days since at a ball given by the resident negroes. The North Carolina interlopers went in force, took possession of the festival and ejected their rivals, who at once procured weapons and opened fire on the dancers. After about one hundred shots, resulting in the killing of one of the North Carolina darkies and the wounding of several others, the assailants regained possession of the hall and their fair ones, and the sound of revelry went on as if nothing had happened.

John Welsh has been confirmed by the Senate as Minister to England.

Rev. Dr. W. P. Harrison of Georgia, a Methodist, has been chosen chaplain of the House of Representatives.

The democratic majority in the House will it is said insist on reducing the army to 15,000 men.

The motion of Robert Smalls' counsel to remove his case from the South Carolina court in which it was brought, to the United States Court, has been overruled by the Judge, Townsend, who is a bitter democratic partisan. The easiest way for the accused republicans to get off is to plead guilty at once, no matter whether they are guilty or not, as the Hampton-Butler conciliationists of South Carolina, including the judges of the State courts, evidently mean to bring them all in guilty regardless of petty questions of fact.

New Hampshire Items.

Senator Wadleigh has been chosen chairman of the Senate committee on privileges and elections.

P. B. Cogswell, Esq., of the Concord *Monitor*, has returned from a three months' visit to Oregon and California.

The Congregationalists of the State have 15,357 Sunday school scholars, of whom 644 have joined the church; the Methodists about the same number of scholars, 897 church additions; the Free Will Baptists 8562 scholars, with 423 additions to the church; the Baptists 7892 scholars, of whom 322 have united with the church, and the Universalists 1091 scholars.

An interesting case has just ended in the Supreme Court at Dover. Some time since a man named Mahan, pretending to be agent for the Granite Agricultural Works, of Lebanon, induced Mr. J. H. Ferguson of Brookfield to accept an agency for some kind of machine and obtained his signature to a note for $184.90. The note was cashed at the Gonic National Bank and Mahan disappeared. Mr. Ferguson never received the machines and when the note became due he refused to pay it. The bank brought suit against him, but the jury rendered a verdict in his favor. The plea of the defence was that the signature to the note was obtained by fraud. This is the same Mahan who operated largely in Maine a year ago, in the same way. There was a big swindler adrift somewhere, but whether it was Mahan or the Granite Agricultural Company, we believe is not yet fully decided by the Courts.

SUNDAY SERVICES.

At the Universalist church, preaching at 10:30 A. M., by Rev. E. M. Grant.

At St. Mary's (Catholic) church, Children's Mass at 8:30, Solemn Mass at 10:30 A. M.; Sunday School at three o'clock, P. M.

At St. John's (Episcopal) church services at 10:30 A. M. and 7:30 P. M. every Sunday,—except the first Sunday in each month, when the Children's Choral Service and public cathechising, commencing at four o'clock, is substituted for the usual one at 7:30; seats free at this service.

At the Unitarian church, preaching at 10:30 A. M.; vesper service at 7:30. Preaching to-morrow by the pastor, Rev. James DeNormandie, who will give the first of a few discourses upon the general subject, "Popular misconception and misinterpretation of the doctrines of Scripture and Religion." The subject in the morning will be, "What is it to be damned?" In the evening, "Faith and Works."

At the Middle street (Baptist) church, services at 10:30 A. M. Preaching to-morrow by the pastor, Rev. Dr. W. H. Alden.

At the Advent church, services at 10:15 A. M., 2:45 and 7:30 P. M. Elder S. S. Brewer will preach.

At the Methodist church, preaching at 10:15 A. M., by Rev, James Pike, D. D., Presiding Elder of the Dover District, N. H. Conference.

At the Congregational church, service at 10:30 A. M. Preaching by Rev. James W. Hubbell.

At the Court street (Christian) church, preaching by the pastor, Rev. John A. Goss, at 10:30 A. M.

Reform Club meeting at Mechanics' Hall at 7:30 P. M. Speaking by members. Praise service until 8 o'clock.

The regular afternoon services are omitted at the Baptist, Christian, Methodist and Congregational churches.

The special revival services for Sunday will be as follows: Prayer meeting at Middle street church at 9 A. M. Women's meeting at Congregational church at 3 P. M.; men's meeting at same place at 7:30 P. M. Overflow meetings for all at Middle street church at 3 and 7:30 P. M., with praise service at 7 o'clock.

THE CITY.

Paymaster Charles H. Eldridge, U. S. N., is in town.

Read the advertisement of the *Congregationalist*, in another colnmn.

The appropriation for the department of construction and repair at the navy yard for the ensuing quarter, is some $2000 more per month than for the quarter just expired.

We are pleased to be able to announce that Capt. Herman A. Tarlton is rapidly recovering from the effect of his dangerous fall on board the brig Clara J. Adams, and that it is probable he will escape permanent injury or disfigurement.

Rev. Moses How, eighty-nine years old, occupied the pulpit at the Christian Church at Franklin on Sunday, 4th inst. He has been engaged in the ministry for sixty-three years, and during all that period has had but two pastorates—one in this city and the other at New Bedford, Mass.

There was quite an excitement created on Union street, Friday afternoon, by the performances of a huge cat, supposed to be mad. The creature bit a young man named Frank Kernan, and Officer Nowell was called upon to kill it; he fired several bullets into the animal, and young Kernan then finished it with a generous charge of shot from a gun.

Representative Jones of New Hampshire has received and will offer in the House a petition of Mark H. Wentworth, administrator of W. P. Jones of Portsmouth, N. H., asking the enactment of a law granting two per cent. additional interest upon judgments heretofore awarded by the Court of Alabama Claims. The petitioners have been paid the amount of loss ascertained by the Alabama Claims Commissioners, and four per cent. interest from the date of loss to the date of the payment. They now ask two per cent. additional interest and quote from the Geneva tribunal to show that the tribunal adopted six per cent. as the rate of interest to be paid, and they further urge that Great Britain has paid our Government on their claims at the rate of six per cent. in gold, and that our Government has been receiving five per cent. gold interest on both principal of their loss and allowed interest, such principal and interest having been invested in United States five per cent. bonds.—*Wash. Cor. Boston Post.*

THE REVIVAL MEETINGS.

The order of services throughout next week will be as follows: Prayer meeting at the Middle street church from nine o'clock to ten each forenoon; Bible readings at three o'clock, in the Methodist church; young people's gospel meeting at a quarter past four o'clock, at the Christian church on Court street; praise service of half an hour's duration at the North church each evening at seven o'clock, and gospel mass meeting at the same place each evening (except Saturday) at half-past seven.

SUPREME COURT--4TH WEEK.

Friday, Nov. 9, before *Stanley, J.*

Case Lamprey vs : Donacour, trial continued. The question in this case is upon the validity of the proceedings in the sale by Jno. S. Lamprey to Uri Lamprey. Marston and C. M. Lamprey for plaintiff; Wiggin for defendant. The case was given to the jury at seven o'clock in the evening.

At eight o'clock the Court came in, and a jury was empanelled to try the flowage case of John G. Forsaith, of South Hampton, against the Salisbury Mills Co. of Salisbury, Mass.; Benj. T. Webster was appointed foreman. Gen. Marston then opened the case. The writ is dated September, 1876; the land flowed is in South Hampton; the damage claimed is $4000; the dam complained of is a reservoir dam on the Powow river, about a mile from the State line; the defendants admit that they flow the land, and confess $100. They exhibited the plan of the river, and the premises claimed to be flowed, and indicated to what land, etc., they should call the attention of the jury on the view. The Court indicated to the jury how they were to proceed and view the premises, (on Saturday morning, then to separate to come in on Monday morning at eleven o'clock, when the trial will proceed.) The principal question will be the value of the land flowed.

The jury start in the morning train to Amesbury, to examine the premises.

MUNICIPAL AFFAIRS.

The Board of Mayor and Aldermen met in adjourned meeting Friday evening, when the special committee on the sanitary condition of the North and South millponds made the following report:

To His Honor the Mayor and Board of Aldermen: The undersigned were appointed Sept. 6, 1877, to inquire into the best method of improving the sanitary condition of the North and South Ponds—and respectfully report:

The system of sewerage in cities of large and small size is the fruitful source of discussion—particularly so where such primative means as we find here are used to put out of sight the refuse which needs such serious consideration and which to-day with us is growing to be a burden of no mean importance. The North and South ponds, as receptacles of our drainage, become mere cesspools on a large scale, where the heavier matter deposits itself, while the lighter in a series of tides finds its way to the sea. Low water exposes the deposits; a summer's continuous sun with a westerly or southerly breeze wafts the odor of the decaying refuse to our streets and homes, each pond rivaling the other in the quantity and quality of offensiveness. This trouble has been of long standing, but its continuous growth by gradual accumulation and increasing sewerage calls our attention to the necessity of active measures for the permanent abatement of the cause of the trouble. Many theories are offered, but nothing tangible attempted toward a satisfactory solution of the question. Our quandary was at first how far to go,—how much to do; should we be warranted in striking to the foundation of the question, and, taking it in its worst form, offer you suggestions that if carried out would at once and probably forever wipe away these nuisances and give us in place two sheets of pure water, beautifying forever our surroundings, and causing by their purity and the undulating nature of their borders such probable erection of residences and improvement of grounds that it would be only a question of time when the expense incurred to-day would prove but nominal to the results attained? Or should we temporize and merely ask you to go far enough to help the case for a few years? Our quandary was of short duration; consultation with some of our prominent citizens, a public meeting in our Council Rooms, and we concluded to carry out the idea which first suggested itself and needed but the support which these gentlemen by their active appreciation of any steps that would accomplish the purpose gave us,—and as the result we offer you at this time the investigations and opinions of an expert in matters of sewerage engineering, of a feasible and we trust not too expensive a nature to find your favor at once, and that in its end, when carried out, will make our city by a thorough system of sanitary rules what it is naturally, one of the most charming of New England resorts. That this system can be carried out at small expense is not to be thought of; we think it is beyond a question of cost; it has become one of vital importance, a question of health and length of life. Our ponds already holding too much of this offensive matter, each year adding an increased proportion, the fatality of sickness in our midst attributed to want of sanitary cleanliness is each year growing more and more alarming, while this year disease has fully developed itself in the vicinity of the South Pond, and a remedy must at once be applied to prevent a large increase annually of kindred complaints. After correspondence with several parties active in projects of this kind, among them Dr. Folsom of Boston, Secretary of the Massachusetts Board of Health, a son of Portsmouth, one who still harbors the good of the old home in his breast, and who, though his advice, has facilitated this case somewhat, we engaged Mr. L. F. Rice, who came to us highly recommended as a gentleman who had had considerable experience in this class of engineering, and who has, we think, faithfully discharged the duties asked of him. His plan and advice which we shall offer you is full of detail, while the profile plan which should have accompanied the grade plan made by Mr. Harris in 1860, will be found to be of the greatest utility in all repairs and labors upon our streets hereafter, and to greatly facilitate the labors of the Street Commissioner. The obstacles against which Mr. Rice has necessarily labored in projecting his plan for sewerage can only be appreciated when we consider the natural difficulties attending an engineering design with the several termini so little above low water mark. We have not thought it necessary to take up your time in a detailed personal report, knowing that the engineer's notes would embrace much more than we could say upon the subject, but in closing we must suggest that you should not be disappointed in finding that first-class sanitary conditions are only to be attained by a corresponding expenditure at the outset. Then if the work is well done we can rely upon its service for a life time,—for a hundred years,—and with the expense properly apportioned or distributed by a bonded debt with a sinking fund, the annual draft need be but small, while we shall each year reap the whole benefit of our investment, by a purer atmosphere, a beautiful city, a charming, annual visitation from abroad, and general happiness. Gentlemen, we offer you the investigations and suggestions of L. Frederick Rice, Esq., as meeting our approval.

WM. E. HADLEY,
CHAS. H. SIDES,
GEO. A. PERKINS, } Committee.

Messrs. Hadley, Sides and Perkins, Committee of Aldermen, Portsmouth, N. H.

Having been employed by you to investigate the question of the disposal of the sewage now being discharged into the North and South Millponds of your city, and the purification of those ponds, I present the following

REPORT.

Although the fact of your appointment to consider the matter would seem to indicate that the necessity of some action was recognized, some remarks upon the general subject of the disposal of refuse matters and their influence upon the public health, may be of interest, and serve to remove the doubts of some who do not yet see the propriety of public expenditure on this account at this time.

The most densely populated portion of your city lies between two ponds, which are formed by damming the outlets of two bays emptying into the Piscataqua River, and which, although filled by the inflowing tide, are slowly emptied through the sluiceways of their respective mills,—and the current through them thereby rendered very sluggish. Into these ponds a number of drains,—open or covered,—public and private'—have for years emptied, and the solid refuse matter brought down by them has gradually accumulated until the depth of water near the outlet of these sewers has been greatly decreased and deposits of decomposing matter formed, that at low tide are exposed to the action of the sun and air. Into these drains or directly into the ponds, several privies are discharging, altho' in violation of a city ordinance.

In order to show the probable effect of such a condition of things, I shall take the liberty of quoting to some length from a treatise on "Filth Diseases and their Prevention," by John Simon, M. D.; F. R. C. S.; Chief Medical Officer of the Privy Council and of the Local Government Board of Great Britain,—printed in 1876 under the direction of the State Board of Health of Massachusetts.

Appended to this treatise is a letter from Dr. Draper, examiner of returns of births, deaths and marriages of the State of Mass., in which he states that during the five years from 1869 to 1873 inclusive, of the total number of deaths in Mass., from *all causes*, those resulting from "zymotic" diseases (i.e. those resulting from fermentive putrifaction) comprised 26 per cent., while if those resulting from acute pulmonary disease and from phthisis are included, the deaths from "preventible" causes represent *one half* the actual total mortality.

Dr. Simon says, (and his remarks apply to Portsmouth, although written for England,) "Among causes which injuriously affect the Public Health * * * certain operate only in particular districts: * * * * while others appear to be of general, perhaps nearly universal operation.

Foremost in the latter class, and constituting therefore in my opinion objects which claim earliest attention in the sanitary government of England, two gigantic evils stand conspicuous.

First, the omission, (whether through neglect or through want of skill) to make due removal of refuse matters, solid and liquid; from inhabited places." "In certain very important cases, immense injury arises through the special facility which certain forms of local uncleanliness provide for the spreading of certain specific infections. * * * Uncleanliness must, I think, without doubt, be reckoned as the deadliest of our present removable causes of disease. In stating this opinion of its fatal influence, I do not refer to its minor degrees, as compared with high standards of cleanliness or chemical purity, but refer chiefly to such degrees as fall within the designation of *Filth*; to degrees which are such as any average man or woman should be disgusted at; such as, eminently, the presence of putrescent refuse matter, solid and fluid, causing nuisance by its effluvia and soakage."

"An important suggestion of modern science with regard to the nature of the operations by which filth, attacking the human body, is able to destroy it, is: that the chief morbific agencies in filth are other than those chemically identified stinking gaseous products of organic decomposition which force themselves on popular attention. * * * The other, and far wider possibilities of mischief which we recognize in filth are such as apparently must be attributed to *morbific ferments* or *contagia*. * * * Of these, the ordinary putrifactive ferments seem always to be present where putrifactive changes are in progress, as in all decaying animal refuse; while others, though not essential, are frequent incidents of our ordinary refuse. As, apparently, it is by these essential and incidental agencies that filth produces "zymotic" (fermentive) diseases, it is important not to confound them with the fœtid gases of organic decomposition; and the question, what infecting powers are prevalent in given atmospheres, should never be regarded as a mere question of stink. It is of the utmost practical importance to recognize in regard to filth, that agents which destroy its stink may yet leave its main power of disease production undiminished.

"There are considerable sections of towns where * * in spaces common to many houses, lies for an indefinite time, undergoing fœtid decomposition, more or less of the putrifiable refuse which house-life, and some sorts of trade-life, produce: excrement of man and brute, and garbage of all sorts, and ponded slop-waters; sometimes lying bare on the common surface * * * sometimes held in receptacles specially provided to favor accumulation, as privy pits and cess-pools. * * * And with this state of things, be it on a large or small scale, two chief sorts of danger to life arise; one that volatile effluvia from the refuse pollute the surrounding air and everything which it contains; the other that the liquid parts of the refuse pass by soakage into the surrounding soil, to mingle in whatever water the soil yields, and in certain cases thus to occasion the deadliest pollution of wells and springs."

"Filth does not only infect where it stands but can transmit its infective power afar by certain appropriate channels of conveyance."

"When an epidemic of typhoid fever has been traced to some gross pollution of air or water, the primary source of such pollution will usually be found under one or more of the following three heads, viz., faults of public sewerage, of indoor water closets and house drains, and of privies.

The public sewerage may be at fault in either of two ways: first in absence of sewers so that slop waters, and other liquid filth, have to pass along public ways either free on the general surface or in open and generally very irregular channels meant only for rain water; secondly in the existence of sewers which in themselves are more or less mischievous. * * * Apparently there is often an assumption that for the mere slop-water of the population, the open wayside gutters which are meant for rain water will suffice. This assumption can only rest on ignorance of what "slop-waters" really are, in respect to the filth which is contained in them; and its wrongness is sufficiently evident to any one who observes how extremely offensive are in general such wayside gutters as are allowed to receive liquid refuse from groups of houses."

"The perfection of cleanliness would be that all refuse matters should from their very beginning pass away inoffensively and continuously; and the principles of approximation to that ideal must evidently be, first to provide to the largest practicable extent for the continuous outflow of refuse as fast as produced, and secondly (so far as continuous outflow cannot be got) to provide for the closest possible innocuousness of such refuse as is unavoidably detained."

"All local authorities collecting refuse matters, have, of course, to dispose of them in way which shall not cause, or shall cause as little as possible, any nuisance in relation either to air or water, and this obligation is urging itself upon the notice of many local authorities as virtually a new problem with regard to the outfalls of liquid refuse." "Evidently the management of sewerage outfalls is a matter for serious consideration; so that on the one hand each inhabited area may best eliminate every sort of fluid refuse which it produces, and that, on the other hand the required prevention of outfall nuisances may be economically, as will as effectually attained."

"My reference to sewers and drains is only in regard to their sanitary results. In proportion as they are skilful or unskilful appliances so they become powerful influences for good or evil; and I would urge the necessity of such works (even though on the smallest scale) being always planned with adequate skill and executed under trustworthy supervision."

An examination of the various sewers in the city of Portsmouth discloses the following state of affairs:

Into the South Pond, near its head, discharge several sewers, which for some hundreds of feet before reaching the pond are mere open ditches in which the sewerage flows with sluggish current across the marsh, exposed to the action of the sun and bearing most odorous testimony to the necessity of a change in their condition. Around their outlets a deposit of soft and stinking mud, (in some cases several feet in depth,) has accumulated and is left uncovered whenever the water is lowered by the daily working of the mill at the lower end of the pond, and from it emanate most offensive odors, to be wafted through the city by every southerly breeze. Toward the outlet of the pond, from the territory lying between it and Pleasant street, there are several private drains,—also some privies which actually overhang the pond.

At the North pond matters are no better. At the head there discharges a sewer which, beginning near the intersection of Cabot and Middle streets, receives the drainage from houses on Union and Madison streets, crosses Cass street, and thence flows as an open ditch to Jones' Brewery. There it receives the washings and other liquid refuse of the Brewery and thence continues as a covered culvert to a point between the Eastern and the Concord railroads. There is a stagnant pool of putrifying matter, perhaps 100 feet in length, choked with old railroad ties and rubbish. The culvert then passes under the Concord railroad and discharges into the head of the pond. Near this point there also enters the pond through culverts and the brook by Eldredge's Brewery, the surface drainage from a large extent of territory.

This is not offensive nor objectionable, but is very intermittent in its action, almost entirely ceasing during long continued absence of rains.

In the upper end of the pond near the points where enter the above mentioned sewer, culverts and brook, there is a considerable accumulation of mud and slime, which by the drawing down of the water is exposed to the intermittent action of the sun, with a result similar to that which has been referred to in the case of the South pond.

In addition, we find that at the foot of Cabot and of Brewster Sts., covered sewers terminate on the easterly side of the Eastern Railroad embankment, and the sewage brought down by them, overflowing considerable areas of low ground, forms stagnant pools of putrifying matter, and then has to meander quite a distance before it finds its way, through culverts beneath the railroad, into the pond.

These spots are quite as bad as if not worse, than any that have been before alluded to, and it would seem as though they must render their vicinity almost unfit for human habitation.

A considerable deposit has also accumulated around the outlet of the Bridge St. sewer, which at a low stage of the water is quite offensive.

It is evident that any continuation of the sewers into the deeper water of either of the ponds would be simply a postponement of the day of reckoning which must surely come ultimately.

So long as the ponds are used for mill purposes it will be impossible to maintain a current of sufficient velocity to remove the objectionable matter brought down by the sewers, and it must, by its accumulation and decomposition, continue to generate offensive and pestilential gases.

It would therefore seem that the course contemplated in the order under which you are acting, namely, to "continue the sewers to such a distance toward low water mark that they will be prevented from depositing on the shores of the ponds," is the only practicable course to be pursued.

It is for you to decide what is the best manner of doing this. All the existing sewers serve to convey more or less of the rain water which falls upon the surface, as well as the house drainage, or sewage proper, and a complete system would dispose of all not lost by evaporation or by passing away through underground channels. To ascertain approximately the areas which would naturally drain into the various sewers, I have prepared a map of the city, hereunto appended, which will show at a glance the various inequalities of surface of the ground, the height of any point above Mean Low Water, the ridges separating the various drainage areas, and the relative extent of those areas. In the preparation of this map I have been greatly assisted by the notes of the apparently very comprehensive and careful survey of the city made in 1860 by Mr. Robert Harris, C. E. By vote of the city government 31st Dec., 1860, the grades as determined and recommended by Mr. Harris were adopted as the established grades,—and I have therefore assumed them to correctly represent the present surface of the streets. By reference to this map it will be seen that the Bridge street sewer and its branches drain an area of about thirty-four acres in extent, —the Brewster street sewer 13—and that in Cabot street 17,—while the valley which must discharge its surface water through the culvert by Jones' brewery is more than 100 acres in area.

During one year the average total rainfall in the New England States is between forty and fifty inches in depth over the entire surface, but it is not infrequently the case that quite large proportions of this total will fall in a comparatively short time.

A rainfall of 2 to 3 inches during twenty-four hours is no rarity, and instances are frequent where the fall is an inch or more within a single hour.

Of course a very considerable portion of this is lost by evaporation, or passes off by soakage under ground, and never enters the sewers, but as the population becomes more dense, and the ground more closely covered with buildings, sidewalks and pavements, this proportion is lessened and the duties of the sewers increased. A rainfall of one inch per hour would amount to 3630 cubic feet per hour for each acre of area, or 60 1-2 cubic feet per minute.

This, upon the 34 acres naturally draining through the Bridge street sewer, would amount to 2057 cubic feet, or 15387 U. S. Standard gallons per minute, and if we were to assume that on account of soakage into the ground, evaporation, non-extent of sewers or any other causes, only one-tenth of this amount would reach the sewers during the time of falling, it would require a velocity of flow of nearly 4 1-2 feet per second, or 270 feet per minute through a pipe of 12 inches diameter, to remove it.

We can readily see that to receive and convey all the surface water that might flow through the sewers now emptying into the North Pond, (covering a territory of nearly 200 acres) a sewer would be needed of such magnitude that its cost would utterly preclude its construction by your city. But such a sewer is not necessary in this case. At ordinary times the amount of surface water flowing in the sewers is but slight, and the amount of house drainage, which ordinarily forms the bulk of the sewage, so little that very small sewers relatively, would suffice to convey it. Assuming that a population of 1200 persons passed into the sewers 60 gallons of liquid sewage each, and that two-thirds of this was during ten hours, the entire amount would be readily conveyed away by a pipe of 12 inches diameter, laid with a fall of one foot in 450. It is therefore proposed to construct sewers from the head of each pond, intercepting the present sewers before they enter the ponds, and discharging into the river at about low water mark, these sewers to be of size sufficient to carry the ordinary flow of sewage. At the points of intersection overflow basins should be built, from which, when the volume of flow is increased by the water of storms and the sewage thereby greatly diluted and consequently rendered less offensive, the surplus over and above the capacity of the intercepting sewer, may flow directly into the ponds. This would take place at intervals so long that no objection would exist to such action.

As the outlets of intercepting sewers will be covered at high tide, it will be necessary to provide tide gates to keep the water of the river out. The action of these sewers must of necessity be intermittent,—the sewage accumulating in them during flood tides, and being discharged during the ebb. Should this accumulation amount to more than the capacity of the sewers, the overflow basins will permit discharge into the ponds. Possibly, by reason of this intermittent action and the low rate of fall that must of necessity be adopted in these sewers, some deposit of the more solid portions of the sewage may take place within the sewers while there is no flow. If this should not be removed upon the resumption of the action of the sewer, small reservoirs might be constructed, which being filled from the ponds at high tide, or by connection with streams, could be discharged into the sewers whenever desired, and by the flushing action of the water carry out the deposit. Or, as has been done in some locations, movable tanks could be used for the same purpose, being emptied into the sewers at any point where the stoppage occurred. For convenience of examination and for flushing, man-holes should be built at suitable intervals. The sewers being constructed perfectly straight and with a uniform rate of fall between any two of these manholes, a man descending into one while a lantern was lowered into the other, any deposit existing between them could be readily discovered, and removed at once by flushing.

(Concluded in next issue.)

Portsmouth Chronicle

—A Universalist was once trying to prove to the untutored mind of a negro woman that such a place as hell was a simple absurdity. "Aunty, do you believe that all the people who go to bad places are burned in a lake of brimstone?" "Certain I does," promptly replied the tinted theologian. "Well, now, don't you see, aunty, there isn't brimstone enough down there to keep the fire going all the while?" This seemed to be a poser for a little while. She had never entered into a calculation of the amount of combustible material necessary for the process. Her countenance soon brightened, however, and she replied, "Why, honey, don't you know that everybody who goes there carries his own brimstone with him?"

—A girl at Cohoes, N.Y., has been sent home from school for persisting in standing on her head. Perhaps there was some trouble with her understanding.

"Unquestionably the best sustained work of the kind in the World."

Harper's Magazine.

ILLUSTRATED.

Notices of the Press.

The veteran *Magazine*, which long ago outgrew its original title of the *New Monthly Magazine*, has not in the least abated the vigor with which it went at the outset, but has added to it in many ways, and has kept fairly abreast of the times, thanks to the enterprise of the publishers, the tact and wisdom of its editors. For whatever is best and most readable in the literature of trave, discovery, and fiction, he average reader of to-day looks to *Harper's Magazine*, just as expectantly as did the reader of a quarter of a century ago; there is the same admirable variety of contents and the same freshness and suggestiveness in its editorial departments now as then.—*Boston Journal.*

C. E. MYERS & CO.,

No. 3 BOW STREET.

This Cut Illustrates the Manner of Using

DR. PIERCE'S

Fountain Nasal Injector,

OR

DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant and so simple that a child can understand it. **Full and explicit directions** accompany each instrument. When used with this instrument, Dr Sage's Catarrh Remedy cures recent attacks of

"Cold in the Head" by a few applications.

CATARRH

SYMPTOMS—Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, etc. In others, a dryness, dry, watery, weak, or inflamed eyes, stopping up, or obstruction, of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, etc. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with **Dr. Pierce's Nasal Douche,** and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease. It is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 50 cents, **by all Druggists.**

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or so agreeable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any undesirable shade, to brown or black, as discretion. It is easily applied, being *one preparation,* and quickly and effectually produces a permanent color which will neither rub nor wash off.

Centaur

Liniments.

They relieve pain;

They subdue swellings;

They cure burns without a scar.

The White Centaur Liniment is now the standard remedy for Rheumatism, Neuralgia, Sciatica, Lumbago, Frost Bites, Caked Breasts, Itch, Cutaneous Eruptions, etc. These Liniments have stood the test of time. They have performed more wonderful cures of obstinate bed-ridden cripples, and have alleviated more pains in a shorter space of time, than have all other Liniments, Embrocations, Extracts, Ointments and Salves in existence. Their sale is increasing regularly and rapidly. They are the best endorsers are physicians, surgeons and veterinaries. There is literally no case of flesh, bone, or muscle ailment upon either man or beast which the Centaur Liniments will not alleviate and generally cure. But it must be understood that there are two kinds of Liniment; the White is for family use and the Yellow for horses and animals. For horses and mules liable to Spavin, Ring-bone, Sweeney, Galls, Strains, Stringhalt, Poll-evil, etc., the Yellow Centaur Liniment is worth its weight in gold. We have thousands of certificates relating how valuable horses have been specially restored by a dollar bottle of this wonderful all-healing remedy. The same is constantly told of the effects upon the human frame. Persons hobbling upon crutches for years from Stiff Joints, Tumors and Old Sores, have, by the use of a few bottles of the White Centaur Liniment, been restored to the use of all their limbs. The effects are next to marvels. We will give the Liniment to any person who ever heard of a failure. Such a case has never been reported to us. These Liniments are now sold throughout the habitable globe.

J. B. ROSE & CO., 46 DEY ST., NEW YORK.

Honey

To the taste but death to Gripes and Stomach complaints. Pitcher's Castoria is a complete substitute for Castor Oil, and is as pleasant to take as Honey. It is particularly adapted to Teething and irritable children. It destroys worms, assimilates the food, regulates the Stomach, and cures Wind Colic. No remedy is as efficacious for Feverishness, Croup, Worms and Whooping Cough. Castoria is a purely vegetable preparation, more effective than Castor Oil, and neither gags nor gripes.

COLUMBIA, CONN., May 3, 1876.

Messrs. J. B. ROSE & CO., N. Y.:

I have a family of eight children, and have used your CASTORIA. I have never found anything equal to it. My children have been saved from severe sickness by the use of CASTORIA. I recommend it in preference to any medicine I know. I feel it a pleasure to give this certificate on account of the benefits I have derived by the use of your admirable preparation.

Very truly yours,

NORMAN P. LITTLE.

The Centaur Liniments are the greatest remedies ever discovered for all flesh, bone, and muscle ailments—Bites, Bruises, Swellings, Burns, Rheumatism, Stiff Joints, etc. What the White Liniment does for the human family, the Yellow Liniment does for horses and animals. They are cheap, they are convenient, and they are certain in their effects.

Children cry for Pitcher's Castoria. It is as pleasant to take as honey. It contains no morphine or other deleterious ingredient, and is sure to expel worms, cure wind colic, regulate the bowels and stomach, and overcome irritations caused by rash or cutting teeth. Mothers can rest, and children enjoy health, who use Castoria. It is harmless, it is certain, it is speedy, and it is cheap.

DOCTOR PIERCE'S ALTERATIVE OR Golden Medical Discovery

CURES DISEASES OF THE THROAT, LUNGS, LIVER & BLOOD

In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in harmony many of Nature's sovereign curative properties, which God has instilled into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of **Bronchitis, Severe Coughs,** and the early stages of **Consumption,** it has established the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and **purifies the blood.** By its great and thorough blood-purifying properties, it cures all **Humors,** from the worst **Scrofula** to a common **Blotch, Pimple, or Eruption.** Mercurial diseases, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. **Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin,** in short, all the numerous diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine.

If you feel dull, drowsy, debilitated, have sallow color of skin, or yellowish brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chills alternated with hot flushes, low spirits, and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from **Torpid Liver,** or **"Biliousness."** In many cases of **"Liver Complaint"** only part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy.

SOLD BY DRUGGISTS AT $1 PER BOTTLE.

CONSUMPTION CURED.

An old physician, retired from practice, having received from an East Indian missionary the formula of a simple vegetable remedy for speedy and permanent cure of *consumption, bronchitis, catarrh, asthma,* and all throat and lung affections; also a *cure for nervous debility* and all nervous complaints, after having tested its curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by a desire to relieve human suffering, I will send free to all who desire it, this recipe in German, French, or English, with *full* directions. Address, with stamp, W. W. SPERAN, 126 Power's Block, Rochester, N.Y.

JACKSON'S BEST

Sweet Navy Chewing Tobacco

was awarded highest prize at Centennial Exposition for *fine chewing qualities* and *excellence and lasting character of sweetening and flavoring.* If you want the best tobacco ever made, ask your grocer for this, and see that each plug bears our blue stamp, with words Jackson's Best on it. Sold at wholesale by Boston and Portland jobbers. Send for sample to C. A. JACKSON & CO., M'f'rs, Petersburg, Va. tdec8

H. E. CHAMBERLAIN, Supt.

American and Foreign PATENTS.

[ESTABLISHED 1865.]

GILMORE & CO., Successors to CHIPMAN, HOSMER & CO., Solicitors. Patents procured in all countries. *No fee in advance.* No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a re-hearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. Send stamp to GILMORE & Co. for Pamphlet of sixty pages.

Old Bounty Land Warrants.

The last Report of the Commissioner of the General Land Office shows 2,897,5-0 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. GILMORE & Co. pay cash for them. Send by registered letter. Where Assignments are imperfect we give instructions to perfect them.

Arrears of Pay and Bounty.

Officers, Soldiers and Sailors of the late war, or their heirs, are in many cases entitled to money from the Government of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp to GILMORE & Co., and a full reply after examination, will be given you free.

Pensions.

All Officers, Soldiers and Sailors wounded, ruptured or injured in the late war, however slightly, can obtain a pension by addressing GILMORE & COMPANY.

Cases prosecuted by GILMORE & Co. before the Supreme Court of the United States, the Court of Claims and the Southern Claims Commission.

Each department of our business is conducted in a separate bureau, under the charge of the same experienced parties employed by the old firm. Prompt attention to all business entrusted to GILMORE & Co. is thus secured. We desire to win success by deserving it. Address
